

NPS Fundamentals *and Human Resources*

thank you!

NPS Fundamentals

The NPS Fundamentals training program is designed to create a workforce dedicated to achieving the Mission of the National Park Service. While the Fundamentals program is available to all NPS employees, it is especially appropriate for new employees.

We need your help in reaching new employees.

You are one of the first National Park Service employees a new employee meets. We ask you to introduce them to this exciting training program. Please take a moment to show them the *NPS Fundamentals for New Employees* brochure.

Encourage them to ask their supervisor to register them for the first course, NPS Fundamentals I, during their first week on the job.

Fundamentals I, III and IV are Web-based courses of study; Fundamentals II and V are residential experiences. Employees are expected to complete all five courses.

Thank you for working with us to start our employees on the road to lifelong learning!

And remember, NPS Fundamentals is available to all NPS employees, not just new ones. If you are interested in enrolling or know someone who is, please refer to our brochure *NPS Fundamentals for Experienced Employees*.

Thank you!
