

KEEP SAFETY IN THE PICTURE

Keep Your Distance From Wildlife

Follow park rules and regulations on how far away you should stay from wildlife.

If you want to take a picture of the animals, use a zoom lens on your camera.

If you are close enough to take a selfie, you are **wayyyy** too close.

If you see an animal, you are responsible for backing up to a safe distance, even if the animal moves toward you.

Take another picture. I dare you.

Location, Location, Location

Stick to the trails and boardwalks.

Keep your eyes on the trail and not your camera while walking.

Stay on the safe side of barriers and safety railings.

Take Your Time and Share the View

Step to the side to avoid blocking the pathway for others when waiting or while taking a photo.

Don't walk too close to the edge or walk backwards to get that perfect shot. Be careful around steep drop-offs and stay aware of your surroundings.

Be patient and courteous towards other visitors taking pictures.
