Autumn Explorations in Acadia

Hulls Cove Visitor Center
Open 8 a.m. to 5 p.m. in September, 8 a.m. to 4:30 p.m. in October. Pick up a park map and watch a 15-minute introductory audiovisual program. English, French, German, audio description, and captioning are available.

Ride Island Explorer
Free Island Explorer buses operate throughout Mount Desert Island until October 11.

Self-Guided Audio Tour
Cassettes and CDs of the 56-mile (90-km) audio tour of Acadia are available for sale at the visitor center.

Explore the Park Loop Road
From the visitor center, drive 27 miles on the Park Loop Road and Cadillac Mountain Road to view the spectacular scenery of Sand Beach, Otter Cliffs, and Cadillac Mountain. Enjoy occasional stops to stroll down a path or read a wayside information sign.

Ranger-Led Programs
Through mid-October, join us for boat cruises, evening slide programs, mountain hikes, short talks, and nature walks. For a schedule and descriptions, see pages 4-6.

Hiking
Over 120 miles of hiking trails offer something for everyone. Pick up a guide to the most popular trails at the visitor center. Detailed trail maps and guides are available for purchase.

Swimming
You can swim at Sand Beach, but beware ocean temperatures that rarely rise above 55°F (13°C). For warmer water, try Echo Lake on Route 102. Many other ponds and lakes on the island are public water supplies where swimming, wading, and pets are prohibited. Please respect posted regulations.

Walking and Biking
Walkers, bikers, joggers, and horseback riders can enjoy 45 miles of historic carriage roads. Motorized vehicles (with the exception of motorized wheelchairs) are prohibited on carriage roads. Guidebooks to the carriage roads and other bike routes on Mount Desert Island are available for purchase at the visitor center. Bicycle rentals are available in nearby communities.

Museums in the Park
Nature Center: Exhibits focus on Acadia's natural resources. Open 9 a.m. to 4 p.m. daily until mid-October. Free admission. Located at Sieur de Monts Spring.

Self-Guided Walks
Pick up guidebooks for a small fee at the starting point of each walk to help you explore the area.

Isle au Haut: Two thousand acres on the tip of Schoodic Peninsula, located fifty miles from Bar Harbor by road and the only section of the park on the mainland. A one-way, six-mile loop road skirts the edge of the peninsula, offering sweeping views of Mount Desert Island.

Isle au Haut
Fishing boats. Nearby, the Bass Harbor Head Lighthouse has warned generations of mariners that land is near. On the east side of the island is Northeast Harbor, filled with pleasure craft.

Looking for things to do during your stay? Check out activities offered by our concessionaires, including horse-drawn carriage rides and tea and popovers on the lawn of the Jordan Pond House; visit Eastern National bookstores in the park; and learn more about Friends of Acadia.
Acadia National Park has established new entrance fees for 2004. Eighty percent of all fees collected in the park stay in the park. Your support is an investment, helping preserve Acadia National Park for future generations. Thank you for your support—you are helping make the park a better place!

New Hanging Tag
This year we will issue a new rearview mirror hanging tag for visitors holding a valid federal recreation entrance pass, including Golden Access, Golden Age, National Parks, and wallet card Acadia annual passes. This yellow hanging tag, while not an entrance pass in itself, serves as a placeholder in vehicles carrying a visitor with a valid entrance pass. Visitors issued the yellow hanging tag will be expected to show their valid entry pass each time they go through the entrance station. Vehicles that display an Acadia annual pass decal on the windshield do not require a yellow hanging tag.

Park entrance passes are available at the following locations:

- Sand Beach Entrance Station
- Hulls Cove Visitor Center
- Park Headquarters
- Blackwoods Campground
- Seawall Campground (until September 6)
- Bar Harbor Village Green (until mid-October)
- Thompson Island Information Center (until mid-September)

New Ranger Programs
This fall visitors will have the opportunity to participate in two new ranger-led programs. Get to know your park up close and personal: Join rangers for a night walk or a bike ride on the carriage roads.

Knowing the Night - Use your senses to explore the mystery and intrigue of the night world. For adults and children 8 and older. Wear closed-toed shoes and layered clothing. Fee: $10 adults, $5 children under 12.

Riding the Roads - Join a ranger for a bike ride along Acadia's historic and scenic carriage roads. For adults and youth 14 and older. Bring your own bike, water, and layered clothing. Helmets required. Fee: $15 adults, $10 youth 14-16.

Both programs require reservations, which can be made only at park headquarters (8 a.m. to 4:30 p.m. M-F) no more than three business days in advance. The fees enable the park to hire staff and purchase supplies to make the programs possible.

Each program is offered through September. See pages 4-6 for program schedule. Don't miss this chance to explore the park with a ranger!

Emergency?
Call 911.

Ride the Bus!
Free island Explorer propane-powered buses operate throughout Mount Desert Island until October 11, linking Acadia National Park to neighboring village centers. By parking your car and riding the bus instead, you can help reduce traffic congestion, parking, and air pollution problems on the island. Pick up a copy of the bus schedule at the Village Green bus stop in Bar Harbor.

Parlez-Vous Français?
Une tradition française d’information de parc est disponible au centre d’accueil à Hulls Cove sur la route 3 ou au park headquarters sur la route 233. Merci de visiter le parc national d’Acadia.

Parkinformation auf Deutsch finden Sie im Besuchercenter in Hulls Cove an der Strasse #3. Vielen Dank für Ihren Besuch.

Accessibility in the Park
Acadia National Park is constantly striving to improve its accessible facilities and services, which include, but are not limited to, Hulls Cove Visitor Center, the Nature Center at Sieur de Monts Spring, park headquarters, Jordan Pond House, and numerous picnic areas. The audiovisual program at the visitor center offers audio description and captioning. Both campgrounds have accessible campsites. Some interpretive programs are accessible; see pages 4-6 for program descriptions and times. For additional information, inquire at the visitor center or park headquarters or visit www.nps.gov/acad/access.htm.
Acadia National Park has established new entrance fees for 2004. The Acadia annual pass has increased from $20 to $40. From mid-June through mid-October, a weekly entrance pass will cost $20. These increases reflect a transportation fee that supports the Island Explorer bus system: $50 from every weekly and Acadia annual pass sold during the season will go into a special transportation account to support the buses.

The Island Explorer is a voluntary, seasonal public transit system that serves Acadia National Park and its gateway communities. Established in the late 1990s to reduce traffic congestion, parking, and air pollution problems in the park and on Mount Desert Island, Island Explorer provides an eco-friendly transportation alternative. The Island Explorer bus system was created through a partnership between the National Park Service, U.S. Department of Transportation, Maine Department of Transportation, Friends of Acadia, six municipalities, and private businesses. Downeast Transportation Inc., a nonprofit organization, operates the system.

The current bus system consists of 17 propane-powered buses that operate on 8 different routes connecting the airport, ferry terminals, campgrounds, and motels in the region, as well as popular destinations within the park. Ridership has increased steadily since 1999 to more than 340,000 riders during the summer of 2003. Traffic congestion and overflow parking problems have declined in the park, and the release of locally generated vehicle emissions has been significantly reduced.

While the Island Explorer has been successful to date, the capacity of the system must expand significantly to eliminate traffic problems in the park. Acadia needs additional revenue to help cover the cost of operating a much larger bus system. Transportation fees associated with the new entrance fee rates will help defray these costs and enable the long-term expansion of the Island Explorer system.

Please buy your park pass: All visitors who enter the park, whether on foot, on bicycle, in private vehicles, or on the Island Explorer, must pay an entrance fee. We thank you for your support!

## The Arrival of Fall

As you hike up a rocky mountain trail or bike along tree-lined carriage roads, you will notice it. It’s almost palpable, that crispness in the air. Combined with days that just don’t seem long enough, it’s enough to convince you that fall has arrived. The fall season brings changes to the park—some subtle, some not so, but all worth exploring.

Fall days in Maine can be perfect, sunny and warm enough to go without a jacket, tempting you to believe that winter really isn’t around the corner. As much as we may wish that were true, cooler weather inevitably sets in. From October to November, the average high temperature drops from 58°F to 49°F, the low from 49°F to 35°F. Layered clothing is the key to staying comfortable during outdoor activities.

In addition to cooler temperatures, fall brings noticeably “shorter” days. On October 1, sunset is at 6:13 p.m. By November 1, with the end of daylight savings, it falls back to 4:22 p.m. If you are out hiking or biking in the park, plan your day to return before sunset.

During explorations outside, you can’t miss the explosion of fall colors across the mountains and valleys of Mount Desert Island. As hours of daylight decrease and temperatures begin to fall, the chemical composition of leaves begins to change. Leaves stop their food-making process and chlorophyll, which gives them their green color, breaks down. Other colors—luxurious reds, vibrant yellows, and rich oranges—can now come to the forefront. Fall color displays are at their most brilliant after a succession of warm, sunny days and cool, crisp nights. Though timing varies from year to year, peak foliage in Maine can often be found during the first three weeks in October.

The changes of fall affect not only plant life, but also wildlife. Animals like deer and moose breed during the fall. Black bears, common throughout much of Maine but uncommon on Mount Desert Island, and other hibernators begin a period of concentrated feeding, allowing them to put on a layer of fat that will keep them alive during the cold winter months. Depending on food availability, black bears enter their dens from mid-October to late November.

Birds also begin to prepare for winter, but using a totally different method: migration. During late summer and fall, warblers and other summer residents head south for warmer climates. Each year, thousands of migrating birds of prey—including osprey, sharp-shinned hawks, bald eagles, American kestrels, and others—soar high above Cadillac Mountain during their migration southward. You can join park staff atop Cadillac Mountain for Hawkwatch from 9 a.m. to 2 p.m. daily until October 13, 2004. Don’t miss this chance to experience one of nature’s fall spectacles.

## Fees Help Support Free Transportation System

### Where Else Do Your Fees Go?

The majority of fees paid in Acadia stay right here. The Recreational Fee Demonstration Program, authorized by Congress in 1996, mandates that 80 percent of fees paid in Acadia stay in the park to be used for projects that directly benefit park visitors and resources.

In addition to supporting the Island Explorer bus system, your fees are used for a variety of projects that improve the condition of natural and cultural resources and make the park a safer place for you to visit.

Some of the projects financed by fees include:

- Rehabilitation of 24 historic carriage road bridges
- Rehabilitation of the historic trails system
- Rehabilitation of the Wildwood Stables barn
- Construction of curatorial office/work space and fire protection for the park’s collection of historic objects
- Construction of the Isle au Haut ranger station
- Rehabilitation of the grounds at the Nature Center at Sieur de Monts Spring

Thank you for your support of Acadia National Park. We couldn’t do it without you.

### Hawkwatch Records

Twelve species of birds of prey have been recorded migrating through Acadia National Park. The most common are listed here in order of their abundance.

Fall is a time of change for all living things in Acadia National Park. As you explore the park, take some time to observe what’s happening around you. Enjoy the brilliant red hue of huckleberry bushes contrasting with granite mountains. Watch nature in action as raptors follow air currents high over your head. Go for a hike in the crisp air. Remember, though, that fall changes are only the precursor to what comes next—winter!
**Ranger-Led Program Descriptions**

### Walks, Talks, and Hikes

#### Acadia's Birds
Find, identify, and discuss some of Acadia’s fascinating residents. Bring binoculars. Expect motor travel to various points in the park. Sieur de Monts Nature Center. (3 hours, easy)

#### Animals of Acadia
Deer? Moose? Snakes? Discover the animals you might and might not see in the park. Sieur de Monts Nature Center. (1 hour, talk)

#### At the Summit
Enjoy the views from atop Cadillac Mountain and gain a new perspective on Acadia’s beauty. Cadillac Summit parking area. (1 hour, easy ½-mile walk)

#### Autumn Leaves
As the season turns, walk with a ranger along a historic carriage road to learn about Acadia’s trees and plants. Eagle Lake parking area. (2 hours, easy 1- to 2-mile walk)

#### Beech Mountain Hike
Walk through emerald forests and blueberry patches to Beech Mountain’s granite summit for panoramic views of Acadia’s island-studded coast. Beech Mountain parking area. (3 hours, moderate 2-mile hike)

#### Blanket of Ice
Ascend the steep side of an ice-carved valley to read the glacial record. Tarn parking area. (3 hours, moderate 2-mile hike)

#### Forests of Lilliput
Explore the fascinating world of mosses, ferns, lichens, and fungi. Beech Mountain parking area. (2 hours, easy 1- to 2-mile walk)

#### Gorham Mountain Hike
Be rewarded with views of Acadia’s coastline from a granite mountaintop. Be prepared for rocky trail conditions. Gorham Mountain parking area. (2½ hours, moderate 2-mile hike)

#### Hawkwatch
Join rangers and volunteers for on-site observation and discussion of migrating birds of prey. Stop by anytime between 9 a.m. and 2 p.m., weather permitting. Binoculars helpful. From the east side of Cadillac Summit parking area, walk 200 yards along the North Ridge Trail to the Hawkwatch site. (easy)

#### Knowing the Night
Use your senses to explore the mystery of the night world. For adults and children 8 and older. Wear closed-toed shoes and layered clothing. Fee: $5 adults, $3 children under 12. Make reservations at park headquarters (8 a.m. to 4:30 p.m. M-F) no more than 3 business days in advance. (2½ hours, easy walk)

#### Life Between the Tides
Roll up your sleeves and investigate the fascinating world where ocean meets land. Ship Harbor parking area. (½ hours, moderate 1.3-mile walk)

#### Mr. Rockefeller’s Bridges
Follow tree-lined carriage roads to beautiful stone bridges. *Make reservations at Hulls Cove Visitor Center or by calling 207-288-8832. (2½ hours, moderate ½-mile hike)

#### Otter Point Walk
Explore where the land meets the sea. Gorham Mountain parking area. (2 hours, easy to moderate 2-mile hike)

#### Riding the Roads
Join a ranger for a bike ride along Acadia’s historic and scenic carriage roads. For adults and youth 14 and older. Children must be accompanied by an adult. Park Concessions

Two park concessions offer services to visitors within Acadia National Park. Acadia Corporation operates gift shops at Cadillac Mountain, Thunder Hole, and Jordan Pond. Visit the Jordan Pond House for traditional tea and popovers, or a full lunch or dinner. The shops and restaurant are open until October 24, 2004. For reservations, contact the Jordan Pond House at 207-276-3316.

Wildwood Stables, located one mile southeast of Jordan Pond, features horse-drawn carriage tours along Acadia’s historic carriage roads. Enjoy scenic vistas and cool forests on your narrated tour. Private tours and stabiling for your personal horse are also available. Tours available until October 11. For information, contact Wildwood Stables at 207-276-3622.

Eastern National

Looking for a guide to plants in the northeastern United States? Trying to find something to keep your kids occupied on a rainy day? Why not check out the Eastern National bookstores in the park? They carry a wide variety of educational items, including books about the park’s natural and cultural history, children’s stories, and travel; maps; videos; notecards; and more. Eastern National bookstores are located at Hulls Cove Visitor Center, which offers the largest selection of items, Sieur de Monts Nature Center, park headquarters, Blackwoods Campground, and Islesford Historical Museum.

Enjoy tea and popovers on the lawn at the Jordan Pond House with its spectacular views of Jordan Pond and the Bubbles.

Explore the scenic carriage roads of Acadia National Park on a horse-drawn carriage tour.

Eastern National is a nonprofit agency that provides quality educational products and services to America’s national parks and other public trusts. Eastern National’s contributions have benefited parks and visitors by supporting research, educational, and interpretive projects and by funding publications. Joining Eastern National supports your parks and gives you 15% off merchandise in any Eastern National store. For more information, visit www.easternnational.org.

Discover the Story of Acadia National Park

Want to learn more about Acadia National Park and its cultural and natural resources? Visit Eastern National outlets in the park to purchase a copy of Discovering Acadia: An Introduction to the Park and its Environment or Acadia: The Story Behind the Scenery.

Both books offer spectacular images of Acadia’s rugged coastline, wooded mountains, and scenic lakes and streams. Discover the plants and animals that call Acadia home. Learn about the geology of Mount Desert Island and the history of Acadia National Park. Pick up your copy today!

Friends of Acadia

Friends of Acadia is a private, nonprofit organization dedicated to ensuring the long-term protection of the natural and cultural resources of Acadia National Park and its region. To meet this aim, Friends of Acadia channels private donations to conservation and historic preservation projects in the park, monitors planning and legislative activities affecting Acadia, and publishes the Friends of Acadia Journal.

Watching for Wildlife

Like national parks throughout the country, Acadia offers many opportunities for observing wildlife. Deer browse alongside the Park Loop Road, songbirds dart through forests of peeling birch trees, raptors circle high overhead. Because of Acadia’s small size and proximity to towns and residential areas, these animals often come in close contact with people. Each of us must do our part to ease this contact, helping ensure the safety and health of wild animals. When you encounter wildlife in the park, remember these things:

- Never feed wild animals. Human food can make them ill and create beggar animals that no longer retain a healthy fear of humans.
- Keep your distance. Do not approach wild animals. If you suddenly find yourself too close, back away and give them room to escape. Use binoculars to get a close-up view.
- Watch for wildlife along roads, especially at dusk and dawn. Pay close attention, as they may not see you.
- Keep your dog on a leash at all times for the protection of the wildlife and your pet.
- Don’t forget: Acadia National Park is their home. Let’s do what we can to make it a safe place for them to live.

Protect Your Park

- Protect fragile plant life by staying on trails.
- Leave what you find. Removing natural and historic objects such as beach cobbles, flowers, starfish, and antlers degrades the park and is illegal!
- All pets must be on a leash no longer than 6 feet for the protection of your pet, other visitors, and wildlife. Remember that some trails and all beaches are closed to pets.
- Pack it in. Pack it out. Carry out anything you have brought into the park. Better yet, carry out any other litter you find, too!
- Keep wildlife wild. Wild animals fed by people often starve in winter, are hit by cars, or become dangerous pets.
- Trail markers (cairns) are carefully maintained by the park. Please do not remove or add to these as altering cairns can cause hikers to become lost.
- Protect water sources. Do not swim in bodies of water marked as water supplies.
- Camping and fires are only allowed in designated areas.
- Skateboards, rollerblades, and similar devices are prohibited in the park.

Protect Yourself

- Always carry water, a map, adequate clothing, a first aid kit, and a flashlight while hiking.
- Darkness comes early in the fall; be prepared.
- Be careful near cliff edges, especially if rock surfaces are wet.
- Remain in one place if you become lost or separated from your group.
- Always wear a helmet when riding a bike. Obey all traffic laws, including one-way signs.
- Check for ticks, as Lyme disease can occur in this area. If walking through tall grass, consider wearing long pants and using insect repellent.
- Drive safely. The speed limit is 35 mph in the park unless otherwise noted. It is easy to get distracted by the scenery—pay attention.
- Do not leave valuables in your vehicle.
- Yield to wildlife on roads. Give them plenty of room and remain at a safe distance.
- Remember: When in doubt, ask a ranger first!
