The National Park Service Celebrates 100 Years!

How will you celebrate the Centennial year of the National Park Service in 2016? Five years after celebrating the 100th anniversary of the designation of Devils Postpile National Monument, we celebrate another milestone: the 100th anniversary of the National Park Service. As the National Park Service embarks on its second century, we are inviting the next generation to create new memories in special places that belong to all of us as Americans.

On August 25th, 1916, President Woodrow Wilson signed the National Park Service Organic Act, establishing a single agency to manage protection of 35 national parks and monuments. One hundred years later, Devils Postpile National Monument celebrates sharing America’s special places with over 400 national park units from across the country. These special places, according to the mission of the National Park Service, preserve our most outstanding scenery, wildlife, and habitat, and honor our most important historic events and people for enjoyment, education, and inspiration of visitors today and tomorrow.

Over the last 100 years, the notion of a national park has transformed. The establishment of the National Park Service was intended to preserve the landscape of the American West. However, in 2016, national park units span across the United States, from the American Samoa to Puerto Rico, and encompass a wide variety of special places and stories. Visitors can engage with stories related to civil rights, such as desegregation at Little Rock Central High School National Historic Site in Arkansas. Women’s Rights National Historic Park in New York commemorates the first women’s rights convention. National Park Service sites across the nation honor important historic events and people, as well as protect and share the natural world.

This idea of a national park continues to change. For some, a “park” is more than just a place; it may be a feeling of community, challenge, or inspiration. Perhaps it is a chance for reflection in a museum or beside a river. Perhaps it’s the opportunity to change the world for a better future—one step, or helping hand, at a time.

The next 100 years of the National Park Service will come with its own set of challenges. One of the greatest challenges, climate change, will continue to affect national parks, the resources they protect, and impact the experiences of visitors. National parks help us gain a better understanding of how our planet is changing and help us find ways to mitigate our impacts and conserve parks for future generations.

Across the parks, clear and concise reports on the “State of the Park” will communicate in-depth assessments, challenges, and opportunities of key resources and values. The report series is part of “Park Pulse,” an action goal in A Call to Action: Preparing for a Second Century of Stewardship and Engagement, the National Park Service priorities for its second century. The Devils Postpile National Monument State of the Park report is located at our website’s management section.

In order to be relevant in the second century, the National Park Service will need to reach new audiences, tell stories that represent our nation’s diverse history, and cultivate a workforce that reflects the American population. With visitation increasing to record numbers, park managers face the challenge to protect these special places and stories and provide great experiences for all visitors to enjoy their national parks.

The challenges facing parks across the nation, including Devils Postpile National Monument, reveal the importance of collaboration between the National Park Service, our partners, our supportive communities, and our visitors to help protect these special places.

As we enter our second century, how will the National Park Service be inspired by the next generation of visitors? To usher in the next 100 years, we invite you to make meaningful connections and create memories in your parks and public lands, like Devils Postpile National Monument. Then share what speaks to you at FindYourPark.com.
Park the Car and Ride the Bus!

Shuttle Bus and Fee Information
The bus is mandatory for most visitors. See the chart below for prices. Tickets can be purchased at the Adventure Center, located at the main gondola building at Mammoth Mountain.

Purchasing tickets at any Adventure Center:
- From 8:00 a.m.–4:30 p.m., visitors will board the Mammoth Mountain Bike Park Shuttle to get to the Adventure Center (free for hikers).

From the Mammoth Mountain Adventure Center:
- 7:30 a.m.–9:45 a.m. every 45 minutes
- 10:00 a.m.–5:00 p.m. every 20 minutes
- 5:00 p.m.–7:00 p.m. every 30–45 minutes

The Need for a Shuttle System
The shuttle has allowed the valley to recover from intense use that occurred throughout the 1970’s. It has protected the area from degradation caused by high visitation and limited parking.

Whether riding the shuttle or driving into the valley in an exception vehicle, everyone enjoys a safer experience as a result of the shuttle operation.

Schedule
From the Village at Mammoth:
- 7:15 a.m.
- 8:00 a.m.
- 8:45 a.m.
- 9:00 a.m.–4:30 p.m. every 30 minutes

From 9:00 a.m.–4:30 p.m., visitors will board the Mammoth Mountain Bike Park Shuttle to get to the Adventure Center (free for hikers).

Fees for exception vehicles:
- One Day Pass: $10/vehicle
- Three-day pass: $20/vehicle (Good for three of five consecutive days)
- Campers: $10/vehicle (for the duration of stay)
- Season Pass: $35/vehicle.

Three-day and season passes for exception vehicles are accepted at Mono Lake South Tufa and Schullman Grove Day use Areas.

Interagency Annual, Military, Senior, and Access Passes are only accepted for vehicles that are exceptions to the shuttle bus. Interagency passes are not valid for shuttle bus tickets.

In the valley after October 14. October. There is no overnight parking weekend and some stay open into early depending on weather. Call ahead for Valley close on or before October 15, All campgrounds in the Reds Meadow Campground Closing Dates

CAMPING
Devis Postpile
The Devils Postpile Ranger Station is open daily from 9:00 a.m. to 5:00 p.m. from late-June through Labor Day. It will be open in September and October as staffing permits. Maps, backcountry permits, and other information is available. There is also a bookstore on site.

Inyo National Forest
The Mammoth Lakes Welcome Center serves the Town of Mammoth Lakes, the Inyo National Forest, and the National Park Service year-round. A bookstore and permits are available. Hours of operation are from 8:00 a.m. to 5:00 p.m. daily (760-924-5505).

A CAMPING
Devis Postpile
Devis Postpile has a 20 site first-come, first-served campground for tents and RVs up to 37 feet in length. Current fees can be found on the website or by calling 760-934-2289.

Inyo National Forest
There are seven Forest Service campgrounds in Reds Meadow Valley. Five campgrounds are first-come, first-served. Current fees for all Inyo campgrounds (including group and horse) can be found on the Inyo National Forest Website or by calling 760-924-5500. Two group campgrounds are available by reservation. Agnew Campground has three equestrian campsites and are also by reservation only.

Special Campground Information
At the time of printing, exact opening dates for campgrounds in the Reds Meadow Valley were unknown. Please call ahead to ensure that the campground in which you wish to stay will be open. Campgrounds in the Agnew Meadow area were closed at the time of printing. The Inyo National Forest is working to open these sites as soon as possible. Please call ahead for the most current information.

Campground Closing Dates
All campgrounds in the Reds Meadow Valley close on or before October 15, depending on weather. Call ahead for exact dates. Typically, campgrounds are open through the Labor Day weekend and some stay open into early October. There is no overnight parking in the valley after October 14.

A SHOWERS
The Reds Meadow hot spring fed showers will not open this season. The tub will be locked for safety reasons. Showers will be available at the Reds Meadow Resort and Packstation. Showers are $7.00. Towels are available for $1.00.

A FOOD SERVICES
Food service is available at the Reds Meadow Resort. A store and a restaurant are open from June through September. Camping supplies and groceries are also available.

A PETS
Devis Postpile
Pets are allowed on trails and in the campground at the monument and must be on a leash at all times.

Inyo National Forest
Pets are allowed on trails in the Inyo National Forest as long as they are on leash or under voice control, and near the owner. Pets must be on leash in all National Forest campgrounds and developed sites including parking lots, trailheads, and day use areas.

On the Shuttle Bus
Leashed and muzzled pets are permitted on the shuttle buses. Muzzles can be purchased at pet stores in Mammoth Lakes or at the Mammoth Mountain Adventure Center.

A FISHING
A fishing license is required for adults ages 16 and older. Regulations can be found in the California Department of Fish and Wildlife’s Freshwater Sport Fishing Book available online or wherever fishing licenses are sold.

A HUNTING AND FIREARMS
Devis Postpile
Hunting is prohibited within the boundaries of the monument.

Inyo National Forest
Hunting is permitted in designated areas within the Inyo National Forest with a valid license. Contact the California Department of Fish and Wildlife at 559-243-4065 ext 151 for more information. Regulation booklets are available at the Mammoth Lakes Welcome Center.

Firearms Regulations
Federal law allows people who can legally possess firearms under applicable federal, state, and local laws, to legally possess firearms in Devils Postpile National Monument and on the Inyo National Forest. It is the responsibility of visitors to understand and comply with all applicable state, local, and federal firearms laws before entering the monument or forest. For information on California regulations, visit http://ag.ca.gov/firearms/.

Federal law prohibits firearms in all federal facilities including the Devils Postpile Ranger Station and the Mammoth Lakes Welcome Center, unless specifically authorized (18 USC 930(a)).

A STOCK USE
Devis Postpile
Stock are allowed on monument trails with the exception of the Devils Postpile Trail and a short section of trail near Rainbow Falls. Ask for a detailed map at the Ranger Station.

Stock should enter the monument via the Rainbow Falls Trailhead. Parking and maneuvering in valley parking lots can be very challenging for large vehicles and trailers. Please use caution on the narrow Reds Meadow Road and in parking lots.

Off-trail stock use is prohibited. River crossing is only permitted at the designated stock bridge located in on the John Muir/Pacific Crest Trails within the monument. The Soda Springs Bridge is not designed for stock use. Grazing is prohibited and weed free feed is recommended.

Inyo National Forest
Stock are allowed on most National Forest trails. Several trailheads are suitable for stock loading and unloading including Agnew Meadows and Rainbow Falls.

Group size is limited to 15 people and 25 stock. Stock must be kept 200 feet from all lake shores. Pellets, cubes, or grain must be used where feed is limited or grazing is not allowed. Weed free feed is recommended. Remove excess pellets or cubes and remove or scatter manure.

Use hitchhines or hobbles to constrain stock in backcountry campsites. Highlines are preferred in many areas to reduce impacts. Camps must be set up 200 feet from water or any trails.

Watering of stock should be done away from marshy areas, ponds, lakes, and other places susceptible to bank erosion. Established fords or low, rocky spots in the bank should be used.

Commercial vehicles longer than 37 feet should contact Eastern Sierra Transit Authority (www.estranet.com) for information on entrance into Devils Postpile.

Recreational vehicles longer than 37 feet are advised to use Forest Service campgrounds that will accommodate 37 foot vehicles and utilize the Reds Meadow Shuttle bus if visiting Devils Postpile. The shuttle bus is free between Agnew Meadows and Reds Meadow Resort.

Groups eligible for an educational fee waiver traveling in buses longer than 37 feet should contact Devils Postpile National Monument for information pertaining to special use permits.

The road is narrow and visibility is limited. All vehicles should use caution on both the Reds Meadow and Devils Postpile roads.

Taking a break at Rainbow Falls.
Take a hike!

Attend a Ranger Program.

See Devils Postpile.

Cast your line.

Note: The trip into the Reds Meadow Valley and to Devils Postpile takes visitors 1,500 feet downhill from the Minaret Vista.
Permits
Wilderness permits are required for overnight travel into the Ansel Adams Wilderness year round. Reservations may be made up to six months in advance for trips during the quota season which is May 1 through November 1. A $5 per person reservation fee plus a $6 per reservation transaction fee is charged at the time you reserve with www.recreation.gov. No fee is charged for walk-in permits.

Permits and maps are available at the Mammoth Lakes Welcome Center and at the Devils Postpile Ranger Station; however, the Devils Postpile Ranger Station can only issue permits for trips originating in the Reds Meadow Valley. For trips originating in the Inyo National Forest, call (760) 873-2483 or visit the Inyo National Forest web site.

For hikes starting in Sequoia, Kings Canyon or Yosemite National Parks, permits must be acquired through those parks and will be valid for the duration of your trip. For trips originating in Sequoia or Kings Canyon, please call (559) 565-3341 or visit www.nps.gov/seki. For trips originating in Yosemite call (209) 372-0826 (summer only) or visit www.nps.gov/yose.

Be Prepared
Weather in the mountains changes in an instant. Extreme temperatures, violent storms, and unexpected changes are not uncommon. Dress in layers and bring plenty of water on any hike. Do not drink water directly from streams or lakes without filtering or boiling it before consumption.

Sensitive Areas
Cross country travel is permitted in most areas, but please observe posted signs. Sub-alpine meadows like the ones found in the Reds Meadow Valley and areas of alpine tundra are sensitive and may take many years to recover from “social” or unofficial trails. If traveling off-trail, travel on durable surfaces such as rock or snow.

Backcountry Fires
Fires are allowed in some backcountry areas. It is your responsibility to know where fires are and are not allowed. Keep in mind that this information may change during severe fire seasons. Visit the Mammoth Lakes Welcome Center or Devils Postpile Ranger Station for the most current information.

Food Storage
Approved bear canisters are required in all backcountry areas.

**Let’s Get Every Kid in a Park!**

“Oh the places you’ll go, Today is your day! Your mountain is waiting. So get on your way!” Dr. Seuss’ rhyming and rallying charge captures the spirit of the Every Kid in a Park initiative, launched by the White House and Federal Land Management Agencies. In celebration of the National Park Service Centennial, fourth graders can obtain a pass that provides free access to students to all federally managed lands and waters. By introducing America’s youth at an early age to public lands, near and far, this program is a call to action to get all children to experience breathtaking places and meaningful stories throughout the nation.

Fourth graders can start the adventure by visiting: www.everykidinapark.gov.

After playing an online game, the student can print a voucher which can be exchanged for a durable plastic Interagency Fourth Grade Annual Pass at federal lands centers that issue passes, such as the Welcome Center in Mammoth Lakes. This pass is good for the 2015-2016 school year and summer.

To visit the Reds Meadow Valley and Devils Postpile National Monument, fourth grade students with plastic Interagency Fourth Grade Annual Pass can ride the Reds Meadow Shuttle bus for free. Those travelling with the student will need to pay for a bus ticket. This pass cannot be used to discount camping fees. In other federal public lands where an entrance fee is charged per vehicle, anyone in a vehicle with a 4th grade student that has a pass will be admitted for free.

With millions of acres of federal lands across the nation, there might be a place for students to explore right in their own backyard! Public lands provide opportunities for youth to be active, spend time with friends and family, and learn in outdoor classrooms and where history was made. Through these experiences, the initiative hopes to inspire the next generation of stewards, motivated to protect our public lands for future generations.

The Every Kid in a Park initiative has also provided additional opportunities for youth to explore the federal public lands throughout this area. In partnership with the Bishop Paiute environmental education program, Firstbloom, Devils Postpile National Monument is one of 186 federal sites to receive an Every Kid in a Park field trip grant from the National Park Foundation. This summer, Firstbloom participants will be engaged stewards of public lands—learning and volunteering to help protect public lands while exploring the Inyo National Forest, Devils Postpile National Monument, and Yosemite National Park.

Whether you’re in fourth grade, or a fourth grader at heart, public lands are for us to explore, so get on your way!

---

**Be a Junior Ranger!**

Want to learn more about Devils Postpile or the U.S. Forest Service? The Devils Postpile Junior Ranger and the National Junior Forest Ranger Programs are great ways to do it.

Activities for all ages are included in the booklets, available free of charge at the Devils Postpile Ranger Station or at the Mammoth Lakes Welcome Center.

Ever wondered if there’s an online program? To become a National Park Service Web Ranger, visit www.nps.gov/webrangers.

These programs are open to any age.

---

**Protecting Special Places**

Visitors to the Reds Meadow Valley are the area’s most important guardians. The valley has more than one hundred thousand people visiting each year. If all of those people watched over the plants, animals, geology, historic and archeological sites, imagine how well-protected these resources could be!

Unfortunately, there are people who either intentionally or unknowingly harm resources. Please contact a park official if you see any of the following:

- feeding or approaching wildlife
- hunting animals
- collecting reptiles or butterflies
- collecting plants or pine cones
- taking archeological/historic items
- carrying or using metal detectors to locate/collect historic objects

- driving vehicles into sensitive meadows and off roadways
- camping outside of designated campgrounds
- using weapons

Outside of the monument boundaries, the following is prohibited:

- feeding or approaching wildlife
- driving vehicles into sensitive meadows and off roadways
- camping outside of designated campgrounds except with a valid wilderness permit.

If you see activities that could harm people or resources, write descriptions or a vehicle license plate number and call (760) 934-2289. If someone’s life is in danger, call 911.

---

**Do your part. Recycle.**

Recycling facilities are located at all valley trailheads. Glass, plastic, and aluminum are all recyclable. Cardboard can be recycled in the Devils Postpile Campground.
Citizen Science in Your Hands

You probably use a very valuable science tool every single day. You might even have one with you right now.

A smartphone.

With just the tap of a button, a single picture from a smartphone’s camera—which automatically records the date, time and location—can provide valuable data for scientists. An image can show the life stage and visual habitat conditions of a plant or animal at a specific location by recording GPS coordinates.

Smartphone apps, like iNaturalist, provide an opportunity for science to “crowdsource” data collection. These data can then be used to detect changes in an ecosystem over time—from the shifting migration patterns of birds to earlier flowering dates.

But you don’t need a smartphone to be a citizen scientist! Many national parks recruit volunteers to help collect data in the field. At Devils Postpile, volunteers have made major contributions towards documenting the diversity of plants and animals. Some of these contributions have helped managers better understand and protect the area’s biodiversity. For example, volunteers compiled the first formal report on nesting and breeding birds within the monument. This report provided the justification to receive funding for additional monitoring. These volunteers also documented nesting sites of sensitive bird species within the meadow that led to increased measures to reduce social trails and protect habitat.

Additionally, volunteers conducted the first snow surveys at Devils Postpile to better understand snowpack at the monument. This information was so valuable that the California Department of Water Resources decided to include the monument in the statewide snow survey database and now manage and conduct the measurements.

During the National Park Service Centennial in 2016, national parks across the nation will be hosting Bioblitz events where visitors, as citizen scientists, can help scientists observe animals and record plants during a day-long event.

Besides data collection, citizen science raises awareness of the natural world and encourages participants to continue to explore and observe what they see around them—whether it’s in their neighborhood park or during a vacation to a national park. Citizen science can also help document the impacts of global issues such as climate change and invasive species.

Want to help? Download and create an account with iNaturalist. While you’re out on your adventures, take photos of plants and animals that you see (respecting nature, of course!). Afterwards, upload your photos to iNaturalist. Don’t know what your observation is? Don’t worry—other iNaturalist users may be able to identify it! You can also see what other users have observed by searching by location. Every observation is helpful, so get out there and explore!

Keeping Wildlife Wild

Black bears and other wildlife are frequently seen in the Reds Meadow Valley and in Devils Postpile. In order to keep these animals wild, follow these tips.

**Food and Scented Item Storage**

- Proper food storage is required. “Food” is considered to be anything with an odor including used paper plates, dishes, and toiletries. Bear boxes are located in every campsite in the valley. Do not leave food in your vehicle over night.
- Backpackers must use bear resistant canisters. They are available for rent at the Mammoth Lakes Welcome Center and at the Devils Postpile Ranger Station.

**Hiking and Camping Safety**

- Keep a clean and organized camp. Keep all food within reach in case a bear should wander through camp.
- When hiking through areas of dense vegetation or loud water, make noise to let the bear know you are in the area.
- If you see a bear, keep your distance. Back away slowly.
- Never approach wildlife.
- Remember, we are visitors to their homes. Respect all wild animals.

Sequoia Parks Conservancy

The Sequoia Parks Conservancy is a non-profit organization that provides vital services to Sequoia and Kings Canyon National Parks and Devils Postpile National Monument, which may not be available through federal funding. They provide books and educational materials in their bookstore at Devils Postpile. To browse their online bookstore visit: http://www.sequoiaparksconservancy.org/shop.html.

Eastern Sierra Interpretive Association

The Eastern Sierra Interpretive Association (ESIA) is the public’s connection to the Eastern Sierra and public lands through interpretive and education opportunities. ESIA, a 501(c)3 non-profit corporation, achieves its mission by operating quality bookstores, the Mono Basin Scenic Area Visitor Center, the Mammoth Lakes Welcome Center, and through sponsoring interpretive projects and programs. Learn more at one of eleven locations or at www.esiaonline.org. Proceeds from sales support local interpretive programs and projects.
