The Official Newspaper of Great Smoky Mountains National Park # summer 2014

Exhibit Pays Homage to Passenger Pigeon

Visitors to the park’s Sugarlands Visitor Center this summer will have the rare opportunity to view an excellent specimen of the now-extinct passenger pigeon. The mounted pigeon has been in the park’s natural history collection since 1987, but has never been widely displayed until now.

September 1 of this year marks the 100th anniversary of the demise of “Martha,” the last passenger pigeon in existence. Martha lived at the Cincinnati Zoo where she was part of a failed breeding program. She was the last of a species that was once the most numerous bird on our planet. Over six billion passenger pigeons lived in North America during the 19th century, darkening the sky as the massive flocks flew overhead. Several landmarks in the Smoky Mountain region were likely named for the passenger pigeon, including the Pigeon River and the town of Pigeon Forge. The birds were especially common in the eastern hardwood forests that stretched from the eastern Midwest to the Piedmont. American beech trees provided some of their favored food. Passenger pigeons went from billions to extinct in a relatively short time due to such human actions as shooting and robbing nests for the young birds that were considered delicacies. This extinction serves as a reminder of the importance of conserving habitat and species and strengthening the relationship between people and nature.

All told, ten varieties of native rhododendron can be found in the famously diverse Great Smoky Mountains. The biggest stars in this constellation are Catawba (purple) which blooms at the higher elevations in June, and rosebay (white) which blooms lower down in June and July. Judging from the buds, 2014 could be a banner year for rosebay!

Park Service managers were pleasantly surprised this winter when bird watchers and photographers flocked to Cades Cove to see some unusual birds of prey. The bird lovers were rewarded with frequent sightings of both short-eared owl and northern harrier, especially in the fields the Park Service has been restoring to natural meadows.

Short-eared owls and northern harriers are both northern species that like open prairies and fields as their native habitats. The owl had only been sighted in the Smokies once or twice before and the harrier is uncommon here. Throughout their range these birds of prey have declined because their habitat of open fields has diminished. They are known to migrate to areas where voles and other small mammal prey species are abundant.

Prior to park establishment, Cades Cove was a farm community where families raised corn, wheat, and rye and grazed livestock. Farming and livestock grazing kept the valley open.

Since the Park Service took over the land, their goal has been to maintain the open character for purposes of historic preservation and wildlife viewing. To do so, the Park Service employs the following strategies:

• mowing areas near the loop road for wildlife viewing
• burning fields every three years to discourage trees and encourage native plants
• planting native meadow species such as Indian grass, blue stem, and sunflower.

Park Service forester Kristine Johnson is optimistic about the future of the Cove, “The former agricultural lease practices harmed natural and cultural resources, so we are happy to see good results with our restoration efforts for both wildlife and visitor experiences.”
campsites at Elkmont, Smokemont, Cataloochee, Cosby, and Cades Cove may be reserved. For reservations call 1-877-444-6777 or contact www.recreation.gov. Sites may be reserved up to six months in advance. Reservations are required at Cataloochee Campground.

Other park campgrounds are first-come, first-serve.

Site occupancy is limited to six people and two vehicles (a trailer = 1 vehicle). The maximum stay is 14 days.

Special camping sites for large groups are available seasonally at Big Creek, Cades Cove, Cataloochee, Cosby, Deep Creek, Elkmont, and Smokemont. Group sites must be reserved. Call 1-877-444-6777 or contact www.recreation.gov. Group sites may be reserved up to one year in advance.

The list below shows number of sites, elevations, fees, approximate 2014 operation dates, and maximum RV lengths. Visit www.nps.gov/ grsm for more information.

Pets in the park

Pets are allowed in frontcountry campgrounds and beside roads as long as they are restrained at all times. Pets are not allowed on park trails, except for the Gatlinburg and Oconaluftee River trails. Dogs on these trails must be leashed.

facilities rentals

The historic Appalachian Clubhouse and Spence Cabin at Elkmont are now accepting reservations for day-use rentals. Picnic pavilions are also available for $10-$20 per day at Collins Creek, Cosby, Deep Creek, Greenbrier, Metcalf Bottoms, and Twin Creeks.

To make a reservation, call 1-877-444-6777 or visit www.recreation.gov.

special events

June 21
Women's Work festival at Oconaluftee Visitor Center

September 20
Mountain Life Festival at Oconaluftee Visitor Center

September 27-28
Wilderness Act Celebration at Sugarlands Visitor Center

picnic areas

Please see pages 8-9 for locations of picnic areas. All picnic areas have charcoal grills for cooking.

visitor centers

Summer hours of operation are: Oconaluftee & Sugarlands: 8-7:30; Clingmans Dome: 10-6; Cades Cove: 9-7:30; Gatlinburg Welcome Center: 8:30-7.

other services

There are no gas stations, showers, or restaurants in the national park. Mt. Le Conte Lodge is the only lodging.

The above temperature and precipitation averages are based on data for the last 20 years. Temperatures are in degrees Fahrenheit. An average of over 84" (7 feet) of precipitation falls on the higher elevations of the Smokies. On Mt. Le Conte, an average of 82.8" of snow falls per year.

### Horseback Riding

Horseback riding is generally available from early March through November. Rates are $30 per hour. Most stables have maximum rider weight limits of 225 or 250 pounds and age restrictions for children. Please call the stables below or stop at a visitor center for detailed information.

- **Cades Cove (865) 448-9009**
  - cadescovestables.com
  - Smokemont (828) 497-2373
  - smokemontridingstables.com
  - Smoky Mtn. (865) 436-5634
  - smokymountainridingstables.com
- **Sugarlands (865) 436-3535**
  - sugarlandsridingstables.com

Hayrides and carriage rides ($12 per person) are available from Cades Cove Riding Stable. Wagon rides ($10 per person) are offered at Smokemont. Souvenir photos, tee-shirts, hats, and ice may be available. Soft drink vending is available.

The park service operates horse camps at Cades Cove, Big Creek, Cataloochee, and Round Bottom. Call 877-444-6777 or visit www.Recreation.gov for reservations.

### Fishing

Fishing is permitted year-round in the park, but a Tennessee or North Carolina fishing license is required. Either state license is valid throughout the park and no trout stamp is required. A special permit is required for the Cherokee Reservation and Gatlinburg. Licenses are available in nearby towns. Fishing with bait is prohibited.

### Backcountry Camping in the Smokies

Camping at a backcountry campsite or shelter can be an exciting adventure for persons properly equipped and informed. To facilitate this activity, the National Park Service maintains over 800 miles of trails and more than 100 backcountry campsites and shelters throughout the park. One of the greatest challenges for backcountry campers is deciding where to go. Here are some tools to help:

1. Go online to view the park’s official trail map (www.nps.gov/gsm/planyourvisit/maps.htm), which shows all park trails, campsites, and shelters. Park rules and regulations are also listed here. If you wish, you can purchase the printed version of the trail map for $1 by stopping at any park visitor center or calling (865) 436-7318 x226 or shopping online at www.SmokiesInformation.org.
2. Call or stop by the park’s backcountry office, which is open every day from 8:00 a.m. to 5:00 p.m. The office is located in Sugarlands Visitor Center, two miles south of Gatlinburg on Newfound Gap Road (U.S. 441). (865) 436-1297.
3. Make your reservation through the backcountry office at Sugarlands Visitor Center (by phone or in person) or online at www.smokiespermits.nps.gov.

Reservations and permits are required for all overnight stays in the backcountry. The cost is $4 per person per night. Reservations may be made up to 30 days in advance.

Spring hikers should be especially aware of the danger of hypothermia—the lowering of body temperature. The combination of rain, cold, and wind is especially dangerous.

Camping at a backcountry campsite or shelter can be an exciting adventure for persons properly equipped and informed. To facilitate this activity, the National Park Service maintains over 800 miles of trails and more than 100 backcountry campsites and shelters throughout the park. One of the greatest challenges for backcountry campers is deciding where to go. Here are some tools to help:

1. Go online to view the park’s official trail map (www.nps.gov/gsm/planyourvisit/maps.htm), which shows all park trails, campsites, and shelters. Park rules and regulations are also listed here. 2. Call or stop by the park’s backcountry office, which is open every day from 8:00 a.m. to 5:00 p.m. The office is located in Sugarlands Visitor Center, two miles south of Gatlinburg on Newfound Gap Road (U.S. 441). (865) 436-1297.
3. Make your reservation through the backcountry office at Sugarlands Visitor Center (by phone or in person) or online at www.smokiespermits.nps.gov.

Reservations and permits are required for all overnight stays in the backcountry. The cost is $4 per person per night. Reservations may be made up to 30 days in advance.

Spring hikers should be especially aware of the danger of hypothermia—the lowering of body temperature. The combination of rain, cold, and wind is especially dangerous. At the park’s higher elevations, hypothermia can be a threat even during summer.

To prevent hypothermia, carry good rain gear at all times. Layer clothing that provides warmth when wet (not cotton). Be prepared for sudden weather changes, especially at the high elevations.
Green Treefrogs Invade Cades Cove

BIOLOGISTS WORKING IN CADES COVE made an unpleasant discovery a couple of years ago: tens of thousands of non-native green treefrogs. These attractive, bright green, 2"-long frogs are native to Florida, the Deep South, and the East Coast, but not the mountains. Rangers are concerned these non-natives might compete with native park amphibians such as the narrow-mouthed toad.

Please Leave Firewood at Home

FIREWOOD OFTEN HARBORS non-native insects that can devastate our forests. Beetles such as the emerald ash-borer and Asian longhorned lay their eggs in dead wood. Please do not bring your firewood into the park. You can collect dead and down wood in the park or purchase wood at some campgrounds.

Park Celebrates 50th Anniversary of 1964 Wilderness Act Passage

Throughout 2014, Great Smoky Mountains National Park is joining with other public lands agencies and organizations to celebrate the 50th anniversary of the passage of the Wilderness Act, one of the most important pieces of conservation legislation ever signed into law.

In the Smokies this anniversary is especially important because Harvey Broome, a Knoxville, TN attorney and avid Smoky Mountain hiker, played a leading role in both the creation of the Wilderness Act and the establishment and protection of our national park.

It was on his hikes in the pre-park Smokies, while viewing mountainsides denuded by unsound logging practices and streams choked with silt, that Broome began to differentiate between “untrammeled wilds and the rifled countryside.” In one of his many journal entries he summed up his feelings with, “…one felt compelled to try to conserve and defend the land against further spoliation.”

This conviction led Broome to convene with conservation legends Robert Marshall, Bernard Frank, and Benton MacKaye in east Tennessee in 1934 and draft the constitution for a new organization called the Wilderness Society. By January of the following year, the four were joined by other luminaries: Aldo Leopold, Robert Sterling Yard, Ernest Oberholzer, and Harold C. Anderson; and the Wilderness Society was born.

Both Broome and Howard Zahniser served as presidents of the the Wilderness Society, and the two men worked closely to draft and push forward the Wilderness Act, which was signed into law on September 3, 1964 by President Lyndon Johnson.

Contrary to popular belief, there are many different types of wilderness and different rules for managing wilderness. Broadly speaking, the Act defines wilderness as places that are left unchanged by people, where nature is allowed to run its course, and where people are welcome as visitors, but they do not remain. Over the last half-century, over 100 million acres have been designated as wilderness in 757 different areas.

Although more than half of Great Smoky Mountains National Park is currently managed as wilderness, no official wilderness was ever established within the park. In the past, efforts to officially designate parts of the park as wilderness were scuttled because of unresolved road building plans that had lingered since the 1940s.

The Park Service will commemorate the anniversary with a number of special events, including “Wilderness Wednesday” talks at Sugarlands Visitor Center every Wednesday at 2:00 p.m. from June 18 through September 17. “Wilderness Weekend” from September 27 - 28 will be highlighted by a presentation from Ed Zahniser, son of Howard Zahniser—widely regarded as the lead author of the Wilderness Act. To learn more about these and other events, please contact Sugarlands Visitor Center at (865) 436-1291.
Amazing Grace: Rangers Return Lost Species to Smoky Mountains

The park's elk herd has grown from 52 to over 150 since 2002.

Part of the responsibility that rangers assume when they wear the flat hat and the arrowhead logo is to strive to preserve the wild portions of the Great Smoky Mountains in a natural condition. One long-standing park management document aptly describes this goal as: “A national park should present a vignette of primitive America.”

Accomplishing this goal is not simple, especially in a park that welcomes over nine million visitors per year and resides in a heavily-populated region of the United States.

One of the biggest obstacles towards presenting a vignette of the primitive Smokies is the fact that some wildlife species that are native to the area were eliminated during the 18th, 19th or 20th centuries. This list of extirpated species includes bison, elk, gray wolf, red wolf, fisher, river otter, peregrine falcon, passenger pigeon, mountain lion, and madtoms. Other species, including white-tailed deer and wild turkey, were nearly extirpated by the time of park establishment. The major causes of species loss were unregulated hunting and trapping, unsound logging practices, and agriculture.

The park’s first successful reintroduction of a lost species occurred in 1986 when 11 river otters were released into Abrams Creek. That ended a period of some 70 years in which otters were absent. Today, river otters are fairly common in places like Abrams Creek, Fontana Lake, Tremont, and Elkmont.

Peregrine falcons, the fastest birds in the world, were nearly eliminated from the entire eastern U.S. by the pesticide DDT in the middle of the 20th century. However, thanks to the cooperative efforts of several private and public organizations, hundreds of the birds were reared and released in the 1980s. Pairs of these birds now nest and raise their young on rocky outcrops on some of the Smokies’ highest peaks.

The most challenging successful reintroduction in park history was elk. Between 2001 and 2002, 52 elk were released into Cataloochee valley. Today, over 150 elk roam the Smokies and have dispersed into areas that include Balsam Mountain, Oconaluftee, Big Creek, Maggie Valley, and the Cherokee Indian Reservation.

Four species of small fish were extirpated from the Smokies in the 1950s by a short-sighted attempt to eliminate “rough” fish and improve game fishing in Abrams Creek. Over the last 15 years the Park Service has worked with private and public organizations to restore the fish, three of which are listed as federally threatened or endangered species. Recently, three of the four species (Critico darter, Smoky madtom, and yellowfin madtom) have been documented to be living and reproducing in lower Abrams.

One hard-fought reintroduction effort that failed was the red wolf. Wolves were released in Cades Cove and Tremont in the 1990s, but failed to successfully raise pups. Biologists believe the failure was due to diseases such as parvo virus and interactions with coyotes, which migrated into the Smokies in the 1980s. Red wolves do continue to survive elsewhere in the Southeast.

There are currently no plans to reintroduce the mountain lion, gray wolf, fisher, or bison into the park.

It is illegal to approach within 50 yards of bear and elk in the national park.

The many yearling bears in the park this summer were born in the winter of 2012-13. Most will separate from “mom” by late June.

In the continuing saga of Smoky Mountain black bears, the year 2014 could go down in history as “The Year of the Yearling.” For some complicated reasons related to female bear reproductive cycles and the availability of fall mast, there is a higher than average number of yearling black bears roaming the Smokies this summer.

Since yearlings are often considered the “troublesome teens” of the wildlife world, this population anomaly has some serious implications. While female yearlings might share territory with mom, male yearlings are usually banished and must find new territories of their own. In a place as crowded with bears as our national park, that can lead to conflicts.

By mid summer, mother bears have separated from their yearlings and will be again seeking a mate. Male yearlings will wander far and wide in search of a home of their own with food and shelter that does not trespass on the turf of other adults.

Consequently, male yearlings often get chased around a lot and may be forced into marginal real estate no other adult bear bothers to defend. Such a quest sometimes takes bears into park campgrounds and picnic areas or beyond park boundaries where they may come into conflict with property owners over garbage, orchards, and gardens. Said conflicts can end with the demise of the young bear.

For these reasons it is more important than ever this summer to keep trash and people food away from bears. It is best when bears retain their natural fear of humans. Do not approach or harass wildlife. Enjoy them at a distance of at least 50 yards. Use binoculars to get a closer look.

Amazing Grace: Rangers Return Lost Species to Smoky Mountains

Great Smoky Mountains is the largest terrestrial national park in the East

For Park Bears, 2014 is Year of the Yearling

It is illegal to approach within 50 yards of bear and elk in the national park.
if you love the smokies...

help protect this place for ourselves and future generations

become a proud member

Since 1953, Great Smoky Mountains Association has supported the educational, scientific, and historical efforts of the National Park Service through cash donations and in-kind services. In 2014 alone, the association planned to provide more than $1 million in assistance that includes saving hemlock trees, living history demonstrations, educational programs, salaries for backcountry patrols, and historic preservation.

Association members receive a number of benefits to keep them informed about special events in the park and issues affecting the Smokies:
- Subscription to the semi-annual, full-color magazine Smokies Life;
- Coming soon: Exclusive digital access to the award-winning quarterly park newspaper, Smokies Guide, and the association’s newsletter, The Bearpaw
- A 15-25% discount on books, music, gifts, and other products sold at park visitor centers and at our web store
- Discounts up to 20% at more than 400 national park bookstores across the country
- Special discounts at area rental cabins, inns, restaurants, shops, and attractions
- And most importantly, the satisfaction of helping to preserve nature and history in Great Smoky Mountains National Park.

Join today using the coupon to the right or visit www.SmokiesInformation.org, or call us at 1-888-898-9102 x222. Memberships start at just $35.

GSMA MEMBERS
Stay in Touch with the Smokies All Year Long!

- Individual Annual Membership $35

- Annual Business Membership $250

FIELD SCHOOL

An exciting variety of adventures await adults who long to get out and explore the park accompanied by expert guides. Programs are offered by the Smoky Mountain Field School and include Mt. Le Conte overnights, wildlife workshops, edible plants, wildflower photography, animal tracking, bird watching, salamanders, mountain cooking, and more. One day programs start at as little as $49. Contact: (865) 974-0150 or smfs.utk.edu

GSMI AT TREMONT

Great Smoky Mountains Institute at Tremont provides residential environmental education programs in Great Smoky Mountains National Park. Up to 5,000 students and adults annually attend workshops and school programs at the Institute.

Tremont’s adult workshops include birding, backpacking, environmental education, naturalist weekends, teacher escapes, and photography. Contact (865) 448-6709 or www.gsmi.org

SUMMER CAMPS

Great Smoky Mountains Institute at Tremont offers a variety of summer youth camps in the national park. Camps last from 6-11 days and cost from $539. Fees include meals, lodging, and most equipment.

This year’s offerings include: Discovery Camp (ages 9-12), Wilderness Adventure Trek, Girls in Science (ages 12-15), and Teen High Adventure (ages 13-17). Contact: (865) 448-6709, or www.gsmi.org

*smokies guide, Summer 2014
hit the trail

Day hiking in the Smokies is a great way for families to escape the car and enjoy nature.

Great Hikes for Families

With over 800 miles of gorgeous hiking trails to choose from, Great Smoky Mountains National Park is a wonderland for families who want to escape from the car and busy roadways and experience the peace and beauty of the Smokies. Hiking is not only great for your health, it gives families the opportunity for bonding and shared adventures that will be remembered for a lifetime.

Perhaps the best way for families with younger children to hike the Smokies is on one of the park’s self-guiding nature trails shown on the map above. Each offers an inexpensive brochure and numbered posts that help you learn about some of the things you see along the way. Many are loop trails. Mileages shown are round trip.

Quiet Walkways are another great way to stretch your legs and enjoy the Smokies backcountry. Look for signs along park roadways to find these short gems. A few are loop trails, but most are not, so you just walk a ways, then return the way you came.

Other Family Favorite day hikes include:

**The Three Waterfalls Loop.** Starting at the trailhead past Deep Creek Campground and Picnic areas, this 2.4 mile moderate loop hike includes three impressive waterfalls you can enjoy and photograph.

**Abrams Falls.** Beginning from the Cades Cove Loop Road, this 5 mile roundtrip moderate hike climbs up and down over ridges to reach beautiful Abrams Falls.

**Oconaluftee River Trail.** This easy, 3-mile roundtrip hike starts at Oconaluftee Visitor Center and follows the river into the town of Cherokee. Exhibit signs along the way tell Cherokee Indian stories.

Day Hiking Tips

- Take adequate water—minimum 2 quarts per person per day. Never drink out of streams or springs.
- Wear lace up or close-toed shoes or boots. Never wear flip flops or sandals. Footwear that provides good ankle support is best, but sneakers are fine for short hikes.
- Dress in layers that can be easily removed or added as you heat up or cool down. Always carry a wind-resistant jacket and rain gear—even on sunny days!
- What to carry in a day pack? In addition to clothing, rain gear, and water mentioned above: snacks, sunscreen, insect repellant, map, small first aid kit, small flashlight, and camera.
- Check the weather forecast before you go. The Smokies are well known for their sudden, unpredictable, summer rain showers or winter snow.
- Your cell phone will not get reception in most areas of the park. Because of this, do not rely on your phone for directions or to call for assistance.

Scavenger Hike Adventures are 13 hikes especially for families who want to engage their kids in searching for clues and hidden wonders as they walk park trails. Your kids will look for such treasures as a wrecked steam engine, a tree marked by bear claws, remains of an old Model T, and historic log cabins. Available at park visitor centers or by visiting www.SmokiesInformation.org.
Clingmans Dome Road: 7-mile paved road leads to the Clingmans Dome trailhead. A very steep, half-mile walk takes you to Clingmans Dome tower and the highest point in the Smokies (6,645').

Cataloochee Valley: 8 miles from I-40 (including 3 miles on a narrow gravel road). The short road through the valley offers wildlife viewing (including elk) and access to a historic church, school, and homes.

Heintooga Ridge/Balsam Mountain Roads: You can combine these roads with the Blue Ridge Parkway for a scenic 47-mile loop from Oconaluftee Visitor Center that takes approximately 3-4 hours to complete.

Restrooms are available at all park campgrounds, visitor centers, picnic areas, Newfound Gap, and Great Smoky Mountains Institute at Tremont. Vault toilets, port-a-johns, and other facilities are also available at some of the most popular trailheads, including Clingmans Dome, Rainbow Falls, Grotto Falls, Abrams Falls, Alum Cave, and the Townsend "Wye."
JUNE 14 - AUGUST 9 2014

Park visitor centers are located at Cades Cove, Oconaluftee, Clingmans Dome, and Sugarlands.

Accessible to persons using wheelchairs.

Families who hike in the Smokies can now earn special stickers and collector pins as rewards. Pick up a “Hike the Smokies—For Families” booklet at any park visitor center to learn more.

CADES COVE

Because of slow moving traffic, it may take over an hour to drive the six miles from the start of Cades Cove Loop Road to programs at the Cades Cove Visitor Center/Cable Mill Historic Area.

Sundays

Junior Ranger Program: Blue & Gray
Meet at the Cades Cove Visitor Center area halfway around the Cades Cove Loop Road
1:00 p.m.
The army needs young folks to enlist for the union or confederacy. As a recruit you will learn about the life of a soldier. Join a park ranger to see how the Civil War affected communities such as Cades Cove.
Duration: 1 hour
Difficulty: Easy

WILD by Design
Meet at the Cades Cove Visitor Center area halfway around the Cades Cove Loop Road
2:30 p.m.
A talk and hands-on demonstration about the wild things in the park.

Sugarlands Visitor Center
2:00 p.m.
How do you become a park ranger? What does a park ranger do? Join a ranger to get these and other questions answered about this exciting and rewarding job.
Duration: 45 minutes

So You Want To Be A Park Ranger!
Sugarlands Visitor Center
2:00 p.m.
How do you become a park ranger? What does a park ranger do? Join a ranger to get these and other questions answered about this exciting and rewarding job.
Duration: 1 hour
Difficulty: Easy

Junior Ranger: Retiring the Colors
Sugarlands Visitor Center
6:45 p.m.
Do you know how to fold the American flag? Why does our flag have 13 stripes? When do you salute the flag? Discover the answers to these questions while assisting staff in “retiring the colors” in front of the Sugarlands Visitor Center.
Duration: 30 minutes

Saturdays
Junior Ranger: Lost and Gone Forever
Sugarlands Visitor Center
1:00 p.m.
What if there were no more birds? It happened 100 years ago to one species, the Passenger Pigeon, when the last one died in a zoo. Find out what lessons we can learn from the passing of the Passenger Pigeon.
Duration: 45 minutes

Junior Ranger: Bear-mania!
Sugarlands Visitor Center
3:00 p.m.
So you think you know a lot about bears, huh? Well join a ranger to test your knowledge and learn more about this “symbol of the Smokies.”
Duration: 45 minutes

ELKMONT/LITTLE GREENBRIER/METCALF BOTTOMS AREA

Sundays
Songs and Stories of the Smokies
Elkmont Amphitheater
8:00 p.m.
The Great Smoky Mountains have a long tradition that is captured in songs and stories. Join a ranger in an old-fashioned sing along and listen to some stories that connect us to the natural world around us.
Duration: 45 minutes

Mondays
Junior Ranger: Stream Splashers
Elkmont: Little River Trailhead
11:00 a.m.
Roll up your pants and wade through a mountain stream to look for mayflies, stoneflies, dragonflies and other aquatic critters. Be prepared to get wet. Closed-toed shoes that can get wet are recommended.
Duration: 1-1 ½ hours
Difficulty: Easy

Tuesdays
Junior Ranger: School Days at Little Greenbrier
Little Greenbrier Schoolhouse
11:00 a.m. & 2:00 p.m.
Go back in time to discover what it was like to live in a mountain community and go to school in a one-room schoolhouse. Fun for all ages. Please arrive 15 minutes before program start; space is limited.
Duration: 1 hour
**Wednesdays**

**Junior Ranger: Creepy Critters**

*Metcalf Bottoms Picnic Area Pavilion*

11:00 a.m.

Join a Ranger on this adventure into the dark and mysterious world of bugs and macro-invertebrates. Get up close and personal with the use of equipment such as “sucky-uppy-things”, leaf litter boxes and magnifying glasses. Close-toed shoes that can get wet are recommended since we will be taking a short walk into the forest.

**Duration:** 1-1 ½ hours  
**Difficulty:** Easy, ½ mile

**Junior Ranger: Bein’ A Kid in the Mountains Schoolhouse Hike**

*Metcalf Bottoms Picnic Area Pavilion*

1:00 p.m.

What was it like to grow up in these mountains before any of the modern conveniences we enjoy today? Join a ranger to experience how life used to be in these mountains, including how kids explored and what they liked to do for fun. Be prepared for a short hike.

**Duration:** 2 hours  
**Difficulty:** Easy, 1 ½ miles

**Thursdays**

**Junior Ranger: Family Adventure**

*Elkmont: Little River Trailhead*

11:00 a.m.

Not sure how to explore the Smokies with the whole family? Learn hiking basics and exploration techniques that are ranger tested and kid-approved. Wear sturdy hiking boots; bring plenty of water and a lunch. Park Visitors will have the option to turn around if they prefer a shorter distance.

**Duration:** Up to 3 hours  
**Difficulty:** Moderate, up to 5.6 miles

**Fridays**

**The Natural World of Elkmont**

*Elkmont Campground Bridge*

5:30 p.m.

Walk with a ranger along the Elkmont Nature Trail to discover some unique facts about this part of the Smokies.

**Duration:** 1 hour  
**Level:** Easy

**Legends of the Cherokee**

*Elkmont Campground Amphitheater*

8:00 p.m.

Join a ranger for an introduction into Cherokee history, lore, and rituals.

**Duration:** 45 minutes

**Saturdays**

**Old Elkmont**

Meet behind Elkmont Campground entrance station

9:00 a.m.

Take a morning stroll with a ranger and learn about Elkmont when it was a turn-of-the-century logging boom town.

**Duration:** 1 ½ hours  
**Level:** Easy

**The Tree Army**

*Elkmont Amphitheater*

8:00 p.m.

When Great Smoky Mountains National Park was created in the 1930s, the Civilian Conservation Corps was responsible for building trails, controlling fires, and developing facilities such as campgrounds and picnic areas. Join a ranger to learn more about the legacy of the CCC.

**Duration:** 45 minutes

**CLINGMANS DOME AREA**

**Tuesdays**

**Andrews Bald Hike for Families**

*Forney Ridge Trailhead at Clingmans Dome parking area*

10:00 a.m.

Toss your day pack in the car and join a ranger on a 3.6 mile round trip stroll through one of the Smoky Mountains most well-known ecosystems. This hike will take you out to Andrews Bald on a moderate trail losing about 600 feet in elevation. You can leisurely hike back to the parking lot on your own after reaching the bald. Sturdy footwear, a snack, and water recommended.

**Duration:** 3 hours  
**Difficulty:** Moderate

**OCONALUFTEE/SMOKEMONT AREA**

**Daily**

**Mingus Mill Demonstration**

Located a half-mile north of the Oconaluftee Visitor Center on US 441 (Newfound Gap Road)

9:00 a.m. to 5:00 p.m.

Chat with a miller and feel the rumble of this historic gristmill in action.

**Mountain Farm Museum**

*Adjacent to the Oconaluftee Visitor Center*

Dawn to Dusk

Walk down to the farm for a glimpse into the past. Self-guiding brochures are always available and some days you may find demonstrations such as blacksmithing, hearth cooking, gardening, or weaving taking place.

**Sundays**

**Junior Ranger: What’s bugging you?**

*Meet at the Tree Cookie Area adjacent to Oconaluftee Visitor Center*

1:00 p.m.

Should we squash the spider and swat the bee? Or move out of their way and let them do their work?

**Duration:** 40 minutes

**Welcome Home!**

*Porch of the Oconaluftee Visitor Center*

3:00 p.m.

After more than a century of absence, the elk have returned. Relax, have a seat on the visitor center porch and hear the story of the return of the largest mammal in the Great Smoky Mountains.

**Duration:** 45 minutes

**Junior Ranger: Smoky Mountain Elk**

*Palmer House, Cataloochee Valley*

5:30 p.m.

It’s all about connection and balance in nature to insure survival for elk and other species living together in an ecosystem. Learn about the history of the elk through “show and tell” activities. Then stay and watch the elk come into in the fields!

**Duration:** 45 minutes

**Junior Ranger: Night Hike**

*Bradley Fork Trailhead, D-Loop Smokemont Campground*

8:45 p.m.

Ever wonder what goes “grrrr” in the night? What creatures are out there moving under the cover of darkness? Take a walk on the dark side with a Ranger and learn about some of the mysteries and wonders found only after the sun goes down. Limited to 25 participants. Call (828) 497-1904 up to four days in advance to make reservations.

**Duration:** Approximately 1 hour  
**Difficulty:** Easy, less than 1 mile

**Mondays**

**Junior Ranger: Smoky Mountain Trivia**

*Oconaluftee Visitor Center Porch*

10:00 a.m.

Bring your thinking cap and join a Ranger on the OVC porch for a friendly game of trivia, Great Smoky Mountains style!

**Duration:** 1 hour  
**Difficulty:** Easy

**Junior Ranger: Stream Splashing**

*Oconaluftee River adjacent to Oconaluftee Visitor Center*

2:00 p.m.

Roll up your pants and wade through a mountain stream to look for mayflies, stoneflies, dragonflies, and other aquatic critters. Be prepared to get wet.

Closed-toed shoes recommended.

**Duration:** 1 ½ hours  
**Difficulty:** Easy

**Nature Bingo**

*Smokemont Campground, between C-Loop and D-Loop*

7:00 p.m.

Join a Ranger to explore the lore and wisdom of some of our park’s residents and test your knowledge as your group works to complete their card and be the first to yell “BINGO!”

**Duration:** 1 hour
Tuesdays

**Junior Ranger: Pack Your Day Pack**
Meet at the Tree Cookie Area adjacent to Oconaluftee Visitor Center
10:00 a.m.
Scenic vistas, waterfalls, and home sites...Let’s hit the trail! But, wait....what should we take with us? Join a ranger and learn the knack of what to pack before you make tracks!
Duration: 45 minutes
Difficulty: Easy

**Eekk! Bats!**
**Porch of the Oconaluftee Visitor Center**
12:00 p.m.
Do they really suck blood? Do they really get caught in your hair? Are they friend or foe? Let the Ranger tell you the truth about these amazing creatures and the enemy among them.
Duration: 45 minutes
Difficulty: Easy

**Junior Ranger: Lost and Gone Forever**
Meet at the Tree Cookie Area adjacent to Oconaluftee Visitor Center
3:00 p.m.
What if there were no more birds? It happened 100 years ago to one species, the Passenger Pigeon, when the last one died in a zoo. Find out what lessons we can learn from the passing of the Passenger Pigeon.
Duration: 45 minutes
Difficulty: Easy

**Aliens Among Us**
**Porch of the Oconaluftee Visitor Center**
12:00 Noon
Do coyotes belong here? And do lady beetles? What’s killing the trees? How did it get here? Join a ranger and uncover the mysteries of aliens both wanted and unwanted!
Duration: 40 minutes

**Junior Ranger: Everything But the Squeal: Hogs on the Mountain Farm Museum**
Mountain Farm Museum adjacent to the Oconaluftee Visitor Center
1:00 p.m.
If corn was the heart of the mountain farm diet, pork was the soul. Raising hogs and preserving the meat was an art in the past and still is today. Explore the real value of the farm pig to people of the past.
Duration: 40 minutes

**Awww...Shucks!**
Mountain Farm Museum adjacent to the Oconaluftee Visitor Center
3:30 p.m.
Corn was an essential element of mountain life a hundred years ago. All parts of the corn were used, even the shucks. Come join park staff and discover how versatile corn can be!
Duration: 40 minutes

**Junior Ranger: Do You Have Power?**
Oconaluftee Visitor Center Porch
11:00 a.m.
What wears a fur coat, is about the size of a breadbox, greets each other with nose kisses but has never been to the North Pole and lives in the Smokies? They are under-appreciated but often observed. Join park staff to find the answer—you just may be surprised.
Duration: 40 minutes

**Junior Ranger: Blacksmithing**
Mountain Farm Museum Blacksmith Shop adjacent to Oconaluftee Visitor Center
10:00 a.m., 10:30 a.m. 11:00 a.m., 11:30 a.m.
Learn a new skill. Be a blacksmith and create your own item to take home. Limited to ages 10-12. Other Junior Ranger programs will be going on simultaneously for younger kids.
Duration: 30 minutes

**Oconaluftee River Trail Treasures**
Meet at the trailhead adjacent to the Oconaluftee Visitor Center
3:00 p.m.
Ever wonder what treasures can be found here in the Smokies? Every trail has something to offer each visitor to Great Smoky Mountains National Park. Come discover what this trail has to offer you this summer.
Duration: 1 hour
Difficulty: Easy, 1 mile

**Smokemont Night Hike**
Bradley Fork Trailhead, D-Loop Smokemont Campground
8:45 p.m.
Move beyond the comfortable glow of the campfire and explore the Smokies nightlife. Limited to 25 participants. Call 828/497-1904 up to four days in advance to make reservations.
Duration: Approximately 1 hour
Difficulty: Easy, less than 1 mile

**The “What Is It!” Walk**
Mountain Farm Museum adjacent to the Oconaluftee Visitor Center
Starting June 28 at 10:00 a.m.
We all ask “What is it?” many times. The mountain farm museum has an abundance of items that leave us with more questions than answers. Join a ranger to learn just what they are! Meet on the porch of the OVC.
Duration: 45 minutes
Difficulty: Easy, ½ mile walk

**Junior Ranger: Stream Splashers**
Oconaluftee River adjacent to the Mountain Farm Museum
Starting June 28 at 2:00 p.m.
Roll up your pants and wade through a mountain stream to look for mayflies, stoneflies, dragonflies, and other aquatic critters. Be prepared to get wet. Closed toe shoes recommended.
Duration: 1 ½ hours
Difficulty: Easy

**Once upon a time...**
Smokemont Campground between C-Loop and D-Loop
Starting June 28 at 7:00 p.m.
...there was a Momma Bear, and a Poppa Bear and a Baby Bear...Is that true? Come discover the real world of the American black bear in Great Smoky Mountains—myths and legends, truth and fiction. You may or may not see one, but if you are lucky, you will be ready when you spot them. Bring a blanket or chair for an exciting evening.
Duration: 1 hour
Saving the Cherokee Language

Visitors to the town of Cherokee, NC have probably noticed that street names are displayed in both English and Cherokee. These signs are just a small part of a much larger effort by the Eastern Band of Cherokee Indians to save their language from extinction.

The Cherokee strongly believe that the preservation of their culture and identity depends on the survival of their native tongue. The Cherokee Indian Reservation is one of the park’s neighbors to the south.

Unfortunately, Cherokee is not a simple language to learn. Cherokee is from the Iroquoian family of languages and can be frustratingly complex. According to Duane King, former director of the Museum of the Cherokee Indian, Cherokee verbs may contain as many as a dozen morphemes and five semantic categories. In fact, a single verb “can have over 20,000 forms…” King estimates.

Yet the Eastern Band’s determination to save its language is bearing fruit. Funded in part by proceeds from Harrah’s Casino in Cherokee, the Kituwah Preservation and Education Program is providing language learning opportunities and teaching materials for children as young as six months. Participating pre-schoolers and some primary school students are immersed in the Cherokee language for as long as eight hours per day. These intensive teaching methods are so effective that youngsters grow up as fluent in Cherokee as they are English.

Cherokee High School students must also pass a course in Cherokee language and culture to graduate. A number of programs are available for adults as well, including classes at Western Carolina University for learning the language and teaching it to others. And thanks to seed money from Charles Frazier, author of Cold Mountain, Thirteen Moons, and Nightwood, the Yonaguska Literature Initiative was created to publish books in the Cherokee language.

If you would like to learn a bit more about the Cherokee language, the Oconaluftee River Trail between Oconaluftee Visitor Center and the town of Cherokee is a great place to begin. The 1.6-mile-long trail features colorful exhibit panels in both Cherokee and English that relate stories of the Cherokee’s ongoing relationship to the mountains.

As Indians we are the preservers of the Cherokee.

A staircase mural at Cherokee Central School System reads, in both Cherokee and English, “As Indians we are the preservers of the Cherokee.”
