America's Best Idea: The National Parks

Writer and historian Wallace Stegner called national parks “the best idea we ever had. Absolutely American, absolutely democratic, they reflect us at our best rather than our worst.”

The National Parks: America's Best Idea is a six-episode series directed by Ken Burns and written and co-produced by Dayton Duncan. The documentary series will premiere on September 27, 2009 on PBS.

During the month of September 2009, Grand Teton National Park will celebrate the legacy of the

National Park Service with special events, volunteer opportunities and previews of the film: *The National Parks: America's Best Idea*. Learn about more park events at <http://www.nps.gov/grte/supportyourpark/abi.htm>.

Program Highlights Include (schedules subject to change):

National Parks Film Festival
Sept. 2-6, 2009, free, call for times
Selection of national park-oriented films presented nightly.
LOCATIONS: Colter Bay Visitor Center & Craig Thomas Discovery

and Visitor Center.

National Public Lands Day
Sept. 26, free, call for times
Presentation of the 45-minute film *This is America* followed by volunteer projects throughout the park. Volunteer picnic follows at the Craig Thomas Discovery and Visitor Center.

The National Parks: America's Best Idea Film Premiere
Sept. 27, free
Jackson Lake Lodge, Explorer's Room. Live film broadcast from PBS on HDTV screen. Open to public.

ROADSIDE BEARS!

Bears feeding along roads quickly become habituated to cars and people, increasing their chances of being hit. Do not stop on the road to get closer to bears for their safety and yours.

- Use designated turnouts and stay in your car.
- Use binoculars or spotting scopes to view bears safely.
- Approaching wildlife is prohibited by law.
- Follow food storage regulations.
- Never feed a bear!

See page 5 for more information.

Pets in the Park?

To ensure that you and your pet enjoy a safe visit, follow all pet regulations while inside the park. Wildlife may be drawn to pets and their owners; pets can wander away and may never be found—the park is a wild place!

Pets are allowed inside Grand Teton National Park under the following conditions: they must be physically restrained at all times and are not permitted on hiking trails, inside visitor centers or other facilities. **Pets are not permitted on the multi-use pathway.**

See page 4 for more information

As You Drive, Keep Them Alive!

Annual Impacts of Vehicle Collisions with Wildlife

\$155,000 Personal property damage

100 Large animals killed annually

Slow Down! Stay Alert!

International Visitors

EXPERIENCE YOUR AMERICA™

The National Park Service cares for the special places saved by the American people so that all may experience our heritage.

GRAND TETON *National Park*

Yellowstone National Park Superintendent Horace Albright speaks at the 1929 Grand Teton National Park designation ceremony.

FEW LANDSCAPES IN THE WORLD are as striking and memorable as that of Grand Teton National Park. Rising abruptly from the valley floor, the Tetons offer a testament to the power and complexity of nature. The mountains, valleys, lakes, rivers and skies are home to diverse and abundant plants and animals.

People have been living in the shadow of the Teton Range for more than 11,000 years. The human history of this area is extensive, beginning with American Indian prehistoric life, to the early Euro- American explorers, and the more recent frontier settlement, of which more than 300 historic structures remain in the park.

This spectacular mountain range and the desire to protect it resulted in the establishment of Grand Teton National Park in 1929. Through the vision and generous philanthropy of John D. Rockefeller, Jr., additional lands were added, creating the present day park in 1950.

Grand Teton National Park is truly a special and unique place. With thoughtful use and careful management, it can remain so for generations to come. As with other sites in the National Park System, Grand Teton preserves a piece of the natural and cultural heritage of America for the benefit and enjoyment of future generations.

While you are here, take a moment

to put your cares aside, stroll through a sagebrush meadow, hike a park trail, sit on a quiet lakeshore, and lose yourself to the power of this place.

We hope you will be refreshed and restored during your visit, and stay connected to this magnificent landscape long after you have returned home.

THE NAME TEEWINOT comes from the Shoshone word meaning "many pinnacles." The name Teewinot probably once applied to the entire Teton Range, rather than just a single peak as it does today. Fritiof Fryxell and Phil Smith named Teewinot when they successfully completed the first ascent of the mountain in 1929. This jagged peak towers above Cascade Canyon and Jenny Lake.

Entrance Fees

Single Entry: \$25 - 7 Days

DETAILS: Good for both Grand Teton and Yellowstone national parks: \$25 per vehicle; \$12 per person for single hiker or bicyclist; \$20 per motorcycle.

Interagency Annual Pass: \$80 - Annual

DETAILS: The pass covers entrance and standard amenity recreation fees on public lands managed by four Department of the Interior agencies—the National Park Service, Fish and Wildlife Service, Bureau of Land Management, and the Bureau of Reclamation, and by the Department of Agriculture's U.S. Forest Service. The interagency pass is good at vehicle-based entry sites for all occupants in a single, non-commercial vehicle.

Interagency Senior Pass: \$10 - Lifetime

DETAILS: A lifetime pass for U.S. citizens 62 or older that offers entrance to all areas covered under the Interagency Annual Pass, non-transferable.

Interagency Access Pass: Free

DETAILS: A lifetime pass for citizens with permanent disabilities, offering entrance to all areas covered under the Interagency Annual Pass, non-transferable.

Grand Teton - Yellowstone Pass: \$50.00 - Annual

DETAILS: Allows entrance to Grand Teton and Yellowstone national parks for 12 months from date of purchase; non-transferable.

Local Passport: Satellite - \$5.00 - Annual

DETAILS: Sold in conjunction with the Grand Teton - Yellowstone pass or Interagency Annual Pass. Good for the duration of the partner pass. Valid for Grand Teton National Park only. Proof of affiliation is required.

Commercial Tour Fee: \$ variable - 7 Days

DETAILS: Good for both Grand Teton and Yellowstone national parks; non-transferable. Fee is based on the carrying capacity of the vehicle (driver not included). 1-6 carrying capacity: \$25 plus \$12 per person; 7-15 carrying capacity: \$125; 16-25 carrying capacity: \$200; 26 or more carrying capacity: \$300.

Teton Weather

Between the months of June through August the average daily temperature is 76°F, but high-elevation hiking trails do not melt out until mid-July. Nighttime temperatures can reach the lower 40s.

Dress in layers when recreating and be prepared for changes. Afternoon thunderstorms occur frequently during the summer. Since 1999, there have been 14 injuries and one fatality in the park due to lightning. Avoid mountain tops, ridges and open areas.

NOAA weather forecasts are available at www.weather.gov/riverton, on NOAA Weather Radio at 162.525 MHz, or by calling the National Weather Service at 1-800-211-1448.

Lightning Safety

Follow these guidelines to avoid lightning-related injuries.

- Afternoon storms are common in summer, get to a safe place before storms hit.
- Avoid mountain tops, ridges, open areas, and lone trees; forested areas with trees of similar height are safer.
- Do not stand on tree roots.
- If boating, get off the lake.
- The National Oceanic and Atmospheric Administration (NOAA) provides a variety of material and links through their website at: <http://www.lightningsafety.noaa.gov/outdoors.htm>. This site contains critical lightning safety and medical information.

Average Temperatures

Moose, WY

January	High 25.7 ° F	Low 1.2 ° F

Visitor Centers 2009

Craig Thomas Discovery & Visitor Center

Located in Moose, 1/2 mile west of Moose Junction. Open Daily. (307) 739-3399. Open year-round, closed Dec. 25th. May 2010 hours TBD.

Sept. 8-26 8 a.m. to 7 p.m.
Sept. 27-April 30 9 a.m. to 5 p.m.

Jenny Lake Visitor Center

Located 8 miles north of Moose Junction on the Teton Park Road. Open Daily. (307) 739-3392.

Sept. 8-Sept. 27 8 a.m. to 5 p.m.

Jenny Lake Ranger Station

Located 8 miles north of Moose Junction on the Teton Park Road. Open Daily. (307) 739-3343.

May 16-Sept. 20 8 a.m. to 5 p.m.

Colter Bay Visitor Center & Indian Arts Museum

Located 1/2 mile west of Colter Bay Junction on Highway 89/191/287. Open Daily. (307) 739-3594.

Sept. 8-Oct. 12 8 a.m. to 5 p.m.

Flagg Ranch Information Station

Located at Flagg Ranch, 16 miles north of Colter Bay on Highway 89/191/287.

Closed for the Season

Laurance S. Rockefeller Preserve Center

Located 4 miles south of Moose on the Moose-Wilson Road. Open Daily. (307) 739-3654.

Sept. 8-Sept. 27 8 a.m. to 5 p.m.

Jackson Hole/Greater Yellowstone Visitor Center

Located in Jackson at 532 N. Cache, visitor information for the greater Jackson Hole area. Open Daily.

For Wildlife Observers & Photographers

Seeing a grizzly bear or a moose for the first time is an exciting experience, but always keep safety in mind. Parking on the roadway slows traffic and may cause accidents. Avoid parking on vegetation (see photo) and use designated turnouts instead.

BE A RESPONSIBLE WILDLIFE OBSERVER. Approaching wildlife stresses animals and can endanger you and your family. During the summer of 2005, a child was suddenly kicked by a moose and seriously injured. Use binoculars, spotting scopes or long lenses for close views and photographs.

Always maintain a safe distance of at least 300 feet from large animals such as bears, bison, moose and elk. Never position yourself between an adult and its offspring. Females with young are especially defensive. It is illegal to feed wildlife, including ground squirrels and birds. Feeding wild animals makes them dependent on people, and animals often bite the hand that feeds them.

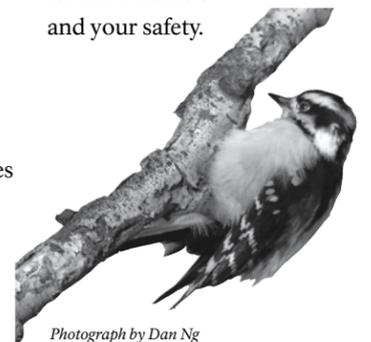

Let wildlife thrive undisturbed. Harassment is any human action that causes unusual behavior, or a change of behavior, in an animal. Repeated encounters with people can have negative, long-term

Always use designated turnouts when stopping to view wildlife.

impacts on wildlife, including increased levels of stress and the avoidance of essential feeding areas. Please remember, nesting birds are easily disturbed. For wildlife, raising young is a private affair. If an adult bird on a nest flies off at your approach, circles you, or screams in alarm—you are too close to the nest. Unattended

nestlings readily succumb to predation and exposure to heat, cold and wet weather.

Allow other visitors a chance to enjoy wildlife. If your actions cause an animal to flee, you have deprived other visitors of a viewing opportunity. Use an animal's behavior as a guide to your actions, and limit the time you spend with wildlife. Follow all park regulations and policies, they are designated for the wildlife's and your safety.

Photograph by Dan Ng

Campgrounds

All five park campgrounds and two trailer villages are operated by park concessioners.

CAMPGROUNDS

Campground fees are \$18-\$20 per night per site and half price for Senior/Access cardholders. Jenny Lake and Colter Bay have walk-in sites available. All campgrounds provide modern comfort stations, but do not include utility hookups (except for Colter Bay RV Park and Flagg Ranch Campground).

The maximum length of stay is seven days per person at Jenny Lake and 14 days at all other campgrounds—no more than 30 days in the park per year.

These campgrounds operate on a first-come, first-served basis and advance reservations are not accepted, except for group camping reservations and Colter Bay RV Park and Flagg Ranch Campground.

For campground status, contact entrance stations or visitor centers. Additional camping facilities are available in nearby national forests and other areas outside the park. Camping is not permitted within the park along roadsides, in overlooks, or in parking areas. Doubling up in campsites is not permitted, and there are no overflow facilities.

There are eight free campsites on Grassy Lake Road that have no potable water, nor toilets.

GROUP CAMPING

Reservations are available for group camping at Colter Bay and Gros Ventre campgrounds. The sites range in capacity from 10 to 100 people. Advance reservations are required and may be made through the Grand Teton Lodge Company at (800) 628-9988 or (307) 543-3100.

PUBLIC SHOWERS

The only public shower facilities in the park are located at Colter Bay Village in the laundromat.

RECYCLING CENTERS

Park concessioners Grand Teton Lodge Company and Signal Mountain Lodge collectively recycle more than 170 tons of material annually. When you stay in a park campground, please use the recycling containers to help keep Grand Teton National Park clean and pleasant for other campers.

PARK CAMPGROUNDS

Colter Bay Campground*
350 individual, 9 walk-in, 11 group
Open: May 22 to Sept. 27
\$19 per night, (800) 628-9988
Filling Time: rarely fills

Colter Bay Tent Village Park
66 tent cabin sites
Open: May 29 to Aug. 30
\$48 per night, (800) 628-9988
Filling Time: call for information

Colter Bay RV Park
112 RV sites
Open: May 22-Sept. 27
\$54 per night, (800) 628-9988
Filling Time: call for information
RV hookups available

Flagg Ranch Campground
175 individual sites, hook-ups
Open: May 23 to Sept. 21
\$25-\$50 per night, (800) 443-2311
Filling Time: call for information
RV hookups available

Gros Ventre Campground*
350 individual sites, 5 group
Open: May 8 to Oct. 9
\$19 per night, (800) 628-9988
Filling Time: rarely fills

Jenny Lake Campground (tents only)
50 individual sites, 10 walk-in sites
Open: May 15 to Sept. 27
\$19 per night, (800) 628-9988
Filling Time: 11 a.m.

Lizard Creek Campground
60 individual sites
Open: June 5 to Aug. 31
\$18 per night, \$5 for hiker/biker campers without vehicles, (800) 672-6012
Filling Time: rarely fills
30 foot vehicle max

Signal Mountain Campground*
81 individual sites
Open: May 8 to Oct. 18
\$20 per night, (800) 672-6012
Filling Time: mid-afternoon
30 foot vehicle max

* dump station available

Safety & Regulations

FIREWORKS

Fireworks and other pyrotechnic devices are prohibited at all times in the park.

PLANTS & ANIMALS

All plants and animals are part of natural processes and are protected within the park and parkway. Leave plants and animals in their natural setting for others to enjoy. Even picking wildflowers is prohibited. Keep a respectful distance from all animals to avoid disturbing their natural routines. Larger animals are quick, powerful and unpredictable. Getting too close can result in serious injury. Take special care to avoid encounters with wildlife and to help maintain their natural fear of humans. Many small animals can carry diseases and should never be touched or handled. Allow them to find their own food. Their natural diet ensures their health and survival. No matter how tempting it may be to give food to animals, feeding is prohibited.

HIKING

Hikers are reminded to stay on trails; shortcutting is prohibited because it damages fragile vegetation and causes erosion. Visitor centers sell topographic maps and trail guides. Know your limitations when traveling in the backcountry. If you are traveling alone, letting a friend or relative know your planned destination, route, and expected time of return will greatly increase your chance of survival in an emergency. Permits are not required for day hiking. Trailhead parking areas fill early during the day in July and August, so start your hike early to avoid parking problems. In early summer, many trails are snow-covered and you may need an ice axe.

FISHING

Whitefish and cutthroat, lake, and brown trout inhabit lakes and rivers of the park and parkway. Obtain fishing regulations at visitor centers.

A Wyoming fishing license is required for fishing in the park and parkway and may be purchased at Signal Mountain Lodge, Colter Bay Marina, Colter Bay Village Store,

Dornan's and Flagg Ranch Lodge. Fishing in Yellowstone National Park requires a separate permit (fee charged); purchase permits at Yellowstone visitor centers and ranger stations. The use of non-native baitfish is prohibited in all parks.

JACKSON LAKE

Contact visitor centers for information on the availability of services at Leek's, Signal Mountain and Colter Bay marinas. Low water levels will increase the risk of boats striking submerged objects and landforms that are normally well beneath the surface.

PERSONAL FLOTATION DEVICES (PFDs)

PFDs are strongly recommended for all persons in a private floating/boating party, and required in commercial vessels.

BOATING

Motorboats are permitted on Jenny (10 horsepower maximum) and Jackson lakes. Human-powered vessels are permitted on Jackson, Jenny, Phelps, Emma Matilda, Two Ocean, Taggart, Bradley, Bearpaw, Leigh and String lakes. Sailboats, water skiing and windsurfers are allowed only on Jackson Lake. For motorized craft, the fee is \$20 for a 7-day permit and \$40 for an annual permit; for non-motorized craft, the fee is \$10 for a 7-day permit and \$20 for an annual permit. Jet skis are prohibited on all waters within the park. Permits may be purchased at the Craig Thomas Discovery, Jenny Lake or Colter Bay visitor centers.

FLOATING THE SNAKE RIVER

Only human-powered rafts, canoes, dories and kayaks are allowed on the Snake River within the park and parkway. Registration (\$10 for a 7-day permit; \$20 for an annual permit) of non-motorized vessels is required and may be completed at the Craig Thomas Discovery, Jenny Lake or Colter Bay visitor centers. Read the launch site bulletin boards for current river conditions. On the surface, the Snake River may not seem very powerful, but only experienced floaters should attempt this swift, cold river that has many braided channels and debris jams.

BACKPACKING

Grand Teton National Park has more than 230 miles of trails of varying difficulty. Obtain the required, free backcountry permit for overnight trips at the Craig Thomas Discovery or Colter Bay visitor centers or the Jenny Lake Ranger Station. One-third of backcountry campsites in high use areas may be reserved in advance from January 1 – May 15; there is a fee of \$25 per reservation. Pets are not allowed on park trails or in the backcountry. **Backpackers must use park-approved bear-proof canisters when camping below 10,000 feet unless a bear box exists at the site. Obtain a free canister for use in the park when registering for your trip.**

CAMPFIRES

Campfires are allowed without a permit at designated campgrounds and picnic areas within installed or designated fire rings, unless fire restrictions are in effect. A permit may be obtained for campfires below the high water line of Jackson Lake at the Colter Bay Visitor Center. Campfires are prohibited in all other areas.

SWIMMING

Swimming is permitted in all lakes. There is a designated swimming beach at Colter Bay with picnic facilities; however, there are no lifeguards. The Snake River is a swift and cold river presenting numerous dangers; swimming is not recommended.

HOT SPRINGS

Thermal water can harbor organisms that cause a fatal meningitis infection and Legionnaires' disease. Exposing your head to thermal water by immersion, splashing, touching your face, or inhaling steam increases your risk of infection.

PETS

Pets must be restrained on a leash (6 feet or less) at all times. Pets are not allowed on park trails or in the backcountry (which begins six feet from roadways), in boats on the Snake River or lakes other than Jackson Lake, or in visitor centers. Pets are not allowed on ranger-led activities. Pets are

permitted (when restrained with a six foot or shorter leash) on maintained paved trails in the frontcountry (this does not include the multi-use pathway). Kennels are available in Jackson. Properly dispose of pet feces in garbage cans. **Pets are not permitted on the multi-use pathway.**

CLIMBING

There are many risks and hazards associated with climbing and mountain travel. Experience and good judgment are essential. The Jenny Lake Ranger Station is staffed from late May to late September by climbing rangers who can provide up-to-date weather and route conditions. Registration is not required for day climbs and cross-country hiking. Backcountry permits are required for all overnight climbs. The park DOES NOT check to see that you get safely out of the backcountry. Leave an agenda with friends or family. Solo backcountry travel is not advised.

BIKING

Bicycles are permitted on public roadways, the multi-use pathway and on the Colter Bay Marina breakwater. Ride on the right side of the road in single file and wear a helmet at all times. Riding bicycles or other wheeled vehicles in the backcountry, on- or off-trail, is prohibited. **Roadway shoulders are narrow—ride at your own risk.**

MULTI-USE PATHWAY

Only NON-MOTORIZED METHODS of transportation are permitted on the multi-use pathway. Persons with physical disabilities may use electric and battery operated transportation. The multi-use pathway is closed from dusk to dawn for wildlife and public safety.

PETS ARE NOT PERMITTED on the park pathway. Guide dogs—used for the sole purpose of aiding a person with physical disability—may travel on the pathway. Ask at a visitor center for suggestions on where to exercise your pet.

Interested in Park Employment?

HAVE YOU EVER THOUGHT ABOUT SPENDING A SUMMER WORKING IN A NATIONAL PARK? Summer seasonal positions are recruited during the winter months. A wide variety of positions provide unique challenges, and many rewards. Imagine yourself fighting wild fires, maintaining backcountry trails, patrolling the Snake River in a boat, providing guided ranger hikes, or assisting a park biologist with wolf research.

To view and apply for vacancy announcements for all federal jobs visit www.usajobs.gov. For a list of available

jobs in the Department of Interior, including the National Park Service see <http://www.doi.gov/doijobs/jobs.html>. Positions posted for Grand Teton National Park can be found under jobs listed in Moose or Moran, Wyoming. You can also learn about vacancy announcements at <http://www.nps.gov/grte/supportyourpark/employ.htm>. For jobs in fire management, log on to www.tetonfires.com and click on job opportunities. Go to www.nps.gov/grte/supportyourpark/upload/OF510-fedres.pdf to learn how to apply for federal jobs.

Floating the Snake River

THE SNAKE IS A COMPLEX RIVER TO FLOAT.

The beauty and lack of whitewater lulls floaters into inattentiveness. A tangle of channels and constant shifting of logjams present difficulties found on few whitewater rivers. Accidents are common. Use caution whenever you float.

Even boaters frequently floating the Snake should check conditions before every trip, as the river can change overnight. River flow varies greatly throughout the summer. Water depth averages two to three feet, although it exceeds 10 feet in some locations. Boulders and bottom irregularities

can cause standing waves up to three feet high.

For information on Snake River flows, call 1-800-658-5771. For floating regulations and river information, stop by a visitor center and request a floating bulletin.

Don't Feed the Bears!

A sow grizzly bear and her three cubs cross a park road. Drive with caution throughout the park and watch for wildlife along the roadways for your safety and theirs. Photograph by Gary Pollock.

BEARS & FOOD

Bears can be anywhere in the park at any time. Bears may become aggressive after just one encounter with human food.

Odors attract bears into campgrounds and picnic areas. Regulations require that all food, garbage, toiletries, pet food, coolers and food containers (empty or full), and cookware (clean or dirty) be stored in a hard-sided vehicle with the windows rolled up or bear-resistant food locker when not in immediate use, day or night.

The park requires campers to store food in approved bear-resistant food canisters while

backcountry camping below 10,000 feet. Failure to follow regulations is a violation of federal law and may result in citations and fines.

Do not leave food, garbage or coolers in the open bed of a truck or on the exterior of any vehicle.

KEEP A CLEAN CAMP

- Keep a clean camp! Improperly stored or unattended food will be confiscated and you could be fined.
- Treat odorous products such as soap, toothpaste, fuel products, suntan

lotion, and bug repellent in the same manner as food.

- Never store food, garbage or toiletries in tents or sleeping bags.
- Place all trash in bear-resistant garbage dumpsters.
- Pets must be kept on a leash (6' or less in length) and never left unattended.
- Immediately report careless campers and all bear sightings to the campground kiosk or nearest ranger.
- Bears that receive human food often become aggressive and must be killed.

Help keep park bears wild!

Be Bear Aware

Help us keep our bears wild and healthy. Don't leave backpacks, coolers, or bags containing food unattended for ANY amount of time.

Even food that is left out accidentally can mean removal or death for a bear. Report all bear sightings and incidents to a visitor center or ranger station.

Stay Safe in Bear Country

BE BEAR AWARE

Follow these guidelines to make your hike and camp safer. They are for your protection and for the preservation of the bear, a true sign of wilderness.

Make Noise in Bear Country

Grizzly and black bears live in the park and parkway. Some of the most popular trails travel through excellent bear habitat. Bears will usually move out of the way if they hear people approaching, so make noise. Don't surprise bears! Bear bells are often not sufficient. Calling out and clapping your hands at regular intervals are the best ways to make your presence known. Some trail conditions make it hard for bears to hear, see, or smell approaching hikers. Be particularly careful near streams, when it's windy, in dense vegetation, or in any circumstance that limits line of sight (i.e. a blind corner or rise in the trail).

Never Approach a Bear

Individual bears have their own personal space requirements, that vary depending on their mood. Each bear will react differently and their behavior cannot be predicted. All bears are wild and dangerous and should be respected equally.

Keep children close by. Hike in groups and avoid hiking early in the morning, late in the day or after dark.

- Never leave your backpack unattended!
- Never allow a bear to get human food. If approached by a bear while eating, put food away and retreat to a safe distance.
- Never abandon food because of an approaching bear. Always take food with you.
- Never throw your pack or food at a bear in an attempt to distract it.

If You Encounter a Bear

Do not run; bears can easily outrun you. Running may cause an otherwise non-aggressive bear to attack.

- If the bear is unaware of you, keep out of sight and detour behind and downwind of the bear.
- If the bear is aware of you but has not acted aggressively, slowly back away.
- Do not drop your pack! This teaches bears how to obtain human foods and often means the bear must be killed.
- Do not climb trees. All black bears, all grizzly cubs, and some adult grizzlies can climb trees.

If a Bear Approaches or Charges You

Do not run! Most bear attacks result from surprise encounters when the bear is defending their young or defending a food source such as a carcass. Some bears will bluff their way out of a threatening situation by charging, then veering off or stopping abruptly. Bear experts generally recommend standing still until the bear stops and then slowly backing away. If you are attacked, lie on the ground completely flat on your stomach. Spread your legs slightly and clasp your hands over the back of your neck. Do not drop your pack as it can protect your back if attacked. Do not move until you are certain the bear has left.

In rare cases, bears have attacked at night or after stalking people. These types of attacks are very serious because it may mean the bear is looking at you as prey. If you are attacked at night or if you feel you have been stalked and attacked as prey, fight back. Use your bear spray, or shout and try to intimidate the bear with a stick or rock. In this type of situation, do whatever it takes to let the bear know you are not easy prey.

Please stop by a park visitor center for more information.

If You Carry Bear Spray

- Bear spray has been shown to be extremely effective in deterring bear attacks.
- Use bear spray. Personal self-defense pepper spray is not effective.
- Keep the canister immediately available, not in your pack.
- Wind, rain, cold temperatures, and using expired canisters can decrease the effectiveness of bear spray.
- Follow the manufacturer's instructions, know how to use the spray, and be aware of its limitations, including the expiration date.
- If you use the spray to stop a bear, leave the area immediately.
- It is not a repellent! Do not spray it on people, tents, or backpacks.
- Under no circumstances should bear spray create a false sense of security or serve as a substitute for standard safety precautions in bear country.

*Remember:
It all smells to a bear.
Please take care.
Lock it up!*

WHAT KIND OF BEAR DID YOU SEE? Both grizzly bears and black bears live in the park and parkway. Color is misleading – both species can vary from blonde-black.

Black Bear

- No distinctive shoulder hump
- Face profile is straight from nose to tip of ears
- Ears are tall and pointed
- Front claws are short and curved (1-2" long)

Grizzly Bear

- Distinctive shoulder hump
- Face profile appears dished in
- Ears are short and rounded
- Front claws are long and less curved (2-4" long)

Visit Moose District

Program schedules may change at any time

Moose is located 12 miles north of Jackson, Wyoming. Please see the park map on page 16 to help you plan your trip to the Moose District. Enjoy a variety of trails, activities, scenic drives and ranger programs as well as unique historic districts and iconic views of the Teton Range.

Visitor Areas

CRAIG THOMAS DISCOVERY & VISITOR CENTER

Visit the Discovery Center for trip planning, weather, permits and camping information. Experience the video rivers and talk to a park ranger about what to see and do. Shop at the Grand Teton Association bookstore for gifts, educational books and postcards. The visitor center is open daily Sept. 8-26 from 8 a.m. to 7 p.m., for winter hours see page 3.

MENOR'S FERRY HISTORIC DISTRICT

Take a self-guided tour around the historic

district and learn about Jackson Hole history through pictorial displays at the Maud Noble Cabin. Visit the General Store (open May 22-Sept. 27 daily 9 a.m. to 5 p.m.) and purchase turn-of-the-century-themed goods. Join a ranger for a guided walk through the district to learn more, see program schedule below.

MORMON ROW

Take a self-guided tour through the remaining buildings of this once vibrant community. Pick up a brochure near the "Pink House." Originally called Grovont, "Mormon Row" was a community of

homesteads, a church, school and swimming hole. Members of the Church of Latter-Day Saints settled this area around the turn of the last century.

MULTI-USE PATHWAY

Bike, walk or rollerblade on the multi-use pathway. Access the pathway from Moose or Taggart Lake Trailhead. The pathway extends from Dornan's to South Jenny Lake. Bike rentals are available at Dornan's near Moose or in the town of Jackson. Special regulations apply, see page 4.

Moose District Ranger Programs (All programs are great family activities)

Event	Description	Meeting Place	Date/Time Duration	Sun	Mon	Tues	Wed	Thu	Fri	Sat
Map Chat	From the park's geologic story to learning about the variety of wildlife that call this park home, this program will give you insight to the stories behind the scenery. Wheelchair accessible.	CTDVC Fireplace	Sept. 8-Sept. 30 11:30 a.m. 30 minutes	■	■	■	■	■	■	■
A Walk into the Past	Discover the story of Menors Ferry Historic District and find out how early settlers crossed the Snake River on a cable ferry. Wheelchair accessible trail. ROUNDRIP DISTANCE: less than a mile. DIFFICULTY: Easy.	Menors General Store	Sept. 8-Sept. 15 1:30 p.m. 45 minutes	■	■	■	■	■	■	■
Wildlife Caravan	Travel with a ranger to see wildlife during the best time of day for viewing. Be prepared to drive or ride to multiple locations. Dress warmly and bring binoculars or spotting scopes. Limited to 10 vehicles. Reservations are required. Please call the Craig Thomas Discovery and Visitor Center, 739-3399, or make reservations in person. Ride sharing will be strongly encouraged.	CTDVC Flagpole	Sept. 8-Sept. 30 5 p.m. 3 hours	■	■	■	■	■	■	■

Explore Jenny Lake District

Program schedules may change at any time

South Jenny Lake is located 8 miles north of Moose. Please see the park map on page 16 to help you plan your trip to the Jenny Lake District. Explore Jenny Lake for convenient access to two glacially-formed lakes and invigorating hikes while enjoying dramatic mountain scenery.

Visitor Areas

SOUTH JENNY LAKE

Visit the Jenny Lake Visitor Center for trip planning, weather and camping information. Learn about Teton Range geology through interactive exhibits and a short geology film. Shop at the Grand Teton Association retail area for gifts, educational books and postcards. The visitor center is open daily Sept. 8-27 from 8 a.m. to 5 p.m. The South Jenny Lake area includes a general store, restrooms, trailhead access, boat launch, the Exum Mountain Guide office and a ranger station. The Jenny Lake Ranger Station provides backcountry and climbing

information and overnight permits. The ranger station is open from May 16-Sept. 20 from 8 a.m. to 5 p.m. Take a shuttle boat across Jenny Lake (Roundtrip/One-way: adult \$10/\$7, child (2-11) \$5/\$5, under 2 years, over 80 free), closes September 30.

NORTH JENNY LAKE

Swim in the seasonally warm waters of String Lake and then enjoy a picnic along the shore at the String Lake picnic area. Flush and pit restrooms available. Park at the String Lake Trailhead and hike across a rustic wooden bridge through a burned area and view the

regeneration of a forest. Launch your canoe or kayak from the String Lake canoe launch, look for the launch area sign just after the String Lake Trailhead parking lot. Or enjoy lunch at the Jenny Lake Lodge located just past the North Jenny Lake Junction on the scenic one-way road.

PARKING

Parking at South Jenny Lake is highly congested and often full from 10 a.m. to 2 p.m. Plan accordingly. Watch for pedestrians.

Jenny Lake District Ranger Programs (All programs are great family activities)

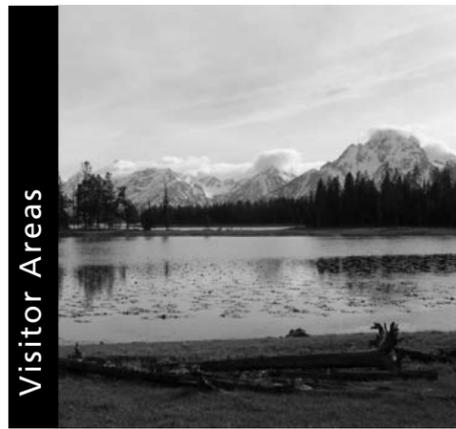

= accessible programs

Event	Description	Meeting Place	Date/Time Duration	Sun	Mon	Tues	Wed	Thu	Fri	Sat
Inspiration Point Hike	Learn about the creation of this magnificent landscape on a hike to Hidden Falls and a viewpoint above Jenny Lake. We will take a shuttle boat across Jenny Lake. This activity is first-come, first-served and is limited to 25. This is a great activity for families! Please obtain a token for each member of your group at the Jenny Lake Visitor Center prior to meeting the ranger. Boat Fare (Roundtrip/One-way): adult \$10/\$7, child (2-11) \$5/\$5, under 2, over 80 free. ROUNDRIP HIKE DISTANCE: 2 miles. DIFFICULTY: Moderate uphill. Spend Time in Colter Bay District

Program schedules may change at any time

Colter Bay is located 25 miles north of Moose. Please see the park map on page 16 to help you plan your trip. The Colter Bay District provides some of the best wildlife viewing opportunities in the park as well as a wide range of visitor services and trails.

JACKSON LAKE LODGE

Even if you are not staying overnight at the Jackson Lake Lodge, the historic building is worth a visit. Large mural windows showcase views of Jackson Lake and the northern Teton Range. Wildlife such as black and grizzly bears and moose are frequently seen from the lodge. Enjoy gift stores, a corral, restaurants, a bar and trail access.

COLTER BAY

Visit the Colter Bay Visitor Center for trip planning, weather, permits and camping information. Shop at the Grand Teton

Association bookstore for gifts, educational books and postcards. The visitor center is open daily from Sept. 8-Oct. 12 from 8 a.m. to 5 p.m..

Enjoy lunch on the lakeshore at the picnic area or take a hike on one of the area trails for great opportunities to see wildlife. You will also find an RV park, cabins, restaurant, general store, laundromat, service station and showers.

INDIAN ARTS MUSEUM

Visit the David T. Vernon Indian Arts

Museum at the Colter Bay Visitor Center to view a priceless collection of Indian artifacts. Rangers present three different programs during the week and visiting Indian artists from around the country demonstrate and sell their artwork in the lower level of the museum throughout the summer.

JOHN D. ROCKEFELLER, JR. MEMORIAL PARKWAY

Access trails and the Flagg Ranch Resort, store, campground and restaurant. Please be aware that construction delays up to 30 minutes will be in effect during the fall.

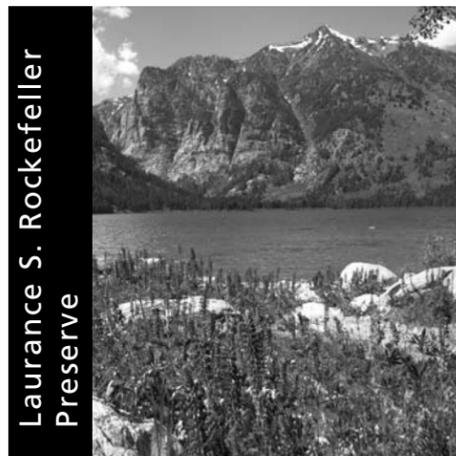

Colter Bay District Ranger Programs

Event	Description	Meeting Place	Date/Time Duration	Sun	Mon	Tues	Wed	Thu	Fri	Sat
Oxbow Bend Wildlife Watch	Join a ranger at the Oxbow Bend Overlook for an evening wildlife watch. Stop by anytime from 6:00 pm. – 7:30 p.m. to scan the Oxbow for birdlife and large mammals.	Oxbow Bend	Sept. 8-Sept. 25 Anytime 6-7:30 p.m.	■	■	■	■	■	■	■

Experience the Laurance S. Rockefeller Preserve

The Preserve is located four miles south of Moose on the Moose-Wilson Road. The Preserve provides a unique opportunity to connect with nature in an environment designed to reduce congestion and provide an opportunity for solitude and reflection.

PARKING

Parking often fills from 10 a.m to 3:00 p.m. —consider carpooling or biking to help alleviate congestion and reduce our environment footprint.

LAURANCE S. ROCKEFELLER PRESERVE CENTER

Visit the center to learn more about Mr. Rockefeller's vision for the Preserve and his legacy of conservation stewardship. The center will orient you to the area and offers a series of unique sensory exhibits, which highlight the visual, auditory, and tactile qualities of the Preserve's plants and

wildlife. Learn about the innovative design techniques and features that make the center a model for energy and environmental design. Open daily, hours from September 8-27 are 8 a.m. to 5 p.m. The Preserve adheres to the principles of "Leave No Trace"—plan to pack out your trash. No sales area and no permits issued.

PRESERVE TRAILS

The Preserve offers an 8-mile trail network that provides access to the extraordinary views of Phelps Lake and the Tetons, as well as other scenic and ecological features. Immerse yourself by quietly walking the

trails and opening your senses to the sights, smells, sounds, and textures of the various natural communities found within the Preserve. The trails will lead you along Lake Creek, Phelps Lake, and adjacent ridges, and through aspen and conifer forests, wetlands, and sagebrush meadows. Watch for deer, elk, moose, and black bear. A composting toilet and benches are available at Phelps Lake.

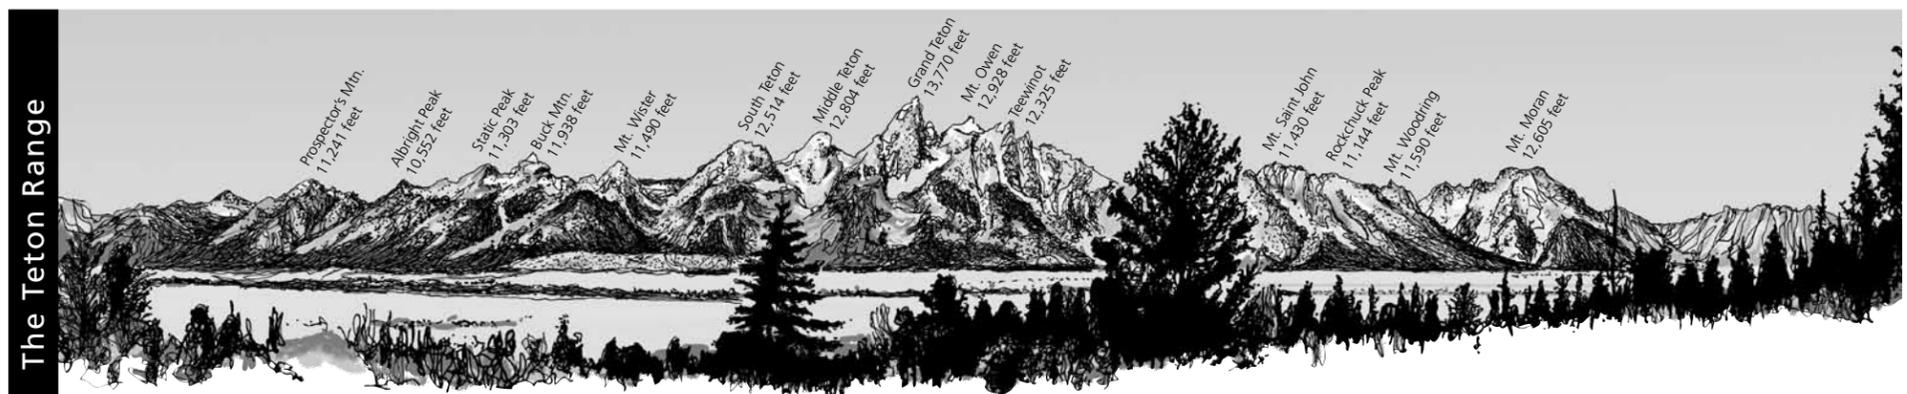

RANGER PROGRAMS

Join a ranger for a deeper understanding of Laurance S. Rockefeller's vision and gift. Program times are listed below.

Laurance S. Rockefeller Preserve Ranger Programs

= accessible programs

Event	Description	Meeting Place	Date/Time Duration	Sun	Mon	Tues	Wed	Thu	Fri	Sat
Autmn at the Preserve	Join a ranger to hear about the exciting changes that happen with animals and plants during the change in seasons. Wheelchair accessible. Stop by anytime between 11:30 a.m. and 1 p.m.	Laurance S. Rockefeller Preserve Center Porch	Sept 8-Sept. 27 Anytime 11:30 a.m. to 1 p.m.	■	■	■	■	■	■	■
Building Green	Learn about the innovative design techniques and sustainable features that make the Laurance S. Rockefeller Preserve a model for energy and environmental design. Wheelchair accessible. Explore the Preserve Hike	Open your senses and immerse yourself in the pristine setting of the Preserve. Hike the Lake Creek Trail through forest and meadows to the shore of Phelps Lake, which affords dramatic views of the Teton Range. Reservations recommended; call (307) 739-3654. Bring water, rain gear, sunscreen and insect repellent. GROUP SIZE: 10. ROUND TRIP DISTANCE: 3 miles. DIFFICULTY: Easy/Moderate. TIME: 2 to 2.5 hours.	Laurance S. Rockefeller Preserve Center Porch	Sept 8-Sept. 27 9:30 a.m.	■	■	■	■	■	■	■

Save the Pika!

By Grand Teton National Park Green Team

The American pika. Photograph by Rebecca Wiles.

American pikas—small rabbit-like animals typically found in high mountain environments on rocky slopes—may become the first mammal in the Lower 48 to be protected under the Endangered Species Act because of climate change. Pikas can only survive in a very narrow range of environmental conditions. In the Rocky Mountain region pika populations have been declining significantly since the mid-1990s.

The National Park Service is concerned about how climate change will affect our national parks. Grand Teton National Park has implemented green programs to improve environmental quality and energy efficiency. Park employees are committed to increasing sustainable and climate-friendly operations. In 2008, the park formed a “Green Team” to

focus on energy and water conservation, transportation, recycling, and education for employees and park visitors.

Green programs at Grand Teton include: installing Energy Star appliances; replacing incandescent lights with compact fluorescent bulbs; and recycling office paper, aluminum, cardboard and other common products. Whenever possible, hazardous materials are being replaced with greener options. All new construction will be Leadership in Energy and Environmental Design (LEED) certifiable by the Green Building Council. And in 2008, the park began purchasing 100% green electrical power.

WHAT CAN YOU DO WHILE VISITING GRAND TETON NATIONAL PARK AND AT HOME?

CONSERVATION MEASURE

WHY IS IT IMPORTANT?

WHAT YOU CAN DO

Conserve Energy

There are many environmental and social impacts associated with energy production and consumption, including: air pollution, acid rain, global warming, oil spills and water pollution.

- At your hotel or in your camper:
- Limit heating and cooling by dressing appropriately for the weather
 - Turn off lights when leaving
 - Turn off the TV—enjoy the scenic viewing opportunities in Grand Teton National Park!

Conserve Water

Large amounts of energy and chemicals are needed to treat both tap water and waste water.

- At your hotel or in your campsite:
- Take shorter showers
 - Turn the faucet off when brushing your teeth
 - Report leaky faucets, pipes, or other water-wasters

Practice No Idling

Idling consumes more fuel and produces more CO² than restarting your car.

Turn the car off if you are idling more than 10 seconds – especially in construction zones!

Reduce/Reuse

Vast quantities of resources are used to manufacture, package and transport products. Once you are finished with it, it may end up in our overburdened landfills.

- Say “No, thank you” to bags at store checkout
- Use reusable water bottles and coffee mugs
- Consider: What is the true environmental cost of this purchase and its disposal?

Recycle

Bins are located at visitor centers and campgrounds

Recycling conserves resources and consumes less energy than manufacturing from virgin products. For example: recycling one aluminum can uses 1/5 the resources of producing a new can.

Recycling also decreases emissions of greenhouse gasses that contribute to global climate change.

- The park recycles:
- Newspaper/magazines/catalogs
 - Office paper
 - Corrugated cardboard
 - #1/#2 plastic bottles
 - Aluminum/tin/steel
 - One-pound propane canisters

Enjoy local, organic offerings at restaurants

Non-local food sources have hidden environmental costs as a result of producing, harvesting, transporting, storing and selling.

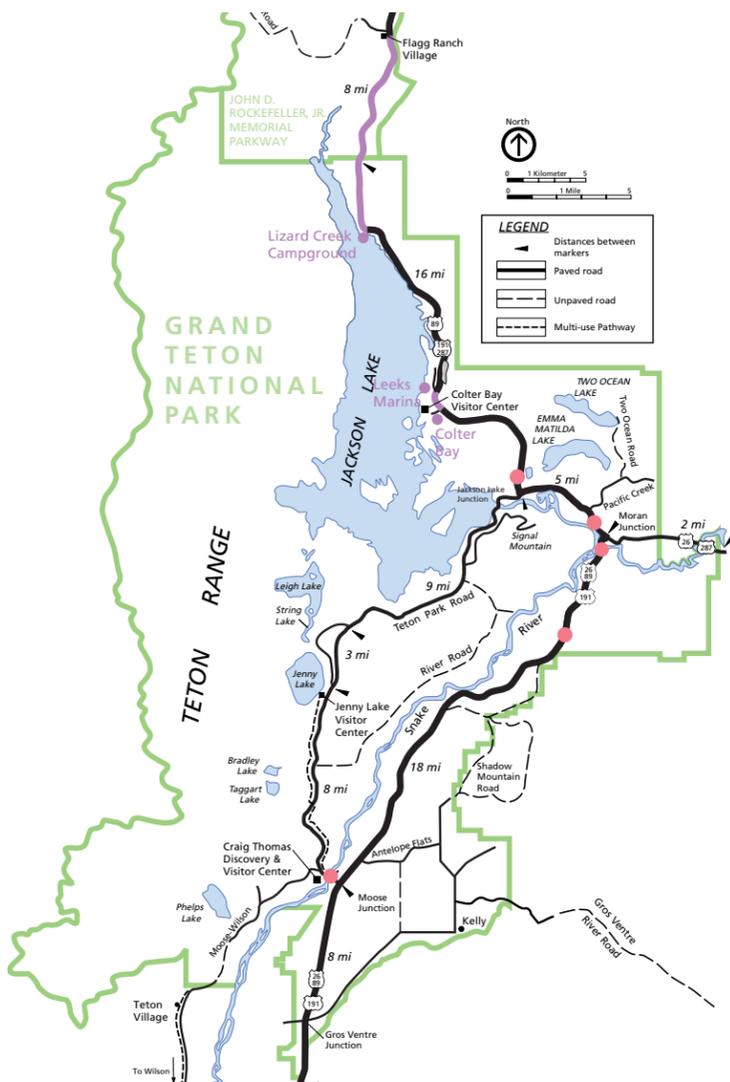

- At restaurants, choose locally grown, organic menu offerings
- Choose produce in season

Education

Learn what you can do to help protect Grand Teton National Park, your own community and the planet!

- Tour the Platinum LEED Certified Laurance S. Rockefeller Preserve Center.
- Check out the following websites:
<http://www.epa.gov/epahome/learn.htm>
<http://www.nps.gov/climatefriendly-parks/doyourpart.html>

Road Construction

PLAN FOR DELAYS

Road construction projects vary from bridge work to major reconstruction of the North Park Road. While no one enjoys waiting in traffic, preparing for the delays will make your trip more enjoyable.

Short on time? Plan ahead. Expect delays up to 30 minutes in duration. If your trip becomes delayed due to road construction, take a moment to enjoy scenery and keep an eye out for wildlife. A traffic delay may just provide a great opportunity to spot elk, pronghorn, bears, moose or even a coyote hunting for prey.

GET ROAD CONSTRUCTION UPDATES. Check the road information hotline for the most up to date information on road construction. **Call (307) 739-3614.**

BE GREEN. REDUCE IDLING. Turn off your engine during delays. Idling your engine for 10 minutes uses as much fuel as it takes to travel five miles.

GIVE THEM A BRAKE. Obey reduced speed limits and stay alert for workers along the roadway.

PLAN FOR 30-MINUTE

DELAYS ON THE ROAD TO YELLOWSTONE

Delays will occur day and night on Highway 89/191/287 between Lizard Creek Campground and Flagg Ranch through November.

FALL ROAD CONSTRUCTION PROJECTS (Subject to Change)

HIGHWAY 89/191/287

Lizard Creek Campground to Flagg Ranch: Up to 30-minute delays day & night through November. **Colter Bay to Leeks Marina:** Late Summer, 15-minute delays.

VARIOUS BRIDGES (pink dots on map) Intermittent lane closures and 15-minute delays for repair and painting through the fall.

Fire Plays an Important Role in Grand Teton National Park

FIRE HAS BEEN A PART OF THE GREATER YELLOWSTONE

ECOSYSTEM for thousands of years. Its presence is important for wildlife habitat, nutrient cycling, plant diversity and overall landscape health. Fire managers at Grand Teton National Park seek to strike a balance between restoring and maintaining natural processes associated with fire, and protecting human life and property.

FIRE ECOLOGY IN THE PARK

Years of fire suppression led to an unnatural buildup of live and dead trees, pine needles, shrubs and grasses, in other words, fuel for a wildfire. Buildup in the understory creates risks for human developments near wildland areas and poses a threat to forest health. Fire naturally thins the forest, recycles nutrients into the soil and stimulates new plant growth. Fire ecology research shows that many plant and animal species benefit from the rejuvenating effects of fire.

Fire scars are prevalent in Grand Teton and Yellowstone national parks. In the burned areas, notice what plants, trees and wildlife are in the area and how the forest is regenerating. Previously burned areas near popular hikes include: the Alder Fire near Jenny Lake, the Beaver Creek Fire near Taggart Lake, and the Waterfall Canyon Fire across from Colter Bay.

Firefighters apply fire to the landscape to reduce flammable vegetation around developed areas, like during this prescribed fire last May.

HOW WE MANAGE FIRES

Fire managers at Grand Teton National Park and surrounding agencies are guided by comprehensive fire plans. Sometimes crews monitor fires closely but take minimal action and let fire take its natural course, allowing fire-adapted plants to resprout from the roots, seed in open areas or open serotinous (heat dependent) cones for seed dispersal. When appropriate, firefighters immediately suppress fires to reduce risk to life and property.

Occasionally firefighters apply fire to the landscape under specific conditions to help maintain a healthy and safe forest ecosystem. These planned ignitions create a mosaic of diverse habitats for plants and animals.

Burning accumulated fuels also minimizes risk to developments and cultural resources.

In developed areas, fire crews lower the risk of losing structures to wildfire by thinning trees and removing dead wood and brush from the forest floor. This increases firefighter and public safety in the event of a wildfire. Firefighters pile the slash and let it dry for a year before

burning it during wet weather in late spring or fall. Please do not remove materials from these piles.

Specialized fire crews monitor burned areas to learn more about fire's effect on the ecosystem. This data is not only used for fire management decisions, but is also shared with wildlife biologists, vegetation ecologists, historic preservation specialists, and other land management agencies to achieve common goals for public safety and a healthy ecosystem.

YOUR ROLE IN FIRE PREVENTION

Fire season in the park coincides with the visitor season, which means you may see smoke in the air during your visit. You can

do your part to prevent human-caused fires by obeying all fire restrictions and following basic fire safety rules.

Build campfires only in designated areas.

Closely monitor campfires and make sure they are properly extinguished by drowning the fire with water. Stir the remains, add more water and stir again. Carefully run the back of your hand near the surface of the fire remains to make sure no heat is being generated. Campfires may be banned during times of high fire danger. Watch for signs and obey the restrictions.

Smoke safely. Grind out smoking materials, then dispose of them in the proper receptacle. While in vehicles, smokers should use ashtrays, which should never be emptied on the ground.

Remember fireworks or other pyrotechnic devices are prohibited at all times in the park.

Report any fires immediately by calling Teton Interagency Fire Dispatch Center at 307-739-3630 or telling a park employee.

For local fire information or seasonal fire job postings, log on to www.tetonfires.com.

Park Partners

Grand Teton National Park works closely with a variety of partnership organizations. Partners help accomplish park goals by supporting important projects, programs and visitor services.

Road Information

Road Work Delays
Road improvements will take place in Grand Teton and Yellowstone national parks throughout the 2009 season. Changes in schedule may occur at any time. **For the most up-to-date information about road conditions in Grand Teton National Park call (307) 739- 3614.** For information about Yellowstone roads call (307) 344-2117 or visit www.nps.gov/yell. Please stay in your vehicle while in work zones for your safety and to keep the flow of traffic moving.

Idling Gets You Nowhere In a time of fluctuating gas prices, needless idling burns hard earned dollars through your exhaust pipe. An idling engine is not operating at optimum temperature, resulting in incomplete fuel combustion. Fuel residues can condense on cylinder walls, contaminate oil and damage engine components. Vehicle emissions cause respiratory illness and scientific studies link fossil fuel consumption to global climate change. If you find yourself in a construction delay, turn your engine off.

As You Drive Keep Them Alive
Every year drivers kill more than 100 large animals, causing property damage and personal injury. Drive at or below all posted speed limits, and drive cautiously during dawn and dusk when animals are most active. Moose, deer, elk, bison, wolves and grizzly and black bears cross roadways and can be especially difficult to see at night.
