Celebrate Parks!

Join the celebration! The National Park Service turned 100 on August 25, 2016. The centennial kicked off a second century of stewardship for America’s national parks—engaging communities through recreation, conservation, and historic preservation programs.

WHAT TO EXPECT

Prepare for disruptions at South Jenny Lake!

The Jenny Lake Renewal project is well underway as part of the 2016 National Park Service centennial celebration. The project, in its third of four major construction seasons, will greatly enhance the visitor experience in the Jenny Lake area. See page 9 for more information.

WHAT TO EXPECT

• Trails—The spur trail to the viewpoint at the base of Hidden Falls is closed this summer for rehabilitation. Most other trails on the west side of Jenny Lake are open.

• Jenny Lake Boating—The last day of shuttle boat operations is September 11.

• Parking—extremely limited this season. Visit before 10 am or after 3 pm for the best chance to find parking. There will be very limited bus, RV and trailer parking. Be patient.

• Restrooms—vault toilets and portable toilets are available during construction, no flush toilets.

• Visitor Center—temporary facility provides trip planning, trail information, recommended hikes, weather and camping updates. Rangers are available to answer questions and offer ranger-led programs. Grand Teton Association sells gifts, books and postcards.

• Exum Mountain Guides—access via the Lupine Meadows Road. Exum will close their park office on September 10. You may still reach them at 307-733-2297.

• Multi-use Pathway—unaffected by construction. Due to limited parking, please begin your outing at another place.

• Closed Areas—respect these signed area, they are for your safety.

• Other Facilities—will experience lesser impacts due to construction, but will close earlier in the season than usual. The last day of operation is listed below:

  Jenny Lake General Store (Sept. 18)
  Jenny Lake Campground (Sept. 18)
  Hidden Falls (Sept. 10)

As you travel through Grand Teton National Park, reflect on what national parks mean to you. Do you value the vistas, wildlife, history, culture, solitude? What are your hopes for the next century of national parks? Join the discussion and continue to share your thoughts and pictures on social media: #FindYourPark and #NPS100.

Bears in the Fall

Would you believe that bears consume up to 20,000 calories a day in the fall? This feeding frenzy is called “hyperphagia.” Bears put on weight in fall to survive winter hibernation. Hawthorne and choke cherry bushes throughout the park provide a vital food source for black and grizzly bears. Park rangers will close roads, trails and other areas if necessary for safety due to bear activity.

As you travel through the park, please “Be Bear Aware.”

• Both black and grizzly bears can be dangerous.

• Stay at least 100 yards from bears and wolves.

• Remain in your vehicle if bears are present.

• Hike in groups, make noise and carry bear spray.

• Keep a clean camp and always store any product with an odor properly.

• See page 5 for more information about safety in bear country.

FEW LANDSCAPES IN THE WORLD are as striking and memorable as Grand Teton National Park. Rising abruptly from the valley floor, the Teton Range offers a testament to the power and complexity of nature. The mountains, valleys, lakes, rivers and skies are home to diverse and abundant plants and animals.

People have been living in the shadow of the Teton Range for more than 11,000 years. The human history of this area is extensive, beginning with prehistoric American Indians, to the early Euro-American explorers, and the more recent frontier settlers. Today, more than 300 historic structures remain in the park.

The desire to protect this spectacular mountain range led to the establishment of Grand Teton National Park in 1929. John D. Rockefeller, Jr., through his vision and generous philanthropy, donated additional lands to expand the park to the present boundary in 1990.

Grand Teton National Park is truly a special place. With thoughtful use and careful management, it can remain so for future generations. As with other sites in the National Park System, Grand Teton preserves a piece of the natural and cultural heritage of America for the benefit and enjoyment of future generations.

While you are here, take a moment to put your cares aside, stroll through a sagebrush meadow, hike a park trail, sit on the shore of a quiet lake, and lose yourself to the power and skies.

We hope you will be refreshed and restored during your visit, and stay connected to this magnificent landscape long after you have returned home.

Wildlife Viewing
SAFE WILDLIFE VIEWING is everyone’s responsibility. Whether you visit the park on vacation or live in the area—seeing wildlife in their own environment is thrilling. Approaching or feeding wildlife is potentially dangerous.

Viewing wildlife draws many to this beautiful place seeking out the smallest calliope hummingbird or the largest grizzly bear. We share a responsibility to protect the park’s animals and ourselves.

Keep the road clear at all times, even when you are watching wildlife. Use pullouts or pull completely off the roadway to the right of the white line. Stopping a vehicle, standing or walking in the road is dangerous to drivers, pedestrians and animals.

Always maintain a distance of at least 100 yards from bears and wolves, and 25 yards from other wildlife. Never position yourself between an adult and its offspring. Females with young are especially defensive. Let wildlife thrive undisturbed. If your actions cause an animal to flee, you are too close.

It is illegal to feed any wildlife in the park including birds, ground squirrels, bears or foxes. Feeding wildlife makes them dependent on people and often results in poor nutrition. Your food is not healthy for them. Red foxes have become common in the park—do not approach or feed them! The fox may bite you and expose you to rabies.

Please follow all food storage regulations. Allowing bears to get human food even once often results in aggressive behavior. An aggressive bear is a threat to human safety and must be relocated or killed.

We hope you enjoy your time here—watching wildlife, hiking or relaxing—and that you remain connected to this place long after you return home.

Campgrounds

 Campgrounds are operated by park concessioners.

CAMPGROUNDS

Colter Bay Campground**
335 individual & 11 group sites
• $25 no hookups ($13)**
• $51 electric hookups ($39)
• $11 per hiker/biker ($6)
Open: May 20–Dec. 9
Filling Time: afternoon

Colter Bay RV Park**
112 RV sites, full hookups
• $59 back-in site ($47)**
• $69 pull-through site ($57)
Open: May 12–Oct. 9
Reservations: 307-543-3296
Filling Time: call for reservations

Gros Ventre Campground**
100 individual & 5 group sites
• $25 no hookups ($13)**
• $51 electric hookups ($39)
Open: May 20–Oct. 9
Information: 307-543-2861
Filling Time: afternoon

Jenny Lake Campground*
(tents only)
49 individual sites, 10 walk-in sites
• $25 per night ($13)**
• $11 per hiker/biker ($6)
Open: May 6–Sept. 18
Information: 307-543-3296
Filling Time: early morning

Signal Mountain Campground*
81 individual sites
• $24 no hookups ($12)**
• $47 electric hookups ($35)
• $59 full hookups ($47)
• $10 per hiker/biker
Open: May 6–Oct. 9
Information: 307-543-2831
Filling Time: late morning

Filling Time: 30 foot vehicle max length
• * dump station available
• **Senior/Access rates in parentheses
• $Utility fee included

REDUCE USE OF DISPOSABLE PLASTIC BOTTLES
Save money and reduce waste by refilling your bottle.

Lake and 14 days at all other campgrounds—no more than 30 days in the park per year (14 days at Jenny Lake).

For campground status, contact entrance stations or visitor centers. Additional camping facilities are available in nearby national forests and other adjacent areas. Camping is not permitted within the park along roadsides, at overlooks or in parking areas. Doubling up in campgrounds is not permitted and there are no overflow facilities.

Along the Gros Ventre Road, there are 20 camp sites with vault toilets, bear-resistant food storage lockers but no potable water. These sites are free of charge and available first-come, first-served beginning June 1st.

GROUP CAMPING
Advanced reservations are required for group camping at Colter Bay and Gros Ventre campgrounds. The sites range in capacity from 10 to 100 people. Call the Grand Teton Lodge Company at 307-543-3296 for reservations.

PUBLIC SHOWERS and LAUNDROMAT
Public showers and laundromat facilities are located at Colter Bay Village and Signal Mountain Campground.

RECYCLING CENTERS
Park concessioners Grand Teton Lodge Company and Signal Mountain Lodge along with Grand Teton National Park collectively recycle more than 215 tons of material annually. When you stay in a park campground, please use the recycling containers to help keep Grand Teton National Park clean and pleasant for other campers and conserve resources.

Camper Fees
• $15 per person/night
• $40 per RV (2 persons)
• $25 for additional person

Water Rates
• $5.50 (1,000 gallons)
• $10.50 (2,000 gallons)

Filling Time:
• Colter Bay: afternoon
• Gros Ventre: early morning
• Headwaters: 30 minute
• Signal Mountain: late morning

Additional camping facilities are located at Colter Bay and Gros Ventre campgrounds. The sites range in capacity from 10 to 100 people. Call the Grand Teton Lodge Company at 307-543-3296 for reservations.

Grand Teton Guide Fall 2016 3
WEATHER SERVICE at 1-800-211-1448. Search your area on NOAA Weather Radio at 162.525 MHz, or by calling the National Weather Service in the area.

In September, the high temperature in the valley averages 69° F, but the temperatures drop as fall progresses. The nighttime temperatures often drop below freezing, and warm sunny days may alternate with rainy days and occasional snow showers.

Dress in layers, always take rain gear when recreating and be prepared for changing conditions. Afternoon thunderstorms occur frequently during the summer, but are rare in fall. Since 1999, there have been 30 injuries and two fatalities in the park due to lightning.

NOAA weather forecasts are available at www.weather.gov/riverton, on NOAA Weather Radio at 162.525 MHz, or by calling the National Weather Service at 1-800-211-1448.

GRIZZLY AND BLACK BEARS may be anywhere in the park at any time. Odors attract bears into campgrounds and picnic areas. Regulations require that all food, garbage, toiletries, pet food, coolers and food containers (empty or full), and cookware (clean or dirty) be stored in a hard-sided vehicle with the windows rolled up or a bear-resistant food locker when not in immediate use, day or night. Failure to follow regulations is a violation of federal law and may result in a citation.

- Never leave your backpack unattended!
- Never allow a bear to get human food.
- If approached by a bear while eating, gather your food and retreat to a safe distance.

Keep a Clean Camp
Improperly stored or unattended food will be confiscated and you may be fined.
- Treat products such as soap, toothpaste, fuel, suntan lotion, candles and bug repellent as you would food.
- Never store food, garbage or toiletries in tents.
- Place all trash in bear-resistant garbage dumpsters.
- Immediately report careless campers and all bear sightings to the campground kiosk or nearest ranger.
- Bears that receive human food often become aggressive and must be killed.

Make Noise in Bear Country
Grizzly and black bears live in the park and parkway. Bears will often move out of the way if they hear people, so make noise. Calling out and clapping your hands at regular intervals help make your presence known. Bear bells are not sufficient. Be particularly careful when you are near streams or have a poor line of sight. The use of portable audio devices is strongly discouraged.

Hike in Groups
If possible, hike in groups of three or more people. Typically, larger groups of people make more noise and appear more formidable to bears. Keep your group together and make larger groups of people make more noise. Calling out and clapping your hands at regular intervals help make your presence known. Bear bells are not sufficient. Be particularly careful when you are near streams or have a poor line of sight. The use of portable audio devices is strongly discouraged.

Never Approach a Bear
All bears are wild and dangerous. Each bear will react differently and their behavior cannot be predicted.

If You Encounter a Bear
Do not run! Bears can easily outrun you. Running may cause an otherwise non-aggressive bear to attack you.
- If the bear is unaware of you, or if the bear is aware of you but has not acted aggressively, slowly back away.
- Do not drop your pack! This teaches bears how to obtain human food often resulting in the death of a bear.
- Do not climb trees. All black bears, all grizzly cubs and some adult grizzlies can climb trees.

If a Bear Approaches or Charges You
Do not run! Most bear attacks result from surprise encounters when a bear is defending its young or food such as a carcass. Some bears will bluff their way out of a situation by charging, then veering off or stopping abruptly. Bear experts generally recommend standing still until the bear stops and then slowly backing away.

If a bear attacks, lie flat on your stomach. Spread your legs slightly and clasp your hands over the back of your neck. Do not move until you are sure the bear has left the area.

In rare cases, bears have attacked at night or after stalking people. These are predatory attacks and the bear views you as food. If you are attacked at night or if you feel you have been stalked and attacked as prey, fight back. Do whatever it takes to let the bear know you are not easy prey.

If You Carry Bear Spray
- Bear spray has been shown to be extremely effective to deter bear attacks.
- Use only bear spray. Personal self-defense pepper spray is not effective.
- Keep the canister immediately available, not in your pack.
- Follow the manufacturer's instructions, know how and when to use the spray, and be aware of its limitations, including the expiration date.
- Bear spray is not a repellent! Do not spray it on people, tents or backpacks.
- Under no circumstances should bear spray serve as a substitute for standard safety precautions in bear country.

Park visitor centers can demonstrate proper use of bear spray and recycle it. Come visit for more information.

For local fire information or seasonal fire job postings, visit:
- Visit Teton Interagency Fire Dispatch Center at 307-739-3630 or tell a park employee.

Jenny Lake is located 8 miles north of Moose. Please see the park map on page 12 to help you plan your trip to Jenny Lake. Explore Jenny Lake for convenient access to glacially-formed lakes and invigorating hikes while enjoying dramatic mountain scenery.

PARKING
Parking at South Jenny Lake is highly congested and often full from 10 am to 3 pm. Plan accordingly. Watch for pedestrians.

JENNY LAKE VISITOR CENTER
During 2016 & 2017, a temporary building will house the Jenny Lake Visitor Center as the visitor complex is rehabilitated. Park rangers will provide information and hiking maps, or you may shop for gifts, educational books and postcards. The visitor center is open daily September 6-25, 8 am-5 pm. The Jenny Lake Ranger Station is closed for the season. Get backcountry permits and climbing information at Moose or Colter Bay.

CRAIG THOMAS DISCOVERY & VISITOR CENTER
Visit the Discovery Center for trip planning, weather, permits and camping information. Experience the interactive exhibits or view a film. Shop at the Grand Teton Association bookstore for gifts, educational books and postcards. The visitor center is open daily through September 18, 8 am-7 pm, and September 19–October 31, 8 am-5 pm.

Bearing Ferry Historic District
Take a self-guided tour around this historic district and learn about Jackson Hole history through displays in the Maud Noble Cabin. Visit the General Store (open daily May 23–September 30, 9 am–4:30 pm) and purchase turn-of-the-century-themed goods.

Mormon Row
Take a self-guided tour around the remaining buildings of this once vibrant community. Pick up a brochure near the “Pink House.” Originally called Grrovont, Mormon Row was a community of homesteads, a church, school and swimming hole. Members of The Church of Jesus Christ of Latter-Day Saints settled this area around the turn of the last century.

The Murie Ranch
Learn about the Murie family wilderness conservation legacy by taking this self-guided one mile roundtrip walk. Ask a ranger for directions to access the ranch and view historic buildings where landmark wilderness legislation was drafted.

Multi-Use Pathway
Hike, walk, skateboard or roller-blade on the multi use pathway. Access the pathway from Moose. The pathway extends from Jackson to South Jenny Lake.

Explore Jenny Lake

Explore Jenny Lake for convenient access to glacially-formed lakes and invigorating hikes while enjoying dramatic mountain scenery.

Are you interested in exploring Jenny Lake? Then you’re in luck! The Jenny Lake Ranger Programs offer a variety of activities to enjoy, from guided hikes to informative programs. Whether you’re a nature lover, a history buff or simply seeking adventure, there’s something for everyone.

One of the highlights of the Jenny Lake Ranger Programs is the Moose Ferry Historic District. Take a self-guided tour around this historic district and learn about Jackson Hole history through displays in the Maud Noble Cabin. Visit the General Store (open daily May 23–September 30, 9 am–4:30 pm) and purchase turn-of-the-century-themed goods.

Another program you won’t want to miss is Mormon Row. Take a self-guided tour around the remaining buildings of this once vibrant community. Pick up a brochure near the “Pink House.” Originally called Grrovont, Mormon Row was a community of homesteads, a church, school and swimming hole. Members of The Church of Jesus Christ of Latter-Day Saints settled this area around the turn of the last century.

But that’s not all! The Murie Ranch is another must-see destination. Learn about the Murie family wilderness conservation legacy by taking this self-guided one mile roundtrip walk. Ask a ranger for directions to access the ranch and view historic buildings where landmark wilderness legislation was drafted.

If you’re interested in multi-use pathways, the Multi-Use Pathway from Moose is a great option. Access the pathway from Moose and extend your journey to South Jenny Lake.

With so many options, Jenny Lake Ranger Programs offer a unique experience to explore Jackson Hole’s rich history and natural beauty. Don’t miss out on these opportunities to make the most of your visit to the park.

Program schedules can change at any time. Be sure to check the official website for the most up-to-date information.
Colter Bay

Located four miles south of Moose on the Moose-Wilson Road, the Preserve Center offers unique sensory exhibits and trails leading to the shore of Jackson Lake with stunning views of Mt. Moran. Rangers provide trip information, trail maps and backcountry permits. The building features an exhibit of 35 artifacts from the David T. Vernon Collection, once part of the Indian Arts Museum. Enjoy the on-going American Indian Guest Artist Program. Shop at the Grand Teton Association bookstore for gifts, educational books and postcards. The visitor center is open daily from September 6–October 10, 8 am–5 pm.

Enjoy lunch at the picnic area on the lakeshore, or take a hike on one of the area trails for great opportunities to see wildlife. You will also find an RV park, cabins, restaurant, general store, laundromat, gas station and showers.

JOHN D. ROCKEFELLER, JR. MEMORIAL PARKWAY

The Parkway commemorates John D. Rockefeller, Jr’s significant contributions to national parks. Mr. Rockefeller had a special interest in this area helping develop Yellowstone and establish Grand Teton national parks. To learn more about the Rockefeller family’s philanthropy ask for the “Rockefeller Legacy” brochure at any visitor center.

JACKSON LAKE LODGE

Even if you are not staying overnight at the Jackson Lake Lodge, the historic building is worth a visit. Large mural windows showcase views of Jackson Lake and the northern Teton Range. Wildlife such as black and grizzly bears, elk and moose are frequently seen from the lodge. Access trails, a corral, gift stores and restaurants.

Experience the Laurance S. Rockefeller Preserve

Located four miles south of Moose on the Moose-Wilson Road, the Preserve Center offers unique sensory exhibits and trails leading to Phelps Lake, providing extraordinary views of the Teton Range. "Due to the narrow road, trailers and vehicles over 23.5 feet are prohibited on the Moose-Wilson Road.

**Preserve Center**

Discover Mr. Rockefeller’s vision for the Preserve and his legacy of conservation stewardship. Explore the area’s ecosystem through visual, auditory and tactile exhibits. Learn about innovative techniques and features that make the Center a model for energy and environmental design. Open daily September 6–25, 9 am–5 pm. The Preserve adheres to the principles of Leave No Trace—plan to pack out your trash. The Center sells bear spray (credit cards only), but does not issue permits.

**Preserve Trails**

An 8-mile network of trails leads to spectacular views of Phelps Lake and the Teton Range. Open your senses to the sights, smells, sounds and textures of the Preserve. Journey through communities of aspen and conifer forests, wetlands and sagebrush meadows, along Lake Creek, Phelps Lake and adjacent ridges. Watch for deer, elk, moose, black and grizzly bears. Composting toilets and benches are available at Phelps Lake. Please respect the quiet, contemplative experience of the Preserve. Large hiking groups should break into smaller groups of no more than ten.

**Range Programs**

Join a ranger for a deeper understanding of Laurance S. Rockefeller's vision and gift.

**Parking**

The parking lot is open 24 hours a day—no overnight parking. The lot often fills by 9 am and remains full to 4 pm. Carpool or bike to help minimize congestion and our footprint.

**Grand Teton Guide Fall 2016**
Each year Grand Teton National Parks sends 2.5 million pounds of trash to a landfill in Idaho over 100 miles away!

In 2014, Subaru of America and the National Park Conservation Association approached Grand Teton National Park about an exciting new program to help parks reduce the amount of solid waste they send to the landfill. Grand Teton, along with Yosemite and Denali, are the three pilot parks in the National Park Zero-Landfill Project. Working with our concessioners and partners within and outside the park, the goal of the program is to identify, test, and promote practices that increase recycling and reduce the amount of trash sent to the landfill. For more information, please visit: www.npca.org/articles/308.

With nearly four million visitors enjoying Grand Teton National Park each year, park employees, visitors, concessioners, and partners all need to work together to make a difference. When you visit the park, please think about how what you can do to reduce your environmental footprint: bring as many reusable items as possible—water bottles, coffee mugs, and utensils. Choose food and other items with minimal packaging, and please recycle. Recycling bins can be found at various locations throughout the park.

Throughout the country, plastic collection varies. In Teton County and Grand Teton National Park, we only accept plastics #1 & #2 as shown below. Please do not include food containers.

### Where to Look for Wildlife

**Willow Flats**
North of the Jackson Lake Dam moose browse on willow shrubs. At dawn and dusk, elk graze on grasses growing among willows. Predators such as wolves and grizzly bears pursue elk calves in early summer. Beavers create ponds by damming streams that also harbor muskrats and waterfowl.

**Elk Ranch Flats**
Stop at the Elk Ranch turnout on highway 26/89/191 just north of Cunningham Cabin. You may see pronghorn, bison or elk grazing the open grasslands that attract a variety of animals.

**Snake River**
Jackson Lake Dam south to Moose. Elk and bison graze in grassy meadows along the river. Bison also eat grasses on the sagebrush benches above the river. Bald eagles, ospreys and great blue herons build large stick nests within sight of the river. Beavers and moose eat willows lining the waterway.

**Antelope Flats & Mormon Row**
East of Highway 26/89/191, one mile north of Moose Junction. Bison and pronghorn may be seen grazing. Watch for coyotes, Northern harriers and American kestrels hunting mice, Uinta ground squirrels and grasshoppers. Sage grouse, sage thrashers and sparrows also frequent the area.

**Blacktail Ponds**
Half-mile north of Moose on Highway 26/89/191. Old beaver ponds have filled with sediment and now support grassy meadows where elk graze during the cooler parts of the day. Several species of ducks feed in the side channels of the Snake River while moose browse on willows.

**Timbered Island**
A forested ridge southeast of Jenny Lake. Small bands of pronghorn, the fastest North American land mammal, forage on nearby sagebrush throughout the day. Elk leave the shade of Timbered Island from dusk until dawn to eat grasses growing among the surrounding sagebrush.

**Ox bow Bend**
One mile east of Jackson Lake Junction. Slow-moving water provides habitat for fish such as suckers and trout that become food for river otters, ospreys, bald eagles, American white pelicans and common mergansers. Look for beavers and muskrats swimming past. Moose browse on abundant willows at the water’s edge. Elk occasionally graze in open aspen groves to the east, while grizzly bears sometimes come to the west. Bald eagles, ospreys and great blue herons build large stick nests within sight of the river. Beavers and moose eat willows lining the waterway.

**H ave you ever thought about spending a summer working in a national parks?**

Summer seasonal positions are recruited during the winter months. A wide variety of positions provide unique challenges, and many rewards. Imagine yourself fighting wild fires, maintaining backcountry trails, patrolling the Snake River in a boat, providing guided ranger hikes or assisting a park biologist with wolf research.

To view and apply for vacancies for all federal jobs visit www.usajobs.gov. For a list of available jobs in the Department of Interior, including the National Park Service, go to www.doi.gov/public/finjobs.cfm. Positions posted for Grand Teton National Park can be found under jobs listed in Moose or Moran, Wyoming. You can also learn about vacancies at www.nps.gov/grte/learn/management/employ.htm. For jobs in fire management, log on to gcc.nf.gov/bccc/dispatch/wy-taxc and click on the Employment link. Go to www.nps.gov/grte/supportyourpark/upload/OF510-fedres.pdf to learn how to apply for federal jobs.

### Drink Water from Refilling Stations

- **6,500 feet**
  The average elevation of Grand Teton National Park’s valley floor. At high elevation, your body loses water twice as fast as at sea level.

- **Single-use plastic bottles**
  Of the 3,000 single-use plastic bottles entering the waste stream every day in Jackson Hole, only 60 percent are recycled. Every year, people spend over $100 billion on bottled water world-wide. Using refillable bottles will save you money.

- **100% Pure**
  The park has retrofitted many of its drinking fountains to be quick and easy water bottle filling stations. The water from these filling stations is tested regularly and is some of the purest water in the country.

**Convenience**
Filling up your reusable water bottle is easier and cheaper than purchasing a bottle of water. Water bottle filling stations are found at many park visitor centers and destinations.

**Commitment**
The National Park Service and its partners are committed to preserve and protect Grand Teton National Park for you and for future generations. With three million visitors every year, we need your help! By providing a wide range of reusable water bottles for purchase—including a low-cost, BPA free, recyclable plastic bottle with the “reduce, reuse, refill” logo—and water bottle filling stations, we can help reduce our waste stream.

More than one million people will visit Jenny Lake this year for its timeless beauty. Visitors will find trails leading to lovely backcountry spots and active wildlife. This season, however, construction will close areas around the visitor center and Hidden Falls. Parking will be limited and visitors will find a temporary visitor center and toilets. This temporary disruption will ultimately establish an inviting and sustainable trail system and visitor experience for the next 100 years.

WHAT TO EXPECT
Stop at any visitor center for up-to-date information about access around the Jenny Lake area. Be sure to bring your patience and respect closed areas as they are for your safety.

New and Improved!
• The rebuilt trail to Inspiration Point includes two new bridges, beautiful stone retaining walls and steps.
• Closures and Reroutes
  • In the visitor plaza area, crews are rebuilding trails and constructing restrooms, a water/wastewater system, lake overflows and drystone walls.
  • The general store, Exum Mountain Guides, Jenny Lake Boating and the campground will close earlier than usual this season. See page 1 for details.
  • The trail south of Cascade Creek trail is closed for construction. The Cascade Canyon trail remains open.
  • The spur trail leading to the Hidden Falls viewing area is closed. Crews will construct a sustainable viewing space and restore damaged areas.
• The north parking lot will house a temporary visitor center and bus parking.
• South Jenny Lake will lose parking spaces with limited RV and bus parking.
• The north parking lot will house a temporary visitor center and restrooms. Construction staging will occupy part of the south parking lot.

WHAT IS INSPIRING JOURNEYS?
An $18 million collaboration between Grand Teton National Park and its fund-raising partner, Grand Teton National Park Foundation, celebrating the National Park Service’s centennial. The project will greatly improve trail conditions and add restrooms and interpretive information in the visitor center plaza.

HIKING TIPS
Plan Ahead
Stop at a park visitor center for the most up-to-date trail closure and reroute information. The spur trail leading to the Hidden Falls viewing area is closed.

Come Early or Come Late
Late morning through early afternoon are crowded. Visit before 10 am or after 3 pm for easier parking.

Fewer People, Dramatic Scenery
Explore other lakeshore hikes in the park. Rangers will happily recommend other favorites.

Park Partners
Grand Teton National Park works closely with a variety of partnership organizations who help support important projects, programs and visitor services, benefiting visitors and the park:

Grand Teton Association
PO Box 170
Moose, WY 83012

Vehicle collisions kill over 100 animals per year in the park. Almost 75 percent of wildlife fatalities occur on this section of highway. Throughout the park, more than half the fatalities occur at night. To better protect the public and to preserve wildlife, park officials reduced the speed limit at night to give drivers and animals more reaction time. If you do hit an animal, report the accident to a park ranger.

Please obey posted speed limits to help us improve safety and protect wildlife.
