Wildlife Where?

Take a drive on the one-way scenic loop from the North Jenny Lake Junction or take a loop drive on the Antelope Flats road in the southeast corner of the park. Both of these roads provide excellent wildlife viewing opportunities. Ask at a visitor center for more information. Please obey speed limits for the animals’ safety and yours.

See page 5 for more information on spring activities.

Pets in the Park?

To ensure that you and your pet enjoy a safe visit, follow all pet regulations while inside the park. Wildlife may be drawn to pets and their owners; pets can wander away and may never be found—the park is a wild place!

See page 4 for more information.

Be Bear Aware

Black and grizzly bears can be anywhere in the park at any time. Odors attract bears into campgrounds and picnic areas. Regulations require that all food, garbage, toiletries, pet food, coolers and food containers (empty or full), and coolwaker (clean or dirty) be stored in a hard-sided vehicle with the windows rolled up or bear-resistant food locker when not in immediate use, day or night. Failure to follow regulations is a violation of federal law and may result in a citation.

Make Noise in Bear Country
Grizzly and black bears live in the park and parkway. Bears will usually move out of the way if they hear people approaching, so make noise. Don’t surprise bears! Calling out and clapping your hands at regular intervals are the best ways to make your presence known. Be particularly careful when vegetation or terrain limits line of sight.

Never Approach a Bear
All bears are wild and dangerous. Each bear will react differently and their behavior cannot be predicted. Keep children close by. Hike in groups and avoid hiking early in the morning, late in the day or when it’s dark.

Never leave your backpack unattended!
Never allow a bear to get human food. If approached by a bear while eating, put food away and retreat to a safe distance.

If You Encounter a Bear
Do not run, bears can easily outrun you. Running may cause an otherwise non-aggressive bear to attack.

- If the bear is unaware of you, or if the bear is aware of you but has not acted aggressively, slowly back away.
- Do not drop your pack! This teaches bears how to obtain human food and often results in the death of a bear.
- Do not climb trees. All black bears, all grizzly cubs and some adult grizzlies can climb trees.

If a Bear Approaches or Charges You
Do not run! Most bear attacks result from surprise encounters when the bear is defending their young or a food source, such as a carcass. Some bears will bluff their way out of a threatening situation by charging, then veering off or stopping abruptly. Bear experts generally recommend standing still until the bear stops and then slowly backing away. If you are attacked, lie on the ground completely flat and spread your legs slightly and clasp your hands over the back of your neck. Do not move until you are certain the bear has left.

In rare cases, bears have attacked at night or after stalking people. These types of attacks may mean the bear views you as prey. If you are attacked at night or if you feel you have been stalked and attacked as prey, fight back. Do whatever it takes to let the bear know you are not easy prey.

Please stop by a park visitor center for more information.

If You Carry Bear Spray
- Bear spray has been shown to be extremely effective in deterring bear attacks.
- Use only bear spray. Personal self-defense pepper spray is not effective.
- Keep the canister immediately available, not in your pack.
- Follow the manufacturer’s instructions, know how to use the spray, and be aware of its limitations, including the expiration date.
- It is not a repellent! Do not spray it on people, tents or backpacks.
- Under no circumstances should bear spray serve as a substitute for standard safety precautions in bear country.

Help Our Bears!
Do not leave backpacks, coolers, or bags containing food unattended for ANY amount of time.

Do not leave food, garbage or coolers in the open bed of a truck or on the exterior of any vehicle.

WHAT KIND OF BEAR DID YOU SEE? Both grizzly bears and black bears live in the park and parkway. Color is misleading - both species can vary from blonde-black.

Black Bear
- No distinctive shoulder hump
- Face profile is straight from nose to tip of ears
- Ears are tall and pointed
- Front claws are short and curved (1-2'" long)

Grizzly Bear
- Distinctive shoulder hump
- Face profile appears dished in
- Ears are short and rounded
- Front claws are long and less curved (2-4'" long)

Teton Weather

From June through August the average daily temperature in the valley is 76°F, but high-elevation hiking trails are not snow-free until mid-July. Nighttime temperatures can drop to the lower 40s.

Dress in layers when recreating and be prepared for changing conditions. Afternoon thunderstorms occur frequently during the summer. Since 1999, there have been 14 injuries and one fatality in the park due to lightning. Avoid mountain tops, ridges and open areas.

NOAA weather forecasts are available at www.weather.gov/riverton, on NOAA Weather Radio at 162.525 MHz, or by calling the National Weather Service at 1-800-211-1448.

</table>

Don’t Get Hit!
Follow these guidelines to avoid lightning-related injuries.

- Afternoon storms are common in summer, get to a safe place before storms hit.
- Avoid mountain tops, ridges, open areas and lone trees, forested areas with trees of similar height are safer.
- Do not stand on tree roots.
- If boating, get off the water.
- The National Oceanic and Atmospheric Administration (NOAA) provides a variety of material and links through their website at http://www.lightningsafety.noaa.gov/outdoors.htm. This site contains critical lightning safety and medical information.
For Wildlife Observers & Photographers

BE A RESPONSIBLE WILDLIFE OBSERVER.
Approaching wildlife causes stress to animals and can endanger you and your family. During the summer of 2005, a child was suddenly kicked by a moose and suffered a life-threatening injury. Use binoculars or spotting scopes to view wildlife without approaching it.

Let wildlife thrive undisturbed.
Harassment is any human action that causes unusual behavior or a change of behavior in an animal. Repeated encounters with people can have negative, long-term impacts on wildlife, including increased levels of stress and the avoidance of essential feeding areas.

Always use designated turnouts when stopping to view wildlife.

Avoid feeding wildlife and pets. Feeding wildlife, including ground squirrels and birds, raises wild animals to choose human food sources over natural food sources. Feeding wildlife, raising young is a private affair. If an adult bird on a nest flies off at your approach, circles you, or screams in alarm—you are too close to the nest. Unattended nests are readily succumb to predation and exposure to heat, cold and wet weather.

Allow other visitors a chance to enjoy wildlife. If your actions cause an animal to flee, you have deprived other visitors of a viewing opportunity. Use an animal's behavior as a guide to your actions, and leave the time you spend near wildlife. Follow all park regulations and policies, they are designated for the wildlife's and your safety.

REduce your use of disposable plastic bottles
Park concessioners are joining Grand Teton National Park to reduce the sale and use of disposable plastic bottles by selling reusable containers. Save money, energy and reduce waste by using reusable bottles for water.

PARK CAMPGROUNDS
Colter Bay Campground* 350 individual, 9 walk-in, 11 group Open: May 26 to Sept. 25 $20 per night, (800) 628-9988 Filling Time: evening
Colter Bay Tent Village Park 66 tent cabin sites Open: June 3 to Sept. 5 $55 per night, (800) 628-9988 Filling Time: call for information Colter Bay RV Park 112 RV sites Open: May 26 to Sept. 25 $55 per night, (800) 628-9988 Filling Time: call for information RV hookups available
Flagg Ranch Campground 175 individual sites, hook-ups Open: May 16 to Sept. 18 $35-$60 per night, (800) 443-2311 Filling Time: call for information RV hookups available Gros Ventre Campground* 200 individual sites, 5 group Open: May 6 to Oct. 9 $20 per night, (800) 628-9988 Filling Time: rarely fills

All five park campgrounds and two trailer villages are operated by park concessioners.

CAMPgrounds
Colter Bay and Gros Ventre Bay have walk-in sites available. All campgrounds provide modern comfort stations, entrance stations or visitor centers.

The maximum length of stay is 30 days in the park per year.

These campgrounds operate on a first-come, first-served basis and advance reservations are not accepted, except for group camping reservations and Colter Bay RV Park and Flagg Ranch Campground.

For campground status, contact the Jenny Lake Ranger Station at (307) 739-3343.

For Wildlife Observers & Photographers

B E A RESPONSIBLE WILDLIFE OBSERVER.
Approaching wildlife causes stress to animals and can endanger you and your family. During the summer of 2005, a child was suddenly kicked by a moose and seriously injured. Use binoculars, spotting scopes or long lenses for close views and photographs.

Let wildlife thrive undisturbed.
Harassment is any human action that causes unusual behavior or a change of behavior in an animal. Repeated encounters with people can have negative, long-term impacts on wildlife, including increased levels of stress and the avoidance of essential feeding areas. Please remember, nesting birds are easily disturbed. For wildlife, raising young is a private affair. Safety & Regulations

FIREARMS
Wyoming state regulations apply. Carrying or possessing firearms is prohibited in buildings where notice is posted. Firearms may not be discharged in a national park, except by permitted individuals during legal hunting seasons.

FIREFORKS
Fireworks and other pyrotechnic devices are prohibited at all times in the park.

CAMPFIREs
Campfires are allowed without a permit at designated campgrounds and picnic areas within metal fire grates, unless fire restrictions are in effect. A permit may be obtained for campfires below the high water line of Jackson Lake at the Colter Bay Visitor Center. Campfires are prohibited in all other areas.

PLANTS & ANIMALS
All plants and animals are part of natural processes and are protected within the park and parkway. Leave plants and animals in their natural setting for others to enjoy. Even picking wildflowers is prohibited. Keep a respectful distance from all animals to avoid disturbing their natural routines. Large animals are quick, powerful, and unpredictable. Getting too close can result in serious injury. Take special care to avoid encounters with wildlife and to help maintain their natural fear of humans. Many small animals can carry diseases and should never be touched or handled. Allow them to find their own food. Their natural diet ensures their health and survival. No matter how tempting it may be to give food to animals, feeding is prohibited.

PETS
Pets must be restrained on a leash (6 feet or less) at all times. Pets are not allowed in visitor centers, on park trails or in the backcountry (which begins six feet from roadways), in boats on the Snake River or lakes other than Jackson Lake. Pets are not allowed on ranger-led activities. Kennels are available in Jackson. Properly dispose of pet feces in garbage cans. Pets are not permitted on the multi-use pathway.

BIKING
Bicycles are permitted on public roadways, the multi-use pathway and on the Colter Bay Marina breakwater. Ride on the right side of the road in single file and wear a helmet at all times. Riding bicycles or other wheeled vehicles in the backcountry, on- or off-trail, is prohibited. Roadway shoulders are narrow—ride at your own risk.

MULTI-USE PATHWAY
Only NON-MOTORIZED METHODS of transportation are permitted on the multi-use pathway. Persons with physical disabilities may use electric and battery operated transportation. The multi-use pathway is closed from dusk to dawn for wildlife and public safety.

PETS ARE NOT PERMITTED on the park pathway. Guide dogs—used for the sole purpose of aiding a person with physical disability—may travel on the pathway. Ask at a visitor center for suggestions on where to exercise your pet.

AQUATIC NUISANCE SPECIES
Help protect park waterways and native fish by learning how you can prevent the spread of exotic species. Inspect, clean and dry all equipment including boats, boots and waders before entering a new body of water. Never empty containers of bait, fish, plants or animals into park waters. Ask at a permits office for information on the new Wyoming state law requiring boaters to purchase a sticker to display on their boat.

PERSONAL FLOTATION DEVICES (PFDs)
PFDs are strongly recommended for all persons in a private floating/boating party, and required in commercial vessels.

BOATING
Motorboats are permitted on Jenny (10 horsepower maximum) and Jackson lakes. Human-powered vessels are permitted on Jackson, Jenny, Phelps, Emma Matilda, Two Ocean, Taggart, Bradley, Bearpaw, Leigh and String lakes. Sailboats, water skiing and windsurfers are allowed only on Jackson Lake. For motorized craft, the fee is $20 for a 7-day permit and $40 for an annual permit for non-motorized craft, the fee is $10 for a 7-day permit and $20 for an annual permit. Jet skis are prohibited on all waters within the park. Permits may be purchased at the Craig Thomas Discovery, Jenny Lake or Colter Bay visitor centers.

FLOATING THE SNAKE RIVER
Only human-powered rafts, canoes, dorays and kayaks are allowed on the Snake River within the park and parkway. Registration ($10 for a 7-day permit, $20 for an annual permit) of non-motorized vessels is required and may be completed at the Craig Thomas Discovery, Jenny Lake or Colter Bay visitor centers. Rent the launch site bulletin boards for current river conditions. On the surface, the Snake River may not seem very powerful, but only experienced floaters should attempt this swift, cold river that has many braided channels and debris jams.

FISHING
Whitefish and cutthroat, lake, and brown trout inhabit lakes and rivers of the park and parkway. Obtain fishing regulations at visitor centers.

A Wyoming fishing license is required to fish in the park and parkway and may be purchased at Signal Mountain Lodge, Colter Bay Marina, Colter Bay Village Store, Dornan’s and Flagg Ranch Lodge. Fishing in Yellowstone National Park requires a separate permit (fee charged), purchase permits at Yellowstone visitor centers and ranger stations. The use of non-native baitfish is prohibited in all parks.

JACKSON LAKE
Contact visitor centers for information on the availability of services at Leek’s, Signal Mountain and Colter Bay marinas. Low water levels will increase the risk of boats striking submerged objects and landforms that are normally well beneath the surface.

SWIMMING
Swimming is permitted in all lakes. There is a designated swimming beach at Colter Bay with picnic facilities; however, there are no lifeguards. The Snake River is a swift and cold river presenting numerous dangers; swimming is not recommended.

HOT SPRINGS
Thermal water can harbor organisms that cause a fatal meningitis infection and Legionnaires’ disease. Exposure your head to thermal water by immersion, splashing, touching your face, or inhaling steam increases your risk of infection.

HIKING
Hikers are reminded to stay on trails; shortcuts are prohibited because it damages fragile vegetation and causes erosion. Visitor centers sell topographic maps and trail guides. Know your limitations when traveling in the backcountry. If you travel alone, let a friend or relative know your planned destination, route, and expected time of return. These precautions will greatly increase your chance of survival in an emergency. Permits are not required for day hiking. Trailhead parking areas fill early during the day in July and August, so start your hike early to avoid parking problems. In early summer, many trails are snow-covered and you may need an ice axe.

BACKPACKING
Grand Teton National Park has more than 230 miles of trails of varying difficulty. Obtain the required, free backcountry permits overnight trips at the Craig Thomas Discovery or Colter Bay visitor centers or the Jenny Lake Ranger Station. One-third of backcountry campsites in high use areas may be reserved in advance from January 5-May 15; there is a fee of $25 per reservation. Pets are not allowed on park trails or in the backcountry. Park approved bear resistant canisters are required for all overnight backcountry use except where bear-resistant food storage boxes are provided. Ask at a visitor center for more details. Obtain a free canister for use in the park when registering your trip.

CLIMBING
There are many risks and hazards associated with climbing and mountain travel. Experience and good judgment are essential. The Jenny Lake Ranger Station is staffed from late May to late September by climbing rangers who can provide up-to-date weather and route conditions. Registration is not required for day climbs or cross-country hiking. Backcountry permits are required for all overnight climbs. The park DOES NOT check to see that you get safely out of the backcountry. Leave an agenda with friends or family; solo backcountry travel is not advised.

Interested in Working in the Park?

HAYE YOU EVER THOUGHT ABOUT SPENDING A SUMMER WORKING IN A NATIONAL PARK? Summer seasonal positions are recruited during the winter months. A wide variety of positions provide unique challenges, and many rewards. Imagine yourself fighting wild fires, maintaining backcountry trails, patrolling the Snake River in a boat, providing guided ranger hikes or assisting a park biologist with wolf research.

To view and apply for vacancies for all federal jobs visit www.usajobs.gov. For a list of available jobs in the Department of Interior, including the National Park Service see http://www.doi.gov/dojobs/jobs.html. Positions posted for Grand Teton National Park can be found under “Park positions” online at www.nps.gov/grte/supportyourpark/empley.htm. For jobs in fire management, log on to www.tetonfires.com and click on the Employment link. Go to www.nps.gov/grte/supportyourpark/upload/OF110-fredes.pdf to learn how to apply for federal jobs.

Floating the Snake River
THE SNAKE IS A COMPLEX RIVER TO FLOAT. The beauty and lack of whitewater falls draws one to inattentiveness. A tangle of channels and constant shifting of logjams present difficulties found on few whitewater rivers. Accidents are common. Use caution whenever you float. Even boaters frequently floating the Snake should check conditions before every trip, as the river can change overnight. River flow varies greatly throughout the summer. Water depth averages two to three feet, although it exceeds 10 feet in some locations. Boulders and bottom irregularities can cause standing waves up to three feet high.

For information on Snake River flows, call 1-800-658-5771. For floating regulations and river information, stop by a visitor center and request a floating bulletin.
Plan for variable weather and snow-covered trails when visiting Grand Teton National Park during the spring. Most park concessioners and visitor centers open in mid- to late-May. The Craig Thomas Discovery and Visitor Center is open daily year-round, except December 25th, for your trip planning needs.

PARK ROADS
Most park roads will be open in May. The Signal Mountain Road opens when the road melts out. Plan for road construction delays. Please call (307) 739-3614. Most park roads will be open in May. The Signal Mountain Road opens when the road melts out. Plan for road construction delays. Please call (307) 739-3614.

HIKING TRAILS
Most park trails will be partially to completely snow-covered up to mid-July. The park recommends that hikers travel with and know how to use an ice axe when crossing steep mountain passes. Snow on trails will often be hiker and skier compacted and visitors will generally not need snowshoes or skis for travel. Ask at a visitor center for recommendations.

SPRING WEATHER
While it may snow during any month of the year, spring weather can be quite variable. Expect anything from rain, snow, to mild sunny weather. Wear layers when hiking and plan for weather changes that may happen rapidly and without warning. The average maximum temperature for May is 60.9 degrees Fahrenheit and the average low temperature is 30.9 degrees Fahrenheit. The park receives an average of two inches of precipitation and 2.8 inches of snow during May.

PLANTS & WILDLIFE
As the snow melts, migratory animals begin their journeys back to their summer ranges in the park. Look for elk, pronghorn, moose and bison returning to the park. A variety of migratory birds pass through and summer in Jackson Hole. Common spring flowers include sagebrush buttercup, arrowleaf balsamroot, low larkspur, Nuttall’s violet, balsamroot and spring beauty.

LODGING & CAMPGROUNDS
Most lodging facilities and campgrounds open in mid- to late-May as do restaurants and gift shops. The town of Jackson provides year-round lodging facilities. Contact the Jackson Hole Chamber of Commerce for more information at (307) 733-3030 or visit their web site at http://www.jacksonholechamber.com. For park lodging and campgrounds see page 6-7.

CRAIG THOMAS DISCOVERY & VISITOR CENTER
Visit the Discovery Center for trip planning, weather and camping information. Watch a video or learn about the park through interactive exhibits. Experience the video river and talk to a park ranger about what to see and do. Shop at the Grand Teton Association bookstore for gifts, educational books and postcards. The visitor center is open from 8 a.m. to 5 p.m. daily during May.

JENNY LAKE VISITOR CENTER
Learn about Teton Range geology in the Jenny Lake Visitor Center, once the historic Crandal Studio. Park rangers provide information and hiking maps. Shop for gifts, educational books and postcards in the sales area. The visitor center opens on May 13th and is open 8 a.m. to 5 p.m. during May, with extended hours during peak summer.

JENNY LAKE LOOP TRAIL
Walk along a glacial moraine and view a glacially carved lake and canyon from this gently rolling 7.1-mile trail. Plan for snow patches on the trail through early to late May. Waterproof shoes recommended in early May. Access the trail from South Jenny Lake or the String Lake Trailhead.

LEIGH LAKE TRAIL
Enjoy a level trail along the east shore of String and Leigh lakes with spectacular views of Leigh Canyon and Mount Moran. This trail is 7.4 miles roundtrip to the north end of Leigh Lake. Shorten your trip by turning around at any point along the way. Park at the String Lake Picnic Area for trailhead access. Pit and flush toilets available.

JENNY LAKE SHUTTLE & STORE
The Jenny Lake Boating concessioner provides scenic boat shuttles across Jenny Lake and trailhead access to Cascade Canyon. Rent a canoe or kayak to tour the lake. The shuttle boats leave from the boat dock; follow the painted moss tracks along the paved path from the visitor center. See page 6-7 for hours of operation. Jenny Lake Boating Schedule: May 15-May 31 (10 a.m. to 4 p.m.), extended hours during peak summer at the Jenny Lake Store, located next to the visitor center, to stock up on snacks for your outing.

COLTER BAY VISITOR CENTER
Visit the David T. Vernon Indian Arts Museum at the visitor center and view a unique collection of artifacts from Indian cultures throughout the United States. Rangers provide trip planning information, trail maps and overnight backcountry permits. Shop for educational gifts in the Grand Teton Association sales area. The visitor center opens on May 7th and is open from 8 a.m. to 5 p.m. during May, with extended hours during peak summer.

COLTER BAY LAKESHORE TRAIL
Take a two-mile roundtrip, level self-guided tour along the north shore of Colter Bay. The trail continues onto a forested peninsula on Jackson Lake, providing inspiring views of the northern Teton Range.

HERON POND & SWAN LAKE
Stroll along a 1.5-mile roundtrip mostly level trail with excellent opportunities to see birds and other wildlife.

JACKSON LAKE LODGE
Located five miles south of Colter Bay, the historic Jackson Lake Lodge provides spectacular views of the Teton Range and Jackson Lake. The lodge contains gift shops, a restaurant, a grill, bar, as well as trail access to Colter Bay. The lodge opens on May 20th. See page 6 for hours of operation.

OXBOW BEND
Located seven miles south of Colter Bay, the Oxbow Bend overlook provides a popular view of Mount Moran and the Snake River. Look for river otters, American pelicans, moose and grizzly bear tracks along the shore. Visit the Oxbow during dusk and dawn for best viewing opportunities. Do not approach wildlife, moose and bears can be extremely dangerous.

## Yellowstone National Park

**VISITOR CENTERS**

- Allbright Visitor Center, Mammoth Hot Springs: Open year-round
- Canyon Village: May 8 – Oct. 16
- Fishing Bridge: May 28 – Sept. 30
- Grant Visitor Center: May 28 – Sept. 30
- West Thumb Information Station: May 28 – Sept. 30
- Museum of the National Park Ranger: May 28 – Sept. 25
- Norris Information Station: May 28 – Sept. 30
- West Yellowstone Visitor Information Center (open year-round)
- Madison Information: May 28 – Sept. 30

**ROAD OPENING DATES 2011**

- Please check at an entrance station or visitor center for road construction and road closure information.
- Mammoth to Old Faithful: April 15 – Nov. 6
- Madison Junction to West Entrance: April 15
- Norris Junction to Canyon:
- Canyon to Lake: May 6
- Lake to South Entrance, West Thumb to Old Faithful: May 13
- Tower Fall to Canyon (Dubravna Pass): May 27
- Beartooth Highway:

**ROAD CONSTRUCTION DELAYS**

- Please check at an entrance station or visitor center for road construction and road closure information.
- Call the 24-hour Current Road Report hotline at (307) 344-2117 for the latest information on conditions affecting roads within the park.

**NPS CAMPGROUNDS**

- First-come, First-served
- Indian Campground: June 10 – Sept. 12
- Lewis Lake: June 16 – Nov. 5
- Mammoth: Year-round
- Dunraven Pass: May 8 – Sept. 30
- Signal Mountain Campground: May 28 – Sept. 26
- Slough Creek: May 21 – Oct. 31
- Tower Fall: May 20 – Sept. 26

**XANTERRA CAMPGROUNDS**

- Reservations: (866) 439-7375
- Bridger Bay: May 27 – Sept. 11
- Canyon: June 3 – Sept. 5
- Fishing Bridge RV: May 14 – Sept. 25
- Grant Village: May 21 – Sept. 25
- Madison: May 6 – Oct. 23

**CONTACT INFORMATION**

- Visitor Information: (307) 344-7381
- Xanterra Parks & Resorts: (307) 344-7311 or (866) 439-7375
- Web site: www.nps.gov/yell

**WIRELESS IN MOOSE?**

Free wireless internet on an unsecured network. Stay connected at Grand Teton National Park.

---

## Park Partners

Grand Teton National Park works closely with a variety of partnership organizations. Partners help accomplish park goals by supporting important projects, programs and visitor services.

**PARK PARTNERS INCLUDE:**

- **Grand Teton Association**
- **Teton Science Schools**
- **University of Wyoming/AMK Research Station**

**For more information go to:**

Road Work Delays
Road improvements will take place in Grand Teton and Yellowstone national parks throughout the 2010 season. Changes in schedule may occur at any time. For the most up-to-date information about road construction in Grand Teton National Park call (307) 344-2117 or visit call (307) 739-3614. For information about Yellowstone roads call (307) 344-2117 or visit www.nps.gov/yell. See page 11 for more info.

As You Drive Keep Them Alive
Every year drivers kill about 100 large animals, causing property damage and personal injury. Drive at or below all posted speed limits, and drive cautiously during dawn and dusk when animals are most active. Moose, deer, elk, bison, wolves and grizzly and black bears cross roadways and can be especially difficult to see at night.

Park in Designated Turnouts
It may be tempting to park on the roadway to take photographs or watch wildlife, but this practice is not safe. Pull over in a designated turnout for your safety and that of other motorists.
