Jenny Lake Renewal

The multi-million dollar renewal project at Jenny Lake is making headway—2017 marks the fourth and final major construction season. Work continues around the visitor center, general store, restrooms, and boat dock. Backcountry work concludes at Hidden Falls and begins at Inspiration Point. The final plans are taking shape and the new facilities will greatly improve visitor services.

WHAT TO EXPECT

• Trails—current information at visitor centers. Trails to Hidden Falls and Inspiration Point closed.
• Visitor Center—temporary facility with visitor information and bookstore sales.
• General Store—sells camping and hiking supplies, groceries, gifts, books, postcards, and snacks.
• Jenny Lake Campground—open with minimal impact to the campground. Tents only.
• Multi-use Pathway—unaffected by construction. Due to congestion, please start your trek from another location.

Living Traditions

Enjoy a new Indian Arts exhibit at the Craig Thomas Discovery and Visitor Center and the Colter Bay Visitor Center.

Unlike past exhibits that only show-cased historic items, the new exhibits juxtapose the historic with the modern—a link between past and present. The spectacular, colorful works of art span generations while combining two collections. The David T. Vernon collection represents the historic perspective with many items designed over 100 years ago. The contemporary Laine Thom collection has been gathered by the owner over 45 years. The artifacts in the collections reflect the same themes, patterns, and forms regardless of age. Medium and techniques, however, have changed dramatically. Traditional use of natural pigments on rock walls and hides has evolved to modern methods. Regardless of the age or materials, a common theme is the link from the work of art to the artists and tribes.

In addition to the three dimensional art exhibit, the adjacent gallery wall will feature paintings by contemporary American Indian artists. The park strives to care for these collections and what they represent so future visitors may enjoy these beautiful and meaningful works of art.

International Visitors

- Des renseignements en Français sont disponibles aux centres des visiteurs dans le parc.
- Sie können Informationen auf Deutsch in den Besucherzentren bekommen.
- Se puede conseguir información en Español en el Centro del Visitante.
- 国立公園案内の日本語版が各公園内のビジターセンターでご利用できます
- 您可以在游客中心免费领取中文版《大提顿国家公园游览指南》

Publication of the Grand Teton Guide is made possible through the generous support of the Grand Teton Association.

Be Safe, Go Slow, Be Aware
Thank you for being patient as your park is renewed for the future.
Plan for variable weather and snow-covered trails when visiting Grand Teton National Park during spring. Most park concessioners and visitor centers open during May. Stop by a visitor center for recommendations and more information.

**PARK ROADS**
Most park roads will be open in May. The Signal Mountain Summit Road opens when the snow melts. See map on back page for construction information.

**HIKING TRAILS**
Most park trails will be partially to completely snow-covered in early May. Many lower elevation trails are passable by mid-May. Bring waterproof shoes or hiking boots and gaiters to ensure a comfortable excursion. Mountain passes and high elevation trails may remain snow-covered into July. The park recommends that hikers have an ice axe and know how to use it if they are crossing steep terrain or mountain passes.

**SPRING WEATHER**
While it may snow any month of the year, spring weather can be quite variable. Expect anything from rain and snow to mild, sunny weather. Wear layers when hiking and plan for weather that may change rapidly and without warning. In May, the average high temperature is 61°F with a night time low of 31°F. Snowfall averages two inches, total precipitation averages two inches, and thunderstorms are possible.

**LODGING & CAMPGROUNDS**
Most lodging facilities and campgrounds open in May as do restaurants and gift shops. The town of Jackson provides year-round lodging opportunities. Check with the Jackson Hole Chamber of Commerce. For more information on lodging page 6, campgrounds page 3.

**WILDLIFE & PLANTS**
As the snow melts, migratory animals begin their journeys back to their summer ranges in the park. Look for elk, pronghorn, moose, and bison. A number of migratory birds including mountain bluebirds, osprey, and sandhill cranes also make an appearance. Drive the one-way scenic drive along Jenny Lake, the Antelope Flats Road, or past Oxbow Bend for excellent wildlife viewing opportunities. Common spring flowers include sagebrush buttercup, arrowleaf balsamroot, lupine, low larkspur, Nuttall's violets, biscuitroot, and spring beauty.

---

**Craig Thomas Discovery & Visitor Center**
Visit the Discovery Center for trip planning, weather, and camping information. Enjoy new items in the art gallery including new American Indian paintings, historic, and modern artifacts. Follow the trail of time to the Colter Bay Visitor Center and enjoy more of the collection.

Watch a video or learn about the park through interactive exhibits. Experience the video river and talk to a park ranger about what to see and do. Stop at the Grand Teton Association bookstore for gifts, educational books, and postcards. The visitor center is open from 8 am to 5 pm daily during May. Extended hours begin June 7th.

**Menor's Ferry Historic District**
Take a self-guided tour around the historic district, see the Teton Range framed by a window in the Chapel of the Transfiguration, and learn about Jackson Hole history through displays at the Maud Noble Cabin.

**Taggart Lake Trailhead**
Drive 3.5 miles northwest of Moose Junction to enjoy a spectacular view of the Teton Range. The trail may be snow-covered or muddy during early season. Waterproof shoes are recommended to enjoy a 1-mile roundtrip hike to Taggart Lake. A vault toilet and trailhead information are available.

**Dornans**
Located just west of Moose Junction. Stack up on snacks at the Trading Post Grocery or enjoy a sheltered panoramic view of the Teton Range at the Dornans Pizza and Pasta Company. During May other services open for the summer season. Details page 6.

**Jenny Lake Visitor Center**
During this summer, the Jenny Lake Visitor Center will be housed in a temporary building as the visitor complex is rehabilitated. Park rangers will provide information and hiking maps, or you may shop for gifts, educational books, and postcards. The visitor center opens on May 19th from 8 am to 5 pm daily. Extended hours begin June 7th.

**Jenny Lake Trail**
Walk along a glacial moraine to view a glacially carved lake and canyon. Plan for snow patches on the trail through May. Waterproof shoes recommended. Trail routes and closures are in effect—check at a visitor center for more information. Access the trail from South Jenny Lake or String Lake Trailhead (page 1 for information).

**Leigh Lake Trail**
Enjoy an easy hike along the east shore of String and Leigh lakes with spectacular views of Leigh Canyon and Mount Moran. This trail is out-and-back—turn around at any point. Park at the String Lake Picnic Area for trailhead access. Vault toilets available.

**Colter Bay Visitor Center**
Colter Bay Visitor Center sits above the shore of Jackson Lake in the shadow of Mt. Moran. Rangers provide trip information, trail maps, and backcountry permits. An all new collection of American Indian historic and modern artifacts is on display. Find additional items at the Craig Thomas Discovery & Visitor Center.

Enjoy the American Indian Guest Artist Program. Stop at the Grand Teton Association bookstore for gifts, educational books, and postcards. The visitor center opens on May 12th from 8 am to 5 pm daily.

**Colter Bay Lakeshore Trail**
Enjoy a level, two-mile roundtrip hike along the north shore of Colter Bay. The trail continues onto a forested peninsula on Jackson Lake, providing inspiring views of the northern Teton Range.

**Heron Pond & Swan Lake**
Stroll along a three-mile roundtrip mostly level trail with excellent opportunities to see birds and other wildlife.

**Jackson Lake Lodge**
Located five miles south of Colter Bay, the historic Jackson Lake Lodge provides spectacular views of the Teton Range and Jackson Lake. The lodge contains gift shops, a restaurant, a grill, bar, and trail access to Christian Pond. Details page 6.

**Oxbow Bend**
Located seven miles south of Colter Bay, the Oxbow Bend turnout offers a popular view of Mount Moran and the Snake River. Look for river otters, American pelicans, moose, and grizzly bear tracks along the shore. Visit the Oxbow during dusk and dawn for best viewing opportunities. For your safety, do not approach wildlife.

RECYCLING CENTERS
Grand Teton National Park in conjunction with Grand Teton Lodge Company and Signal Mountain Lodge recycle more than 215 tons of material annually. Please use recycling bins to help keep Grand Teton National Park clean and pleasant for other campers and conserve resources.

REDUCE USE OF DISPOSABLE PLASTIC BOTTLES
Concessioners have joined the park by selling reusable water bottles. Save money and reduce waste by refilling your bottle.

Park Entrance Fees

Entry Grand Teton: 7 days
$30 per vehicle; $25 per motorcycle; $15 per person for single hiker or bicyclist.

Entry Grand Teton & Yellowstone: 7 days
$50 per vehicle; $40 per motorcycle; $20 per person for single hiker or bicyclist.

Annual Grand Teton: $60
Allows entrance to Grand Teton National Park for 12 months from date of purchase.

Interagency Annual Pass: $80
Covers entrance and standard amenity recreation fees on public lands managed by four Department of the Interior agencies—the National Park Service, Fish and Wildlife Service, Bureau of Land Management, and the Bureau of Reclamation, and by the Department of Agriculture’s U.S. Forest Service. The interagency pass is good at vehicle-based entry sites for all occupants in a single, non-commercial vehicle.

Military Annual Pass: Free
For active duty military personnel and dependents with proper identification (CAC Card or DD Form 1173). Covers entrance fees. Qualifying students must complete an online activity and print off a paper voucher to exchange for the pass. Visit: everykidinapark.gov for more information.

Every Kid in a Park, 4th Grade Pass: Free
Free to U.S. 4th grade students beginning September 1st the year the student begins 4th grade. Covers entrance fees. Qualifying students must complete an online activity and print off a paper voucher to exchange for the pass. Visit: everykidinapark.gov for more information.

WHAT KIND OF BEAR DID YOU SEE?

- Both grizzly bears and black bears live in the park and parkway. Color is misleading – both species vary from blonde to black.

GRIZZLY AND BLACK BEARS
- May be anywhere at any time.

Food Storage
- Store stuff with an odor in a hard-sided vehicle (windows closed), or in a bear box or canister when not in immediate use.
- Unattended food will be confiscated and you may be fined.
- Never let a bear consume human food. They will often become aggressive and must be killed.
- Report careless campers and bear sightings to a campground host or nearest ranger.

Safe Hiking Practices
- Keep your pack with you! Never leave it unattended.
- Maintain a distance of at least 100 yards from bears and wolves, and 25 yards from other wildlife. Use binoculars or a spotting scope for a good view. Never position yourself between a female and offspring—mothers are very protective. Let wildlife thrive undisturbed.
- Always maintain a distance of at least 100 yards from bears.

Bear Interactions
- Do not surprise a bear, this may provoke a charge or attack. Most bear attacks result from surprise encounters when a bear is defending cubs or food.
- If you see a bear, and it has not acted aggressively, slowly back away. Talk in a quiet, calm voice.
- If a bear approaches, back away slowly, watch the bear, and prepare your bear spray.
- If a bear charges, stand still until the bear stops and then back away slowly. A startled bear will often bluff by charging, then veering off or stopping abruptly.
- If a bear attacks, lie flat on your stomach. Spread your legs slightly and clasp your hands behind your neck. Do not move until you are sure the bear has left the area.

Bear bells are not sufficient. The use of bear spray (1-2% capsaicin) is an effective deterrent. Carry Bear Spray
- Bear spray (1-2% capsaicin) is an effective deterrent.
- Do not apply to people, tents, or backpacks—bear spray is not a repellent.
- Follow the manufacturer’s instructions—know how to use the spray, its limitations, and the expiration date.
- Do not apply to people, tents, or backpacks—bear spray is not a repellent.
- Never approach a bear. All bears are wild, dangerous, and unpredictable.
- If you suspect a predatory attack, fight back. Bears that attack at night or after stalking people view you as food.

Safe Wildlife Viewing
- Wildlife drawing many to this beautiful place seeking out the smallest calliope hummingbird or the largest grizzly bear.
- Wildlife viewing is everyone’s responsibility.
- Wildlife draw many to this beautiful place seeking out the smallest calliope hummingbird or the largest grizzly bear.
- Always maintain a distance of at least 100 yards from bears and wolves, and 25 yards from other wildlife. Use binoculars or a spotting scope for a good view. Never position yourself between a female and offspring—mothers are very protective. Let wildlife thrive undisturbed.
- Do not apply to people, tents, or backpacks—bear spray is not a repellent.
- Never approach a bear. All bears are wild, dangerous, and unpredictable.
- If you suspect a predatory attack, fight back. Bears that attack at night or after stalking people view you as food.
- If a bear attacks, lie flat on your stomach. Spread your legs slightly and clasp your hands behind your neck. Do not move until you are sure the bear has left the area.
- If you suspect a predatory attack, fight back. Bears that attack at night or after stalking people view you as food.

WIRELESS INTERNET
Free wireless internet access is available for the public at the Craig Thomas Discovery and Visitor Center in Moose.

Grizzly Bear
- Color ranges from blonde to black
- Distinctive shoulder hump
- Face profile appears dished in
- Ears are short and rounded
- Front claws are longer and less curved (2-4" long)

Black Bear
- Color ranges from blonde to black
- No distinctive shoulder hump
- Face profile is straight from nose to tip of ears
- Ears are tall and pointed
- Front claws are shorter and more curved (1-2" long)
Safety & Regulations

FIRES
Wyoming state regulations apply. Carrying or possessing firearms is prohibited in buildings and must be trained to perform firefighting tasks with the disability. Dogs whose sole function is providing comfort or emotional support do not qualify as service animals under the ADA.

GUNFIGHTING
Bicycles are permitted on public roadways, the multi-use pathway, and on the Colter Bay Marina breakwater. Ride single-file on the right side of the road and wear a helmet. Riding bicycles or other wheeled vehicles in the backcountry is prohibited. Roadway shoulders are narrow—use caution.

MULTI-USE PATHWAY
Only use non-motorized forms of transportation on the multi-use pathway. Persons with physical disabilities may use battery-operated transportation. Do not access the pathway from dikes to dunes for your safety and wildlife’s safety. Please do not walk your dog on the pathway. Service animals may travel on the pathway.

AQUATIC INVASIVE SPECIES (AIS)
Drain, Clean, Dry! Help protect park waterways and native fish from the spread of exotic species. Drain, clean, and dry all equipment including boats, boots and waders before entering a new body of water. Never empty containers of bait, fish, plants, or animals into park waters. Wyoming state law requires boaters to purchase an AIS dekal and have vessels inspected prior to launch. See below for fees.

REQUIRED BOAT PERMITS
Grand Teton Park Permits:
• Motorized craft $40
• Non-motorized craft $10
Purchase at Craig Thomas, Jenny Lake (cash only), or Colter Bay visitor centers.

Wyoming Aquatic Invasive Species:
• Motorized craft, WY resident $10
• Non-motorized craft, WY resident $5
• Non-motorized craft, non-WY resident $15
Purchase at Dragon’s Landing or Colter Bay Marina.

PERSONAL FLOATATION DEVICES
All vessels must carry a USCG approved personal flotation device (PFD) of the appropriate size for each person on board including stand up paddle boards. PFDs must be accessible and in good working condition. PFDs should be worn while boating. All passengers under 13 years of age must wear a PFD whenever a vessel is underway or be within an enclosed cabin.

BOATING
Motorboats are permitted on Jenny (10 horsepower maximum) and Jackson lakes. Human-powered vessels are only permitted on Jackson, Jenny, Phelps, Emma Matilda, Two Ocean, Taggart, Bradley, Bearpaw, Leigh, and String lakes. Sailboats, water skis, and windsurfers are allowed only on Jackson Lake. Personal watercraft are prohibited in the park. All boats entering WY must be inspected prior to launch. Information: wgfd.wyo.gov/wstfishing/1001290.aspx.

FLOATING THE SNAKE RIVER
Only human-powered vessels are allowed on the Snake River within the park and parkway. A permit is required, see “Boat Permits” section. The Snake River has constantly shifting channels and logjams that may present risks for boaters. Read the launch site bulletin boards for current river conditions. Use caution, accidents are common. Snake River flows: waterdata.usgs.gov/wy/nwis/current?type=flow.

FISHING
A Wyoming fishing license is required and may be purchased at Signal Mountain Lodge, Snow King Angler, or Colter Bay Village Store. A Wyoming fishing license is required. Check out a canister for free for use in the park when securing your permit.

JACKSON LAKE
Low water level may impact services at marinas. When water levels are low, boats risk striking objects normally submerged.

SWIMMING
Swimming is permitted in all lakes. There is a designated swimming beach at Colter Bay with picnic facilities, however, there are no lifeguards. The Snake River is a swift, cold river presenting numerous dangers; swimming is not recommended.

HOT SPRINGS
Soaking in pools where thermal waters originate is prohibited to protect resources. Soaking in adjacent run-off streams is allowed, provided they do not contain an originating water source. These waters may harbor organisms that cause diseases.

HIKING
Hikers should stay on trails. Short-cutting is prohibited and damages fragile vegetation promoting erosion. Know your limitations. For your safety, leave your itinerary with a responsible party. Solo travel is not advised. Permits are not required for day hikes. Trailhead parking areas fill in July and August. During early summer, trails may be snow-covered and require an ice axe for safe travel. Visitor centers sell topographic maps and trail guides.

BACKPACKING
Obtain a backcountry permit for all overnight trips in the park or parkway at the Craig Thomas Discovery or Colter Bay visitor centers and the Jenny Lake Ranger Station. One-third of backcountry campsites can be reserved in advance ($35 fee) from early January until May 15. The fee for a walk-in permit is $25. Park approved bear-resistant food storage canisters are required. Check out a canister for free for use in the park when securing your permit.

CLIMBING
Use experience and good judgment when climbing or traveling in the mountains. The Jenny Lake Ranger Station is staffed from early June to early September by climbing rangers who provide weather and route conditions, or check: www.tetonclimbing.blogspot.com. Registration is not required for day climbs. Backcountry permits are required for all overnight stays. Pick up any permit involving climbing at the Jenny Lake Ranger Station. The park DOES NOT check if you have departed the backcountry. Leave your itinerary with a responsible party. Solo travel is not advised.

Teton Weather

In the valley, spring daytime temperatures begin to rise from the 60s to the low 70s°F. Nighttime temperatures still drop into the 50s°F. Be prepared for changing conditions. Dress in layers when recreating. Afternoon thunderstorms are less frequent in spring, but are still of concern. Since 1999, there have been 30 injuries and two fatalities in climbing accidents. Since 1999, there have been 30 injuries and two fatalities in climbing accidents. The moon will completely obscure the sun starting at 11:35 am for about 2 minutes, and the sun’s corona will be visible around the disk of the moon.

Total Solar Eclipse

What is a solar eclipse?
A solar eclipse occurs when the moon passes between the sun and Earth blocking all or part of the sun. The last total eclipse for the contiguous U.S. was in 1979, the next one will be in 2024.

The Great American Solar Eclipse will begin over Jackson Hole at 10:17 am on Monday, August 21st, 2017. The moon will completely obscure the sun starting at 11:35 am for about 2 minutes, and the sun’s corona will be visible around the disk of the moon.

Eclipse Safety
Wear proper eye protection to view the eclipse, or you may cause serious eye damage. Eclipse glasses are the simplest method to view the eclipse from start to finish.

Planning
The park is currently putting together a plan for this event. We are expecting record visitation! All lodging and campgrounds that accept reservations are booked. Look for special events scheduled throughout the summer, culminating on August 21st.

GRAND TETON ASSOCIATION

Grand Teton Association (GTA) is a nonprofit organization founded in 1937 that has long been an important bridge between visitors and environment in the Greater Yellowstone Ecosystem. Their mission is to increase public understanding, appreciation, and enjoyment of Grand Teton National Park and the surrounding public lands, through aid to the interpretive, educational, and research programs of our partners.

GTA provides educational materials, funds learning programs, offers research grants, hosts art events, and much more. Please consider shopping online or becoming a member to help us carry out the essential work we do.

GRAND TETON NATIONAL PARK FOUNDATION

Grand Teton National Park Foundation (GTNPF) provides private financial support for special projects that enhance and protect Grand Teton National Park’s treasured resources. Since 1997, the organization has raised over $60 million to fund projects that enhance Grand Teton National Park’s cultural, historic, and natural resources and to help others learn about and protect all that is special in the park.

By funding initiatives that go beyond what the National Park Service could accomplish on its own, Foundation friends solve park challenges and create a solid future for Grand Teton National Park.

In 2016, GTNPF and the National Park Foundation completed a $23 million campaign to permanently protect Antelope Flats in the heart of Grand Teton National Park.
CONSTRUCTION DELAYS
Expect minor maintenance delays throughout the season. For up-to-date road construction information call: 307-739-3614 or cell 511.

Jenny Lake Construction
• Jenny Lake Boating will offer scenic cruises throughout the day once the lake melts. No shuttle service.
• Inspiration Point & Hidden Falls closed.
• No flush toilets.
• Limited parking, especially for Buses, RVs, and Trailers.
• Come early, arrive late to avoid crowds.

Be Safe, Go Slow, Be Aware
Thank you for being patient as your park is renewed for the future.

In 2016, vehicle collisions killed over 150 large animals in the park! Almost 75 percent of wildlife fatalities occur on this section of highway. Throughout the park, more than half the fatalities occur at night. To better protect the public and to preserve wildlife, park officials reduced the speed limit at night to give drivers and animals more reaction time. If you do hit an animal, report the accident to a park ranger.

Please obey posted speed limits to help us improve safety and protect wildlife.
