Be Bear Aware

BLACK AND GRIZZLY BEARS LIVE THROUGHOUT THE PARK AND PARKWAY. Some of the most popular trails travel through excellent bear habitat. Bears will usually move out of the way if they hear people approaching so make noise. Don’t surprise bears! Calling out and clapping your hands at regular intervals are the best ways to make your presence known. Some trail conditions make it hard for bears to hear, see, or smell approaching hikers. Be particularly careful near streams and when vegetation or terrain limits line of sight. Keep children close by. hike in groups and avoid hiking early in the morning, late in the day or when it is dark.

Never intentionally get close to a bear. Individual bears have their own personal space requirements, which vary depending on their mood. Each bear will react differently and a bear’s behavior can’t be predicted. All bears are wild and dangerous and should be respected equally.

- Never leave your backpack unattended!
- Never allow a bear to get human food.
- If approached by a bear while eating, put food away and retreat to a safe distance.

Respect Roadside Bears

Bears feeding along roads quickly become habituated to vehicles and people, increasing their chances of being hit by motor vehicles. Please use turnouts when viewing bears, stay with your car, and keep a distance of at least 100 yards (300 feet) away from bears at all times.
FEW LANDSCAPES IN THE WORLD are as striking and memorable as that of Grand Teton National Park. Rising abruptly from the valley floor, the Tetons offer a testament to the power and complexity of nature. The mountains, valleys, lakes, rivers and skies are home to diverse and abundant plants and animals.

People have been living in the shadow of the Teton Range for more than 11,000 years. The human history of this area is extensive, beginning with prehistoric American Indians, to the early Euro-American explorers, and the more recent frontier settlers. Today, more than 800 historic structures remain in the park.

This spectacular mountain range and the desire to protect it resulted in the establishment of Grand Teton National Park in 1929. Through the vision and generous philanthropy of John D. Rockefeller, Jr., additional lands were added, creating the present day park in 1950.

Grand Teton National Park is truly a special and unique place. With thoughtful use and careful management, it can remain so for generations to come. As with other sites in the National Park System, Grand Teton preserves a piece of the natural and cultural heritage of America for the benefit and enjoyment of future generations.

While you are here, take a moment to put your cares aside, stroll through a sagebrush meadow, hike a park trail, sit on a quiet lakeshore, and lose yourself to the power of this place.

We hope you will be refreshed and restored during your visit, and stay connected to this magnificent landscape long after you have returned home.

Teton Weather

Lightning Safety

Follow these guidelines to avoid lightning-related injuries.

- Afternoon storms are common in summer, get to a safe place before storms hit.
- Avoid mountain tops, ridges, open areas and lone trees, forested areas with trees of similar height are safer.
- Do not stand on tree roots.
- If boating, get off the water.
- If hiking, don’t go alone.
- If camping, avoid any metal structures.
- Do not use metal canisters or backpacks.
- If possible, seek shelter in a vehicle. If this is not possible, get into a vehicle that is capable of being closed completely and driven to safety.
- Turn off all electronic equipment.
- If caught in a thunderstorm, try to find the nearest structure with a roof.

From June through August the average daily temperature in the valley is 76°F, but high-elevation hiking trails are not snow-free until mid-July due to heavy snowfall in winter. Nighttime temperatures can drop to the lower 40s.

Dress in layers when recreating and be prepared for changing conditions. Afternoon thunderstorms occur frequently during the summer. Since 1999, there have been 30 injuries and two fatalities in the park due to lightning. Avoid mountain tops, ridges and open areas.

NOAA weather forecasts are available at www.weather.gov/riverton, on NOAA Weather Radio at 162.525 MHz, or by calling the National Weather Service at 1-800-211-1448.

**Visitor Centers 2011**

**Craig Thomas Discovery & Visitor Center**
Located in Moose, 1/2 mile west of Moose Junction. Open Daily. (307) 739-3392.
May 1-June 5 8 a.m. to 10 p.m.
June 6-Sept. 25 8 a.m. to 10 p.m.
Sept. 26-Oct. 31 9 a.m. to 6 p.m.

**Jenny Lake Visitor Center**
Located 8 miles north of Moose Junction on the Teton Park Road. Open Daily. (307) 739-3392.
May 13-June 5 8 a.m. to 5 p.m.
June 6-Sept. 5 8 a.m. to 7 p.m.
Sept. 6-Sept. 25 8 a.m. to 5 p.m.

**Jenny Lake Ranger Station**
Located 8 miles north of Moose Junction on the Teton Park Road. Open Daily. (307) 739-3343.
May 21-Sept. 18 8 a.m. to 5 p.m.

**Colter Bay Visitor Center & Indian Arts Museum**
May 7-June 5 8 a.m. to 5 p.m.
June 6-Sept. 5 8 a.m. to 7 p.m.
Sept. 6-Oct. 10 8 a.m. to 5 p.m.

**Flagg Ranch Information Station**
June 6-Sept. 5 9 a.m. to 3:30 p.m. May be closed for lunch

**Laurence S. Rockefeller Preserve Center**
May 22-June 5 9 a.m. to 5 p.m.
June 6-Sept. 5 8 a.m. to 6 p.m.
Sept. 6-25 9 a.m. to 6 p.m.

---

**For Wildlife Observers & Photographers**

**BE A RESPONSIBLE WILDLIFE OBSERVER.** Approaching wildlife stresses animals and can endanger you and your family. During the summer of 2005, a man was suddenly kicked by a moose and seriously injured. Use binoculars, spotting scopes or long lenses for close views and photographs.

**Jenny Lake Visitor Center**
Located 8 miles north of Moose Junction on the Teton Park Road. Open Daily. (307) 739-3392.
May 1-June 5 8 a.m. to 5 p.m.
June 6-Sept. 25 8 a.m. to 7 p.m.
Sept. 26-Oct. 31 8 a.m. to 5 p.m.

**PARK CAMPGROUNDS**

**Colter Bay Campground**
- 350 individual sites, 1 group site
- 30 foot vehicle max
- Open: May 1 to Oct. 31
- Filling Time: 9 a.m.

**Jenny Lake Campground**
- 175 individual sites, 5 group sites
- 30 foot vehicle max
- Open: May 1 to Oct. 31
- Filling Time: 9 a.m.

**Lizard Creek Campground**
- 30 individual sites, 10 walk-in sites
- Open: May 20 to Oct. 2
- Filling Time: 9 a.m.

**Signal Mountain Campground**
- 27 individual sites, 1 RV hookup site
- Open: May 6 to Oct. 16
- Filling Time: noon or earlier

**Gros Ventre Campground**
- 350 individual sites, 5 group sites
- Open: May 6 to Oct. 9
- Filling Time: rarely fills

**REDUCE YOUR USE OF DISPOSABLE PLASTIC BOTTLES**

Park concessioners are joining Grand Teton National Park to reduce the sale and use of disposable plastic bottles by selling reusable containers. Save money, energy and reduce waste by using reusable bottles for water.

**GROUP CAMPING**

Reservations are available for group camping at Colter Bay and Gros Ventre campgrounds. The sites range in capacity from 10 to 100 people. Advance reservations are required and may be made through the Grand Teton Lodge Company at (888) 628-9988 or (307) 543-3100.

**PUBLIC SHOWER**

Public shower facilities in the parks are located at Colter Bay Village in the laundromat.

**CONSTRUCTION 2011**

The park will be improving Gros Ventre and Colter Bay campgrounds this summer. Check with a campground host or on campground bulletin boards for any closures or notices regarding construction and improvements.
Safety & Regulations

FIREARMS
Wyoming state regulations apply. Carrying or possessing firearms is prohibited in buildings where notice is posted. Firearms may not be discharged in a national park, except by permitted individuals during legal hunting seasons.

FIREWORKS
Fireworks and other pyrotechnic devices are prohibited at all times in the park.

CAMPFIRES
Campfires are allowed without a permit at designated campgrounds and picnic areas within metal fire grates, unless fire restrictions are in effect. A permit may be obtained for campfires below the high water line of Jackson Lake at the Colter Bay Visitor Center. Campfires are prohibited in all other areas.

PLANTS & ANIMALS
All plants and animals are part of natural processes and are protected within the park and parkway. Leave plants and animals in their natural setting for others to enjoy. Even picking wildflowers is prohibited. Keep a respectful distance from all animals to avoid disturbing their natural routines. Large animals are quick, powerful, and unpredictable. Getting too close can result in serious injury. Take special care to avoid encounters with wildlife and to help maintain their natural fear of humans. Many small animals can carry diseases and should never be touched or handled. Allow them to find their own food. Their natural diet ensures their health and survival. No matter how tempting it may be to give food to animals, feeding is prohibited.

PETS
Pets must be restrained on a leash (6 feet or less) at all times. Pets are not allowed in visitor centers, on park trails or in the backcountry, in boats on the Snake River or in visitor centers, on park trails or in the parkway. Pets are not allowed (on or off trail) at all times. Pets are not allowed on ranger-led activities. Kennels allowed on ranger-led activities. Kennels are available in Jackson. Properly dispose of pet feces in garbage cans.

MULTI-USE PATHWAY
All multi-use pathways are closed from dusk to dawn for wildlife and public safety. PETS ARE NOT PERMITTED on the park pathway. Guide dogs—used for the sole purpose of aiding a person with physical disability—may travel on the pathway. Ask at a visitor center for suggestions on where to exercise your pet.

AQUATIC NUISANCE SPECIES
Help protect park waterways and native fish by learning how you can prevent the spread of exotic species. Inspect, clean and dry all equipment including boats, boots and waders before entering a new body of water. Never empty containers of bait, fish, plants or animals into park water. Ask at a permits office for information on the new Wyoming state law requiring boaters to purchase a sticker to display on their boat.

PERSONAL FLOTATION DEVICES (PFDs)
PFDs are required on all boats. Wearing PFDs is required for anyone under 13 years and on all commercial vessels and it is strongly recommended that all adults in private boats wear PFDs.

BOATING
Motorboats are permitted on Jenny (10 horsepower maximum) and Jackson lakes. Human-powered vessels are permitted on Jackson, Jenny, Phelps, Emma Matilda, Two Ocean, Taggart, Bradley, Bearpaw, Leigh and String lakes. Safety, water skiing and windsurfers are allowed only on Jackson Lake. For motorized craft, the fee is $20 for a 7-day permit and $40 for an annual permit; for non-motorized craft, the fee is $10 for a 7-day permit and $20 for an annual permit. Jet skis are prohibited on all waters within the park. Permits may be purchased at the Craig Thomas Discovery, Jenny Lake or Colter Bay visitor centers.

FLOATING THE SNAKE RIVER
Only human-powered rafts, canoes, dories and kayaks are allowed on the Snake River within the park and parkway. Registration ($10 for a 7-day permit, $20 for an annual permit) of non-motorized vessels is required and may be completed at the Craig Thomas Discovery, Jenny Lake or Colter Bay visitor center. Read the launch site bulletin boards for current river conditions. On the surface, the Snake River may not seem very powerful, but only experienced floaters should attempt this swift, cold river that has many braided channels and debris jams.

FISHING
Whitefish and cutthroat, lake, and brown trout inhabit lakes and rivers of the park and parkway. Obtain fishing regulations at visitor centers.

A Wyoming fishing license is required to fish in the park and parkway and may be purchased at Signal Mountain Lodge, Colter Bay Marina, Colter Bay Village Store, Dornan’s and Flagg Ranch Lodge. Fishing in Yellowstone National Park requires a separate permit (fee charged). Purchase permits at Yellowstone visitor centers and ranger stations. The use of non-native baitfish is prohibited in all parks.

JACKSON LAKE
Contact visitor centers for information on the availability of services at Leek’s, Signal Mountain and Colter Bay marinas. Water levels vary in the summer and submerged hazards are not marked.

SWIMMING
Swimming is permitted in all lakes. There is a designated swimming beach at Colter Bay with picnic facilities; however, there are no lifeguards. The Snake River is a swift and cold river presenting numerous dangers; swimming is not recommended.

HOT SPRINGS
Thermal water can harbor organisms that cause a fatal meningitis infection and Legionnaires’ disease. Exposing your head to thermal water by immersion, splashing, touching your face, or inhaling steam increases your risk of infection.

HIKING
Hikers are reminded to stay on trails; shortcutting is prohibited because it damages fragile vegetation and causes erosion. Visitor centers sell topographic maps and trail guides. Know your limitations when traveling in the backcountry. If you travel alone, let a friend or relative know your planned destination, route, and expected time of return. These precautions will greatly increase your chance of survival in an emergency. Permits are not required for day hiking. Trailhead parking areas fill early during the day in July and August, so start your hike early to avoid parking problems. In early summer, many trails are snow-covered and you may need an ice axe.

BACKPACKING
Grand Teton National Park has more than 230 miles of trails of varying difficulty. Obtain the required, free backpacking permit overnight trips at the Craig Thomas Discovery or Colter Bay visitor centers or the Jenny Lake Ranger Station. One-third of backpacking campsites in high use areas may be reserved in advance from January 5–May 15; there is a fee of $25 per reservation. Pets are not allowed on park trails or in the backcountry. Park approved bear resistant canisters are required for all overnight backcountry use except at specific designated backcountry sites. Ask at a visitor center for more details. Obtain a free canister for use in the park when registering your trip.

CLIMBING
There are many risks and hazards associated with climbing and mountain travel. Experience and good judgment are essential. The Jenny Lake Ranger Station is staffed from late May to late September by climbing rangers who can provide up-to-date weather and route conditions. Registration is not required for day climbs or cross-country hiking. Backcountry permits are required for all overnight climbs. The park DOES NOT check to see that you get safely out of the backcountry. Leave an agenda with friends or family so backcountry travel is not advised.

Interestd in Working in the Park?

Floating the Snake River

THE SNAKE IS A COMPLEX RIVER TO FLOAT.

The beauty and lack of whitewater floats into inattentiveness. A tangle of channels and constant shifting of log jams present difficulties found on few whitewater rivers. Accidents are common. Use caution whenever you float.

Even boaters frequently floating the Snake should check conditions before every trip, as the river can change overnight. River flow varies greatly throughout the summer. Water depth averages two to three feet, although it exceeds 10 feet in some locations. Boulders and bottom irregularities can cause standing waves up to three feet high.

For information on Snake River flows, call 1-800-658-5771. For floating regulations and river information, stop by a visitor center and request a floating bulletin.

HAYE YOU EVER THOUGHT ABOUT SPENDING A SUMMER WORKING IN A NATIONAL PARK? Summer seasonal positions are recruited during the winter months. A wide variety of positions provide unique challenges, and many rewards. Imagine yourself fighting wild fires, maintaining backcountry trails, patrolling the Snake River in a boat, providing guided ranger hikes or assisting a park biologist with wolf research.

To view and apply for vacancies for all federal jobs visit www.usajobs.gov. For a list of available jobs in the Department of Interior, including the National Park Service see http://www.doiojobs/jobs.html. Positions posted for Grand Teton National Park can be found under jobs listed in Moose or Moran, Wyoming. You can also learn about vacancies at www.nps.gov/grte/supportyourpark/employment.htm. For jobs in fire management, log on to www.tetonfires.com and click on the Employment link. Go to www.nps.gov/grte/supportyourpark/upload/OF110-Fedres.pdf to learn how to apply for federal jobs.

4 GRAND TETON GUIDE [Summer 2011]
Don’t Feed the Bears—Food Storage Required!

Bears and Food

Black and grizzly bears can be anywhere in the park at any time. Odors attract bears into campgrounds and picnic areas. Regulations require that all food, garbage, toiletries, pet food, coolers and food containers (empty or full), and coolware (clean or dirty) be stored in a hard-sided vehicle with the windows rolled up or bear-resistant food locker when not in immediate use, day or night. Failure to follow regulations is a violation of federal law and may result in a citation.

Keep a Clean Camp

Keep a clean camp! Improperly stored or unattended food will be confiscated and you could be fined.

• Treat odorous products such as soap, toothpaste, fuel products, suntan lotion, and bug repellent in the same manner as food.
• Never store food, garbage or toiletries in tents or sleeping bags.
• Place all trash in bear-resistant garbage dumpsters.
• Immediately report careless campers and all bear sightings to the campground kiosk or nearest ranger.
• Bears that receive human food often become aggressive and must be killed.

Help keep park bears wild!

If You Encounter a Bear

Do not run; bears can easily outrun you. Running may cause an otherwise non-aggressive bear to attack.

If the bear is unaware of you keep out of sight and detour behind and downwind of the bear.
If the bear is aware of you but has not acted aggressively, slowly back away.
Do not drop your pack! This teaches bears how to obtain human food and often results in the death of a bear.
Do not climb trees. All black bears, all grizzly cubs and some adult grizzlies can climb trees.

If You Carry Bear Spray

• Bear spray has been shown to be extremely effective in deterring bear attacks.
• If you are attacked, do not run. Turn your head to the side, eyes wide open, and very slowly walk away. Look for a vehicle to drive past or ask someone nearby to drive or walk near you. Do not stop or turn abruptly. Bear experts generally recommend veering off when you see a bear.
• Do not run! Most bear attacks result from surprise encounters when the bear is defending their young or a food source, such as a carcass. Some bears will bluff their way out of a threatening situation by charging, then veering off or stopping abruptly. Bear experts generally recommend standing still until the bear stops and then slowly backing away.
• If you are attacked, lie on the ground completely flat on your stomach. Spread your legs slightly and clasp your hands over your face and neck. Do not move until you are certain the bear has left.

If a Bear Approaches or Charges You

Do not run! Most bear attacks result from surprise encounters when the bear is defending their young or a food source, such as a carcass. Some bears will bluff their way out of a threatening situation by charging, then veering off or stopping abruptly. Bear experts generally recommend standing still until the bear stops and then slowly backing away.

If you are attacked, lie on the ground completely flat on your stomach. Spread your legs slightly and clasp your hands over your face and neck. Do not move until you are certain the bear has left.

In rare cases, bears have attacked at night or after stalking people. These types of attacks may mean the bear views you as prey. If you are attacked at night or if you feel you have been stalked and attacked as prey, fight back. Do whatever it takes to let the bear know you are not easy prey.

Please stop by a park visitor center for more information.

Bears and Food

Black and grizzly bears can be anywhere in the park at any time. Odors attract bears into campgrounds and picnic areas. Regulations require that all food, garbage, toiletries, pet food, coolers and food containers (empty or full), and coolware (clean or dirty) be stored in a hard-sided vehicle with the windows rolled up or bear-resistant food locker when not in immediate use, day or night. Failure to follow regulations is a violation of federal law and may result in a citation.

Do not climb trees. All black bears, all grizzly cubs and some adult grizzlies can climb trees.

If You Carry Bear Spray

• Bear spray has been shown to be extremely effective in deterring bear attacks.
• Use only bear spray. Personal self-defense pepper spray is not effective.
• Keep the canister immediately available, not in your pack.
• Follow the manufacturer’s instructions, know how to use the spray, and be aware of its limitations, including the expiration date.
• It is not a repellant! Do not spray it on people, tents or backpacks.
• Under no circumstances should bear spray serve as a substitute for standard safety precautions in bear country.

Help Our Bears!

Do not leave backpacks, coolers, or bags containing food unattended for ANY amount of time.

Do not leave food, garbage or coolers in the open bed of a truck or on the exterior of any vehicle.

Ride the Park Shuttle to Grand Teton National Park

Alltrans, Inc. runs a daily shuttle service from the town of Jackson to Grand Teton National Park. This service starts Wednesday May 25, 2011, ending on Sunday September 25, 2011. The Park Shuttle consists of scheduled shuttle runs through the park every day with eight (8) bus stops including the Home Ranch parking lot in Jackson (near the town square), the Greater Yellowstone Visitor Center (on Cache Street), the National Museum of Wildlife Art, the Craig Thomas Discovery and Visitor Center, the Jenny Lake Visitor Center, Signal Mountain Lodge, Jackson Lake Lodge, and the Colter Bay Visitor Center. Visitors may access multiple destinations throughout the park for one daily fare (park entrance fees not included).

Cost to ride the shuttle is $12 per person, per day for an unlimited number of rides. Riders may get on and off the shuttle at any stop. Payment will be accepted by drivers in cash, Visa, or MasterCard.

For more information, call Alltrans, Inc. at 307-373-1700 or 1-800-441-6133. For the Park Shuttle schedule and more information visit the website, www.alltransparkshuttle.com.

The park has also committed to reducing its ecological footprint and greenhouse gas emissions. Through energy and water conservation measures, green purchasing, green building, education and outreach, and an expanded recycling program, we are well on our way to reducing our greenhouse gas emissions by at least 20 percent by 2012. You can help with these efforts! Purchase and use refillable water bottles, reduce idling by turning your car off (especially during construction stops), recycle when possible, and drive the speed limit to conserve gas (and save wildlife). Over three million people visit the park each year, your actions can make a difference to help protect pikas, the park and our planet.

By Grand Teton National Park Green Team

**The American pika. Photograph by Mike Nicklas**

The American pika—a small rabbit-like mammal that lives on rocky slopes—can often be heard while hiking in the park. Pikas live here at elevations ranging from 6,600-11,500 feet. Research indicates global warming may have contributed to localized extinctions of pika populations in the far west. They are an indicator species for climate change effects due to their narrow temperature tolerance and rather limited habitat range.

Grand Teton is part of a large-scale interagency program to monitor the effects of climate change on pikas and their habitat. The park has other ongoing climate-change-related studies looking at fire, plants, meadows, butterflies, birds, and alpine lakes.

---

**WHERE TO LOOK FOR WILDLIFE**

**The Snake River. Photograph by Dan Ng**

- **Blacktail Ponds**
  - A forested ridge southeast of Jenny Lake. Small bands of pronghorn, the fastest North American land mammal, forage on nearby sagebrush throughout the day. Elk leave the shade of Timbered Island at dawn and dusk to eat grasses growing among the surrounding sagebrush. View wildlife safely from your vehicle.
  - Always maintain a safe distance of at least 300 feet from large animals. Do not feed or harass wildlife of any kind.

- **Timbered Island**
  - East of Highway 26/89/191, one mile north of Moose Junction. Along Mormon Row and Antelope Flats Road, bison and pronghorn can be seen grazing in spring, summer and fall. Also watch for coyotes, Northern harriers and American kestrels hunting mice, Uinta ground squirrels and grasshoppers in open fields. Sage grouse, sage thrashers and sparrows also frequent the area.

- **Snake River**
  - Jackson Lake Dam south to Moose. Elk and bison graze in grassy meadows along the river. Bison also eat grasses in the sagebrush flats on the benches above the river. Bald eagles, ospreys and great blue herons build large stick nests within sight of the river. Beavers and moose eat willows lining the waterway.
  - Elk Ranch Flats
  - Stop at the Elk Ranch turnout on highway 26/89/191 just north of Cunningham Cabin. Here you may see pronghorn, bison, elk and even domestic animals using a grazing permit. The open grasses here attract a variety of animals.

- **Mormon Row**
  - East of Highway 26/89/191, one mile north of Moose Junction. Along Mormon Row and Antelope Flats Road, bison and pronghorn can be seen grazing in spring, summer and fall. Also watch for coyotes, Northern harriers and American kestrels hunting mice, Uinta ground squirrels and grasshoppers in open fields. Sage grouse, sage thrashers and sparrows also frequent the area.

- **Elk Ranch Flats**
  - Stop at the Elk Ranch turnout on highway 26/89/191 just north of Cunningham Cabin. Here you may see pronghorn, bison, elk and even domestic animals using a grazing permit. The open grasses here attract a variety of animals.

**WHAT CAN YOU DO WHILE VISITING GRAND TETON NATIONAL PARK AND AT HOME?**

<table>
<thead>
<tr>
<th>CONSERVATION MEASURE</th>
<th>WHY IS IT IMPORTANT?</th>
<th>WHAT YOU CAN DO</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Recycle</strong></td>
<td>Recycled materials use 55-95% less energy than products made from raw materials. Ask at any visitor center or residence station for recycling station locations throughout the park.</td>
<td>The park recycles: - Newspaper/magazines/catalogs - Office paper - Corrugated cardboard - #1/#2 plastic bottles - Aluminum/brass - One-pound propane cartriges</td>
</tr>
<tr>
<td><strong>Reduce/Reuse</strong></td>
<td>Reduce waste by using your own cups, bottles and bags, and buying products made from recycled materials. Reusable products can save you money. Production of plastic water bottles in the U. S. requires 20 billion barrels of oil annually.</td>
<td>The majority of pollution in national parks is from personal vehicles. Idling for just 10 seconds burns more gasoline than turning your car off and on again.</td>
</tr>
<tr>
<td><strong>Practice No Idling</strong></td>
<td>- Turn the car off if you are idling more than 10 minutes—especially in construction zones.</td>
<td>- Consider walking, biking or carpooling to your destination.</td>
</tr>
<tr>
<td><strong>Conserve Energy</strong></td>
<td>Reducing energy consumption helps reduce the carbon footprint of the park.</td>
<td>At your hotel or in your camper: - Limit heating and cooling by dressing appropriately for the weather - Turn off lights when leaving</td>
</tr>
<tr>
<td><strong>Conserve Water</strong></td>
<td>Large amounts of energy and chemicals are needed to treat both tap water and waste water.</td>
<td>At your hotel or in your campsite:</td>
</tr>
<tr>
<td><strong>Increase Your Knowledge</strong></td>
<td>Learn what you can do to help protect Grand Teton National Park, your own community and the planet!</td>
<td>- Say “No, thank you” to bags at store checkout</td>
</tr>

**WHERE TO LOOK FOR WILDLIFE**

WHERE TO LOOK FOR WILDLIFE

GRAND TETON GUIDE [Summer 2011]
Enjoy a variety of trails, activities, scenic drives and ranger programs as well as unique historic districts and iconic views of the Teton Range. Enjoy a 3-mile roundtrip hike to Taggart Lake or detour for a longer hike and great view of Bradley Lake and Garnet Canyon. A pit toilet, trailhead information and brochures are available.

DEATH CANYON TRAILHEAD
Drive three miles south of Moose on the Moose-Wilson Road (closed to trailers or motorhomes) to the Death Canyon Road. High clearance vehicles are recommended to drive this very rough road. Access Death Canyon and Phelps Lake. For a great family hike, walk to the Phelps Lake overlook (2.8 miles roundtrip, 420-foot elevation change).

Look for marmots, black bear and moose. Carry bear spray and know how to use it.

MULTI-USE PATHWAY
Bike, walk, skateboard or rollerblade on the new multi-use pathway. Access the pathway from Moose or Taggart Lake Trailhead. The pathway extends from Dornan’s to South Jenny Lake. Bike rentals are available at Dornan’s near Moose or in Jackson or Teton Village. Special regulations apply, see page 4 for more information.

This paved road becomes gravel at Atherton Creek Campground. A restroom is located at Kelly Warm Springs at the beginning of the Gros Ventre Road. Bison frequent this natural thermal area.

MOOSE-WILSON ROAD
Drive the narrow, winding Moose-Wilson Road for wildlife viewing opportunities along wetland habitat. Motorhomes and trailers are not permitted and the unpaved section may be rough. Speed limits are strictly enforced and the road often becomes congested during peak hours. Watch for bicyclists and wildlife on the roadway.

See page 11 for special programs in the Moose District.

Program schedules may change at any time.
Explore Jenny Lake District

South Jenny Lake is located 8 miles north of Moose. Please see the park map on page 16 to help you plan your trip to the Jenny Lake District. Explore Jenny Lake for convenient access to glacially-formed lakes and invigorating hikes while enjoying dramatic mountain scenery.

PARKING
Parking at South Jenny Lake is highly congested and often full from 10 a.m. to 2 p.m. Plan accordingly. Watch for pedestrians.

SOUTH JENNY LAKE
Visit the Jenny Lake Visitor Center for trip planning, weather and camping information. Learn about Teton Range geology through interactive exhibits and a short geology film. Shop at the Grand Teton Association retail area for gifts, educational books and postcards. The visitor center is open daily June 6-September 5 from 8 a.m. to 7 p.m.

See page 11 for special programs in the Jenny Lake District.

See page 11 for special programs in the Jenny Lake District.
Spend Time in Colter Bay District

**Program schedules may change at any time**

**Colter Bay**
Visit the Colter Bay Visitor Center for trip planning, weather, permits and camping information. Visit the unique and priceless David T. Vernon Indian Arts Museum, part of the Rockefeller legacy. Shop at the Grand Teton Association bookstore for gifts, educational books and postcards. The visitor center is open daily June 6-September 5 from 8 a.m. to 7 p.m., for off-season hours see page 3.

Enjoy lunch on the lakeshore at the picnic area or take a hike on one of the area trails for great opportunities to see wildlife. A ranger-led walk is offered daily at 8 a.m. You will also find an RV park, cabins, restaurant, general store, laundromat, service station and showers.

**JOHN D. ROCHEFELDER, JR. MEMORIAL PARKWAY**
Visit the Flagg Ranch Information Station in the John D. Rockefeller, Jr. Memorial Parkway for trip planning, trail information and an exhibit on John D. Rockefeller, Jr. The station is open daily from June 6-September 5 from 9 a.m. to 3:30 p.m., may be closed for lunch. Access trails and the Flagg Ranch Resort, store, campground and restaurant.

**JACKSON LAKE LODGE**
Even if you are not staying overnight at the Jackson Lake Lodge, the historic building is worth a visit. Large mural windows showcase views of Jackson Lake and the northern Teton Range. Wildlife such as black and grizzly bears, elk and moose are frequently seen from the lodge. Enjoy gift stores, a corral, restaurants, a bar and trail access.

**Hiking**
Great hiking and wildlife viewing opportunities abound in the Colter Bay District. Enjoy hiking through a variety of biotic communities with dramatic views of the northern Tetons. See the trailheads section above for locations and suggestions. Weather may change abruptly, afternoon thundershowers are common, bring extra clothing and plenty of water. Dehydration can lead to serious illness, and has been the cause for many rescues in the park.

**Boating**
Rent a canoe, kayak or even a motorboat from the Colter Bay Marina or launch your own boat in Jackson Lake or Two Ocean Lake (human-powered boating only). Pets are only allowed in boats on Jackson Lake, all other lakes, trails and rivers are closed to pets. Guided scenic raft trips on the Snake River are also available. See page 4 for boating regulations. Permit required.

**Wildlife Viewing**
Stop at the Willow Flats Overlook or the Oxbow Bend Turnout for excellent wildlife viewing opportunities. Park in designated turnouts, not on the roadway. Excellent wildlife viewing opportunities can be found anywhere along the road from Moran Junction to Colter Bay, especially during dawn and dusk hours. Never harass or feed wildlife, stay at least 300 feet from all large mammals for your safety and theirs.

**Indian Arts Museum**
Visit the David T. Vernon Indian Arts Museum at the Colter Bay Visitor Center to view a priceless collection of Indian artifacts. Rangers present three different programs during the week and visiting Indian artists from around the country demonstrate and sell their artwork in the lower level of the museum throughout the summer.

Experience the Laurance S. Rockefeller Preserve

Located four miles south of Moose on the Moose-Wilson Road, the Preserve Center offers unique sensory exhibits and trails leading to Phelps Lake, providing extraordinary views of the Teton Range. *Due to the narrow road, trailers and oversized vehicles are not permitted on the Moose-Wilson Road.

Laurance S. Rockefeller Preserve Center

Visit the Center to learn more about Mr. Rockefeller’s vision for the Preserve and his legacy of conservation stewardship. The Center will orient you to the area with unique sensory exhibits that highlight the visual, auditory and tactile qualities of the Preserve’s plants and wildlife. Learn about the innovative design techniques and features that make the Center a model for energy and environmental design. Open daily May 22-June 4 from 9 a.m. to 6 p.m.; June 5-September 5 from 8 a.m. to 6 p.m. The Preserve adheres to the principles of “Leave No Trace”—plan to pack out your trash. No sales area and no permits issued.

Preserve Trails

The Preserve offers an 8-mile trail network that provides access to the extraordinary views of Phelps Lake and the Teton Range, as well as other scenic and ecological features. Immerse yourself by quietly walking the trails and opening your senses to the sights, smells, sounds, and textures of the various natural communities found within the Preserve. The trails will lead you along Lake Creek, Phelps Lake, and adjacent ridges, and through aspen and cottonwoods.

Gardens

The Gaia Garden, underwater garden, and Botanical Pond provide an array of textures, sights, and smells that are a delight to all the senses. Immerse yourself by quietly walking the trails and opening your senses to the sights, smells, sounds, and textures of the various natural communities found within the Preserve. The trails will lead you along Lake Creek, Phelps Lake, and adjacent ridges, and through aspen and cottonwoods.

Preserve Center

Visit the Center to learn more about Mr. Rockefeller’s vision for the Preserve and his legacy of conservation stewardship. The Center will orient you to the area with unique sensory exhibits that highlight the visual, auditory and tactile qualities of the Preserve’s plants and wildlife. Learn about the innovative design techniques and features that make the Center a model for energy and environmental design. Open daily May 22-June 4 from 9 a.m. to 6 p.m.; June 5-September 5 from 8 a.m. to 6 p.m. The Preserve adheres to the principles of “Leave No Trace”—plan to pack out your trash. No sales area and no permits issued.

Ranger Programs

Learn about the Laurance S. Rockefeller Preserve and its natural beauty from park rangers. The Preserve offers a variety of ranger-led programs that are accessible to all ages and abilities. From hiking to stargazing, there is something for everyone to enjoy. All programs are included with admission to the Preserve.

Sunrise Stroll

Experience the sights, sounds, and wildlife of the Preserve at sunrise. Hike to Phelps Lake and observe wildlife, feel the temperature change and listen as animals and insects signal the beginning of the day. Reservations recommended, call (307) 739-3654. Dress warmly and bring water, rain gear, and insect repellent. GROUP SIZE: 10. DISTANCE: 3 MILES. DIFFICULTY: easy/moderate.

Explore the Preserve Hike

Open your senses and immerse yourself in the pristine setting of the Preserve. Hike the Lake Creek Trail through forest and meadows to the shore of Phelps Lake which affords dramatic views of the Teton Range. Reservations recommended, call (307) 739-3654. Bring water, rain gear, sunscreen and insect repellent. GROUP SIZE: 10. DISTANCE: 3 MILES. DIFFICULTY: easy/moderate.

Eco Chat

Chat with a Ranger about our changing landscape and how the sustainable features of the Laurance S. Rockefeller Preserve allow us to care for this special place. DISTANCE: Minimal walking required. DIFFICULTY: easy.

Crittter Chat

Every day a different animal or insect is the star of this fun, family friendly program. DISTANCE: Minimal walking required. DIFFICULTY: easy.

Evening Stroll

Hike to Phelps Lake to experience the sights, sounds, wildlife and atmosphere as evening commences. Reservations recommended, call (307) 739-3654. Dress appropriately and bring water, rain gear, and insect repellent. GROUP SIZE: 10. DISTANCE: 3 MILES. DIFFICULTY: easy/moderate.

Nature Explorer’s Backpack

Children learn the art of journaling while discovering the wonders of the natural world using a Nature Explorer’s Backpack. After a brief orientation by a ranger, each child receives their own nature journal and set of hands-on activities to take with them as they explore the Preserve trails. Backpacks may be checked out and returned during Center hours. Recommended for children ages 6-12. Backpacks are limited, one per family please.

Junior Ranger

Children 8-12 years old learn to enjoy natural areas safely, how to care for them, and how to keep discovering new things about the natural world. The hike will travel through the forest and along Lake Creek. Wear play clothes and bring water, sunscreen, insect repellent, rain gear, and curiosity. Parents, please pick up your children promptly at 3 p.m. Reservations recommended, call (307) 739-3654. GROUP SIZE: 10. DISTANCE: 1.5 MILES. DIFFICULTY: easy/moderate.

Music in Nature

Outstanding natural beauty inspired both the creation of our national parks, and the creation of great music. From June 28th to July 22nd, enjoy a fusion of music and nature while listening to the Aesop Brass Quintet in residence at Grand Teton National Park. The quintet will perform classical music inspired by nature’s grandeur at various park locations, often accompanied by a park ranger. This program is free and open to the public—come and enjoy beautiful music in a spectacular setting! Musicians play for 30 minutes (in partnership with the Grand Teton Music Festival). Ask a ranger for a special activity handout to fulfill one of the Junior Ranger program requirements.

Tuesdays & Wednesdays

11:30 a.m. Colter Bay Visitor Center (amphitheater)
12:30 p.m. Colter Bay Visitor Center (amphitheater)

Wednesdays

5 p.m. & 6 p.m. Jackson Lake Lodge (upper lobby)

Thursdays & Fridays

11:30 a.m. & 12:30 p.m. Craig Thomas Discovery & Visitor Center (terrace) *Visit www.gtmf.org for additional performances in Jackson and Teton Village.

Let’s Get Moving in Grand Teton

Let’s Move Outside encourages kids, families and all park visitors to engage in outdoor activity that gets hearts pumping and bodies moving. Part of First Lady Michelle Obama’s national Let’s Move campaign to end childhood obesity within a generation, the program is now underway in national parks all over the country. Look for Let’s Move Outside ranger programs in Grand Teton this summer. From hiking and biking, to swimming, paddling and horseback riding, Grand Teton National Park provides ways for everyone to have fun and get healthy!
Special Programs 2011
Yellowstone to Yukon

This summer the Yellowstone to Yukon Conservation Initiative, in conjunction with the National Museum of Wildlife Art in Jackson, Wyoming and the Whyte Museum of the Canadian Rockies, launches a project to capture artistic representations of the Yellowstone to Yukon corridor. Join acclaimed contemporary artist Dwayne Harry for plein air painting demonstrations on the terrace of the Craig Thomas Discovery and Visitor Center in Moose.

THURSDAYS & SATURDAYS
9 a.m. to noon: June 9-25, August 11-27
Location: Craig Thomas Discovery & Visitor Center (terrace)

Special Programs at Colter Bay

JOHN COLTER DAY July 12: Was John Colter the first Euro-American to pass through Jackson Hole in 1808? Join us for three different programs and see the mysterious Colter stone on display.

SHOSHONEAN DAYS Sept. 7th & 8th. Learn about the Shoshone culture: includes presentations by Shoshone tribe members and video presentations & art demonstrations.

ASTRONOMY DAY July 31: Colter Bay Visitor Center. Topics will include telescopes, planets, meteor showers, light pollution, galaxies, star clusters, and other astronomical objects. Observe the sun with specially equipped telescopes in the afternoon. In the evening join Ranger Bob Holley for the program “Watchers of the Sky” followed by stargazing in cooperation with the Jackson Hole Astronomy Club.

Family-friendly Highlights

NATURALIST FAMILY BACKPACKS. Learn about nature’s wonders while you explore on your own terms. Each backpack is equipped with supplies to track, sketch, paint, and journal about the natural world of Grand Teton National Park.

Backpacks may be checked out at the Craig Thomas Discovery and Visitor Center during business hours. Recommended for families or individuals. Back packs are limited, one per family please.

NATURE EXPLORER’S BACKPACK. Children learn the art of journaling through a variety of activities designed to promote a sense of wonder and discovery. Check out a backpack to take along with you on the trails of the Laurance S. Rockefeller Preserve. Recommended for children aged 6-12. See page 10 for more information.

CAMPFIRE PROGRAMS. Bring your family together for a cozy campfire chat. Join a ranger for a traditional ranger talk and/or slide show presentation. Some locations are wheelchair accessible. LOCATION: Varies, see district pages 7-10. DURATION: 45 minutes, DATES/TIMES: Daily. June 6-September 5.

TAKE A HIKE WITH YOUR FAMILY. Take your kids out on a trail for education and exercise. Explore the park with a ranger and learn about the geology, plants, people and wildlife that make this place so cool. Ranger programs are recommended for families with children who are comfortable walking 2-3 miles roundtrip. Ask a ranger at a visitor center for suggestions.

University of WY/NPS Seminar Series

Dinner ($5 donation) starts at 5:30 p.m. with a talk at 6:30 p.m. in the Beud Lodge located near Leeks Marina, reservations not required.

June 9: Brian Miller: Trophic Interactions Linking Wolves, Coyotes, and Small Mammals

June 16: Daniel H. Sakin: Archaeological Investigations along the Nez Perce National Historic Trail, Yellowstone National Park

June 23: Bruce Smith: Wildlife on the Wind: The Landmark Restoration of Wildlife on Wind River Indian Reservation

June 30: Reg Rothwell: Big Game Management in WY

July 9: Tom Marceau: Pips-Me-Ma-Winch (The Ancient One): An Examination of Physical Anthropological Techniques as Applied to Kennewick Man

July 14: Phil Wittens: The Power of Comparative Physiology in Understanding Animal Survival

July 21: Dr. Bob Smith: Gros Ventre/Teton Shaking and a Bigger Yellowstone Plume Earthquake Clustering and Volcanic Electric Imaging

July 28: William Schuster: Experimental Study of the Role of Foundation Taxis in Ecosystems

August 4: Jake Goheen: Ecology and Conservation of Large Mammals in Human-occupied Landscapes

New Park Auditorium

Grand Teton National Park invites you to enjoy special presentations and films at the Craig Thomas Discovery and Visitor Center Auditorium. This new facility serves as a launching point for grand experiences through the park.

Grand Teton Film Festival

All programs will take place in the new Craig Thomas Discovery and Visitor Center Auditorium. Please ask a ranger for more information on guest speakers and special program details, or call (307) 739-3399.

THURSDAY, JULY 7th @ 7 p.m.: Mark Madison and John Grabowska will host film.
FRIDAY, JULY 8th @ 7 p.m.: Mark Madison and John Grabowska will host film.
SATURDAY, JULY 9th at 10 a.m., 2 p.m. & 6 p.m.: A variety of National Park Service films will be shown and hosted by Mark Madison and John Grabowska.

Artists in the Environment

Jackson Hole attracts artists from all over the world. Watch professional artists demonstrate techniques while capturing the essence of Grand Teton National Park. Sponsored by Grand Teton Association. Artists/Dates/ Locations: Greg McNutten: June 11: 4-7 p.m. @ Chapel of the Transfiguration; Greta Greentinger: July 9: 2-5 p.m. @ Mormon Row; and Scott Christensen: August 13: 2-5 p.m. @ Cathedral Group Turnout, and Erin C. O’Connor: September 10: 2-5 p.m @ String Lake.

Guest Artist

Wednesday through Sundays. June 29; July 6-9; July 27-30; Aug. 3-6. Join local artist Fred Kingfield for a painting demonstration on the terrace of the Craig Thomas Discovery and Visitor Center in Moose. Sponsored by the Grand Teton Association. Ask at a visitor center for times.

GRAND TETON GUIDE [Summer 2011] 11
Road Construction 2011

Road Construction Schedule may change at any time. Call the road information hotline for the most up-to-date information.

ROAD INFORMATION (307) 739-3614

ROAD INFORMATION
(307) 739-3614

ROAD WORK DELAYS
Road improvements will take place in Grand Teton and Yellowstone national parks throughout the 2011 season. Changes in schedule may occur at any time. For the most up-to-date information about road conditions in Grand Teton National Park call (307) 344-2117 or visit www.nps.gov/gyr. Please stay in your vehicle while in work zones for your safety and to keep traffic flowing.

Obey Posted Speed Limits
Obey all posted speed limits in construction areas for your safety and the safety of workers. All regular speed limits in the park range between 25 miles-per-hour and 55 miles-per-hour. Speed limits may be reduced in construction zones. Fines for speeding and other violations may increase in construction zones.

Idling Gets You Nowhere
In a time of rising gas prices, needless idling burns hard earned dollars through your exhaust pipe. An idling engine is not operating at optimum temperature leading to incomplete fuel combustion. Fuel residues can condense on cylinder walls, contaminate oil and damage engine components. Vehicle emissions cause respiratory illness and scientific studies link fossil fuel consumption to global climate change. If you find yourself in a construction delay, turn your engine off.

Idling your vehicle for more than just 10 seconds uses more fuel than restarting your engine.

Idling your vehicle for 10 minutes uses as much fuel as it takes to travel five miles.

Idling your vehicle for 10 minutes a day uses more than 27 gallons of fuel per year.

Fire Plays an Important Role in Grand Teton National Park

Fire has been a part of the Greater Yellowstone Ecosystem for thousands of years. Its presence is important for wildlife habitat, nutrient cycling, plant diversity and overall landscape health. Grand Teton National Park fire managers seek to strike a balance between restoring and maintaining natural processes associated with fire, and protecting human life and property.

**FIRE ECOLOGY IN THE PARK**

Fire naturally changes the forest by creating diverse-aged tree stands, recycling nutrients into the soil and stimulating new plant growth. Fire ecology research shows that many plant and animal species benefit from the rejuvenating effects of fire. Evidence of large fires is prevalent in Grand Teton and Yellowstone national parks.

Fire season in the park coincides with the visitor season, which means you may see smoke in the air during your visit. You can report any fires immediately by calling 307-733-1360 or 307-733-2144.

**HOW WE MANAGE FIRES**

Firefighters apply fire to the landscape to reduce flammable vegetation around developed areas, like during this prescribed fire.

These planned ignitions, called prescribed burns, help maintain a healthy and safe forest ecosystem. Specialized fire crews monitor burned areas to learn more about fire's effect on the ecosystem. This data is not only used for fire management decisions, but is also shared with wildlife biologists, vegetation ecologists, historic preservation specialists, and other land management agencies to achieve common goals for a healthy ecosystem.

**YOUR ROLE IN FIRE PREVENTION**

Fire season in the park coincides with the visitor season, which means you may see smoke in the air during your visit. You can do your part to prevent human-caused fires by obeying all fire restrictions and following basic fire safety rules.

- Build campfires only in designated areas, closely monitor them and make sure they are properly extinguished by drowning the fire with water. Stir the remains, add more water and stir again. Make sure fire remains are cool to the touch before leaving the campsite. Campfires may be banned during times of high fire danger. Watch for signs and obey the restrictions.
- Smoke safely. Grind out smoking materials, then dispose of them in the proper receptacle. While in vehicles, smokers should use ashtrays, which should never be emptied on the ground.
- Remember fireworks or other pyrotechnic devices are prohibited at all times in the park.

CONSTRUCTION DELAYS
For the most up-to-date information about road conditions in Grand Teton National Park call (307) 739-3614. See page 12 for more info.

Give Wildlife a Brake
Drivers kill more than 100 deer, moose, bears, elk and bison each year
slow down to save a life

Help protect Wildlife Near Roads
- Always expect animals to be on or near the road
- Follow the speed limit
- Increase caution at night and during wet or snowy conditions

In 2010 wildlife vehicle collisions increased 31%
