Celebrate Parks!

2016 National Park Service Centennial

Join the celebration! 2016 marks the centennial anniversary of the National Park Service. Help us celebrate this historic event. Kick off the celebration with “Find Your Park” and “Every Kid in a Park.”

As you travel through Grand Teton National Park, share your experiences on your favorite social media site and tag #FindYourPark and #EveryKidinapark. Read about other visitors’ experiences at various parks across the nation. Maybe their connections will encourage you to discover a new place!

FIND YOUR PARK—National Parks belong to all of us. More than just a physical, tangible place, a park can be a feeling, a state of mind or a sense of what it is to be an American. Parks provide places for us to recreate, reflect and learn. They inspire us and challenge us to reach new goals. They strive to preserve the past, allow us to define the present and help us look toward the future. What does “park” mean to you? Where is “your park?” People visit parks for many reasons. Some visit Grand Teton National Park for the natural history – wildlife and scenery, but some visit for the cultural history – homesteading, and to learn about the conservation movement.

LIVING WITH WILDLIFE challenges all of us. Whether you visit Grand Teton National Park on vacation or live in the valley of Jackson Hole, encountering wildlife in their own environment is thrilling and potentially dangerous. Observing and photographing wildlife draws many to this beautiful place; whether you seek out the smallest calliope hummingbird or the largest grizzly bear. We all share a responsibility to protect ourselves and the park’s animals. Always maintain a distance of at least 100 yards from bears and wolves, and 25 yards from other wildlife. Never position yourself between an adult and its offspring. Females with young are especially defensive. Let wildlife thrive undisturbed. If your actions cause an animal to flee, you are too close.

It is illegal to feed wildlife in the park including ground squirrels and birds. Feeding wildlife makes them dependent on people and often results in poor nutrition. Please follow food storage regulations. Allowing bears to obtain human food even once often results in aggressive behavior. The bear becomes a threat to human safety and must be relocated or killed.

Whatever brings you to this special place, we hope you will remain connected to this place long after you return home.

EVERY KID in a PARK—The National Park Service plans to reach out to the next generation of park visitors and advocates. The program will target 4th grade students and their families by providing free admission to national parks and other federal-fee lands in time for the 2015-2016 school year. Stay tuned for more information!

GRAND TETON National Park

FEW LANDSCAPES IN THE WORLD are as striking and memorable as that of Grand Teton National Park. Rising abruptly from the valley floor, the Teton Range offers a testament to the power and complexity of nature. The mountains, valleys, lakes, rivers and skies are home to diverse and abundant plants and animals.

People have been living in the shadow of the Teton Range for more than 11,000 years. The human history of this area is extensive, beginning with prehistoric American Indians, to the early Euro-American explorers, and the more recent frontier settlers. Today, more than 300 historic structures remain in the park.

This spectacular mountain range and the desire to protect it resulted in the establishment of Grand Teton National Park in 1929. Through the vision and generous philanthropy of John D. Rockefeller, Jr., additional lands were added, creating the present day park in 1990.

Grand Teton National Park is truly a special and unique place. With thoughtful use and careful management, it can remain so for generations to come. As with other sites in the National Park System, Grand Teton preserves a piece of the natural and cultural heritage of America for the benefit and enjoyment of future generations.

While you are here, take a moment to put your cares aside, stroll through a sagebrush meadow, bike a park trail, sit on a quiet lakeshore, and lose yourself to the power of nature.

We hope you will be refreshed and restored during your visit, and stay connected to this magnificent landscape long after you have returned home.

Visitor Centers 2015

Craig Thomas Discovery & Visitor Center
Located in Moose. 1/2 mile west of Moose Junction.
Open Daily. 307-739-3399
May 1–June 2 8 am to 5 pm
June 3–Sept. 21 8 am to 7 pm
Sept. 22–Oct. 31 8 am to 5 pm

Jenny Lake Visitor Center
Located 8 miles north of Moose Junction on the Teton Park Road.
Open Daily. 307-739-3392
May 15–June 2 8 am to 5 pm
June 3–Sept. 7 8 am to 7 pm
Sept. 8–Sept. 23 8 am to 5 pm

Jenny Lake Ranger Station
Located 8 miles north of Moose Junction on the Teton Park Road.
Open Daily. 307-739-3343
June 6–Sept. 6 8 am to 5 pm

Colter Bay Visitor Center
Located 1 mile west of Colter Bay Junction on Highway 89/191/287.
Open Daily. 307-739-3594
May 9–June 2 8 am to 5 pm
June 3–Sept. 7 8 am to 7 pm
Sept. 8–Oct. 12 8 am to 5 pm

Flagg Ranch Information Station
Located 16 miles north of Colter Bay Junction on Highway 89/191/287.
Open Daily, may be closed for lunch. 307-543-2372
June 1–Sept. 7 9 am to 4 pm (may be closed for lunch)

Laurnace S. Rockefeller Preserve Center
Located 4 miles south of Moose on the Moose-Wilson Road. Open Daily. 307-739-3654
May 30–Sept. 20 9 am to 5 pm

Jackson Hole/Greater Yellowstone Visitor Center
Located in Jackson at 532 N. Cache, visitor information for the greater Jackson Hole area. Open Daily.

Park Entrance Fees

Single Entry Grand Teton: 7 days
$30 per vehicle; $25 per motorcycle; $15 per person for single hiker or bicyclist.

Single Entry Grand Teton & Yellowstone: 7 days
$50 per vehicle; $40 per motorcycle; $20 per person for single hiker or bicyclist.

Annual Grand Teton: $60
Allows entrance to Grand Teton National Park for 12 months from date of purchase.

Interagency Annual Pass: $80
Covers entrance and standard amenity recreation fees on public lands managed by four Department of the Interior agencies—the National Park Service, Fish and Wildlife Service, Bureau of Land Management, and the Bureau of Reclamation, and by the Department of Agriculture’s U.S. Forest Service. The interagency pass is good at vehicle-based entry sites for all occupants in a single, non-commercial vehicle.

Military Annual Pass: Free
For active duty military personnel and dependents with proper identification (CAC Card or DD Form 1173). Includes the same benefits as the Interagency Annual Pass, non-transferable.

Interagency Senior Lifetime Pass: $10
A lifetime pass for U.S. citizens 62 or older, offering entrance to all areas covered under the Interagency Annual Pass, non-transferable.

Interagency Access Lifetime Pass: Free
A lifetime pass for citizens with permanent disabilities, offering entrance to all areas covered under the Interagency Annual Pass, non-transferable.
MOOSE-WILSON CORRIDOR
Grand Teton National Park is planning for the future of the Moose-Wilson corridor. This 10,300 acre corridor is in the park’s southwest corner and features a remarkable variety of natural communities, cultural and wilderness resources. The Moose-Wilson Road disrupts the corridor and is the primary access to several park destinations, including Death Canyon and Granite Canyon trailheads, Laurance S. Rockefeller Preserve, White Grass Ranch and Murie Ranch historic districts. Within a wildlife-migration corridor, the Moose-Wilson Road also provides outstanding wildlife viewing opportunities for a number of iconic mammal and bird species.

Developing a comprehensive management plan for the Moose-Wilson corridor is critical to ensure the protection of key resources, values, and your experience. Follow the planning process by visiting: parkplanning.nps.gov/MooseWilson, or discover the corridor through an interactive “eXperience” online field trip by visiting: www.nps.gov/features/grte/moosewilson/pdf.html. The Draft Environmental Impact Statement for the corridor is scheduled to be released Fall 2015 followed by a 60 day public comment period.

Craig Thomas Discovery & Visitor Center
Grand Teton National Park invites you to enjoy the Craig Thomas Discovery and Visitor Center Auditorium. This facility serves as a launching point to the park through the interpretive film “Life on the Edge.” Grand Teton National Park Foundation donors funded this 3,600-square-foot, 154-seat auditorium, featuring recycled, sustainable, and energy-efficient materials. The auditorium is fully accessible and equipped for the hearing impaired. Please ask at the visitor center for details.

Explore the visitor center. Everyone will love the engaging exhibits about the people, wild communities and preservation of this place. Discover wildlife hidden throughout. See how mountaineering has evolved in the Teton Range and place climbing protection gear on an interactive rock wall display. Enjoy a breath-taking view of the Teton Range from the lobby, and a bird’s eye view of the park by walking along the video river.

Colter Bay Campground*
• $24 no hookups ($12)**
• $50 electric hookups ($38)
• $31 per hiker/biker ($5)
Open: May 22 to Sept. 30
1-800-628-9988
Filling Time: evening
PUBLIC SHOWER and LAUNDROMAT
Public showers and laundromat facilities are located at Colter Bay Village and the Signal Mountain Campground.

RECYCLING CENTERS
Grand Teton Lodge and Signal Mountain Lodge along with Grand Teton National Park collectively recycle more than 215 tons of material annually. When you stay in a park campground, please use the recycling containers to help keep Grand Teton National Park clean and pleasant for other campers and conserve resources.

RECYCLING CENTERS
Grand Teton Lodge and Signal Mountain Lodge along with Grand Teton National Park collectively recycle more than 215 tons of material annually. When you stay in a park campground, please use the recycling containers to help keep Grand Teton National Park clean and pleasant for other campers and conserve resources.
Roadways, the multi-use pathway and on the Colter Bay Marina breakwater. Ride single-file on the right side of the road and wear a helmet. Riding bicycles or other wheeled vehicles in the backcountry is prohibited. Roadway shoulders are narrow—use caution.

MULTI-USE PATHWAY
Only non-motorized transportation is permitted on the multi-use pathway. Persons with physical disabilities may use battery operated transportation. The multi-use pathway is closed from dusk to dawn for wildlife and public safety. PETS ARE NOT PERMITTED. Guide dogs—used for the sole purpose of aiding a person with a physical disability—may travel on the pathway.

AQUATIC INVASIVE SPECIES
Help protect park waterways and native fish from the spread of exotic species. Inspect, clean and dry all equipment including boats, boots and waders before entering a new body of water. Never empty containers of bait, fish, plants or animals into park waters. Wyoming state law requires boaters to purchase an Aquatic Invasive Species (AIS) sticker and have vessels inspected prior to launch. See “Boat Permit” section for fee information.

PERSONAL FLOTATION DEVICES
All vessels must carry a USCG approved personal flotation device (PFD) for each passenger on board including stand up paddle boarders. PFDs must be accessible and in good working condition. PFDs should be worn while boating. All passengers under 13 years of age must wear a PFD whenever a vessel is underway or be within an enclosed cabin.

BOATING
Motorboats are permitted on Jenny (18 horsepower maximum) and Jackson lakes. Human-powered vessels are permitted on Jackson, Jenny, Phelps, Emma Matilda, Two Ocean, Taggart, Bradley, Bearpaw, Leigh and String lakes. Sailboats, water skis and windsurfers are allowed only on Jackson Lake. Jet skis are prohibited in the park. All boats entering WY must be inspected prior to launch. Visit https://wgfd.wyo.gov/wtest/originating-water-source. These waters may contain invasive species.

Soaking in adjacent run-off streams is not advised. Permits are not required for day climbs. Trailhead parking areas fill in July and August. During early summer, trails may be snow-covered and require an ice axe for safe travel. Visitor centers sell topographic maps and trail guides.

BACKPACKING
Obtain a backcountry permit for all overnight trips in the park or parkway at the Craig Thomas Discovery or Colter Bay visitor centers and the Jenny Lake Ranger Station. One-third of backcountry campsites can be reserved in advance from early January to May 15, a $35 fee is charged for each reservation. The fee for a walk-in permit is $25. Park approved bear-resistant food storage canisters are required. Check out a canister for free for use in the park when securing your permit.

CLIMBING
Experience and good judgment are essential for safe climbing and mountain travel. The Jenny Lake Ranger Station is staffed from early June to early September by climbing rangers who can provide up-to-date weather and route conditions. Also check: www.tetonclimbing.blogspot.com. Registration is not required for day climbs. Backcountry permits are required for all overnight climbs. The park DOES NOT check to see that you get safely out of the backcountry. For your safety, leave your itinerary with a responsible party. Solo travel is not advised.

The following guidelines to avoid lightning-related injuries.

• Afternoon storms are common in summer and may develop quickly. Get to a safe place before storms hit.
• Avoid mountain tops, ridges, open areas and lone trees; forested areas with trees of similar height are safer.
• Do not stand on tree roots.
• If boating, get off the water.
• The National Oceanic and Atmospheric Administration (NOAA) provides a variety of material and links through their website at: www.lightningsafety.noaa.gov/outdoors.htm. This site contains critical lightning safety and medical information.

Teton Weather

During June, July and August the average daily temperature in the valley is 77°F. Nighttime temperatures often drop to the lower 40s. High elevation hiking trails, however, are not snow-free until mid-July.

Dress in layers when recreating and prepare for changing weather conditions. Afternoon thunderstorms occur frequently during the summer. Since 1999, there have been 30 injuries and two fatalities in the park due to lightning.

NOAA weather forecasts are available at www.weather.gov/riverton, on NOAA Weather Radio at 162.525 MHz, or by calling the National Weather Service at 1-800-211-1448.

Weather

When Thunder Roars, Go Indoors!

Follow these guidelines to avoid lightning-related injuries.

• Afternoon storms are common in summer and may develop quickly. Get to a safe place before storms hit.
• Avoid mountain tops, ridges, open areas and lone trees; forested areas with trees of similar height are safer.
• Do not stand on tree roots.
• If boating, get off the water.
• The National Oceanic and Atmospheric Administration (NOAA) provides a variety of material and links through their website at: www.lightningsafety.noaa.gov/outdoors.htm. This site contains critical lightning safety and medical information.
GRIZZLY AND BLACK BEARS may be anywhere in the park at any time. Odors attract bears into campgrounds and picnic areas. Regulations require that all food, garbage, toiletries, pet food, coolers and food containers (empty or full), and cookware (clean or dirty) be stored in a hard-sided vehicle with the windows rolled up or a bear-resistant food locker when not in immediate use, day or night. Failure to follow regulations is a violation of federal law and may result in a citation.

• Never leave your backpack unattended!
• Never allow a bear to get human food.
• If approached by a bear while eating, gather your food and retreat to a safe distance.

Keep a Clean Camp
Improperly stored or unattended food will be confiscated and you may be fined.

• Treat odorous products such as soap, toothpaste, fuel products, suntan lotion, candles and bug repellent in the same manner as food.
• Never store food, garbage or toiletries in tents.
• Place all trash in bear-resistant garbage dumpsters.
• Immediately report careless campers and all bear sightings to the campground kiosk or nearest ranger.
• Place all trash in bear-resistant garbage dumpsters.

Make Noise in Bear Country
Grizzly and black bears live in the park and parkway. Color is misleading – both species can vary from blonde to black.

Both grizzly bears and black bears live in the park and parkway. Color is misleading – both species can vary from blonde to black.

WHAT KIND OF BEAR DID YOU SEE?

Black Bear

- Color ranges from blonde to black
- No distinctive shoulder hump
- Face profile is straight from nose to tip of ears
- Ears are tall and pointed
- Front claws are shorter and more curved (1-2” long)

Grizzly Bear

- Color ranges from blonde to black
- Distinctive shoulder hump
- Face profile appears dished in
- Ears are short and rounded
- Front claws are longer and less curved (2-4” long)

What to do if you encounter a bear:

1. Do not run! Bears can easily outrun you.
2. Bear spray has been shown to be extremely effective in deterring bear attacks.
3. Use only bear spray. Personal self-defense pepper spray is not effective.
4. Keep the canister immediately available, not in your pack.
5. Follow the manufacturer’s instructions, know how to use the spray, and be aware of its limitations, including the expiration date.
6. Bear spray is not a repellent! Do not spray it on people, tents or backpacks.
7. Under no circumstances should bear spray serve as a substitute for standard safety precautions in bear country.

Ride the shuttle to the Park

Alltrans, Inc. operates a daily shuttle service from the town of Jackson to Grand Teton National Park. Please contact Alltrans for the most current schedule.

Pay $15 per day to ride the shuttle for an unlimited number of stops (park entrance fees not included). Riders may get on and off the shuttle at any stop. Drivers accept payment by cash, Visa, or MasterCard.

Season passes are also available; price depends on month purchased. For more information, call Alltrans, Inc. 1-800-443-6133, or visit their website, www.alltransparkshuttle.com.
Fire's Role in the Park

This allows fire-adapted plants to re-sprout from roots or open cones for seed dispersal. Fire opens areas so native plants can re-establish. When appropriate, firefighters suppress all or portions of a fire to reduce risk to life and property.

Occasionally firefighters apply fire to the landscape to help maintain a healthy and safe forest. These planned ignitions create a mosaic of diverse habitats.

YOUR ROLE IN FIRE PREVENTION

Summer is fire season in the park, which means you may see smoke. Do your part to prevent human-caused fires by following basic fire safety rules.

- Build campfires only in designated areas, closely monitor them and make sure they are properly extinguished. Make sure fire remains are cool to the touch before leaving the campsite. Campfires may be banned during times of high fire danger.
- Smoke safely. Grind out smoking materials, then dispose of them in the proper receptacle. While in vehicles, smokers should use ashtrays.
- Fireworks or other pyrotechnic devices are prohibited at all times in the park.

Fire's Role in the Park

WATER AND SHELTER. Each LL ANIMALS REQUIRE FOOD, from all other wildlife. Do not feed or harass wildlife of any kind.

ELK RANCH FLATS
Stop at the Elk Ranch turnout on highway 26/89/191 just north of Cunningham Cabin. Here you may see pronghorn, bison, elk and even domestic animals using a grazing permit. The open grasses here attract a variety of animals.

SNAKE RIVER
Jackson Lake Dam south to Moose. Elk and bison graze in grassy meadows along the river. Bison also eat grasses on the sagebrush benches above the river. Bald eagles, ospreys and great blue herons build large stick nests within sight of the river. Beavers and moose eat willows lining the waterway.

Where to Look for Wildlife

A LL ANIMALS REQUIRE FOOD, WATER AND SHELTER. Each species also has particular living space or habitat requirements. To learn more about wildlife habitats and behavior, attend ranger-led activities. While observing wildlife, please park in designated turnout spots, not on the roadway.

OXROW BEND
One mile east of Jackson Lake Junction. Slow-moving water provides habitat for fish such as suckers and trout that become food for river otters, ospreys, bald eagles, American white pelicans and common mergansers. Look for beavers and muskrats swimming past. Moose browse on abundant willows at the water’s edge. Elk occasionally graze in open aspen groves to the east, while grizzly bears occasionally pursue elk calves in early summer. Beavers create ponds by damming streams that also harbor muskrats and waterfowl.

WILLLOW FLATS
North of the Jackson Lake Dam moose browse on willow shrubs. At dawn and dusk, elk graze on grasses growing among willows. Predators such as wolves and grizzly bears pursue elk calves in early summer. Beavers create ponds by damming streams that also harbor muskrats and waterfowl.

Always maintain a distance of at least 100 yards from wolves and bears and 25 yards from all other wildlife. Do not feed or harass wildlife of any kind.

Working in the Park

DO YOU WANT TO SPEND A SUMMER WORKING FOR THE NATIONAL PARK SERVICE? Summer seasonal positions are recruited during the winter months. A wide variety of positions provide unique challenges and many rewards. Imagine yourself fighting wildland fires, maintaining backcountry trails, patrolling the Snake River in a boat, providing guided ranger hikes or assisting a park biologist with wolf research.

To view and apply for vacancies for all federal jobs visit: www.usajobs.gov. For a list of available jobs in the Department of Interior, including the National Park Service go to www.doi.gov/public/findajob.cfm. Positions posted for Grand Teton National Park can be found under jobs listed in Moose or Moran, Wyoming. You can also learn about vacancies at www.nps.gov/grte/learn/management/employ. html. For jobs in fire management, log on to gwc.nrcs.gov/ gbcc/dispatch/ty-tdc and click on the Employment link. Go to www.nps.gov/grte/supportyourpark/upload/OF510-fedres.pdf to learn how to apply for federal jobs.

Drink Water from Refilling Stations

- 6,500 FEET
The average elevation of Grand Teton National Park’s valley floor. At high elevation, your body loses water twice as fast as at sea level.

- SINGLE-USE PLASTIC BOTTLES
Of the 5,000 single-use plastic bottles entering the waste stream every day in Jackson Hole, only 60 percent are recycled. Every year, people spend over $100 billion on bottled water world-wide. Using refillable bottles will save you money.

- 100% PURE
The park has retrofitted many of its drinking fountains to be quick and easy water bottle filling stations. The water from these filling stations is tested regularly and is some of the purest water in the country.

- CONVENIENCE
Filling up your reusable water bottle is easier than purchasing a bottle of water. Water bottle filling stations are found at many park visitor centers and destinations.

- COMMITMENT
The National Park Service and its partners are committed to preserve and protect Grand Teton National Park for you and for future generations. With three million visitors every year, we need your help! By providing a wide range of reusable water bottles for purchase—including a low-cost, BPA free, recyclable plastic bottle with the “reduce, reuse, refill” logo—and water bottle filling stations, we can help reduce our waste stream.

By Grand Teton National Park Green Team
Visit Moose

Moose is located 12 miles north of Jackson, Wyoming. Please see the park map on page 16 to help you plan your trip to Moose. Enjoy a variety of trails, activities, scenic drives and ranger programs as well as historic districts and iconic views of the Teton Range.

Explore Jenny Lake

South Jenny Lake is located 8 miles north of Moose. Please see the park map on page 16 to help you plan your trip. Explore Jenny Lake for convenient access to glacially-formed lakes and invigorating hikes while enjoying dramatic mountain scenery.

Jenny Lake Ranger Programs

**Event** | **Description** | **Meeting Place** | **Date/Time Duration** | **Sun** | **Mon** | **Tues** | **Wed** | **Thur** | **Fri** | **Sat**
---|---|---|---|---|---|---|---|---|---|---
**Hidden Falls Hike** | Learn about the formation of this magnificent landscape on a hike to Hidden Falls and on to a viewpoint above Jenny Lake. This is a great activity for families! To reserve your space, please obtain a token for each member of your group at the Jenny Lake Visitor Center. | Jenny Lake Visitor Center Flagpole | June 3–Sept. 7, 8:30 am, 2.5 hours | | | | | | | |
**Lakeshore Conversations** | Join a ranger for an easy walk to the shore of Jenny Lake and then engage in a conversation with other park visitors. Topics of conversation will vary. | Jenny Lake Visitor Center Flagpole | June 3–Sept. 7, 10:30 am, 30–45 minutes | | | | | | | |
**Bear Safety** | Discover techniques that will help you stay safe while traveling and camping in bear country. Includes instruction in the use of bear pepper spray. | Jenny Lake Visitor Center Flagpole | June 4–Sept. 7, 1:30 pm, 20 minutes | | | | | | | |
**Young Naturalists** | Explore the natural world of Grand Teton with a ranger. | Jenny Lake Visitor Center Flagpole | June 8–Aug. 21, 1:30 pm, 1.5 hours | | | | | | | |

**Name Origins**

**GRAND TETON (13,770 feet)**
Highest peak in the Teton Range. Named by French trappers. Upon viewing the Teton Range from the west, the trappers dubbed the South, Middle and Grand, Les Trois Tétons, meaning “the three breasts.”

**JACKSON HOLE**
The valley on the east side of the Teton Range. Fur trappers called a mountain-ringed valley a “hole.” Named for trapper David E. Jackson. Originally known as “Davey Jackson’s Hole.”

**JENNY AND LEIGH LAKES**
Lakes along the eastern edge of the Teton Range. Named by Ferdinand Hayden during his 1872 expedition for Jenny a Shoshone Indian and her husband, Beaver Dick Leigh. He assisted with camp logistics and guided the expedition through the area.

**COLTER BAY**
Visitor area on eastern shore of Jackson Lake. Named for John Colter, fur trapper and explorer who may have traveled through the valley during the winter of 1807–1808. He joined the Lewis and Clark Expedition in 1803 and left in 1806 to pursue trapping.

**SNAKE RIVER**
River flowing through Jackson Hole. Lewis and Clark named this part of the river after the Shoshone or Snake Indians.
Spend Time at Colter Bay

Colter Bay is located 25 miles north of Moose. Please see the park map on page 16 to help you plan your trip. Colter Bay provides some of the best wildlife viewing opportunities in the park as well as a wide range of visitor services and trails.

Enjoy lunch on the lakeshore at the picnic area or take a hike on one of the area trails for great opportunities to see wildlife. You will also find an RV park, cabins, restaurant, general store, laundromat, service station and showers.

JOHN D. ROCKEFELLER, JR. MEMORIAL PARKWAY

The Parkway commemorates John D. Rockefeller, Jr’s. significant contributions to national parks. Mr. Rockefeller had a special interest in this area helping develop Yellowstone and establish Grand Teton national parks. To learn more about the Rockefeller family’s philanthropy ask for the “Rockefeller Legacy” brochure at any visitor center.

JACKSON LAKE LODGE

Even if you are not staying overnight at the Jackson Lake Lodge, the historic building is worth a visit. Large mural windows showcase views of Jackson Lake and the northern Tetons Range. Wildlife such as black and grizzly bears, elk and moose are frequently seen from the lodge. Access trails, a corral, gift stores and restaurants.

= accessible programs

**Hiking**

Great hiking and wildlife viewing opportunities abound around Colter Bay. Enjoy hiking through a variety of natural communities with dramatic views of the northern Teton Range. Weather may change abruptly, afternoon thunderstorms are common, bring extra clothing and plenty of water. A ranger-led hike to Swan Lake and Heron Pond takes place daily at 1 pm.

**Boating**

Rent a canoe, kayak or possibly a motorboat from the Colter Bay Marina or launch your own boat in Jackson Lake. Pets are only allowed in boats on Jackson Lake; all other lakes, trails and rivers are closed to pets. Guided scenic raft trips on the Snake River are also available (see page 14). Boat permits are required (see page 4).

**Wildlife Viewing**

Excellent wildlife viewing opportunities are found along the road from Moran Junction to Colter Bay, especially at Willow Flats Overlook and the Oxbow Bend Turnout. Dawn and dusk offer the best opportunities. For your safety, they stay at least 100 yards from wolves and bears and 25 yards from all other wildlife. Please do not block roadways when stopping. Beginning on July 8 the Cougar Fund will present a program about large predators on Wednesdays at 2:00 pm in the Colter Bay Amphitheater.

**Astronomy**

Learn about dark skies in the park. Colter Bay District offers a range of astronomy programs including stargazing and solar observations. Most programs are presented by professional astronomers, telescopes provided. Some programs are presented in cooperation with the Jackson Hole Astronomy Club and Wyoming Stargazing. Check at a visitor center for schedules.

**Visitor Areas**

The visitor center is open daily June 3–September 7 from 8 am to 7 pm. The visitor center is located above the Colter Bay Marina or launch your own boat in Jackson Lake. Pets are only allowed in boats on Jackson Lake; all other lakes, trails and rivers are closed to pets. Included in this area is the Colter Bay Visitor Center, Colter Bay Lodge, Grand Teton Association Postcard Shop, and the Grand Teton Association bookstore for gifts, educational books and postcards. The visitor center is open daily June 3–September 7 from 8 am to 7 pm.
Experience the Laurance S. Rockefeller Preserve

Located four miles south of Moose on the Moose-Wilson Road, the Preserve Center offers unique sensory exhibits and trails leading to Phelps Lake, providing extraordinary views of the Teton Range. Due to the narrow road, trailers and vehicles over 23.3 feet are prohibited on the Moose-Wilson Road.

Family-friendly Highlights

**NATURALIST FAMILY BACKPACKS.** Learn about nature’s wonders as you explore the park. Each backpack is equipped with supplies to track, sketch, paint and journal about the natural world. Check out a backpack at the Craig Thomas Discovery and Visitor Center during business hours. Backpacks are limited, one per family please.

**NATURE EXPLORER’S BACKPACK.** Children discover the wonders of the natural world using the backpack’s tools. Each child receives a journal of activities to guide them as they explore the Preserve trails with their family. Recommended for children ages 6-12. Backpacks are limited.

Become a Junior Ranger

Anybody of any age may become a Junior Ranger! To earn your patch or badge follow these steps:

- Pick up a copy of The Grand Adventure workbook at any visitor center.
- Complete all the fun-filled activities. The booklet lists activities required to all ages and additional activities based on your age.
- Attend one ranger program. Check this paper for a schedule of programs.
- Bring your completed workbook to any visitor center in Grand Teton National Park, be sworn in and choose a patch or badge!

Mardy’s Front Porch

The Murie Center invites the community to join them at 5:45 pm for light food, beverages, and engaging conversations with speakers from various backgrounds. Conversations begin at 6 pm and typically last until 7:15 pm.

June 4 Paul Hansen: Green in Gridlock
July 2 John Turner and Rob Wallace: ‘Conservative’ conservation
August 13 Dwayne Hardy: Purpose of the arts in preserving nature
September 2 Elizabeth Storer: Current conservation challenges in Wyoming

University of WY/NPS Harlow Seminar Series

Dinner ($5 donation) starts at 5:30 pm with a talk at 6:30 pm in the Beryl Lodge located at the AMK Ranch near Leeks Marina, reservations not required.

- **June 18** Mark Elbroch, Atrium in mountain lions
- **June 25** Diana Miller, History of fisheries management in the western US with notes on the Hoback River and Jackson Lake
- **July 2** Tom Serras & Kelly Pearce, River otters as flags of aquatic conservation: Why this approach doesn’t fit the North American model of wildlife conservation
- **July 9** Joe Riss, Invisible Boundaries: The Greater Yellowstone elk migration project and beyond its Caldera
- **July 16** Hank Harlow, Biomimicy, what we can learn from animals living in stressful environments: lions, dragons, bears and other critters
- **July 23** Bob Smith, Immense magma reservoir discovered beneath Yellowstone extending well beyond its caldera
- **July 30** Sarah Bansom-Amram, The evolution of problem-solving abilities in carnivores: From badgers and bears to snow leopards and spotted hyenas
- **August 6** Tanja A. Božek, On leaders and laggards in environmental governance and management: The case of the European Union
- **August 13** Mary Centrella, Reading BEET-tween the lines: Honey bees, colony collapse disorder, and the importance of wild bees to agriculture
- **August 20** John Stephenson, Greater Sage-Grouse conservation in Jackson Hole

<td>TAKE A HIKE WITH YOUR FAMILY. Take your kids out on a trail for education, exercise and enjoyment. Explore the park with a ranger and learn about the geology, plants, people and wildlife that make this place so cool. Ranger programs are recommended for families with children who are comfortable walking 2-3 miles. See pages 7-10 for more information.</td>
</tr>
</tbody>
</table>
Join Rocky Mountain Plein Air Painters and the Grand Teton Association for the fourth annual Plein Air for the Park. Participating artists will paint plein air in the Jackson Hole and Grand Teton National Park area beginning July 6.

The gala and opening reception is Wednesday, July 15 at 7 pm in the Craig Thomas Discovery & Visitor Center. The show ends Sunday, July 19 at 4 pm.

A portion of the proceeds from sales of these works will benefit the Grand Teton Association and help support the park’s ongoing educational, interpretive and scientific programs.

GRAND TETON ASSOCIATION

The Grand Teton Association was established in 1937 as the park’s primary partner to increase public understanding, appreciation, and enjoyment of Grand Teton National Park and the Greater Yellowstone area. The association has long been an important bridge between visitor and environment in the Tetons. We work to increase public understanding, appreciation, and enjoyment of Grand Teton National Park and the surrounding public lands.

When you make a purchase at an association bookstore, you are supporting the educational, interpretive, and scientific programs in the park including the winter Snow Desk, the NPS Academy, the Boyd Evison Graduate Research Scholarship and many other programs. Your purchase also supports the publication of this newspaper, books and the free educational handouts available at visitor centers and entrance stations.

Member Week Events

**August 10–14**

**MONDAY/AUGUST 10**
Teton Raptor Center will demonstrate behaviors with rescued raptors at the Jackson Hole/Greater Yellowstone Visitor Center in Jackson, 2 pm.

**TUESDAY/AUGUST 11**
American Indian storytelling and Sacajawea program with local author and historian Ken Thomacma at the Craig Thomas Discovery and Visitor Center auditorium, 11 am and 1 pm. Make plaster tracks on the back deck of the Craig Thomas Discovery and Visitor Center, 1-3 pm. Local Artists Day at the Craig Thomas Discovery & Visitor Center. Come shop for goods designed and made by local artists, writers and crafts people, 11 am - 2 pm.

**WEDNESDAY/AUGUST 12**
Member Week Photography Competition. Submit your favorite Grand Teton National Park photo to win great prizes. Email them to: grte_assoc@partner.nps.gov or share your photo with us on Facebook.

**THURSDAY/AUGUST 13**
Search and Rescue demonstration by a Jenny Lake Climbing Ranger at the Jenny Lake Visitor Center, 1 pm.

We invite you to become a member entitled to a 15% discount on purchases at all GTA visitor center stores, as well as on catalog and website orders. Many cooperating association stores nationwide offer reciprocal discounts.

☐ $35 Individual Annual Member with discount privileges and a unique member gift
☐ $50 Family Annual Member with discount privileges and a choice of member gifts
☐ Additional annual memberships: $100 Supporting Member, $250 Sustaining Member, $500 Gold Member with discount privileges and additional gifts
☐ $1000 Platinum Member, a three-year membership includes an Interagency Annual Pass (see page 2)

**Special Programs at Colter Bay**

**JOHN COLTER DAY June 29.** Was John Colter the first Euro-American to pass through Jackson hole in 1808? Join us for three different programs and see the mysterious Colter stone on display.

**ASTRONOMY DAY August 15.** Topics will include telescopes, planets, meteor showers, light pollution, galaxies, star clusters, and other astronomical objects. Observe the sun with specially equipped telescopes in the afternoon. In the evening join Ranger Bob Hoyle for the program "Watchers of the Sky" followed by stargazing in cooperation with the Jackson Hole Astronomy Club.

**SHOSHONEAN DAYS September 2-3.** Learn about the Shoshone culture: includes presentations by Shoshone tribe members, video presentations & art demonstrations by Clyde Hall.

---

**GRAND TETON ASSOCIATION EVENTS**

**PLEIN AIR FOR THE PARK**

Join Rocky Mountain Plein Air Painters and the Grand Teton Association for the fourth annual Plein Air for the Park. Participating artists will paint plein air in the Jackson Hole and Grand Teton National Park area beginning July 6.

The gala and opening reception is Wednesday, July 15 at 7 pm in the Craig Thomas Discovery & Visitor Center. The show ends Sunday, July 19 at 4 pm.

A portion of the proceeds from sales of these works will benefit the Grand Teton Association and help support the park’s ongoing educational, interpretive and scientific programs.
NEW NIGHT TIME SPEED LIMIT SAVES LIVES! The night time speed limit on US Highway 26/89/191 is now 45 mph from the park’s south boundary to the boundary east of Moran Junction. Night time begins 30 minutes after sunset and lasts until 30 minutes before sunrise. Areas around Gros Ventre Junction and Moran Junction will remain 45 mph at all times.

The number of animals killed due to vehicle collisions is rising. In 2010 more than 150 animals were killed on park roads. During the past three years, 64 percent of wildlife fatalities occurred on this section of highway. Throughout the park, 55 percent of fatalities occurred at night. In order to protect the public and to preserve wildlife populations, park officials reduced night time speed limits to give drivers and animals more reaction time. The reduced speed only adds six minutes to your trip along this section of highway.

Please obey the new night time speed limit to help us improve safety and protect wildlife.

Annual Wildlife Costs

$155,000 personal property damage
>100 large animals killed annually

Slow Down! Stay Alert!
This summer it will be increasingly obvious to Jenny Lake visitors that Inspiring Journeys—the multimillion dollar renewal effort at Jenny Lake for the National Park Service centennial in 2016—is well underway. This summer marks the second of four construction seasons and, as with last year, the primary focus is on backcountry trail work. In September, construction work in the front country will begin to impact visitors.

WHAT TO EXPECT
Check at a visitor center for up-to-date trail information.

• Through June, hikers heading around the south end of the lake will be rerouted to a parallel upper trail as crews finish trail work along the lakeshore.
• Trail sections north of Cascade Creek have reopened.
• The trail between Hidden Falls and Inspiration Point will be closed this summer while crews reconstruct the trail, bridges and rock walls.
• Hikers can access Inspiration Point via the “horse trail” north of the West Boat Dock, a forested route that connects Cascade Canyon to the lakeshore trail.
• Hikers can access Hidden Falls via multiple routes, however, they will not be able to continue from Hidden Falls to Inspiration Point.
• After Labor Day, underground infrastructure and utility work will begin in the visitor plaza and campground areas. A temporary visitor center will move into the South Jenny Lake parking lot, opening spring 2016.

WHAT IS INSPIRING JOURNEYS?
A $17 million collaboration between Grand Teton National Park and its fundraising partner, Grand Teton National Park Foundation. The project is greatly improving trail conditions in the backcountry and adding overlooks, rest rooms and interpretive information in the front country visitor plaza.

GET INVOLVED
$11.8 million has been raised to date toward the Foundation’s $14 million goal. Grand Teton will contribute $3 million to the project. Gifts of $25,000 and above will be recognized in the Jenny Lake visitor plaza. Campaign ends August 25, 2016.

JOIN THE EFFORT to improve the Jenny Lake area for millions who will visit. You can give at www.gtnpf.org, contact Grand Teton National Park Foundation at 307-732-0629, or text JENNY to 20222 to contribute $10.

Be SOCIAL! Tag your park photos with #LoveJennyLake or #ILoveGrandTeton. We’ll choose our favorite shot each month. The winner will receive an annual park pass.

HIKING TIPS
Plan Ahead
Whether hiking around the lake or taking the shuttle boat across, you will be able to visit Hidden Falls and Inspiration Point this summer. Combining these two destinations into one hike will require more effort than usual due to temporary trail closures and reroutes.

Come Early or Come Late
Late morning through early afternoon are crowded. Avoid peak visitation for minimal hikers and easier parking.

Fewer People, Dramatic Scenery
Explore other lakeshore hikes in the park. Rangers will happily recommend favorites and help you plan an unforgettable day.

Before
After

In 2014, crews installed 1207 lineal feet of new trail, 109 stone steps and checks on existing trail, 12 stone drains, 650 square feet of dry stacked wall, 880 lineal feet of single-tier stone retaining wall and reclaimed 600 lineal feet of unused trail.

The Teton Range

Yellowstone National Park
Obey Posted Speed Limits
Obey all posted speed limits in construction areas for your safety and the safety of workers. All regular speed limits in the park range between 25 miles-per-hour and 55 miles-per-hour. Speed limits may be reduced in construction zones. Fines for speeding and other violations may increase in construction zones.
