Welcome to Grand Teton National Park

FEW LANDSCAPES IN THE WORLD are as striking and memorable as that of Grand Teton National Park. Rising abruptly from the valley floor, the Teton Range offers a testament to the power and complexity of nature. The mountains, valleys, lakes, rivers and skies are home to diverse and abundant plants and animals.

People have been living in the shadow of the Teton Range for more than 11,000 years. The human history of this area is extensive, beginning with American Indian prehistoric life, to the early Euro-American explorers, to the more recent frontier settlement and today’s adventure seekers.

This spectacular mountain range and the desire to protect it resulted in the establishment of Grand Teton National Park in 1929. Through the vision and generous philanthropy of John D. Rockefeller, Jr. and others, additional lands were added to form the present day park in 1950.

Grand Teton National Park is truly a unique place. With thoughtful use and careful management, it can remain so for generations to come. As with other sites in the National Park System, Grand Teton preserves a piece of America’s natural and cultural heritage for future generations.

While you are here, take a moment to put your cares aside: take a scenic drive, celebrate winter by skiing or snowshoeing, and lose yourself to the power of this place.

We hope you will be refreshed and restored during your visit, and stay connected to this magnificent landscape long after you have returned home.

Winter Wildlife

LIVING WITH WILDLIFE challenges all of us. Whether you visit Grand Teton National Park on vacation or live in the valley of Jackson Hole, encountering wildlife in their own environment is thrilling and potentially dangerous.

Winter poses special challenges for wildlife—both predator and prey. Snow buries food, temperatures plummet and traveling through deep snow is difficult. Wildlife survive the harsh winter here by adapting. Some animals migrate, some hibernate and some simply endure.

Grand Teton National Park closes key wildlife habitat areas to all travelers during winter. The corridor along the Snake River is closed from December 15 until April 1, and several high peaks are closed from December 1 until April 1. Check the map on page 4 and at the visitor center for more information. These areas are closed to allow wildlife a place where they will remain undisturbed.

Look for wildlife during your visit, observing and photographing them is always a thrill. Maintain a distance of at least 100 yards from bears and wolves, and 25 yards from all other animals for your safety and theirs. If your actions cause an animal to flee, you are too close.

Bears usually hibernate from November into March, but the timing varies depending on the weather and food availability. Check at the visitor center for winter updates.

Whatever brings you to this special place, remember the spectacular mountains and diverse wildlife you encounter during your time here.
Make the Most of Your Park Visit

Wondering how to make the most of your time in Grand Teton National Park? Take a look at the suggestions below to help plan your visit. Stop by the Craig Thomas Discovery and Visitor Center for trip planning assistance.

Activities

Ranger-guided Snowshoe Walks
Are you curious about winter ecology or snow science? Would you like to experience the park in winter? A snowshoe walk with a park naturalist is the perfect introduction to winter in the Tetons and to travel on snowshoes. Naturalists provide guided snowshoe walks from the Craig Thomas Discovery and Visitor Center daily late December through mid-March, conditions permitting. Call the Craig Thomas Discovery and Visitor Center at (307) 739-3399 to make reservations.

Cross-country Skiing & Snowshoeing
Experience the exhilaration of winter on cross-country skis or snowshoes. Watch for wildlife such as moose, coyote and ermine and look for signs of wildlife in the snow. From November 1 through April 30th, the Teton Park Road from the Taggart Lake trailhead to Signal Mountain Lodge is open for non-motorized use only. The road is intermittently groomed to provide a packed surface for snowshoeing and cross-country touring. The grooming schedule is sporadic. Call (307) 739-1682 for grooming updates. Other places to enjoy cross-country skiing and snowshoeing include Colter Bay, Moose-Wilson roads, and the unplowed portions of the Teton Park and Moose-Wilson roads. Restrain pets on a leash no longer than six feet at all times and within 30 feet of roadways. Pets are NOT allowed on trails or in the backcountry, in boats on the Snake River or lakes other than Jackson Lake, or in visitor centers. Owners are required to clean up after their pets.

Snowmobiling
Snowmobile use is limited in Grand Teton National Park. Please check at the visitor center, or check with the Bridger-Teton National Forest Avalanche Center for daily updates at: www.jhavalanche.org or call (307) 733-2664 for the current avalanche forecast.

Snowshoe Tours
Let’s Move Outside encourages and all park visitors to engage in outdoor activities to get bodies moving and hearts pumping. The Let’s Move campaign was initiated by First Lady Michelle Obama to end childhood obesity within a generation. This program is now underway in national parks all over the country. Join our ranger-guided snowshoe walk to have fun and get healthy! Or explore the park with your own snowshoes or skis.

Fall Elk Reduction
When Grand Teton National Park was expanded in 1950, Congress authorized an elk reduction program in some areas of the park to continue management of the herd. The reduction program ends on December 2, 2012. Check at the visitor center for additional information.

Wildlife
Maintain a distance of at least 100 yards from bears and wolves, and 25 yards from all other animals whether on foot or in your vehicle. Obey all wildlife closures (see map page 4).

Pets
During the winter, pets are allowed on plowed roadways and parking areas, and the unplowed portions of the Teton Park and Moose-Wilson roads. Restrain pets on a leash no longer than six feet at all times and within 30 feet of roadways. Pets are NOT allowed on trails or in the backcountry, in boats on the Snake River or lakes other than Jackson Lake, or in visitor centers. Owners are required to clean up after their pets.

Fishing in Grand Teton National Park
is subject to Wyoming state regulations. A Wyoming fishing license is required in the park. Fly fishing is permitted. Call (307) 739-3399 to check at the visitor center for more information.

Go Digital
Craig Thomas Discovery & Visitor Center

Grand Teton National Park invites you to enjoy the Craig Thomas Discovery and Visitor Center Auditorium. This facility serves as a launching point for grand experiences through the interpretive park film “Life on the Edge.” Grand Teton National Park Foundation donors funded this 3,600-square-foot, 154-seat auditorium, featuring recycled, sustainable, and energy-efficient materials. The auditorium is fully accessible and equipped for the hearing impaired. Please ask at the visitor center for details.

Explore the visitor center. Everyone will love the engaging exhibits about the people, wild communities and preservation of this place. Discover wildlife hidden throughout. See how mountaineering has evolved in the Teton Range and place climbing protection gear on an interactive rock wall display. Enjoy a breath-taking view of the Teton Range from the lobby, and a bird’s eye view of the park by walking along the video river.

Visitor Center Hours
The visitor center is open daily year-round, closed on December 24th. Hours are 9 am to 5 pm from November 1, 2012 through April 30, 2013 (closed at 2 pm on November 22nd and December 24th).

What’s New
WIRELESS INTERNET
Free wireless internet access is available for the public at the Craig Thomas Discovery and Visitor Center in Moose.

MULTIMEDIA PRESENTATIONS
The Grand Teton National Park website offers a variety of audio, video and digital images: www.nps.gov/grte/photosmultimedia/multimedia.htm.

VIDEO PODCASTS
Plan your trip, view wildlife, learn about safety in bear country, understand the powerful forces that shaped these mountains, and learn about the Murie family who helped preserve this landscape from the multi-media page.

GRAND TETON IPHONE APP
The Official App for Grand Teton National Park produced for the Grand Teton Association includes the essential information you need to plan your trip or experience the park before leaving home. Download to your iPhone: tetonapp.com.

TravelStoriesGPS IPHONE APP
This free app from the Grand Teton National Park Foundation shares vivid and engaging audio stories about the history, geology, animals and activities in the park. Drive the Teton Park Road from Moose to Jackson Lake Lodge and learn about this magnificent park: www.gtnpf.org/TravelStoriesGPS.php

In cooperation with the Grand Teton National Park Foundation, the Teton Science Schools produced the Grand Teton iPhone app, which is available at the App Store.

In this app, you will find:
- History, geology, animals and activities in the park
- Driving the Teton Park Road
- A bird’s eye view of the Teton Range from a spectacular panoramic view of Jackson Lake Lodge
- Educational handouts available at visitor centers

The official app for the Teton Park Road primarily offers driving directions. The TravelStoriesGPS app gives you the chance to explore the area through the lens of the Teton Science Schools.

We invite you to become a member entitled to a 15% discount on purchases at all GTA visitor center outlets, as well as on catalog and website orders. Many cooperating association stores nationwide offer reciprocal discounts.

- $35 Individual Annual Member with discount privileges and a unique member gift
- $50 Family Annual Member with discount privileges and a choice of member gifts
- Additional annual memberships: $100 Supporting Member, $250 Sustaining Member, $500 Gold Member with discount privileges and additional gifts
- $1000 Platinum Member, a three-year membership includes an Interagency Annual Pass

To apply for membership, fill out the application form below.

Yes! I would like to be a part of the future of Grand Teton National Park.

We ask you to contribute to Grand Teton National Park because:
- By funding initiatives that go beyond what the National Park Service could accomplish on its own, Foundation friends solve park challenges and create a solid future for Grand Teton.
- The Grand Teton National Park website offers a variety of audio, video and digital images: www.nps.gov/grte/photosmultimedia/multimedia.htm.
- Grand Teton National Park Foundation provides private financial support for special projects that enhance and protect Grand Teton National Park’s treasured resources.
- Since 1997, our organization has raised more than $20 million for education-based capital projects, work and learn programs that reconnect youth to nature, and wildlife research and protection.

Like us on Facebook to get park updates, or share photos and your thoughts with our friends: www.facebook.com/GrandTeton-NPS

By funding initiatives that go beyond what the National Park Service could accomplish on its own, Foundation friends solve park challenges and create a solid future for Grand Teton.
Drive Safely!

WINTER DRIVING is often challenging. Park roads are frequently covered with ice or hard-packed snow. Winter storms create white-out driving conditions. Make sure your vehicle is equipped with winter or all-season tires and carry tire chains when crossing mountain passes.

- Roads may be icy or snow-covered, drive below the speed limit when conditions warrant.
- Watch for wildlife on the roadway, especially in the morning and evening.
- Carry an emergency kit and a shovel in your vehicle. Snowstorms may occur at any time.
- Roads may close at any time for visitor safety.
- Always wear your seat belt.
- Be prepared for changing weather conditions.

Night Time Speed Limit!

The night time speed limit on US Highway 26/89/191 is 45 mph from the park’s south boundary to the boundary east of Moran Junction. Night time lasts from 30 minutes after sunset until 30 minutes before sunrise. On average, over 100 animals are killed on park roads each year. During the past three years, 64 percent of wildlife fatalities occurred on this section of highway. Throughout the park, 55 percent of fatalities occurred at night. In order to protect the public and to preserve wildlife populations, park officials reduced night time speed limits to allow drivers and animals more reaction time.

Accessible Roads During Winter

The park’s main roadways, Highway 26/89/191 and Highway 287, are plowed and open for winter travel.

Seasonal Road Closures

Much of the Teton Park Road and the Moose-Wilson Road are closed to motorized vehicles during the winter months. See the map above for additional seasonal road closures. The unplowed section of the road from Taggart Lake trailhead parking area to Signal Mountain Lodge—a distance of 15 miles—is open to non-motorized use only (skiers, snowshoers and walkers). Snow bikes are not allowed.
