Welcome to Grand Teton National Park

FEW LANDSCAPES IN THE WORLD are as striking and memorable as that of Grand Teton National Park. Rising abruptly from the valley floor, the Teton Range offers a testament to the power and complexity of nature. The mountains, valleys, lakes, rivers and skies are home to diverse and abundant plants and animals.

People have been living in the shadow of the Teton Range for more than 11,000 years. The human history of this area is extensive, beginning with American Indian prehistoric life, continuing with the early Euro-American explorers, the more recent frontier settlement and today’s adventure seekers.

This spectacular mountain range and the desire to protect it resulted in the establishment of Grand Teton National Park in 1929. Through the vision and generous philanthropy of John D. Rockefeller, Jr. and others, additional lands were added to form the present day park in 1950.

Grand Teton National Park is truly a unique place. With thoughtful use and careful management, it will remain so for generations to come. As with other sites in the National Park System, Grand Teton preserves a piece of America’s natural and cultural heritage for future generations.

While you are here, take a moment to put your cares aside: take a scenic drive, celebrate winter by skiing or snowshoeing, and lose yourself to the power of this place.

We hope you will be refreshed and restored during your visit, and stay connected to this magnificent landscape long after you have returned home.

Winter Wildlife

LIVING WITH WILDLIFE challenges all of us. Whether you visit Grand Teton National Park on vacation or live in the valley of Jackson Hole, encountering wildlife in their own environment is thrilling and potentially dangerous.

Winter poses special challenges for wildlife—both predator and prey. Snow buries food, temperatures plummet and traveling through deep snow is difficult. Wildlife survive the harsh winter by adapting. Some animals migrate, some hibernate and some simply endure.

Grand Teton National Park closes key wildlife habitat areas to all travelers during winter. The corridor along the Snake River is closed from December 15 until April 1; and several high peaks are closed from December 1 until April 1. Check the map on page 4 for more information. These areas are closed to allow wildlife a place where they will remain undisturbed.

Look for wildlife during your visit, observing and photographing them is always exciting. Maintain a distance of at least 100 yards from bears and wolves, and 25 yards from all other animals for your safety and theirs. If your actions cause an animal to flee, you are too close.

Bears usually hibernate from November into March, but the timing varies depending on the weather and food availability.

Whatever brings you to this special place, remember the spectacular mountains and diverse wildlife you encounter during your time here.

International Visitors

Des renseignements en Français sont disponibles aux centres des visiteurs dans le parc.

Sie können Informationen auf Deutsch in den Besucherzentren bekommen.

Se puede conseguir información en Español en el Centro del Visitante.

Accessibility information available on the Grand Teton website: www.nps.gov/grte.
Activities

Ranger-guided Snowshoe Walks
Are you curious about winter ecology or snow science? Would you like to experience the park in winter? A snowshoe walk with a park naturalist is the perfect introduction to winter in Grand Teton National Park and to travel on snowshoes. Naturalists offer a 2-hour guided snowshoe walk from the Taggart Lake Trailhead Tuesday, Friday and Saturday, at 1:30 pm late December through mid-March (conditions permitting). Call (307) 739-3399 to make reservations.

Cross-country Ski & Snowshoeing
Experience the exhilaration of winter on cross-country skis or snowshoes. Watch for wildlife such as moose, coyote and ermine and look for signs of wildlife. From November 1st through April 30th, the Teton Park Road from the Taggart Lake trailhead to Signal Mountain Lodge, a distance of 8, 2013. Call (307) 739-3399 for information.

Please respect groomed ski tracks by walking or snowshoeing beside them rather than on them.

Backcountry Skiing & Snowboarding
Jackson Hole is world-renowned for skiing. Few places provide the scenery, variety of terrain, ease of access and challenging lines found in the park’s backcountry.

When skiing or snowboarding in the national park backcountry you are responsible for managing your risks. If you access the park from Jackson Hole Mountain Resort, remember the park does not perform avalanche hazard reduction work. Please check the map on page 4 for wildlife closures. The Bridger-Teton National Forest Avalanche Center posts a daily avalanche forecast at www.jhavalanche.org or call (307) 733-2664.

If your plans include backcountry camping, you must obtain a backcountry permit. For more information, call (307) 739-3309.

Winter Camping
Park campgrounds are closed during winter. Primitive winter camping is allowed on the snow covering the parking lot next to the Colter Bay Visitor Center from December 1 to April 15. Pay $5 at the self-pay station by the restroom.

Snowmobiling
Snowmobile use is limited in Grand Teton National Park. For current information, visit: www.nps.gov/grte/planyourvisit/winter.htm.

Fishing
Fishing in Grand Teton National Park is subject to Wyoming state regulations. A Wyoming fishing license is required in the park and parkway.

Let’s Get Moving in Grand Teton National Park
Let’s Move Outside encourages all park visitors to engage in outdoor activities to get bodies moving and hearts pumping. The Let’s Move campaign was initiated by First Lady Michelle Obama to end childhood obesity within a generation. This program is now underway in national parks all over the country. Join our ranger-guided snowshoe walk to have fun and get healthy! Or explore the park with your own snowshoes or skis.

Safety and Regulations

Fall Elk Reduction
When Grand Teton National Park was expanded in 1950, Congress authorized an elk reduction program in some areas of the park to continue management of the herd. The reduction program ends on December 8, 2013. Call (307) 739-3399 for additional information.

Wildlife
Maintain a distance of at least 100 yards from bears and wolves, and 25 yards from all other animals whether on foot or in your vehicle. Obey all wildlife closures (see map page 4).

Pets
During the winter, pets are allowed on plowed roads and parking areas, and the unplowed portions of the Teton Park and Moose Wilson roads. Restrains pets on a leash no longer than six feet at all times and within 30 feet of roadways. Pets are NOT allowed on trails or in the backcountry, in boats on the Snake River or lakes other than Jackson Lake, or in visitor centers. Owners are required to clean up after their pets.

Firearms
Wyoming state regulations apply. Carrying or possessing firearms is prohibited in buildings where notice is posted. Firearms may not be discharged in a national park, except by permitted individuals during legal hunting seasons.

Winter Safety
• Protect yourself. Know your equipment, your capabilities and your limitations.
• Avoid skiing or snowshoeing alone. Always let someone know your planned destination, route and expected time of return.
• HYPOTHERMIA is a common cause of human fatality in mountain country. Carry extra clothing and dress to prevent hypothermia. Never leave a member of your party alone. If anyone in your group begins to act or talk abnormally, have them put on more clothing and drink warm liquids. Learn about treating hypothermia before your trip.
• Be prepared for sudden changes in the WEATHER. Snow and weather conditions may vary considerably throughout the day and with increasing elevation. Check the weather forecast before you venture out, and above all use common sense.
• Watch for Avalanche hazards, especially in mountain canyons and crossing exposed slopes. The Bridger-Teton National Forest Avalanche Center posts a daily avalanche forecast at www.jhavalanche.org or call (307) 733-2664.
• Take the following essential winter gear on any excursion: water in an insulated bottle, high energy snacks, first aid kit, extra clothing including a hat and gloves, sunscreen and sunglasses, map and compass, flashlight, and a repair kit.

Let’s Move Outside encourages all park visitors to engage in outdoor activities to get bodies moving and hearts pumping. The Let’s Move campaign was initiated by First Lady Michelle Obama to end childhood obesity within a generation. This program is now underway in national parks all over the country. Join our ranger-guided snowshoe walk to have fun and get healthy! Or explore the park with your own snowshoes or skis.

Make the Most of Your Park Visit

Wondering how to make the most of your time in Grand Teton National Park? Review the suggestions below, refer to our website (www.nps.gov/grte), or call (307) 739-3399, Monday - Saturday, 10 am - 4 pm.

We invite you to become a member entitled to a 15% discount on purchases at all GTA visitor center outlets, as well as on catalog and website orders. Many cooperating association stores nationwide offer reciprocal discounts.

- $35 Individual Annual Member with discount privileges and a unique member gift
- $50 Family Annual Member with discount privileges and a choice of member gifts
- Additional annual memberships: $100 Supporting Member, $250 Sustaining Member, $500 Gold Member with discount privileges and additional gifts
- $1000 Platinum Member, a three-year membership includes an Interagency Annual Pass.

Donor gifts offer a helping hand to one of America’s favorite outdoor destinations. When you support trail renewal, wildlife, and outdoor education for youth, Grand Teton National Park can deliver unforgettable experiences to visitors and strengthen resources for the future.

A Grand Partnership

Grand Teton National Park Foundation
Grand Teton National Park Foundation provides private financial support for special projects that enhance and protect Grand Teton National Park’s treasured resources. Since 1997, this organization has raised nearly $23 million for education-based capital projects, work and learn programs that reconnect youth to nature, and wildlife research and protection.

By funding initiatives that go beyond what the National Park Service could accomplish on its own, Foundation friends solve park challenges and create a solid future for Grand Teton.

GRAND TETON ASSOCIATION
The Grand Teton Association is a nonprofit organization founded in 1937 that has long been an important bridge between visitors and the environment in the Greater Yellowstone Ecosystem. The mission is to increase public understanding, appreciation, and enjoyment of Grand Teton National Park and the surrounding public lands, through aid to the interpretive, educational and research programs of our partners.

The association provides educational materials, fund learning programs, give research grants, host art events, and much more. Please consider shopping at the online store or becoming a member to help carry out this essential work.

GRAND TETON NATIONAL PARK FOUNDATION

The Craig Thomas Discovery & Visitor Center will be closed from November 4, 2013 to April 7, 2014 as a cost saving measure due to ongoing budget constraints. The decision to close the Discovery Center for the winter season stems from a need to reduce expenses associated with the center’s winter operation during a time when few visitors access the center and building costs are at their highest. For assistance, visit the park’s website (www.nps.gov/grte) or call (307) 739-3399.

The park will re-evaluate this closure for next year.

The park and the surrounding public lands, and enjoyment of Grand Teton National Park and the ecosystem. The mission is to engage the public in support of park goals by supporting important projects, programs and visitor services.

Drive Safely!

WINTER DRIVING may be challenging. Park roads are frequently covered with ice or hard-packed snow. Winter storms create white-out driving conditions. Make sure your vehicle is equipped with winter or all-season tires and carry tire chains when crossing mountain passes.

- Roads may be icy or snow-covered, drive below the speed limit when conditions warrant.
- Watch for wildlife on the roadway, especially in the morning and evening.
- Carry an emergency kit and a shovel in your vehicle. Snowstorms may occur at any time. Roads may close at any time for visitor safety.
- Always wear your seat belt.
- Be prepared for changing weather conditions.

Seasonal Road Closures
Much of the Teton Park Road and the Moose-Wilson Road are closed to motorized vehicles during the winter months. See the map above for additional seasonal road closures. The unplowed section of the road from Taggart Lake trailhead parking area to Signal Mountain Lodge—a distance of 14 miles—is open to non-motorized use only (skiers, snowshoers and walkers). Snow bikes are not allowed.

Accessible Roads During Winter
The park’s main roadways, Highway 26/89/191 and Highway 26/287, are plowed and open for winter travel.
