About this Book
This index is a complete administrative listing of the National Park System’s areas and related areas. It is revised biennially to reflect congressional actions. The entries, grouped by state, include administrative addresses and phone numbers, dates of authorization and establishment, boundary change dates, acreages, and brief statements explaining the areas’ national significance. This book is not intended as a guide for park visitors. There is no information regarding campgrounds, trails, visitor services, hours, etc. Those needing such information can visit each area’s web site, accessible through the National Park Service ParkNet home page (www.nps.gov).

The Mission of the National Park Service
The National Park Service preserves unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. The National Park Service cooperates with partners to extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country and the world.
Part 1 Introduction

Grand Canyon National Park
On August 25, 1916, President Woodrow Wilson signed the act creating the National Park Service, a new federal bureau in the Department of the Interior responsible for protecting the 35 national parks and monuments then managed by the department and those yet to be established. This “Organic Act” states that “the Service thus established shall promote and regulate the use of the Federal areas known as national parks, monuments and reservations . . . by such means and measures as conform to the fundamental purpose of the said parks, monuments and reservations, which purpose is to conserve the scenery and the natural and historic objects and the wild life therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations.”

The National Park Service still strives to meet those original goals, while filling many other roles as well: guardian of our diverse cultural and recreational resources; environmental advocate; world leader in the parks and preservation community; and pioneer in the drive to protect America’s open space.

The National Park System of the United States comprises 388 areas covering more than 84 million acres in 49 States, the District of Columbia, American Samoa, Guam, Puerto Rico, Saipan, and the Virgin Islands. These areas are of such national significance as to justify special recognition and protection in accordance with various acts of Congress.

By the Act of March 1, 1872, Congress established Yellowstone National Park in the Territories of Montana and Wyoming “as a public park or pleasuring-ground for the benefit and enjoyment of the people” and placed it “under exclusive control of the Secretary of the Interior.” The founding of Yellowstone National Park began a worldwide national park movement. Today more than 100 nations contain some 1,200 national parks or equivalent preserves.

In the years following the establishment of Yellowstone, the United States authorized additional national parks and monuments, most of them carved from the federal lands of the West. These, also, were administered by the Department of the Interior, while other monuments and natural and historical areas were administered as separate units by the War Department and the Forest Service of the De-
partment of Agriculture. No single agency provided unified management of the varied federal parklands.

An Executive Order in 1933 transferred 56 national monuments and military sites from the Forest Service and the War Department to the National Park Service. This action was a major step in the development of today’s truly national system of parks—a system that includes areas of historical as well as scenic and scientific importance.

Congress declared in the General Authorities Act of 1970 “that the National Park System, which began with the establishment of Yellowstone National Park in 1872, has since grown to include superlative natural, historic, and recreation areas in every region... and that it is the purpose of this Act to include all such areas in the System....”

Additions to the National Park System are now generally made through acts of Congress, and national parks can be created only through such acts. But the President has authority, under the Antiquities Act of 1906, to proclaim national monuments on lands already under federal jurisdiction. The Secretary of the Interior is usually asked by Congress for recommendations on proposed additions to the System. The Secretary is counseled by the National Park System Advisory Board, composed of private citizens, which advises on possible additions to the System and policies for its management.

**Nomenclature of Park System Areas**

The diversity of the parks is reflected in the variety of titles given to them. These include such designations as national park, national preserve, national monument, national memorial, national historic site, national seashore, and national battlefield park.

Although some titles are self-explanatory, others have been used in many different ways. For example, the title “national monument” has been given to natural reservations, historic military fortifications, prehistoric ruins, fossil sites, and to the Statue of Liberty.

In recent years, both Congress and the National Park Service have attempted to simplify the nomenclature and to establish basic criteria for use of the different official titles. Brief definitions of the most common titles follow.

Areas added to the National Park System for their natural values are expanses or features of land or water of great scenic and scientific quality and are usually designated as national parks, monuments, preserves, seashores, lakeshores, or riverways. Such areas contain one or more distinctive attributes such as forest, grassland, tundra, desert, estuary, or river systems; they may contain windows on the past for a view of geological history; they may contain imposing landforms such as mountains, mesas, thermal areas, and caverns; and they may be habitats of abundant or rare wildlife and plantlife.

Generally, a **national park** contains a variety of resources and encompasses large land or water areas to help provide adequate protection of the resources.

A **national monument** is intended to preserve at least one nationally significant resource. It is usually smaller than a national park and lacks its diversity of attractions.

In 1974, Big Cypress and Big Thicket were authorized as the first **national preserves**. This category is established primarily for the protection of certain resources. Activities such as hunting and fishing or the extraction of minerals and fuels may be permitted if they do not jeopardize the natural values. **National reserves** are similar to the preserves. Management may be transferred to local or state authorities. The first reserve, City of Rocks, was established in 1988.

Preserving shoreline areas and off-shore islands, the **national lakeshores** and **national seashores** focus on the preservation of natural values while at the same time providing water-oriented recreation. Although national lakeshores can be established on any natural freshwater lake, the existing four are all located on the Great Lakes. The national seashores are on the Atlantic, Gulf, and Pacific coasts.

**National rivers** and **wild and scenic riverways** preserve ribbons of land bordering on free-flowing streams which have not been dammed, channelized, or otherwise altered. Besides preserving rivers in their natural state, these areas provide opportunities for outdoor activities such as hiking, canoeing, and hunting.

**National scenic trails** are generally long-distance footpaths winding through areas of natural beauty.

Although best known for its great scenic parks, more than half the areas of the National Park System preserve places and commemo-
rate persons, events, and activities important in the nation’s history. These range from archeological sites associated with prehistoric Indian civilizations to sites related to the lives of modern Americans. Historical areas are customarily preserved or restored to reflect their appearance during the period of their greatest historical significance.

In recent years, national historic site has been the title most commonly applied by Congress in authorizing the addition of such areas to the National Park System. A wide variety of titles—national military park, national battlefield park, national battlefield site, and national battlefield—has been used for areas associated with American military history. But other areas such as national monuments and national historical parks may include features associated with military history. National historical parks are commonly areas of greater physical extent and complexity than national historic sites. The lone international historic site refers to a site relevant to both U.S. and Canadian history.

The title national memorial is most often used for areas that are primarily commemorative. They need not be sites or structures historically associated with their subjects. For example, the home of Abraham Lincoln in Springfield, Ill., is a national historic site, but the Lincoln Memorial in the District of Columbia is a national memorial.

Several areas whose titles do not include the words “national memorial” are nevertheless classified as memorials. These are Franklin Delano Roosevelt Memorial, Korean War Veterans Memorial, Lincoln Memorial, Lyndon Baines Johnson Memorial Grove, Theodore Roosevelt Island, Thomas Jefferson Memorial, Vietnam Veterans Memorial, Washington Monument, and World War II Memorial in the District of Columbia; USS Arizona Memorial in Hawaii; Jefferson National Expansion Memorial in Missouri; Perry’s Victory in Ohio; and Arlington House in Virginia.

Originally, national recreation areas in the park system were units surrounding reservoirs impounded by dams built by other federal agencies. The National Park Service manages many of these areas under cooperative agreements. The concept of recreational areas has grown to encompass other lands and waters set aside for recreational use by acts of Congress and now includes major areas in urban centers. There are also national recreation areas outside the National Park System that are administered by the Forest Service, U.S. Department of Agriculture.

National parkways encompass ribbons of land flanking roadways and offer an opportunity for driving through areas of scenic interest. They are not designed for high speed travel. Besides the four areas set aside as parkways, other units of the National Park System include parkways within their boundaries.

One area of the National Park System has been set aside primarily as a site for the performing arts. This is Wolf Trap National Park for the Performing Arts, Virginia, America’s first such national park. Two historical areas, Ford’s Theatre National Historic Site, in Washington, D.C., and Chamizal National Memorial, Texas, also provide facilities for the performing arts.

Designation of Wilderness Areas
In the Wilderness Act of 1964 Congress directed certain federal agencies, including the National Park Service, to study lands they administer for their suitability for inclusion in the National Wilderness Preservation System. Congress has now designated wilderness areas in 45 units of the National Park System. Wilderness designation does not remove these lands from the parks but ensures they are managed to retain their “primeval character and influence, without permanent improvements or human habitation.” There are also 32 wilderness study areas under National Park Service management. Of these areas, 17 were formally transmitted for Congressional action in the Nixon, Ford, and Carter administrations in the 1970s.

The Act provides that “there shall be no commercial enterprise and no permanent road within any wilderness area . . . and (except for emergency uses) no temporary road, no use of motor vehicles, motorized equipment or motor boats, no landing of aircraft, no other form of mechanical transport, and no structure or installation.” Wilderness areas are open to hiking and, in some cases, horseback riding, primitive camping, and other nonmechanical recreation. The Wilderness Act recognizes that wilderness “may also contain ecological, geological, or other features of scientific, educational, scenic, or historical value.” Wilderness embodies spiritual, artistic, therapeutic, cultural, and many other important values as well.
Wilderness holds exciting prospects for future management of National Park Service lands. Because wilderness exists on lands of the National Park System, National Forest System, National Wildlife Refuge System, and Bureau of Land Management, it offers a common statutory basis for interagency cooperation in ecosystem management. And only the Wilderness Act mandates preservation of natural processes, making wilderness areas ideal protected core areas for ecosystems, just as national parks often provide core protection for biosphere reserves and world heritage sites. As such, wilderness areas provide important benchmark areas for scientific research and monitoring.

Growing demand for wilderness experience makes sophisticated, sensitive wilderness management essential. The National Park Service believes that wilderness management is the highest form of stewardship it can provide for the public lands in its care.

Parks in the Nation's Capital
Washington, D.C., has a unique park system. Most public parks are administered by the Federal Government through the National Capital Region of the National Park Service. National Capital Region has inherited duties originally assigned to three Federal Commissioners appointed by President George Washington in 1790. The city’s parks were administered by a variety of federal agencies until this responsibility was assigned to the National Park Service under the Reorganization Act of 1933. Most parklands in the city are included in the federal holdings, although the District of Columbia also operates parks, playgrounds, and recreational facilities. National Capital Region also administers several National Park System units in Maryland, Virginia, and West Virginia.

Related Areas
Besides the National Park System, four groups of areas—Affiliated Areas, National Heritage Areas, the National Wild and Scenic Rivers System, and the National Trails System—are closely linked in importance and purpose to those areas managed by the National Park Service. These areas are not all units of the National Park System, yet they preserve important segments of the nation’s heritage. They are listed in Part 3 of this book.

**Horseshoe Bend National Military Park**
11288 Horseshoe Bend Road
Daviston, AL 36256
256-234-7111

On March 27, 1814, at the “horseshoe bend” on the Tallapoosa River, Gen. Andrew Jackson’s forces broke the power of the Upper Creek Indian Confederacy and opened large parts of Alabama and Georgia to settlement.

Authorized July 25, 1956.

Aniakchak National Monument
and Aniakchak National Preserve
P.O. Box 7
King Salmon, AK 99613-0007
907-246-3305

The Aniakchak Caldera, covering some 30 square miles, is one of the great dry calderas in the world. Located in the volcanically active Aleutian Mountains, the Aniakchak last erupted in 1931. The crater includes lava flows, cinder cones, and explosion pits, as well as Surprise Lake, source of the Aniakchak River, which cascades through a 1,500-foot gash in the crater wall. NO FEDERAL FACILITIES.

Bering Land Bridge National Preserve
P.O. Box 220
Nome, AK 99762-0220
907-443-2522

Located on the Seward Peninsula, the preserve is a remnant of the land bridge that once connected Asia with North America more than 13,000 years ago. Paleontological and archeological resources abound; large populations of migratory birds nest here. Ash explosion craters and lava flows, rare in the Arctic, are also present. LIMITED FEDERAL FACILITIES.

Cape Krusenstern National Monument
P.O. Box 1029
Kotzebue, AK 99752-0029
907-442-3890

Archeological sites located along a succession of 114 lateral beach ridges illustrate Eskimo communities of every known cultural period in Alaska, dating back some 4,000 years. LIMITED FEDERAL FACILITIES.

Denali National Park and Denali National Preserve
P.O. Box 9
McKinley Park, AK 99755-0009
907-683-2294

The park contains North America’s highest mountain, 20,320-foot Mount McKinley. Large glaciers of the Alaska Range, caribou, Dall sheep, moose, grizzly bears, and timber wolves are other highlights of this national park and preserve.
Lying north of the Arctic Circle, the park and preserve include a portion of the Central Brooks Range, the northernmost extension of the Rocky Mountains. Often referred to as the greatest remaining wilderness in North America, these units of the National Park System are characterized by jagged peaks, gentle arctic valleys, wild rivers, and numerous lakes. With adjacent Kobuk Valley National Park and Noatak National Preserve, they form one of the largest park areas in the world.

Great tidewater glaciers, a dramatic range of plant communities from rocky terrain recently covered by ice to lush temperate rain forest, and a large variety of animals, including grizzly bears, mountain goats, whales, seals, and eagles, can be found within these parks.

Variety marks this vast land: lakes, forests, mountains, and marshlands all abound in wildlife. The Alaska brown bear, the world’s largest carnivore, thrives here, feeding upon red salmon that spawn in the many lakes and streams. Wild rivers and renowned sport fishing add to the attractions of this subarctic environment. Here, in 1912, Novarupta Volcano erupted violently, forming the ash-filled “Valley of Ten Thousand Smokes” where steam rose from countless fumaroles.

The park includes one of the four major ice caps in the U.S., the 300-square-mile Harding Icefield, and coastal fjords. Here a rich, varied rainforest is home to tens of thousands of breeding birds, and adjoining marine waters support a multitude of sea lions, sea otters, and seals. The visitor center is in Seward, 10 miles from the park.

Klondike Gold Rush National Historical Park
P.O. Box 517
Skagway, AK 99840-0517
907-983-2921
(See also Washington)

Historic buildings and exhibits in Skagway and portions of Chilkoot and White Pass Trails, all prominent in the 1898 gold rush, are included in the park. A visitor center and 13 other restored historic buildings are located in downtown Skagway. Authorized June 30, 1976.

Acreage—13,191.35 Federal: 2,418.93 Nonfederal: 10,772.42.

Kobuk Valley National Park
P.O. Box 1029
Kotzebue, AK 99752-1029
907-442-3890

Embracing the central valley of the Kobuk River, the park, located north of the Arctic Circle, includes a blend of biological, geological, and cultural resources. Here, in the northernmost extent of the boreal forest, a rich array of arctic wildlife can be found, including caribou, grizzly and black bear, wolf, and fox.

LIMITED FEDERAL FACILITIES.

Acreage—1,750,716.50 Federal: 1,669,912.98 Nonfederal: 80,803.52. Wilderness area: 190,000.

Lake Clark National Park and Lake Clark National Preserve
4230 University Drive
Suite 311
Anchorage, AK 99508-4626
907-271-3751

Located in the heart of the Chigmit mountains, the park and preserve contain great geologic diversity, including jagged peaks, granite spires, and two symmetrical active volcanoes. More than a score of glacially carved lakes rim the mountain mass. Lake Clark, more than 40 miles long, is not only the largest lake here, but is also the headwaters for red salmon spawning.

Noatak National Preserve
P.O. Box 1029
Kotzebue, AK 99752-0129
907-442-3890

The Noatak River basin is the largest mountain-ringed river basin in the nation still virtually unaffected. The preserve includes landforms of great scientific interest, including the 65-mile-long Grand Canyon of the Noatak, a transition zone and migration route for plants and animals between subarctic and arctic environments, and an array of flora among the most diverse anywhere in the earth’s northern latitudes. LIMITED FEDERAL FACILITIES.

Wrangell-St. Elias National Park and Wrangell-St. Elias National Preserve
P.O. Box 439
Copper Center, AK 99573
907-822-5234

The Chugach, Wrangell, and St. Elias mountain ranges converge here in what is often referred to as the “mountain kingdom of North America.” The national park is the largest unit of the National Park System. The park and preserve include the continent’s largest assemblage of glaciers and the greatest collection of peaks above 16,000 feet, including Mount St. Elias. At 18,008 feet it is the second highest peak in the U.S. Proclaimed Wrangell-St. Elias National Monument Dec. 1, 1978; established as a national park and national preserve Dec. 2, 1980. Wilderness designated Dec. 2, 1980. Designated a World Heritage Site Oct. 24, 1979.

Yukon-Charley Rivers National Preserve
201 First Avenue
Doyon Building
Fairbanks, AK 99701-4848
907-457-5752

Located along the Canadian border in central Alaska, the preserve protects 115 miles of the 1,800-mile Yukon River and the entire Charley River basin. Numerous old cabins and relics are reminders of the importance of the Yukon River during the 1898 gold rush. The Charley, an 88-mile wild river, is considered by many to be the most spectacular river in Alaska. LIMITED FEDERAL FACILITIES.

Old Faithful and some 10,000 other thermal features make this the Earth’s greatest geyser area. Here, too, are lakes, waterfalls, high mountain meadows, wildlife, and the Grand Canyon of the Yellowstone—all set apart in 1872 as the world’s first national park.
In an Act of August 18, 1970, the National Park System was defined in law as “any area of land and water now or hereafter administered by the Secretary of the Interior through the National Park Service for park, monument, historic, parkway, recreational or other purposes.” The same law specifically excludes “miscellaneous areas administered in connection therewith,” that is, those properties that are neither federally owned nor directly administered by the National Park Service but that the National Park Service assists.

The Affiliated Areas comprise a variety of locations in the United States and Canada that preserve significant properties outside the National Park System. Some of these have been recognized by Acts of Congress, others have been designated national historic sites by the Secretary of the Interior under authority of the Historic Sites Act of 1935. All draw on technical or financial aid from the National Park Service.

National Heritage Areas are regions in which entire communities live and work, and in which residents, businesses, and local governments have come together to conserve special landscapes and their own heritage. Through a number of independent authorities, as of 2004 Congress has established 27 National Heritage Areas around the country. In these areas, the National Park Service does not acquire new land. Instead, conservation, interpretation, and other activities are managed by partnerships among federal, state, and local governments and private nonprofit organizations. The National Park Service plays the role of catalyst by providing technical assistance and financial assistance for a limited period.

Each National Heritage Area is a settled landscape that tells the story of its residents. Over time the land and the local environment have shaped traditions and cultural values in the people who live there. The residents’ use of the land has in turn created and sustained a landscape that reflects their culture.

These areas consist mainly of private property, though some include public parks and preserves. Protection and upkeep of these lands and properties, as well as activities such as tours, museums, and festivals, are primarily accomplished through voluntary actions. For each area, a local or state government agency, nonprofit organization, or independent federal commission has been recognized by Congress to serve as the management entity that coordinates the partners’ actions. Designation as a National Heritage Area brings no federal regulation of private property.

All of these National Heritage Areas are young and constitute an ambitious experiment—a new way of conserving and enjoying the nation’s natural and cultural heritage. As such, the kinds of visitor experiences available vary widely. These areas are at different stages of implementing their plans for scenic byways; walking and cycling trails; wild, scenic, and recreation rivers; interpretive and educational activities; and rehabilitation of historic buildings and districts. The visitor who explores a National Heritage Area will gain insight into how a particular part of the American experience came to be.
Sites in this 37-county region of northeastern Iowa illustrate the transformation that took place as mechanization paved the way for a distinctly American system of industrialized agriculture. Tractor design and manufacture, mechanized farming, corn-hog production, dairying, beef cattle feeding, and meat packing continue to characterize the region. The unique cultural histories of family farming and agribusiness are equally well represented. Authorized Nov. 12, 1996.

This seven-mile corridor follows the full length of the best-preserved canal of its kind remaining in the southern United States. The canal transformed Augusta into an important regional industrial area on the eve of the Civil War, and was instrumental in the post-Civil War relocation of much of the nation’s textile industry to the south. Authorized Nov. 12, 1996.

The heritage area consists of six significant corridors representing the region that put the world on wheels. This collection of auto-related museums, historical sites, and natural, cultural, and recreational resources is linked, enhanced, and protected to preserve and interpret the story of the automobile. Authorized Nov. 6, 1998.

Blue Ridge National Heritage Area encompasses 25 counties in the Blue Ridge Mountains of North Carolina and includes the Blue Ridge Parkway. The area seeks to preserve and interpret traditional folk music, folklife traditions, arts and crafts, the heritage of the Cherokee Indians, and historic sites and collections of artifacts. A partnership of federal, state, local, non-profit, and Cherokee Indian organizations collaborates with residents on educational and conservation initiatives. Authorized Nov. 10, 2003.

Includes 44 miles of the 100-year floodplain of the Cache La Poudre River corridor, beginning in Larimer County where the Poudre flows out of the Arapaho-Roosevelt National Forest and continuing east to a point one-quarter mile west of the confluence of the Poudre and the South Platte in Weld County. The corridor tells the story of water and its influence on western development. Authorized Oct. 19, 1996.

Before becoming part of the United States, this area at the intersection of the Spanish and French realms in the New World gave rise to the unique Creole culture in a rural setting. The area supports the oldest community in the territory encompassed by the Louisiana Purchase. Historic plantations, Cane River Creole National Historical Park, and three state commemorative areas keep the region’s Creole heritage alive. Authorized Nov. 2, 1994.
Erie Canalway National Heritage Corridor
P. O. Box 219
Waterford, NY 12188

The Erie Canal is the most successful and influential human-made waterway and one of the most important works of civil construction in North America. Constructed in 1825, it opened the American interior to settlement and trade, helped make New York City an international center of commerce, and, by linking people, places, and ideas, helped foster a number of social reform and religious movements. Today the 524-mile canal system remains in service as America’s oldest continuously operating transportation system. A 363-mile Towpath Trail is nearing completion. Authorized Dec. 21, 2000.

Essex National Heritage Area
221 Essex Street, Suite 41
Salem, MA 01970

Essex County is a 500-square-mile area between the Atlantic Coast and the Merrimack Valley. It includes thousands of historic sites and districts that illuminate colonial settlement, the development of the shoe and textile industries, and the growth and decline of the maritime industries—including fishing, privateering, and the China trade. Authorized Nov. 12, 1996.

Hudson River Valley National Heritage Area
Hudson River Valley Greenway
Capitol Building, Room 254
Albany, NY 12224

From Troy to New York City, the Hudson River Valley contains a rich assemblage of natural features and nationally significant cultural and historical sites. The valley has maintained the scenic, rural character that inspired the Hudson Valley School of landscape painting and the Knickerbocker writers. Recreational opportunities are found in local parks, protected open space, and greenways. Authorized Nov. 12, 1996.

Illinois and Michigan Canal National Heritage Corridor
c/o Midwest Region Corridor
National Park Service
601 Riverfront Drive
Omaha, NE 68102

This canal was built in the 1830s and ’40s along the portage between Lake Michigan and the Illinois River, which had long been used as an American Indian trade route. The canal rapidly transformed Chicago from an isolated crossroads into a critical transportation hub between the East and the developing Midwest. A 61-mile recreational trail follows the canal towpath. Authorized Aug. 24, 1984.

Delaware and Lehigh National Heritage Corridor
10 East Church St., P-208
Bethlehem, PA 18018

These two 19th-century canals and their associated early railroads opened up the rich anthracite coal fields of eastern Pennsylvania and fueled the Industrial Revolution. The corridor includes museums dealing with the region’s cultural and industrial history and two state parks. It is administered by a federal commission appointed by the Secretary of the Interior and the Governor of Pennsylvania working with a consortium of state, county, local, and private landowners. Authorized Nov. 18, 1988.

John H. Chafee
Blackstone River Valley National Heritage Corridor
1 Depot Square
Woonsocket, RI 02895

Lackawanna Valley
National Heritage Area
1300 Old Plank Road
Mayfield, PA 18433

The 40-mile-long Lackawanna Heritage Valley is at the center of what was once the world’s most productive anthracite field. Located in Pennsylvania, the heritage area features history and culture closely tied to the anthracite coal mining industry, a cornerstone of the American industrial legacy. Trails, museums, and other visitor attractions help tell the nationally important story of anthracite. Authorized Oct. 6, 2000.

Mississippi Gulf Coast
National Heritage Area
Mississippi Department of Marine Resources
1141 Bayview Avenue
Suite 101
Biloxi, MS 39530

The landscape of this six-county area within the Mississippi Coastal Plain that borders the Gulf of Mexico has been shaped by the natural coastal and riverine environment and a number of cultural influences, including Native Americans and Spanish, French, and English settlers. The area contains cultural and historical sites related to these cultures, including the first capital of the Louisiana Territory, in addition to natural, scenic, and recreational resources along the coast and wetlands. Management of the area will be coordinated by the Mississippi Department of Marine resources in consultation with the Mississippi Department of Archives and History. Authorized Dec. 8, 2004.

National Aviation Heritage Area
P.O. Box 414
Dayton, Ohio 45409

The heritage area is an eight-county region in southwest Ohio based on the Wright brothers’ legacy and the aviation history of the Dayton, Ohio region. Partnership projects among federal, state, and local governments and the private sector have followed the passage of the Dayton Aviation Heritage Preservation Act in 1992. Heritage development, interpretation, and preservation projects based on historic aviation sites and resources will be strengthened and enhanced by the new designation. Resources include Wright-Patterson Air Force Base and Dayton Aviation Heritage National Historical Park. The area will be managed by the non-profit organization Aviation Heritage Foundation, Inc. Authorized Dec. 8, 2004.

National Coal Heritage Area
104 Wilson Street
P.O. Box 5176
Beckley, WV 25801

The cultural geography here has been profoundly influenced over the last 125 years by the pervasive role of the coal mines. The communities in these 11 counties in southern West Virginia reflect their origins as company towns formed by local traditions, waves of immigrant workers, and the dominance of the mining companies. Ethnic neighborhoods and the physical infrastructure of the mines are still evident in the region. Authorized Nov. 12, 1996.

Ohio and Erie Canal National Heritage Corridor
520 S. Main Street
Suite 2452
Akron, OH 44311

This area of northeast Ohio celebrates the canal that enabled shipping between Lake Erie and the Ohio River and vaulted Ohio into commercial prominence in the early 1830s. The Towpath Trail, Cuyahoga Valley Scenic Railroad, and CanalWay Ohio National Scenic Byway provide varied ways to experience the diverse natural landscapes, agricultural lands and rural villages, and urban industry and ethnic neighborhoods of the corridor. (See Cuyahoga Valley National Park.) Authorized Nov. 12, 1996.
Oil Region
National Heritage Area
P.O. Box 128
Oil City, PA 16301-0128

This heritage area tells the story of Col. Edwin Drake’s drilling of the world’s first successful oil well in 1859, which changed the course of industry, society, and politics in the modern world. The Oil Region, composed of Venango County, Oil Creek Township in eastern Crawford County, and the city of Titusville, Pa., contains remnants of the oil industry in addition to historic valley and riverbed settlements, plateau developments, farmlands, and industrial landscapes. The area’s cultural traditions have been shaped by Native Americans, frontier settlements, the French and Indian War, African Americans and the Underground Railroad, and Swedish and Polish immigration.

Quinebaug and Shetucket Rivers Valley
National Heritage Corridor
107 Providence Street
Putnam, CT 06260

The Quinebaug and Shetucket Rivers Valley in Connecticut is one of the last unspoiled and undeveloped areas in the northeastern U.S. It has remained largely intact, including important aboriginal archaeological sites, excellent water quality, beautiful rural landscapes, architecturally significant mill structures and mill villages, and a large acreage of parks and other permanent open space. The corridor encompasses 850 square miles and includes 25 towns.

Rivers of Steel
National Heritage Area
The Bost Building
623 E. Eighth Avenue
Homestead, PA 15120

Steel made a great imprint on the Pittsburgh region in the late 19th and early 20th centuries. The industry made possible railroads, skyscrapers, and shipbuilding while altering corporate practice and labor organization. There are remnants of numerous mills as well as communities founded by mill workers, many of which are linked by hiking trails and riverboat tours.
Authorized Nov. 12, 1996.

Schuylkill River Valley
National Heritage Area
140 College Drive
Pottstown, PA 19464

Encompassing the river valley associated with the 128-mile Schuylkill River, the heritage area includes three national park areas, the historic city of Philadelphia, and many early communities and canal towns throughout the corridor. The Schuylkill River is central to the story of the colonization and industrialization of America. The area includes pre-Revolutionary mills, late 19th-century factories, and numerous historic districts and cultural attractions throughout a five-county area.

Shenandoah Valley Battlefields
National Historic District
Shenandoah Valley Battlefields Foundation
P.O. Box 897
New Market, VA 22844

Strategically important to both the Union and Confederate armies, the Shenandoah Valley was the site of 15 major battles. The National Historic District includes 10 battlefields and comprises eight counties. Continuing efforts are helping to preserve and interpret these important Civil War sites.
Authorized Nov. 12, 1996.
South Carolina
National Heritage Corridor
Heritage Tourism
Development Office
1205 Pendleton Street
Columbia, SC 29201

Two routes through 14 counties in western South Carolina begin in the mill villages, waterfalls, and mountains of the Up Country; run through historic courthouse towns and military sites and along the Savannah River; and follow the Edisto River and the South Carolina Railroad to the Low Country’s wealth of African American and antebellum history, centered in and around historic Charleston. Authorized Nov. 12, 1996.

Southwestern Pennsylvania Industrial Heritage Route
105 Zee Plaza
P.O. Box 565
Hollidaysburg, PA 16648-0565

This 500-mile route travels through nine counties of southwestern Pennsylvania and features hundreds of sites relating to the nation’s industrial story. Included are the Altoona Railyards, the Johnstown Flood National Memorial, the Johnstown Flood Museum, the steel mills of Johnstown, and Horseshoe Curve, a 19th-century engineering marvel built by the Pennsylvania Railroad. Authorized Nov. 19, 1988.

Tennessee Civil War National Heritage Area
Center for Historic Preservation, Middle Tennessee State University
Box 80
Murfreesboro, TN 37132

A number of areas throughout Tennessee preserve and interpret the legacy of the Civil War there. Heritage resources are focused on important events; geographic factors; decisive battles, engagements, and strategic maneuvers of the war; and the impact of the war on Tennessee’s residents. Authorized Nov. 12, 1996.

Wheeling National Heritage Area
1400 Main Street
Wheeling, WV 26003

Once the capital of West Virginia, Wheeling marked the northernmost navigable port on the Ohio River. It became a thriving commercial, industrial, and cultural center, and by 1818 was the terminus of the National Road, our nation’s first highway. A new waterfront park plus a variety of venues throughout the city interpret the history and culture that has had a profound influence on the history of our country. Authorized Oct. 11, 2000.

Yuma Crossing National Heritage Area
Riverfront Development Office
200 West First Street
Yuma, AZ 85364

This natural ford on the Colorado River has been a gathering spot for Native Americans, Hispanics, and waves of explorers and settlers for more than 500 years. One of the first heritage areas in the West, Yuma Crossing celebrates the pivotal role Yuma played as a key crossing point of the Colorado River through the 19th century; its innovative role in water management in the 20th century; and its leadership in the environmental restoration of the Colorado River. Key partners in conservation projects and programs include the Quechan and Cocopah Indian Nations, local farmers, the military, the private sector, and local governments. Authorized Oct. 19, 2000.
Public Law 90-542, of October 2, 1968, provides for the establishment of a system of rivers to be preserved as free-flowing streams accessible for public use and enjoyment. Components of the system, which may include only a portion of a river, are classified as wild, scenic, or recreational rivers. They are classified according to the degree of development on the river, shoreline, and adjacent lands. Thus a wild river shows little evidence of human activity, the river is free of dams, and it is generally inaccessible except by trail. A scenic river is one with relatively primitive shorelines but accessible in places by road. A recreational river has more development, is accessible, and may have been dammed or diverted in the past.

Once a river is designated a component of the National Wild and Scenic Rivers System, the objective of the managing agency is to preserve or enhance the features that qualified the river for inclusion within the system; any recreational use must be compatible with preservation. The rivers listed here are administered by the National Park Service. Those administered by the U.S. Fish and Wildlife Service are components of the National Wildlife Refuge System.

Rivers and streams that are in state-protected systems may become units of the National System if the state’s governor asks for such inclusion. The Secretary of the Interior may then designate the river, if it is appropriate, as a unit of the system. Federally managed components of the system are designated by acts of Congress. Usually Congress first authorizes a detailed study to determine the qualification of a river area for the system.

200 Chestnut Street
Philadelphia, PA 19106-2818
The White Clay Creek flows through southwestern Chester County, Pa., and northwestern New Castle County, Del. The White Clay Creek watershed is renowned for its scenery, opportunities for birding and trout fishing, and for its historic resources. The watershed is also an important source of drinking water for residents of Pennsylvania and Delaware.
The National Trails System Act of 1968, as amended, calls for establishing trails in both urban and rural settings for persons of all ages, interests, skills, and physical abilities. The act promotes the enjoyment and appreciation of trails while encouraging greater public access. It establishes four classes of trails: national scenic trails, national historic trails, national recreation trails, and side and connecting trails.

National scenic trails are to be continuous, extended routes of outdoor recreation within protected corridors. The first two established under the National Trails System Act were the Appalachian and Pacific Crest trails. They wind through some of the nation’s most striking natural beauty. National historic trails recognize past routes of exploration, migration, and military action.

The term national recreation trail is given to an existing trail by the Federal Government, upon application, in recognition of its role as a component of the National Trails System. Today more than 900 of these trails have been designated throughout the country. They are located in every state, the District of Columbia, and Puerto Rico, totaling more than 13,000 miles in length.

Side and connecting trails provide additional access to and between components of the National Trails System. To date, two have been designated.

Since 1968, 42 long-distance trails have been studied for inclusion in the system, and 22 have been designated. The National Park Service administers 17 of them, the Forest Service administers four, and the Bureau of Land Management, one. Two are jointly administered by BLM and NPS.

The National Park Service encourages all public and private agencies to develop, maintain, and protect trails. With the cooperation and support of a nationwide trails community, the vision of an interconnected, cross-country trail system will become a reality. For update contact information, see NPS website: www.nps.gov/nts/index.html.
Ala Kahakai National Historic Trail
National Park Service
c/o Kaloko-Honokōhau National Historical Park
73-4786 Kanalani Street #14
Kailua Kona, HI 96740-2608

Ala Kahakai ("trail by the sea") connects shoreline trails associated with Polynesian settlement, illustrating how Hawaiians flourished as a civilization. Events commemorated along the trail include Captain Cook's historic landing, the rise of Kamehameha I, and later changes leading to Hawaii's unique blend of cultures. The trail runs along superb beaches, past resorts, and through natural, urban, and wilderness areas. Established Jan. 24, 2000. Length: 175 miles.

Approximately 2,150 miles of this scenic trail follow the Appalachian Mountains from Katahdin, Maine, through New Hampshire, Vermont, Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Maryland, West Virginia, Virginia, Tennessee, and North Carolina, to Springer Mountain, Georgia. The trail is one of the two initial components of the National Trails System. It is also a unit of the National Park System. Established Oct. 2, 1968. Length: 2,175 miles. Acreage—227,000.55  Federal: 169,473.59  Nonfederal: 57,526.96.

California National Historic Trail
National Park Service
P.O. Box 45155
324 South State St., Suite 200
Salt Lake City, UT 84145-0155

The California Trail is a system of overland routes, starting at five points along the Missouri River and ending at many locations in California and Oregon. Over these trails, from 1841 to 1869, passed one of America's great mass migrations, seeking the promise of gold and a new life in California. Established Aug. 3, 1992. Length: 5,600 miles.

Continental Divide National Scenic Trail
USDA Forest Service
Rocky Mountain Region
740 Simms Street
Golden, CO 80401

Running the length of the Rocky Mountains near the Continental Divide, this trail extends from Canada's Waterton Lake into Montana, along the Idaho border, and on to Wyoming, Colorado, and New Mexico, ending at the U.S.-Mexican border. Established Nov. 10, 1978. Length: 3,200 miles.

El Camino Real de los Tejas National Historic Trail
National Park Service
National Trails System Office
P.O. Box 728
Santa Fe, NM 87504-0728

Established as a late 17th-century route connecting missions across the plains of Texas, the route played key roles in securing the Spanish frontier with France, in holding Mexico's northern frontier after independence in 1821, and as the gateway for American settlement of Texas after the Republic period. (The route was then known as the "Old San Antonio Road.") This trail shaped the early history of Laredo, San Antonio, Nacogdoches, and even the early colonial Texas capital of Los Adaes, La. Established Oct. 18, 2004. Length: multiple routes totaling approximately 2,600 miles.

El Camino Real de Tierra Adentro National Historic Trail
National Park Service
National Trails System Office
P.O. Box 728
Santa Fe, NM 87504-0728

From 1598 to 1882, the 1,600-mile Camino Real de Tierra Adentro joined Mexico City and Santa Fe. It aided exploration, colonization, economic development, and subsequent cultural interactions among Spanish, Anglo, and native peoples. Only the 404 miles in the United States are designated as a National Historic Trail. Co-administered with the Bureau of Land Management. Established Oct. 13, 2000. Length: 404 miles.
Florida National Scenic Trail
USDA Forest Service
325 John Knox Rd., #F-100
Tallahassee, FL 32303

The trail runs north from Big Cypress National Preserve and the Kissimee Prairie through various national and state forests to Gulf Islands National Seashore. More than 800 miles have been developed for public use.

Ice Age National Scenic Trail
National Park Service
700 Rayovac Drive
Suite 100
Madison, WI 53711

Winding over Wisconsin’s glacial moraines, the trail links six of the nine units of the Ice Age National Scientific Reserve. It traverses significant features of Wisconsin’s glacial heritage. Approximately 600 miles are open to public use; additional miles are being developed.

Iditarod National Historic Trail
Bureau of Land Management
6881 Abbott Loop Road
Anchorage, AK 99507

One of Alaska’s preeminent Gold Rush trails, the Iditarod extends from Seward to Nome and is composed of a network of trails and side trails developed at the turn of the century. An annual dog-sled race from Anchorage to Nome brings this trail international attention.

Juan Bautista de Anza National Historic Trail
National Park Service
1111 Jackson Street, Suite 700
Oakland, CA 94607

This trail commemorates the 1776 establishment of an overland route used by Spanish soldiers and their families as they emigrated from Northern Mexico to establish a foothold on the edge of Alta California at San Francisco Bay.

Lewis and Clark National Historic Trail
National Park Service
601 Riverfront Drive
Omaha, NE 68102

The route of the 1804–06 Lewis and Clark Expedition extends from the Mississippi River in Illinois to the Pacific Ocean at the mouth of the Columbia River in Oregon. Water routes, hiking trails, and marked highways follow the explorers’ outbound and return routes. About 500 public and private recreational and historic sites along the trail provide for public use and interpretation of the expedition.

Mormon Pioneer National Historic Trail
National Park Service
P.O. Box 45155
324 South State St., Suite 200
Salt Lake City, UT 84145-0155

This trail follows the route over which Brigham Young led the Mormons from Nauvoo, Ill., to the site of modern Salt Lake City, Utah, in 1846–47.

Natchez Trace National Scenic Trail
National Park Service
c/o Natchez Trace Parkway
2680 Natchez Trace Parkway
Tupelo, MS 38804-9718

Sections of this trail are found along the Natchez Trace Parkway near Natchez and Jackson, Miss., and Nashville, Tenn. The trail is a unit of the National Park System.

Nez Perce National Historic Trail
USDA Forest Service
12730 Highway 12

The Nez Perce Trail commemorates the flight of the non-treaty Nez Perce Indians in 1877. It begins in northeastern Oregon, extends across Idaho to central Montana, bisecting Yellowstone National Park in Wyoming and ending near the Bear Paw Mountains in Montana.
North Country National Scenic Trail
National Park Service
700 Rayovac Drive
Suite 100
Madison, WI 53711

The trail connects outstanding scenic, natural, and cultural sites in seven northern tier states extending from Crown Point, New York, to Lake Sakakawea in North Dakota. Approximately 1,950 miles are open to public use. Additional miles are being developed.
Established March 5, 1980. Length: 3,200 miles.

Old Spanish National Historic Trail
National Park Service
National Trails System Office
P.O. Box 728
Santa Fe, NM 87504-0728

Opened by Santa Fe trader Antonio Armijo in 1829, this trail connected Santa Fe to Los Angeles across Mexico’s northern frontier. In the years that followed, Mexicans, Americans, and Indians traded wool products, horses, mules, and human captives along the trail. Trappers, prospectors, explorers, immigrants, and slavers also used all or parts of the trail. Commerce along this route declined quickly after the war between the United States and Mexico in 1848. Today’s route connects noted natural landmarks, springs, mountain and canyon passes, and historic towns.

Oregon National Historic Trail
National Park Service
P.O. Box 45155
324 South State St., Suite 200
Salt Lake City, UT 84145-0155

Between 1841 and 1860, hundreds of thousands of pioneers followed this trail westward from points along the Missouri River to Oregon City, Oregon.

Overmountain Victory National Historic Trail
National Park Service
c/o Kings Mountain
National Military Park
2635 Park Road
Blacksburg, SC 29702

This route follows the path of a band of Revolutionary War patriots who mustered in western Virginia and eastern Tennessee and came across the mountains of North Carolina to Kings Mountain, South Carolina. There they defeated British-led militia in 1780, helping turn the tide for eventual American victory in the war.

Pacific Crest National Scenic Trail
USDA Forest Service
1323 Club Drive
Vallejo, CA 94592

Extending from the Mexican border northward along the Sierra and Cascade peaks of California, Oregon, and Washington, the trail reaches the Canadian border near Ross Lake, Wash. The trail is one of the two initial components of the National Trails System.

Pony Express National Historic Trail
National Park Service
P.O. Box 45155
324 South State St., Suite 200
Salt Lake City, UT 84145-0155

For 18 months in 1860–61, horseback riders carried mail between St. Joseph, Missouri, and Sacramento, California, in about 10 days, proving that a regular overland communications link to the Pacific coast was possible. Most of the 150 relay stations no longer exist.

Potomac Heritage National Scenic Trail
National Park Service
P.O. Box B
Harpers Ferry, WV 25425

This trail connects the tidewater regions along the Potomac to the Laurel Highlands in Pennsylvania. Areas open to the public include the C&O Canal towpath and George Washington Parkway’s Mount Vernon Trail. The trail is a unit of the National Park System.
From 1821 the Santa Fe Trail was an international trade route between Missouri and New Mexico. After the Mexican-American War it continued to be used for commercial and military freighting, mail delivery, stagecoach lines, and general travel. Established May 8, 1987. Length: 1,203 miles.

This trail commemorates a 1965 voting rights march led by Dr. Martin Luther King Jr. The marchers walked along U.S. Highway 80 from Brown Chapel A.M.E. Church in Selma, Ala., to the state capitol in Montgomery. The march helped inspire passage of voting rights legislation signed by President Johnson on Aug. 6, 1965. Established Nov. 12, 1996. Length: 54 miles.

The Trail of Tears commemorates the main land and water routes used for the forced removal of more than 16,000 Cherokee Indians from their ancestral lands in North Carolina, Tennessee, Georgia, and Alabama to Indian Territory in 1838–39. Established Dec. 16, 1987. Length: 2,200 miles.
