Centennial Junior Ranger
Welcome to your National Park!

The park rangers are very excited that you want to become a Junior Ranger! Rangers perform many jobs in America’s parks that tell the stories and protect the places of our great nation. As a Junior Ranger your motto is explore, learn, and protect. This Junior Ranger booklet will help you discover and learn about the National Park Service, its history, and how rangers protect and preserve natural and cultural resources.

Junior Ranger Code
As a Junior Ranger I promise to:
1. Explore other National Parks and share with others what I have learned.
2. Obey all safety rules.
3. Leave plants, animals and historical objects in the park as I found them to help protect natural and cultural resources.
4. Take pride in our National Parks! Protect and preserve their natural and cultural resources.

About The Centennial

On August 25, 2016, the National Park Service turns 100! The Centennial will kick off a second century of stewardship of America’s national parks and engaging communities through conservation, recreation, and historic preservation programs, and will celebrate achievements of the past 100 years.

Please join us and embrace the opportunities to explore, learn, discover, be inspired, or simply have fun in over 400 national parks.
The National Park Service Arrowhead

Like many other groups, the National Park Service has an emblem that symbolizes the things that we care for and care about. Each part of the emblem represents something important. Learn about each part and then see if you can discover an example of each in this park.

The arrowhead shape represents historical and archeological treasures.

Name one thing you see in this park that represents history or archeology.

Mountains represent land formations, scenery, and recreational opportunities.

Name two land formations or scenery you see in this park.

The lake represents clean water and recreational opportunities.

Name one thing you see in this park that represents water or recreation.

The bison represents all wildlife.

Name two animals you see in this park.

The tree represents all vegetation.

Name two plants you see in this park.
National Park Service Jobs

Over 20,000 people work for the National Park Service. They care for and protect your parks so that people of future generations will be able to enjoy the parks too. There are many types of jobs in the National Park Service. About 3,800 of the employees are “park rangers.”

In this activity, draw a line to match the occupation (or job) with the tool used by that employee.

Archeologist  Carpenter  Gardener  Historian  Mechanic

In this set, draw a line to match the occupation with what the employee cares for or studies.

Botanist  Geologist  Landscape Architect

What do you want to be when you grow up? ____________________
Is your dream job one that is available in the National Park Service? Ask a Ranger to find out!  YES  or  NO
Design a Ranger

Now that you know more about National Park Service jobs, it’s your turn to design a ranger! Draw yourself, a friend, or a family member as a ranger or other National Park Service employee.
Explore Your Park

There are different types of sites in the national park system. These areas include national parks, monuments, battlefields, military parks, historical parks, historic sites, lakeshores, seashores, recreation areas, scenic rivers and trails, and the White House.

What type of park are you visiting today?

Name other parks you have visited or ones you hope to visit some day.

Mark on the map approximate locations of parks you have visited or hope to visit.
In your 400+ parks, there are many things to do and many things to see. Signs, maps, and brochures tell you about what is available at each park.

Below are examples of services and activities in parks. Write the correct word on each blank to match the symbol. If you could design a park, what services and activities would you want in the park? Circle all that you would put in your park.

Learn about Your Park

The first national park, Yellowstone, was established by Congress on March 1, 1872, and by the time the National Park Service was created on August 25, 1916, there were already 35 national parks and monuments. Today, additions to the national park system are generally made through acts of Congress, but the President has the authority to proclaim national monuments.

Learn more about the parks you visit. Explore the park or ask a ranger to help you answer the following questions.

Why is this place important?
In what year was this park established?
Who was President of the United States in that year? Circle the correct President.

Ulysses S. Grant  Rutherford B. Hayes  James A. Garfield  Chester A. Arthur  Grover Cleveland  Benjamin Harrison

Calvin Coolidge  Herbert Hoover  Franklin D. Roosevelt  Harry S. Truman  Dwight D. Eisenhower  John F. Kennedy

Bill Clinton  George W. Bush  Barack Obama
Protecting Your Park

Park Rangers help to protect your parks by enforcing the rules and by helping you to understand why parks are important and why it is important to care for them.

Learn how to care for your surroundings by completing this activity. Read each sentence and decide whether the action was the right thing to do in the park or the wrong thing to do in the park. Mark each box with a ‘✓’ for right thing to do or an ‘x’ for wrong thing to do.

☐ I saw a fawn in the woods and I left it alone. ☐ I obeyed the “No bicycling” sign in the park and did not bike across the Civil War battlefield.

☐ I saw pretty flowers in the park and picked them for my mom. ☐ I played hide and seek and other games in the national cemetery.

☐ I took a photo of a historic building instead of carving my name on it. ☐ I threw my candy wrapper on the ground in the park.

☐ I fed bread to the geese. ☐ I saw a stray dog in the national park and told a park ranger about it.

☐ I saw a pretty rock in the park and decided to dig it out of the ground. ☐ I walked on the path instead of climbing a historic fence in the park.

What are other ways you can protect your parks?

Remember, National Parks belong to everyone. You can help to take care of your parks and your own surroundings by following the rules and treating the things around you with care and respect.
Tell the Story of a Park

The National Park Service tells people about the parks in various ways. When you visit a park, a ranger may give you a brochure or handout, you might watch a short movie about the park, or you might read an outside panel called a wayside. When you plan a visit to a park, you may also find information on a website or social media site run by the park. All of these things tell about the park and its importance.

Now that you know more about the National Park Service, it is your turn to tell the story of a park! Think of your favorite National Park Service site or a place you think should be a park. Fill in the blanks to write the story of your park.

I think __________________________ is/would be a wonderful national park. When I visit this place I see ______________________, ______________________, and ______________________.

It is an important place because of ______________________ and ______________________.

My favorite thing to do at this place is ______________________. If I worked there, I would be a ______________________ at the park.
Thanks for being a Junior Ranger!

Thank you for being a Junior Ranger by learning about the National Park Service and its 100th birthday! You can learn more about your parks by visiting www.nps.gov or www.findyourpark.com.

If you or your parents use social media, you can also share about your experiences in parks by using hashtags like #FindYourPark and #NationalParks and by tagging National Park Service sites.

About this Booklet

This Junior Ranger booklet was created by Ranger Autumn Cook at Harpers Ferry National Historical Park.
