Bringing the Past to the Present

The Keweenaw Ingot

Towards the Past to the Present

KEWEENA W NATIONAL HISTORICAL PARK IS NOT A PLACE WHERE THE stories, ideas and significance immediately unfold. It is not like Yellowstone National Park where you feel the immense presence of wilderness and awe of magnificent scenery and wildlife. It is not like Abraham Lincoln’s birthplace where you feel a connection with the former president after viewing the log home where he was born. To discover why Keweenaw was set aside for preservation you need to do some work.

As you visit the park, you will have to learn to read the landscape — looking for clues of a once thriving, industrial and metropolitan area. You will have to observe place names — looking for street signs that are difficult to pronounce and restaurants with Italian and Finnish names. You will have to listen — noticing the sounds and accents you hear today and comparing them with what was heard fifty to one hundred and fifty years ago. You will have to explore — looking for copper veins flowing into Lake Superior, walking through towns and noticing architectural details, touring an underground mine and imagining daily life. As you visit this place, every one of your senses will make discoveries that provide clues to the significance of Keweenaw National Historical Park.

The story of mining is the heart of the park’s significance. Mining conjures up many images like the large scale open pit mines of Arizona or perhaps underground coal mines in West Virginia. Maybe you think of abandoned gold mines in Colorado or diamond mines in Africa. Chances are, you don’t think of copper mining and the Keweenaw Peninsula. For over 100 years though, copper was king on the Keweenaw. Used for ship hulls, ammunition and electric wiring, copper was the mineral explorers and investors sought — even before the famed California and Alaska gold rushes.

The Keweenaw Peninsula contained the richest concentration of native, 97% pure elemental copper found anywhere in the world. The discovery and extraction of this copper created the landscapes, street names and environment you see today. For over a century, copper connected this place with Boston, New York City and the world. Thousands of immigrants from Europe came to work and live here. Tons of copper were extracted from underground mines. Dozens of investors made millions of dollars.

The area grew rapidly as investors learned of the riches existing underground. From the 1880s to the 1930s the biggest amount of growth occurred with investors funding entire copper production operations: mining, stamping, smelting and exporting. Many companies created entire communities complete with churches, schools, hospitals, libraries and family homes. Companies invested in the health and welfare of their workforce, hoping to keep them here and not lose them to competing mining operations. In turn, immigrant workers invested in the area, establishing farms, restaurants and private businesses.

It was a system that worked, despite the ups and downs, until the 1960s. Then, copper mining and refining on the Keweenaw Peninsula became too expensive. The companies sold out and shut down. Buildings began to deteriorate. People moved on to other places, their abandoned homes serving as reminders of once lively neighborhoods. Without students, schools consolidated, leaving deserted playgrounds. Businesses locked their doors and shuttered their windows. Once prosperous downtowns fell silent.

The region’s copper mining past may have simply faded away as time and economics took their toll, but Keweenaw National Historical Park was established in 1992 to preserve and interpret this heritage. The park was created because of the geological significance, the historic mining operations that occurred, the landscape and architectural details that remain and because of the stories of the people that once lived here.

What is Keweenaw National Historical Park and why was it created? First, the park, and our partnerships, continues to evolve and will do so over many years. Secondly, the story of the Keweenaw encompasses much more than that of mining copper. As articles in this newspaper illustrate, exciting progress is being made in shaping the park’s future.

We invite you to visit and explore each park cooperating to site to learn first-hand their part of the copper story. Walk the streets of Calumet, marvel at the resplendent architecture and imagine shops of all varieties supporting a population in excess of 60,000 people 100 years ago. See small and envision working underground at the Quincy or Delawares. Explore the shores of mighty Lake Superior and the wildness of the Keweenaw. Imagine what it took to come out a life here, in an area at one time virtually isolated from the world seven months of the year!

We encourage you to explore and experience as much as your visit allows so hopefully you, too, will better appreciate and understand the song and story of Keweenaw’s “Copper Country.”

By Kathleen Harter, Chief of Interpretation at Keweenaw National Historical Park

2 Exploring the Keweenaw

The most difficult decision you may have while visiting the Keweenaw Peninsula is deciding what to do and when to do it. Whether you have half a day or a week, there are plenty of places to visit, relax, and learn. This article features a list of suggestions and ways to organize your visit on the Keweenaw Peninsula.

6 Speaking Volumes

The Division of Museums, Archives, and Historical Services works to protect and preserve significant reminders of our past. Miners’ helmets, drills, and lunch pails help us imagine the struggles, fears, and day-to-day lives of the men, women, and children who played a part in the strike.

7 No Place Like Home

The historic landscapes found in the Keweenaw, along with the buildings and features they contain, can help us understand who we are. While they serve as tangible reminders of our nation’s copper mining heritage, and the changes witnessed by that industry and this region, they also reflect the culture, traditions and customs of the people who make their homes here.

Welcome from the Park Superintendent

Welcome to Keweenaw National Historical Park, a unique unit of the National Park System. The park is unique in the sense that it was established upon a broad partnership mandate. The National Park Service collaborates with other federal, state and local governments, and non-governmental entities, to provide collectively many of the traditional visitor services experienced in other units of the National Park System.

Please keep two things in mind as you visit. First, the park, and our partnerships, continues to evolve and will do so over many years. Secondly, the story of the Keweenaw encompasses much more than that of mining copper. As articles in this newspaper illustrate, exciting progress is being made in shaping the park’s future.

We invite you to visit and explore each park cooperating to site to learn first-hand their part of the copper story. Walk the streets of Calumet, marvel at the resplendent architecture and imagine shops of all varieties supporting a population in excess of 60,000 people 100 years ago. See small and envision working underground at the Quincy or Delawares. Explore the shores of mighty Lake Superior and the wildness of the Keweenaw. Imagine what it took to come out a life here, in an area at one time virtually isolated from the world seven months of the year!

We encourage you to explore and experience as much as your visit allows so hopefully you, too, will better appreciate and understand the song and story of Keweenaw’s “Copper Country.”

Interpretive Services.............................8
**Visitor Services And Facilities**

**KEWEENAW VISITOR INFORMATION DESK**

Located in the entrance to the Quincy Mine Gift Shop, a staffed National Park Service information desk provides information on Keweenaw National Historical Park and cooperating sites. Phone (906) 482-0650 June 10 to September 5, Monday to Friday – 9:00 a.m. to 6:00 p.m. Sunday – 12:30 p.m. to 6:00 p.m.

**PARK HEADQUARTERS**

Keweenaw National Historical Park Headquarters, located in the historic Calumet & Hecla Mining Company General Office Building on Red Jacket Road in Calumet, has a staffed reception desk to provide park information. Open Monday through Friday, 8:00 a.m. to Noon and 1:00 p.m. to 5:00 p.m.

**FOOD AND RESTAURANTS**

A variety of restaurants are located throughout the Keweenaw Peninsula. Grocery stores are also available in all the major communities.

**CAMPING**

Numerous camping options, including both primitive and developed sites, are available across the Keweenaw Peninsula. Public campgrounds are available at Fort Wilkins, McLain, and Porcupine Mountains Wilderness state parks. Private campgrounds are also available. For more information, contact the Keweenaw Convention and Visitors Bureau at 1-800-338-7982 or www.keweenaw.info

**TRANSPORTATION**

**Rental cars:** available at the airport and from local car dealers.

**LODGING**

A full range of hotels, motels, bed and breakfast inns and cabins are found across the Keweenaw Peninsula. Contact the Keweenaw Convention and Visitors Bureau for more information. 1-800-338-7982 or www.keweenaw.info

**Accessibility**

The Keweenaw Visitor Information Desk and Keweenaw National Historical Park Headquarters are accessible. Many other park facilities located in historic structures are not fully accessible at this time. Projects are underway to make more park facilities accessible in the near future. Visit our information desk or contact the park to check on the current accessibility of the park and park cooperating sites prior to your visit.

**EXPLORE KEEKENAW**

The most difficult decision you may have while visiting the Keweenaw Peninsula is deciding what to do and when. Whether you have half a day or a week, there are plenty of places to visit, relax, and learn. The following is a list of suggestions and ways to organize your visit on the Keweenaw Peninsula.

**Arriving and Getting Oriented**

Visit the Keweenaw National Historical Park Information Desk at the Quincy Mine Gift Shop to learn about the park and Cooperating Sites. Here you can acquire more detailed information on lodging, restaurants, and points of interest. Calumet and Houghton tourist information 1-800-338-7982.

**Enjoying Natural Scenery**

State and national parks offer a wide range of options from extended overnight backpacking trips to short day hikes and picnicking. There are also waterfalls to view, kayaking tours, and beaches for relaxing on warm summer days.

**Enjoying Cultural History**

Visit any of the local historical societies and museums and learn about the rich cultural heritage of the area. These points of interest are staffed with knowledgeable volunteers and offer a variety of perspectives on life in the Keweenaw Peninsula.

**Staying Safe**

During any of your excursions, be mindful of old mining sites. Such sites often contain old machinery and buried mine entrances – all of which could pose visible and unforeseen hazards.

**Respecting Private Property**

Please be considerate of private property. Many abandoned mining sites and homes are still in private ownership and require owner permission prior to visiting. To learn more about such sites and the distinction between federal, state and private property, visit the Keweenaw National Historical Park Information Desk at the Quincy Mine Host. See above for days and hours of operation.

**Recommended Stay**

You should allow three days to visit all Keweenaw National Historical Park Cooperating Sites. You may wish to add a few more days to fully enjoy the Keweenaw Peninsula.

**Trails and Roads**

Walking tour guide brochures for the Calumet Historic Business District, the Calumet & Hecla Industrial Area, and the Laurium Historic Residential Area are available at the Keweenaw Convention and Visitors Bureau located on U.S. Highway 41 in Calumet, Michigan.

Isle Royale Natural History Association

The Isle Royale Natural History Association, in partnership with the National Park Service, promotes the public's understanding and appreciation of Keweenaw National Historical Park and Isle Royale National Park through education and research.

By publishing and selling products about Keweenaw National Historical Park and Isle Royale National Park, we educate people about the special places and natural funds that are invested in the parks to support research and interpretive programs. Every year, the Isle Royale Natural History Association contributes approximately $25,000 in cash and in-kind aid to Keweenaw National Historical Park and Isle Royale National Park.

You Can Help

You can support the work of the Isle Royale Natural History Association and our partner parks by becoming a contributing member of our organization. Tax-deductible membership levels are:

- Life $1000 (Payable in 5 installments)
- Benefactor $500
- Sustaining $100
- Supporting $50
- Household $30
- Individual $25

Isle Royale Natural History Association Member Benefits

- A 10% discount on all purchases from Isle Royale Natural History Association outlets and other National Park Visitor Centers throughout the U.S.
- A chance to participate in the IRNHA membership e-mail list
- Copies of park newspapers: The Keweenaw Ingot and The Greenstone
- An opportunity to participate in the IRNHA member e-mail list
- Become a member today! Call us at 1-800-678-6925, or join online at www.imha.org

Visit the Isle Royale Natural History Association bookstore at the Isle Royale Visitor Center in Houghton, MI.

Keweenaw Mementos

Want to learn more about Keweenaw National Historical Park? Check out these items available from the Isle Royale Natural History Association. Visit the sales outlet at the Isle Royale National Park Visitor Center on the waterfront in Houghton, Michigan. Association members receive a 10% discount on every purchase!

You can also order on-line: www.imha.org or by phone: 1-800-678-6925.

Behind the Scenes: Our Advisory Commission

When Congress established Keweenaw National Historical Park, they also created a permanent Keweenaw National Historical Park Advisory Commission to help visitors understand and appreciate the Keweenaw Peninsula's copper mining story. Though most visitors to the park may not know they exist, the commission plays an important role in shaping the quality of their experience by working closely with park staff, cooperating sites and partners throughout the region.

While park staff run daily operations, provide technical assistance to park partners and assist visitors, the commission’s role is to forge relationships with non-federal partners throughout the Keweenaw Peninsula. Congress mandated the commission to:

- Select sites for interpreting and preserving the story
- Develop policies and programs for the conservation and protection of the scenic, historical, cultural, natural and technological values of the park
- Carry out historical, educational or cultural programs which encourage or enhance appreciation of the historic resources in the park and surrounding areas, and
- Seek and accept gifts, bequests, or donations of money, personal property, or services on behalf of the park.

How does this benefit our visitors? Currently, the commission is formalizing selection criteria for partner and cooperating sites. Sites tell stories that are important to the area's copper mining history and include historic and/or natural resources. The commission is also assisting cooperating sites to establish uniform standards of operation. This will help visitors to enjoy a consistent experience as they travel throughout the peninsula and to understand a site's relevance to copper mining. The ability to accept gifts on the park's behalf encourages donations of objects to the park's museum collection and helps preserve key artifacts of the copper mining era. From behind the scenes, the advisory commission plays a key role in the visitor experience at Keweenaw National Historical Park.

The Keweenaw Ingot

Explore the Keweenaw Peninsula's unique geology and copper formation through exhibits on native copper and an extensive mineral collection.

Location: Michigan Technological University, Fifth Floor of Electrical Resource Center, Houghton, Michigan

**Summer Hours:**
- July to September: Monday to Friday – 9:00 a.m. to 4:30 p.m.; Saturday & Sunday – Noon to 5:00 p.m.

**Winter Hours:**
- October to June: Monday to Friday – 9:00 a.m. to 4:30 p.m.; Closed Mondays, November through March

**Fees:**
- Donations accepted

(906) 487-2572    www.museum.mtu.edu

Built in 1899, the oldest municipally-built opera house in the country still offers a variety of theatrical and musical events throughout the year. Guided and self-guided tours are available.

Location: 340 Sixth Street, Calumet, Michigan

**Open:**
- May 17 to October 16, Tuesday to Sunday – 11:00 a.m. to 3:00 p.m.

**Fees:**
- Guided Tour $5.00 adults, $1.00 children 12 and under

(906) 337-2610    www.calumettheatre.com

Exhibits provide insights into operations at the copper mining giant, Calumet & Hecla. Housed in C&H’s pattern shop on Red Jacket Road, the building is a key historic element in the Calumet industrial landscapes.

Location: 2801 Red Jacket Road, Calumet, Michigan

**Open:**
- May 25 to October 8, Monday to Saturday – 10:00 a.m. to 5:00 p.m.; Sunday (July & August only) – 12:30 p.m. to 4:00 p.m.

**Fees:**
- $3.00 adults, $1.00 12 to 18 year olds, under 12 free.

(906) 337-4354    www.uppermichigan.com/coppertown

This privately-owned mine site provides tours of one of the oldest underground copper mines on the Keweenaw Peninsula.

Location: Off U.S. Highway 41, 12 miles south of Copper Harbor

**Open:**
- July & August: Daily – 10:00 a.m. to 6:00 p.m.;
- May, June, September & October: Daily – 10:00 a.m. to 5:00 p.m.

Keweenaw National Historical Park preserves sites and stories that mark the rise, domination and decline of the region’s copper mining industry. This industry played a key role in the industrialization of America. The National Park Service works with a collection of sites owned and operated by state and local governments, private businesses and non-profit organizations to tell the larger story of copper mining. Each of these sites allows you to explore the role copper mining played in people’s lives here and afar. The park’s cooperating sites embody stories of hardship, struggle, ingenuity, hope and success.

Keweenaw Heritage Center at St. Anne’s

This majestic Jacobsville sandstone structure, with magnificent stained glass windows, is situated at the entrance to the Calumet Historic Landmark District. Special exhibits such as a recent one examining the life of miners’ families living in company houses are occasionally offered.
Location: 2880 Red Jacket Road, Calumet, Michigan
Open: July 1 to August 31, Daily – 1:00 p.m. to 4:30 p.m.
Fees: Donations accepted
(906) 337-4579  www.pasty.com/heritage

Laurium Manor Inn

A wealthy mining captain built this 45-room home in 1908 using the finest and rarest building materials available. Today the inn offers self-guided tours and lodging year-round.
Location: 320 Tamassee Street, Laurium, Michigan
Open: Year round, 7 days a week, 11:00 a.m. – 5:00 p.m.
Tour Fees: $4.00 for adults, $2.00 for 17 and under and students
(906) 337-2549  www.lauriummanorinn.com

McLain State Park

The park protects and provides access to a stretch of Lake Superior shoreline. The Portage Canal is located at the south end of the park, and was dug in the mid-19th century along a Native American portage route to provide shipping passage through the Keweenaw Peninsula. Modern campsites and mini-cabins are available.
Location: 18350 Michigan State Highway 203, Hancock, Michigan
Open: April 30 to November 1, Daily – Dawn until 10:00 p.m.
Fees: Michigan State Park motor vehicle permit required
Reservations: 1-800-447-2757.
(906) 482-0278  www.michigan.gov/dnr

Porcupine Mountains Wilderness State Park

Michigan's largest state park contains numerous historic copper mining sites. The 39,000-acre park also offers day-hiking, backpacking, camping, remote cabins, canoeing, kayaking, hiking and winter sports.
Location: West of Ontonagon, Michigan
Open: Wilderness Visitor Center open mid-May to mid-October, Daily – 10:00 a.m. to 6:00 p.m.
Fees: Michigan State Park motor vehicle permit required
(906) 885-5275  www.michigan.gov/dnr

Old Victoria

This early copper mining site provided lodging for miners and is now undergoing restoration to preserve several small log houses. Guided tours interpret the rigors and solitude of miners and their families in the 1890s.
Address: Victoria Dam Road, Rockland, Michigan
Open: May 29 to October 10, Daily – 10:30 a.m. to 5:30 p.m.
Fees: Adults $5.00, Children (ages 5-12) $2.00, Under 5 free
(906) 886-2617  www.oldvictoriarestoration.org

Quincy Mine Hoist & Underground Mine

Explore the former Quincy Mining Company on a 2 hour tour that includes a walk through surface structures, a ride on a cog-wheel tram and a trip into the underground mine workings. Tours fill quickly during July and August. Shorter surface only tours are also available.
Location: 49750 U.S. Highway 41, Hancock, Michigan
Open: June 17 to September 5, Monday to Saturday – 8:30 a.m. to 7:00 p.m.; Sunday – 12:30 to 7:00 p.m. Last tour begins at listed closing time.
Fees: Full Tour – $12.50 adults, $11.50 seniors & AAA, $7.50 6-12 year olds, Under 6 free; Surface Tour Only: $9.50 adults, $4.50 6-12 year olds, $8.50 17 and under
(906) 482-3101  www.quincymine.com

U.P. Fire Fighters Memorial Museum

The historic former Red Jacket Fire Station was built of Jacobsville sandstone around the turn of the century. The second floor features exhibits dedicated to the history of fire fighting in Michigan’s Upper Peninsula.
Location: 327 Sixth Street, Calumet, Michigan
Open: June to September, Monday to Saturday – 10:00 a.m. to 6:00 p.m.
Fees: Under 6 free; Surface Tour Only: $9.50 adults, $4.50 6-12 year olds
(906) 482-3101  www.upfirefightermuseum.com

Hanka Homestead

While mining provided job security, many Finnish immigrants longed for the farming lifestyle of their home country. Hanka Homestead is an example of a Finnish farm. Volunteers provide guided tours.
Location: approximately 3 miles west of U.S. Highway 41, off Tower Road
Open: Memorial Day through Labor Day, Tuesday, Thursday, Saturday, Sunday and Holidays – Noon to 4:00 p.m.
Fees: Adults $3, children $1
(906) 334-2601

Houghton County Historical Museum

The museum features artifacts and photographs spanning over 100 years of mining life. Take a train ride behind a C&H Porter 0-4-0 Steam Engine.
Location: 3500 Michigan State Highway 26, Lake Linden, Michigan
Open: June 30 to September 30, Monday through Saturday – Noon to 4:30 p.m.; Sunday – Noon to 4:00 p.m.
Fees: $8.00 adults, $6.00 senior/student $4.00 kids 5-12, under 5 free
(906) 296-2601  www.houghtonhistory.org

Keweenaw County Historical Society

The society administers five sites throughout Keweenaw County including the Eagle Harbor Lighthouse, Central Mine & Village, Phoenix Church, Rathbone School and the Bammert Blacksmith Shop. Visitor Centers are located at the Eagle Harbor Lighthouse and Central Mine.
Location: throughout Keweenaw County, lighthouse is in Eagle Harbor
Open: June 4 to October 16, Daily – Noon to 5:00 p.m.
Fees: $4.00 to Lighthouse Museum, Donations accepted at other facilities
(906) 296-2561  www.keweenawhistory.org
The witness to this incident was Lillian Lahti Gow. Although a young girl at the time, she well remembers the fear and confusion she felt when her world was momentarily turned upside down during the tumultuous and often violent, strike of 1913-1914. In as many parts of the United States as in the late 19th and early 20th centuries, workers in Calumet, Quincy, and other Keweenaw mining communities were struggling to define and protect their rights. Underground workers walked off the job in July 1913, protesting long hours, low pay, and often dangerous working conditions. Women and children lent their voices and paradox in support of husbands, brothers, fathers, and friends who refused to work until their demands were met. A group called the Citizen’s Alliance was formed to promote point of polarized ties, and to keep the peace. By the time the strike ended in April 1914, it had created bitter, long-standing divisions between labor and management.

Mrs. Gow’s reminiscences were recorded as part of the park’s oral history project, and are preserved in the park’s archival collections. Her memories of childhood and the strike are powerful and vivid, but the past speaks to us through objects as well as language. Ignoring him, they seized the door against the wind and snow. You listen while your father angrily questions the men about a warrant. Ignoring him, they start their search, and find not guns but food for the striking men and their families.

Speaking Volumes: What Museums and Archives Reveal About Our Past

The witness to this incident was Lillian Lahti Gow. Although a young girl at the time, she well remembers the fear and confusion she felt when her world was momentarily turned upside down during the tumultuous and often violent, strike of 1913-1914. In as many parts of the United States as in the late 19th and early 20th centuries, workers in Calumet, Quincy, and other Keweenaw mining communities were struggling to define and protect their rights. Underground workers walked off the job in July 1913, protesting long hours, low pay, and often dangerous working conditions. Women and children lent their voices and paradox in support of husbands, brothers, fathers, and friends who refused to work until their demands were met. A group called the Citizen’s Alliance was formed to promote point of polarized ties, and to keep the peace. By the time the strike ended in April 1914, it had created bitter, long-standing divisions between labor and management.

Mrs. Gow’s reminiscences were recorded as part of the park’s oral history project, and are preserved in the park’s archival collections. Her memories of childhood and the strike are powerful and vivid, but the past speaks to us through objects as well as language. Ignoring him, they seized the door against the wind and snow. You listen while your father angrily questions the men about a warrant. Ignoring him, they start their search, and find not guns but food for the striking men and their families.

Rediscovering Your Past

Many are familiar with this verse boldly displayed at the bottom of the Statue of Liberty, but what did it mean to an immigrant coming to America? What sense of promise did they find? How did they feel when her world was momentarily turned upside down during the tumultuous and often violent, strike of 1913-1914.

What do we owe our ancestors who took that long, scary step from the Old Country into the new? Do we honor their memories? Do we honor our father’s memory by being interested in his life and rediscovering his struggle. When we remember our ancestors and their sacrifices we reconnect our lives to theirs. Those tired, poor, huddled masses came to America for a better life. Through their labor, blood, sweat and bravery they gave us the opportunity to step through that golden door.

Immigration Research Resources

To research an ancestor’s immigration history, find as much preliminary information as possible. A quick Internet search may reveal that a distant relative has done much of the work already. Social Security or Social Security Death Index (SSDI) numbers are helpful pieces of information to have. Do not be discouraged if you cannot find these. Many immigrants never became United States citizens and other avenues for attaining your information exist.

National Resources

Ellis Island (www.eilisland.org) – free, helpful search aids, information on immigrants Family Search (www.familysearch.org) – operated by The Church of Jesus Christ of Latter-day Saints, largest genealogical archive in the world Immigration and History Research Center at the University of Minnesota (www.ihrc.umn.edu) – one of the best regional archives in the United States Private genealogical research companies also exist.

State or Local Resources

State, county or local historical societies may have immigration records.
No Place Like Home

As young boys, my brother and I explored our way along many trails, roads, rivers, beaches and campgrounds near our home. With our parents, we welcomed the scenery that unfolded whether we traveled by car, bikes, boats, skis or snowshoes. Our journeys focused on exploring our surroundings; we were unaware these places would also help us discover who we are.

The landscapes of our youth, although common, allowed us to experience places through our own eyes and in our own way. The settings, weather and events were shared by all but the adventures were distinctly different. We each attribute different values, understanding and meanings to places where our adventures occurred. As boys, we were too busy climbing on rocks, wading through water, watching birds, and looking for bugs and digging in the dirt to bother discussing what these places meant to us. These were places to investigate, play and discover but we did not pause for reflection.

In broad terms, I wonder if communities and individuals share similar experiences. Are we sometimes so busy and eager to embrace new technology, growth and change that the beauty found in the “ordinary” landscapes that surround us is overlooked? One thing is certain, what some people discount as ordinary, others find remarkable. Many visitors fly or drive for hours, often at great expense, because the landscapes of the Keweenaw provide refuge and invite them to make their own personal connections to this place and its remarkable past. Visitors value the place more than the price of admission.

John Brinckerhoff Jackson, a writer whose cultural interpretations of the American landscape often celebrated the common-place, once remarked that “landscape is made by history, and history is made by the landscape.” The history of the Keweenaw is certainly visible today. The evidence exists as historic mining communities, mines, worker housing, roads, churches, remnant orchards, commercial districts, small towns, cultural landscapes, sites, structures and artifacts commonly shared by all but the adventures were distinctly different.

AS YOUNG BOYS, MY BROTHER AND I EXPLORED the area’s cultural landscape, sites, structures and artifacts relating to the copper mining in the Keweenaw. This can only be achieved through successful partnerships and collaborative efforts with property owners committed to sharing the history of this area and inviting others to discover it. Ultimately, the individual actions of property owners will collectively decide the fate of these resources. Will they be retained as evidence of our shared history or for scientific, social, or aesthetic reasons? Or, will we simply allow them to gradually fade from our view? We all need to be part of that conversation.

More than 20 years have passed since I left my childhood home. Through the passage of time, from boyhood to manhood, my brother and I shared conversations about the places we once explored with enthusiasm in our youth. The memories, sights, sounds and smells of these places are etched deeply in our hearts and minds, and drift back upon us as we recall the past. No matter how far apart, we can always go back home.

Now that we are grown, with children and grandparents still eager to discover new places, I’m anxious for my brother’s next visit to the Keweenaw Peninsula. When he and his family arrive you can bet we will once again go exploring. Fortunately, there still remain places to discover, memories to be made and stories to be told in this place I now call home.

By Steve DeLong, Landscape Architect at Keweenaw National Historical Park

Your Money at Work

What is the business of Keweenaw National Historical Park?
In 1992 the U.S. Congress created this national park site to commemorate the story of copper mining on Michigan’s Keweenaw Peninsula. The park challenges the traditional notion of national parks by promoting cooperation among the National Park Service, federal, state and local governmental agencies, public/private not-for-profit organizations, citizen’s groups, the business community and individuals. The preservation and interpretation of the Keweenaw’s cultural landscapes, sites, structures and artifacts is managed by 4 full-time employees who work 1 term employee, not to exceed 4 years.

Where does the money go?
Federal funding is primarily used for park operations which includes visitor services, resource protection, facilities maintenance and administration support. Federal dollars also support one-time community-based projects. Funding for park operations is allocated among a variety of areas including personnel, equipment, supplies, utilities, travel, services and partnerships. The Keweenaw National Historical Park works to preserve and interpret cultural landscapes and structures related to copper mining here today. Through normal operations the park provides refuge and invites visitors to make their own personal connections to this place and its remarkable past.

What does it cost to run the park?
The chart above shows the historical trend for the Main Street Calumet Unit of the park. Look around for the concrete evidence of how your tax dollars have supported these endeavors. In Calumet these include the former C&M Drill Shop and Dry House. Also visit the Keweenaw Heritage Center at St. Anne’s. Walk around the Pattern Storage Warehouse at Copperport USA Museum, and other structures in the village of Calumet. Stabilization work also includes the #2 Hoist House, Machine Shop, Boiler House and Roundhouse located at Quincy Mine. Financial and staff support are key factors in the success of the Main Street Calumet Unit program which includes projects such as storefront rehab, historic preservation and the Downtown Development Authority emergency stabilization program.

What is the current inventory of Keweenaw National Historical Park?

- 1,869 acres of land
- 10 historic buildings, structures or ruins
- 1 NPS Visitor Information Desk (at Quincy Mine Host Gift Shop)
- 381,059 museum artifacts
- 8 vehicles
- 15 permanent employees
- 1 term employee, not to exceed 4 years
- Additional temporary employees, based on funding

### Guided Tours / Programs
- **Calumet Walking Tour**
  - **Tuesday at 9:30 a.m. and Saturday at 2:00 p.m.**
  - Explore the former Calumet & Hecla Copper Mining Company’s industrial operations before travelling into downtown Calumet to see the copper community’s business district. 2 hours, 1.5 miles, Easy Terrain. Accessible with assistance. Meet in front of Park Headquarters on Red Jacket Road. Tour ends at the Calumet Theatre.

- **Quincy Porch Talk**
  - **Tuesday at 3:00 p.m., Wednesday at 10:00 a.m. & 3:00 p.m., and Saturday at 11:00 a.m.**
  - Join us for a 30 minute talk on an aspect of Keweenaw National Historical Park and the area’s copper mining history. Topics vary. Meet on the porch of the Quincy Mine Gift Shop. Accessible.

- **Calumet & Hecla Library Tour**
  - **Monday through Friday, 10:00 a.m. & 2:00 p.m.**
  - Explore the former C&H Library, now owned by the National Park Service, on a guided tour that focuses on the building’s architecture and history. Visit the Keweenaw History Center which houses the park’s museum collection and archives. 30 minutes, Stairs. Not accessible.
