A Visitor’s Guide to National Capital Parks-East

Charting the Future while Preserving the Past.

www.nps.gov/nace
Dear Visitor,

Spring and summer are a wonderful time to explore the parks within National Capital Parks-East. The warm weather fills the parks with flowers, music, wildlife, and visitors seeking renewal. Take some time to explore these wonderful oases found throughout the Washington D.C. metropolitan area.

Anacostia Park and its environs in the heart of our nation’s Capital are rich with natural, cultural, and recreational opportunities. It is the home to numerous historic and cultural areas that tell the story of human experience throughout the centuries. The lands and waters are the habitat to thousands of species of flora and fauna. People of all backgrounds enjoy the parks, trails, and waterways, and thousands of residents call this area home. Whether you experience the park for only a few moments or a lifetime, Anacostia Park leaves a lasting impression.

I encourage you to create your own connection with Anacostia Park and the many sites that make up National Capital Parks-East. Come and enjoy a paddle on the Anacostia or Potomac River, explore the parks, experience the incredible resources, or help us out by volunteering. Learn more about how the sites at National Capital Parks-East influenced the evolution of our great nation. Find yourself in this amazing place.

Thank you,

Alexcy Romero
Superintendent
Mission

The National Park Service preserves unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. The National Park Service cooperates with partners to extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country.

Did you know that National Capital Parks-East is one of almost 400 national parks found all across America?

Become a Volunteer!

Do you want to give back to the park that gives you so much? Have you ever thought of volunteering your time and talents to the National Park Service (NPS)? Become a steward of the park by joining the VIP (Volunteers-In-Parks) program at National Capital Parks-East (NACE).

Volunteers contribute not just to the mission of the NPS, but to the communities they serve. NACE VIP job opportunities are as diverse as the parks. VIPs welcome visitors to the parks, conduct guided tours, assist with special events, maintain trails, serve as campground hosts, work with computers, and much more.

NACE offers a wide array of historic, cultural, and recreational areas that are part of Washington, D.C., and its eastern environs. The park is comprised of over 8,000 acres of federal land ranging from community parks and national historic sites to unique wetland ecosystems, meadows, and mature hardwood forests.

Contact the park at 202-690-5185 to find a coordinator near you or visit us at www.nps.gov/nace and click on the volunteer link.

Special Services

NACE makes every effort to provide access to all of our facilities and programs for the broadest possible range of visitors. From children and the elderly to those who are physically challenged, NACE strives to create inclusive opportunities for all people. For detailed information on special services, visitors should contact the park’s Accessibility Coordinator at 202-690-5188.

For Your Information

Hiking and Camping

As you take in the park’s beautiful scenery, think ahead, be prepared and stay safe.

- Check the weather forecast before heading outdoors for a hike. It is not safe to hike when thunderstorms or heavy snowfall is expected. Immediately seek shelter if hazardous weather approaches.
- Carry drinking water. Don’t drink from streams, springs, or lakes without first properly treating the water.
- Observe wildlife from a safe distance. Don’t try to get too close to wild animals.
- Stay on the trail – if you leave it, you may get lost.
- To help prevent food poisoning keep cold foods cold and hot foods hot. Don’t store perishable foods in a hot car.
- Clean all surfaces and utensils that come into contact with raw meat or meat juices before reusing them.
- Wash hands frequently when preparing food, and before serving and eating.
- Keep children away from grills and lighter fluid, and keep grills away from flammable materials.
- Be aware of tiny deer ticks that carry Lyme disease and know which symptoms to watch out for. When in a potentially infested area, apply insect repellant, wear light colored long sleeved-shirts, pants, and socks.
- Only build a fire in designated grills or fire rings.
- When extinguishing a campfire, let it die down then break-up the coals or logs, spread the pieces, and soak them with water.

Park Regulations

To help protect park resources and ensure an enjoyable visit for everyone, please follow park rules and posted regulations.

- Pets are welcome in all areas of National Capital Parks-East (NACE), except at Oxon Cove Park. Pets must be on a leash no longer than 6 feet and under control at all times.
- Discharging firearms anywhere on NACE lands is unlawful.
- Please dispose of your garbage and other refuse in trash containers or take it with you when you leave.
- For your safety while hiking, stay on the established trails and watch your footing at all times.
- Prevent damage to resources by bicycling on paved roads and designated bike trails only.
Anacostia Park
Anacostia Park presently spans over 1,200 acres stretching the length of the Anacostia River from the Frederick Douglass Memorial Bridge north approximately five miles to the District/county line. It includes Langston Golf Course and River Terrace and it is one of the largest and most important parks in Washington, D.C., with diverse recreational opportunities, natural areas, and historic sites.

This multi-use recreation park, with shoreline access, skating pavilion, ball fields, basketball and tennis courts, and picnic areas attracts people from throughout the city and across the nation. The shorelines also provide opportunities for river access, fishing, birding, and just relaxing!

The park is open daily from 9:00 a.m. to 5:00 p.m. except January 1, Thanksgiving Day, and December 25.

Baltimore-Washington Parkway
Enjoy our scenic gateway into the Nation’s Capital! Opened in 1954, the parkway is a 29-mile scenic park highway that connects Baltimore, Maryland to Washington, D.C. The “parkway concept” involves preserving a wide, scenic, mostly natural corridor along a limited-access divided roadway, following the “lay of the land” allowing the visitor to experience the local topography and natural scenery, undistracted by billboards, traffic signals, and adjacent dense development.

The Baltimore-Washington Parkway is one of four parkways that provide scenic access between major points in the National Capital Region. The National Park Service manages this parkway from Fort Meade south to the Nation’s Capital.

Mary McLeod Bethune Council House NHS
Nestled in the heart of the Logan Circle Historic District in Washington, D.C., is the Mary McLeod Bethune Council House National Historic Site. Bethune founded the National Council of Negro Women and the site served as its national headquarters from 1943 to 1966.

The National Archives for Black Women’s History, housed at the site, contains extensive correspondence, photographs, and memorabilia related to the National Council of Negro Women.

The site is open to the public Monday through Saturday from 9 am to 5 pm. The park is closed January 1, Thanksgiving Day, and December 25.

Piscataway Park
Situated along the Potomac River in Maryland, Piscataway Park was created to preserve the historic views from Mount Vernon, home to President George Washington, to Fort Washington. Piscataway Park is a natural area and is home to bald eagles, beavers, fox, osprey, and many other species. The forested coves and tidal marshes located along the Piscataway Park shoreline are a great place for exploring by canoe. Piscataway Park is a beautiful place for picnicking and fishing. National Colonial Farm, located in the park, is an outdoor living history museum founded by the Accokeek Foundation. The park offers a public fishing pier, two boardwalks over freshwater tidal wetlands, and a variety of nature trails.

The park is open from dawn to dusk.

Capitol Hill Parks
When Pierre Charles L’Enfant submitted his design for the national capital of Washington in 1790, a system of grand avenues, public buildings, and grounds dominated the overall plan. Many of the parks, medians, circles, and squares of Capitol Hill evolved from this plan and its subsequent modification in 1901 by the McMillan Commission.

The Capitol Hill Parks, located between 2nd Streets NE and SE and the Anacostia River, provide elegant and open green space within the city of Washington for relaxation, aesthetic enjoyment, and historic commemoration.

Included in this group are: Lincoln, Folger, Stanton, and Marion Parks; Maryland Avenue Triangles; Pennsylvania Avenue Medians, Squares and Triangles, including Seward Square; Potomac Avenue Metro Station; Twining Square, and other inner city green spaces.

Carter G. Woodson Home NHS
Imagine a world in which people like you have no written history, or which has been written is incomplete or distorted. Before Dr. Carter G. Woodson (1875–1950) began his work, there was very little information, and much of that stereotypical misinformation, about the lives and history of Americans of African descent.

The Carter G. Woodson Home at 1538 9th Street NW, in Washington, D.C., was Dr. Woodson’s home from 1922 until 1950. From there, he directed the operations of the Association for the Study of Negro Life and History and pursued his own studies of African American history.

The home was acquired by the National Park Service in 2005. The planning process is underway to restore the home and renovate the adjacent buildings into a visitor and research center. The site is closed to the public.

Kenilworth Park & Aquatic Gardens
Kenilworth Park & Aquatic Gardens is the only National Park Service site devoted to the cultivation of flowering aquatic plants. It is a 12-acre sanctuary that features serene ponds, flowering water lilies and lotus, as well as many species of birds and wildlife.

The visitor center is open daily from 8:00 a.m. to 4:00 p.m. except January 1, Thanksgiving Day, and December 25.

Kenilworth Marsh is a 77-acre fresh-water tidal marsh that borders the Kenilworth Park & Aquatic Gardens. The marsh includes 32 acres of marsh restored in the 1990s to provide habitat for a wide array of native wildlife and wetland plants. A boardwalk and trail from the Aquatic Gardens provide visitors access to various marsh zones and the Anacostia River.

Oxon Cove Park/ Oxon Hill Farm
Located in the District of Columbia and Prince George’s County, Maryland, Oxon Cove Park features the 63-acre Oxon Hill Farm, a working historic farm. Visitors can explore the early 19th-century farm house (Mount Welby) and other historic barns, stables, and outbuildings. Animals, crops, orchards, and gardens are also found on the farm site. The park’s 485 acres provide recreational opportunities for hiking, biking, and picnicking, and are an excellent resource for environmental studies and wildlife observing.

The farm is open to the public daily from 8:00 a.m. to 4:30 p.m. except January 1, Thanksgiving Day, and December 25. Reservations are required for special programs, education offerings, and popular activities such as milking cows, gathering eggs, and wagon rides.

Parks of National Capital Parks-East

**Civil War Defenses of Washington**
To protect the District of Columbia from Confederate assault during the Civil War, a complex system of field fortifications was built on ridges and terraces encircling the outer edges of the Federal city. The section of the Fort Circle Parks now under the jurisdiction of National Capital Parks-East extends southward from Bladensburg Road in Northeast Washington, through the segment of the city which lies east of the Anacostia River, and to Fort Foote in Prince George’s County, Maryland. It includes Forts Mahan, Chaplin, Dupont, Davis, Stanton, Carroll, Greble, and Foote, Battery Ricketts, and various land parcels, including Shepherd Parkway, which connect these sites.

**Fort Washington Park**
Fort Washington Park is a 19th-century fortification that was built to defend the nation’s capital from naval attacks. It remained active through 1946.

- Tours of the fort are available daily. Picnicking areas, river views and access, extensive woodlands, and hiking trails are also available.
- Fort Washington Park hosts a number of special events annually including Civil War artillery firing demonstrations and living history programs.
- The fort is closed on Thanksgiving Day, December 25, and January 1. The grounds are open from sunrise to sunset and the fort and visitor center are open from 9:00 a.m. to 5:00 p.m. Memorial Day through Labor Day and from 9:00 a.m. to 4:30 p.m. Labor Day through Memorial Day. An entrance fee is charged from April through October.

**Frederick Douglass NHS**
The Frederick Douglass National Historic Site houses an impressive collection of original furnishing and artifacts from Frederick Douglass.

- Visitors learn about the life of Frederick Douglass through exhibits, a film in the park’s visitor center, and ranger-led tours of the home.
- Reservations are required for groups of more than 10, maximum of 60 persons per group. Groups of 10 or less are strongly encouraged to make reservations. Tickets are available on-site the day of the tour on a first-come, first-served basis.
- The site is open to the public daily, except January 1, Thanksgiving Day, and December 25.
- For further information, please call 1-877-444-6777 or visit www.recreation.gov. Tours are free; however, reservations require a service charge of $1.50 per person. School groups pay a flat service fee of $5.00 per reservation.

**Greenbelt Park**
Greenbelt Park is a natural oasis situated just 12 miles from Washington, D.C., and 23 miles from Baltimore, Maryland. The park’s 1,100 acres of oak, maple, sweetgum, and old pine are a retreat from the pressures of city life and a forested refuge for native plants and animals.

- A wide range of recreational opportunities and educational programs are available year-round, including facilities for picnicking, camping, backpacking, biking, bird watching, hiking, and wildlife viewing.
- The park is open daily from dawn to dusk. The ranger station is open year-round from 8:00 a.m. to 3:45 p.m., except January 1, Thanksgiving Day, and December 25.

**Shepherd Parkway**
Shepherd Parkway is actually not a roadway, but a “corridor park” encompassing a forested ridge line overlooking the Potomac River in southeast Washington, D.C. It forms the forested backdrop along the eastern side of Interstate 295, and also contains multiple historical Civil War defenses sites within its predominantly wooded, natural scenery. It contributes greatly to the “greenness” of our Capital City, as well as to our oxygen supply!

- Shepherd Parkway is managed as a natural area by National Capital Parks-East.

**Suitland Parkway**
Suitland Parkway extends from Andrews Air Force Base in Camp Springs, Maryland to the Martin Luther King, Jr. Bridge (South Capitol St.) in Washington, D.C. It is the scenic “gateway” that countless visiting dignitaries, royalty, world leaders, and Presidents have traveled on their route into the Nation’s Capital.

- Originally built as a wartime access road to Andrews Air Force Base, the parkway was redeveloped in the 1950s into the scenic, forested park roadway that it is today. It is one of four scenic parkways in the Washington, D.C., metropolitan area, providing an aesthetic access to important destination points. The portion within Maryland is managed by the National Park Service.
- Today, the parkway is extensively used by thousands of visitors to the Nation’s Capital arriving from the east. Notably, the parkway is often the first image that foreign heads of state get of the United States.

Accokeek Foundation
The ACCOKEEK FOUNDATION operates the National Colonial Farm, located in Piscataway Park. The farm was established by the foundation in 1958 to educate people about farm life. It is a recreation of a middle class farm dating back to 1775. Demonstrations depict the life of a typical family during colonial times. Visitors will find a circa 1780 farm dwelling, an 18th-century tobacco farm, a smokehouse, a public fishing pier and a riverside path with a beautiful view of Mount Vernon, the former home of President George Washington. The Ecosystem Farm offers educational opportunities through the Center for Land-Based Training.

Alice Ferguson Foundation
The ALICE FERGUSON FOUNDATION is a key environmental educational organization on the Potomac River in Piscataway Park. As a leader of watershed stewardship, it models innovative practices, outreach, partnerships, programs, and events that are replicated globally. Through its award-winning program for school children at Hard Bargain Farm and the Bridging the Watershed program, students are guided to conduct investigations of the local environment, including wetlands, farmlands and meadows while expanding their personal connection to the natural world.

Each year, more than 10,000 students from the Washington, D.C., metropolitan area come to Hard Bargain Farm for day or overnight education field trips, the Annual Potomac Watershed Cleanup and the Annual Spring Farm Festival.

Earth Conservation Corps
Earth Conservation Corps (ECC) is a non-profit youth development and environmental service organization located on the Anacostia River. ECC provides underprivileged young people with hands-on life skills, education, career, and environmental training with an overall goal to facilitate the restoration of the Anacostia River and its surrounding communities.

Since 1992, ECC has recruited and trained over 18,000 young people in an effort to reclaim the Anacostia River. In 2002, ECC was awarded a grant to construct the first three demonstration sites of the Riverwalk Trail: Henson Park, the Old Capital Pump House, and a trail beneath the 11th Street Bridge. ECC is a valuable partner to the National Park Service, assisting in the clean up, beautification, and restoration of several park sites.

**Make Kids Smile Partnership**

By: Frank Young, Chief of Maintenance

In June 2008, National Capital Parks-East was approached by a non-profit about providing assistance to replace the playground at Shepherd Parkway at Malcolm X and Martin Luther King Avenues, SE, Washington, D.C. The playground there had fallen into disrepair as vandals damaged the equipment, wrote graffiti and, at some point, started a fire. We were committed to making repairs to the equipment as well as the recycled rubber surface.

The non-profit, Make Kids Smile, Inc. (MKSI), builds playgrounds for under privileged children in the Washington Metropolitan area and offered to partner with the National Park Service (NPS) to replace the playground equipment, as they had done on numerous occasions for the D.C. Housing Authority, D.C. Parks and Recreation at various places throughout the city. As a result, on February 27, 2009, MKSI entered into an agreement with National Capital Parks-East (NACE) to procure the playground equipment, mobilize volunteers and provide a certified installer to be present during the installation.

After several delays, demolition of the site and construction of the new playground equipment and play surface started on September 17, 2011. In addition to donating and installing the playground equipment, MKSI and Foulger-Pratt (donor) made other site improvements including turf renovation, installed park benches and picnic tables, and mulched and planted flowers. While the playground is not yet complete due to temperature restrictions when laying the play surface, our partnership with MKSI to replace the playground at this location can be termed as nothing but a complete success.

MKSI representative, Pete Ognibene, is recognized by park managers for the donation of playground equipment. NPS Photo.
Don’t Get Ticked Off

By Eli T.S. Alford Jr., Park Ranger—Greenbelt Park

National Capital Parks-East features incredibly diverse sites with numerous recreational, cultural, and historical opportunities for the adventurous visitor. With summer upon us, it is important to recognize that spending time outdoors has inherent hazards. Among these hazards are insects, arachnids, and mites that live in the outdoors and thrive in warmer climates. Mosquitoes are one the most commonly recognized summer pests, but for anyone who spends time outdoors, ticks are a close second. Fortunately, there are several tactics you can use to prevent tick bites and reduce your risk of tick-borne illnesses.

One of the more common diseases you can get from a tick bite is Lyme disease. Lyme disease is a tick-borne illness that is transmitted to humans by the bite of infected ticks. People who spend extended periods in grassy and wooded areas during the active tick season (April to October) pose a high risk in contracting Lyme disease.

Lyme disease is spread to people by the bite of a blacklegged tick (Ixodes scapularis, commonly called a deer tick). Ticks must be attached to the body for at least 24 hours before they pass the Lyme disease bacteria to humans, but not every bite causes Lyme disease. If a tick does bite you, thoroughly check your body for tick attachments. If you notice a tick bite, immediately remove the tick with tweezers. Do NOT try to remove the tick with hot matches, alcohol or petroleum jelly to coax the tick to ‘back out.’ These irritants may cause the tick to deposit more disease-carrying saliva into the bite site. If bitten by a tick, monitor the site of the bite for the appearance of a rash beginning 3 to 30 days after the bite. If a rash or other early symptoms develop, see a physician immediately.

The best way to prevent Lyme disease is to prevent tick bites. Each individual is responsible for taking precautions to reduce the likelihood of infection, such as:

• Wear light-colored, tight weave, long sleeved shirts, long pants, socks, close-toed shoes, and a hat.
• Apply 20-40% DEET or other tick repellent (e.g. Repel-Lemon eucalyptus) to exposed skin or clothing—but not to underclothing. Reapply as necessary.
• Apply permethrin insecticide to clothing (if not already using DEET on clothing)—but DO NOT apply to skin. Apply especially to shoe tops, socks, and lower portion of pants. One application of permethrin typically stays effective through several washings.
• Tuck pant legs into sock or boot tops to help delay ticks from getting in contact to skin.
• When you get back from the field, carefully inspect the entire body and remove any attached ticks. Immature ticks are very small and may be hard to see. Remember to check your hair, underarms, and groin for ticks. Most people are unaware that they have an attached tick without a careful check.
• Remove, wash, and dry your clothing. Unattached ticks brought in on clothing can potentially result in a latent tick bite. Blacklegged ticks (deer ticks) can survive for many days if humidity is above 65%, and can also survive a warm or hot water wash but they cannot withstand one hour in a hot dryer.

• Take a hot shower and wash off DEET with soap and water and re-check for ticks.

Taking small safety precautions and educating yourself on ticks and tick-borne illnesses are great first steps in ensuring a safe and healthy summer.
