To the President and Congress

Federally funded institutions have become a part of a new and critical national community of preservationists, responsible for the stewardship of our nation's cultural and environmental heritage.

NCPTT, the Preservation Technology and Training Board, is an appropriate forum for the coordination of this new community. NCPTT is sponsored by the Preservation Technology and Training Act, enacted by Congress.

NCPTT Purposes

ncptt.org

To the President and Congress

NCPTT has five key purposes: To:

1. Develop and disseminate, preservation and conservation skills and technologies for the management of cultural and environmental resources.
2. Facilitate and coordinate Federal, State and local preservation professionals, and their training, to enhance the preservation technology and training communities.
3. Make national research on the uses and effects of atmospheric pollution in the field of preservation.
4. Review NCPTT's current and future activities twice annually and advise the National Park Service.
5. Provide a clearinghouse for natural and cultural heritage and to honor the trust responsibilities to tribes.

Creating NCPTT

NCPTT was created as a self-perpetuating federal board, comprising 15 members, appointed by the Secretary of the Interior, to the National Park Service. The Board is an independent agency that is responsible for the coordination of preservation technology and training in the United States.

Preservation Technology and Training Board

The PTTBoard reviews NCPTT's current and future activities twice annually and advises the National Park Service. The PTTBoard members are appointed by the Secretary of the Interior and include the Secretary of the Interior's representative, 14 other representatives.

The PTTBoard is appointed annually by the Secretary of the Interior, and its members serve two-year terms. The PTTBoard reviews NCPTT's current and future activities twice annually and advises the National Park Service.
