The National Park Service cares for the special places saved by the American people so that all may experience our heritage. Established by Congress on November 12, 1996, New Bedford Whaling National Historical Park is one of many urban parks administered by the National Park Service. The National Park system includes more than 390 natural, historical, cultural, and recreational areas. Be sure to ask about Junior Ranger programs at other National Park Service sites.

This program was researched and designed with the help of participants in New Bedford Whaling National Historical Park youth programs. Funds for the printing of this booklet were donated by Eastern National, a non-profit cooperating association working with National Parks.

To become a WebRanger visit the National Park Service’s WebRanger page at www.nps.gov/webrangers.

Instructions: As a Junior Ranger in training at New Bedford Whaling National Historical Park, it is important to keep alert while on your voyage through the park. Answers to the questions in this booklet can be found by reading exhibits, going on a walking tour (offered seasonally) and using your observation skills while exploring the park on your own.

Return to the visitor center after you have finished the Ranger Activities and you will be rewarded for your hard work! Good luck and have fun!

Ranger Activity

Take some time to explore the visitor center and Corson Maritime Learning Center to answer the following questions before setting out on your journey:

1. What river flows into New Bedford Harbor?

2. Where is the Iñupiat Heritage Center?

3. What country gave the Schooner Ernestina to the United States of America in 1982?

4. What well known fugitive slave and his wife found their first home of freedom in New Bedford in 1838?

5. Name three former uses of the national park visitor center.

6. Name three ports New Bedford whALEMEN visited on a whaling voyage.

7. Name three types of buildings you may have found in an 1850s whaling village (Hint: see the Rescue of the Waterfront District exhibit near the elevators).

Bonus Activities

Draw your favorite object or memory from New Bedford Whaling National Historical Park.

Junior Ranger Log

Usually, one officer on a whaling ship was in charge of keeping a daily “log” of the whaling voyage. The “log” was the written record of the ship’s speed, progress, and position, and included noteworthy events of the day. The New Bedford Whaling Museum has over 1,100 logbooks in its museum collection. In the space below write your own log entry describing your day at New Bedford Whaling National Historical Park.
Weather conditions are important to seafarers. Visit the Waterfront Visitor Center (Wharfinger Building–Fisherman’s Wharf) and our working waterfront to answer the following questions.

The answers to questions 1–5 can be found at the weather station inside the waterfront visitor center.

1. What is the temperature outside?
2. What is the wind speed?
3. What is the barometric pressure?
4. What is the date and time?
5. Is it high tide or low tide right now?

6. Is there a weather flag flying outside the waterfront visitor center? If so, circle it below.
Ranger Activity

On your ‘voyage’ through the national historical park, find the following “things” and identify where you found them by placing the item’s number at the location on the map on page 4.

1. An American flag
2. A plaque on a boulder
3. The “Kaller Beef” sign (Look up!)
4. A whale’s tail
5. A sundial on the front of a building (What time is it on the sundial?)
6. A harpoon fence
7. An ornamental fountain
8. Weathervanes—one has a ship on it and the other has a whale on it (Look up!)
9. The latitude and longitude of New Bedford
10. A National Park Service arrowhead

Bonus Activity

Use the key on the previous page to decode the secret message below.

If you want another challenge, try to decode the message spelled out by the flags on the outside of the Waterfront Visitor Center (Wharfinger Building at Fisherman’s Wharf).

Hint: When facing east (toward the water), “read” the flags from left to right and top to bottom.
The flags below are called International Marine Signal Flags. These flags are used by ships at sea to spell out short messages and, in combination, to create special meanings, for example S-O-S. Each flag represents a letter of the alphabet.
Ranger Activity

While exploring on your own or taking a national park walking tour, answer the following questions. Let’s test your knowledge of New Bedford history!

1. What is the Seamen’s Bethel?

2. What decade in the 1900s did the last whaleships sail out of New Bedford?

3. What are the historic streets in the park paved with?

4. What was whale oil used for?

5. What style of architecture is the Double Bank Building?

Bonus Activity

Ishmael’s Letter Jumble
While at sea, Ishmael—a great New Bedford whaler—developed this letter jumble game to help pass the time. Can you unscramble these letters before the next whale sighting?

LOI
EAWHL
ONAPOHR
DLANE
SBOCTOLEBENS

ACROSS

2. What famous novel did Herman Melville write about New Bedford and the whaling industry?

4. What street in the national park was known as the “Wall Street” of Bedford Village?

6. What is the name of the 1/2 scale, 89-foot ship model located inside the Whaling Museum?

DOWN

1. Name the mansion that was moved 400 feet down William Street in 1978 to its present location?

3. Name the building in the National Park that whalers and sailors came to for “protection papers”—which certified their rights as sailors?

5. What New Bedford Sergeant earned the Congressional Medal of Honor for his heroic action at Fort Wagner, SC? (Hint: visit the 54th Regiment Plaza)
