WWW.SUSQUEHANNAHERITAGE.ORG
SNHA has completed our second successful season of River Discovery Boat Tours, having given 1,075 participants the opportunity to experience the natural beauty of the river and learn about its amazing historical legacy. Our Bigger Boat Initiative is moving forward to expand tour capacity in future seasons.

DIGITAL INITIATIVES

With our visitor centers closed and in-person programming suspended for much of 2020 due to COVID, SNHA used our social media platforms and website to engage people and keep them connected to our organization and the river. We also developed self-guided outdoor experiences and other online resources to encourage visitation and learning about the river.

NEW EXHIBITS

SNHA worked on two new exhibits - one at each visitor center. The Susquehannock Gallery at the Zimmerman Center for Heritage will be an immersive, permanent exhibit about Native American culture. At Columbia Crossing, A Look Back at Hunting, Fishing & Trapping on the Susquehanna River explores the techniques and tools for capturing wildlife on the Lower Susquehanna River and will be on display through August 2021.

NATIONAL HERITAGE AREA MANAGEMENT PLAN

A Management Plan is required by the U.S. Department of Interior as part of our NHA’s 2019 designation by Congress. The goal of the plan is to provide for management, preservation, protection, and interpretation of the cultural, historic, and natural resources of our NHA, which includes both Lancaster County and York County. We launched this important planning process in late 2020 with Heritage Strategies, LLC, our project consultants.

MIFFLIN HOUSE PROJECT

SNHA is working with Preservation PA and The Conservation Fund to acquire, preserve, and enhance the historic Mifflin House and farm near Wrightsville as a major visitor destination for our area. A concept plan for the site includes: SNHA Discovery Center/headquarters, Underground Railroad Center, heritage park, nature preserve, and interpretive trail to the river, where SNHA owns waterfront land with river access.

VETERAN’S MEMORIAL BRIDGE REHABILITATION

SNHA is a consulting party in PADOT’s Section 106 process related to the pending $60 million rehabilitation of Veterans Memorial Bridge (SR462). The proposed design includes a roundabout at the landing in Wrightsville and incorporates bicycle/pedestrian facilities and connections to the riverfront parks and trails on both sides of the river.

COLUMBIA RIVER PARK EXPANSION

For three days in mid-October, a PA Outdoor Corps Adult Crew worked in the park expansion area north of Veterans Memorial Bridge to clear invasive species, extend the loop trail to the river, repair split-rail fence, and lay a trail surface. SNHA led an online fundraising campaign which funded the project entirely with private donations.
