SUPPLEMENTARY LISTING RECORD

NRIS Reference Number: 07000729 Date Listed: 7/13/2007

Botten Cabin Jefferson WA
Property Name County State

Olympic National Park MPS
Multiple Name

This property is listed in the National Register of Historic Places in accordance with the attached nomination documentation subject to the following exceptions, exclusions, or amendments, notwithstanding the National Park Service certification included in the nomination documentation.

Signature of the Keeper Date of Action

Amended Items in Nomination:

Location:
The Location/Address is amended to read: Jefferson County 031

These clarifications were confirmed with the NPS FPO office.

DISTRIBUTION:

National Register of Historic Places
Registration Form

This form is for use in nominating or requesting determination for individual properties and districts. See instructions in *How to Complete the National Register of Historic Places Registration Form* (National Register Bulletin 16A). Complete each item by marking “x” in the appropriate box or by entering the information requested. If an item does not apply to the property being documented, enter “N/A” for “not applicable.” For functions, architectural classification, materials, and area of significance, enter only categories and subcategories from the instructions. Place additional entries and narrative items on continuation sheets (NPS Form 10-900A). Use typewriter, word processor or computer to complete all items.

1. Name of Property

   historic name Botten Cabin

   other name/site number Wilder Patrol Cabin

2. Location

   street & number 20.9 miles from Whiskey Bend Trailhead on the Elwha River Trail:

   Elwha Sub-district

   city or town Olympic National Park Headquarters, Port Angeles

   state Washington  code WA county Clallam code 009  zip code 98362

3. State/Federal Agency Certification

   As the designated authority under the National Historic Preservation Act, as amended, I hereby certify that this nomination request for determination of eligibility meets the documentation standards for registering properties in the National Register of Historic Places and meets the procedural and professional requirements set forth in 36 CFR Part 60. In my opinion, the property meets the National Register criteria. I recommend that this property be considered significant nationally statewide locally. (See continuation sheet for additional comments.)

   Signature of certifying official/Title  Date

   WASHINGTON STATE historic preservation office

   In my opinion, the property meets does not meet the National Register criteria. (See continuation sheet for additional comments.)

   Signature of certifying official/Title  Date

   National Park Service

4. National Park Service Certification

   I hereby certify that the property is:

   ✔ entered in the National Register.
   ✔ determined eligible for the National Register.
   ✔ determined not eligible for the National Register.
   ✔ removed from the National Register.
   ✔ other, (explain:)

   Signature of the Keeper  Date of Action

Narrative Description
(Describe the historic and current condition of the property on one or more continuation sheets.)

Summary: The Botten Cabin is an excellent example of log cabin construction featuring fine, hand-crafted, dovetail-notched corners. This cabin, along with the Remann Cabin (Elk Lick Lodge), is the work of local Elwha River Valley resident Grant Humes, who gained widespread reputation as a skilled hunter, packer, and guide. The Botten Cabin represents an early era of recreational use of the interior Olympic Mountains by individuals wealthy or adventurous enough to enjoy the "wilds" of the peninsula. It is one of only three extant cabins inside the National Park boundaries built for private recreational sport hunting/fishing use. Except for relatively minor changes to the porch of the cabin, the cabin possesses integrity of location, design, setting, materials, workmanship, feeling, and association. Much of the interior is intact and retains some of its early furnishings.
8. Statement of Significance

Applicable National Register Criteria
(Mark "x" in one or more boxes for the criteria qualifying the property for National Register listing.)

- A Property is associated with events that have made a significant contribution to the broad patterns of our history.
- B Property is associated with the lives of persons significant in our past.
- C Property embodies the distinctive characteristics of a type, period or method of construction or represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction.
- D Property has yielded, or is likely to yield, information important in prehistory or history.

Criteria Considerations
(Mark "x" in all the boxes that apply.)

Property is:

- A owned by a religious institution or used for religious purposes.
- B removed from its original location.
- C a birthplace or grave
- D a cemetery.
- E a reconstructed building, object, or structure.
- F a commemorative property.
- G less than 50 years of age or achieved significance within the past 50 years.

Narrative Statement of Significance
(Explain the significance of the property on one or more continuation sheets.)

Areas of Significance
(Enter categories from instructions)

- Criterion A: Entertainment/Recreation
- Criterion C: Architecture
- Period of Significance: circa 1928-1952

Significant Dates

Significant Person
(Complete if Criterion B is marked above.)

Cultural Affiliation

Architect/Builder
Grant Humes

9. Major Bibliographical References

Bibliography
(Cite the books, articles, and other sources used in preparing this form on one or more continuation sheets.)

- Previous documentation on file (NPS):
  - preliminary determination of individual listing (36 CFR 67)
  - previously listed in the National Register
  - previously determined eligible by the National Register
  - designated a National Historic Landmark
  - recorded by Historic American Buildings Survey
  - recorded by Historic American Engineering Record

Primary location of additional data:

- State Historic Preservation Office
- Other State Agency

Verbal Boundary Description
The boundary is formed by lines completing a rectangle 100 feet from the four sides of the building.

Boundary Justification
The boundary includes the cabin and the immediate surrounding natural environment to convey a sense of the historical setting.

11. Form Prepared By

street & number 909 1st Avenue telephone (206) 220-4138

city or town Seattle State Washington zip code 98104-1060

Additional Documentation
Submit the following items with the completed form:

Continuation Sheets
Maps
A 7.5 minute USGS map indicating the property’s location.
A sketch map for historic districts and properties having large acreage or numerous resources.

Photographs
Representative black and white photographs of the property.

Additional Items
(Check with the SHPO or FPO for any additional items.)

Property Owner
(Complete this item at the request of SHPO or FPO.)

Paperwork Reduction Act Statement: This information is being collected for applications to the National Register of Historic Places to nominate properties for listing or determine eligibility for listing, to list properties, and to amend existing listings. Response to this request is required to obtain a benefit in accordance with the National Historic Preservation Act, as amended (16 U.S.C. 470 et seq.).

Estimated Burden Statement: Public reporting burden for this form is estimated to average 18.1 hours per response including time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate or any aspect of this form to the Chief, Administrative Services Division, National Park Service, P.O. Box 37127, Washington, DC 20013-7127; and the Office of Management and Budget, Paperwork Reductions Projects (1024-0018), Washington, DC 20503.
Narrative Description: The Botten Cabin, sited in a marshy, wooded setting, is one story, rectangular in shape, measuring approximately 17' by 11' and sits on a dry-laid rubble foundation. It has log wall construction with neat square-notched corner joints and moss chinking. The gable roof with its extension on one end forming a porch overhang is sheathed in wood shakes. There are wood shakes applied in a vertical fashion on the gable ends of the cabin. The windows are four-pane milled wood nailed in place and the off-center wood door is on a gable end facade. Nearby, approximately 15 feet from the main cabin, a small shed used to stand; it was used as a woodshed. The debris from the shed is extant.

Alterations to the well-built cabin have been few. A front porch extending across the main facade was damaged or destroyed by a falling tree c. 1970 and removed by NPS; the roof was re-shingled in 1979; in 1982 the porch deck was rebuilt using in-kind materials. The cabin retains integrity of location, design, materials, setting, workmanship, feeling, and association.

SEE ATTACHED INVENTORY CARD PREPARED IN 1982 FOR THE PROPERTY

Statement of Significance:
Summary: The Botten Cabin is significant under the theme of Entertainment/Recreation, a theme important in Olympic National Park history. It is eligible under National Register Criterion A, for its association with recreational development and use in the Olympic Mountains; it is also eligible under National Register Criterion C, as an excellent example of a distinctive property type (Architecture) that exhibits a specific method of design and construction: log structures. It retains integrity of location, setting, design, materials, workmanship, feeling, and association, and meets the registration requirements set forth for these property types in the Multiple Property Documentation form for the Historic Resources of Olympic National Park.

Narrative: In 1938 with the establishment of a large national park taking in all of Mount Olympus National Monument, as well as large sections of Olympic National Forest, new perceptions of providing recreationists with a wilderness experience emerged. Conservation of the natural environment was an abiding National Park Service philosophy and was expressed in administrative policy decisions regarding recreational use of the new Olympic National Park. Under NPS administration, hunting throughout the park was prohibited, commercialization of recreational facilities was discouraged and reduced over time, permits for private resort homes were discontinued, and vehicular accessibility was limited. In an address given in Seattle only a few months after the establishment of the park, Harold Ickes, Secretary of the Interior and forceful and zealous crusader for the Olympic National Park, strongly advocated keeping Olympic a wilderness.

Nearly ten years after the establishment of Olympic National Park, an elimination of some 60,000 acres on its west side was proposed. Once again, strongly expressed sentiments for wilderness values as related to recreational use of the park were thrown open to public debate. Irving M. Clark, a strong defender of wilderness concepts and the National Park Service, denounced the idea of a park reduction in the late 1940s, speaking of the great forest wilderness where plain people could enjoy fishing, hiking, berry picking, observation of wildlife, or just relaxing in the great outdoors, and return home refreshed in body and in spirit.
Recreational fishing was enjoyed by untold numbers of sport fishermen and hikers for decades. Stories of abundant trout, cutthroat, and steelhead in streams and lakes throughout the Olympic Mountains appeared in sport and recreational magazines before 1900. Lake Crescent gained early fame as a fisherman's paradise when unusually large and distinctively colored trout caught in the 300-foot deep waters of the lake were publicized in the mid-1890s. Admiral Lester A. Beardslee, commander of the Pacific Squadron of the U.S. Navy, visited Lakes Crescent and Sutherland in 1895 while his fleet of ships anchored in the Port Angeles harbor. Beardslee was immortalized on this fishing trip after catching a total of sixty pounds of exceptionally large, blue-backed trout. It was Beardslee's account of his fish catch that prompted Stanford University ichthyologist David Starr Jordan to name this "new" subspecies of trout the "Beardslee trout."

The Elwha River, draining the north peninsula, was another early popular fishing area. Many fishing enthusiasts hiked or hired packers for the trip up the Elwha River expressly to fish. Existing cabins once used for sport hunting and fishing enthusiasts are limited to the Elwha River valley drainage. Several sports enthusiasts who visited the valley year after year received Forest Service permits to erect summer cabins on or near the present Elwha River Trail. Four of these cabins were built in the 1920s. Today, only two summer residence cabins remain intact: the log cabin of Frederick Remann and the cabin of H.H. Botten. Both cabins were built under the supervision of pioneer Elwha River settler Grant Humes and have carefully crafted square-notched corner joints; Remann’s retains its extended roof that forms a front porch. They have nearly identical dimensions.

Approximately 10 miles upriver from Remann's Cabin, the Botten (Wilder) Cabin is the only other private recreational cabin remaining in the Elwha River drainage. Henry H. Botten, a civil engineer and assistant manager of the Washington Survey and Rating Bureau in Seattle, commissioned Grant Humes to erect a cabin at Leitha Creek near a camp known as Crackerville. In the summer of 1928 Humes described the cabin site as grand and wild; a creek tumbled down the gulch alongside the cabin site that the men selected. In addition to the Botten Cabin, Humes built a small "woodhouse" nearby for storing supplies and tools during the winter of 1928-1929, according to a letter written by Grant in September of 1929. The cabin was presumably completed in the spring of 1929. Botten was a hunter and friend of Grant Humes, whom he met c. 1906 (Humes left things in his will to Botten). The cabin was still listed as a private summer camp for H.H. Botten in July of 1952. Botten likely used it until his death in 1953 at age 62. Today the NPS uses the cabin as a backcountry patrol station during the summer months. Because of its remote location (21 miles in to the backcountry and not easily seen from the trail), the cabin has suffered little vandalism over the years. This may be one of the most remote backcountry cabins in the National Park system.

Erected by pioneer Elwha River settler Grant Humes, this cabin now commonly known as the Wilder Cabin, was built for outdoor enthusiast H.H. Botten in 1928-29. Of the four known private vacation cabins constructed on the Elwha River, the Botten Cabin was the last built. (The other known cabins are: Remann's Elk Lick Lodge (extant), Truman Drum's Cabin, and Dr. Ball's Cabin.) Henry H. Botten, a resident of Bremerton and later of Seattle, Washington, started coming to the Elwha to hunt before 1910. On one of his first trips up the Elwha, Botten met Grant Humes, and over the years they became close friends. (Humes willed many of his possessions to Botten.) Humes, a skilled craftsman, was commissioned by Botten to erect his hunting retreat. Writing to his brother on 9 July 1928, Humes described the Botten Cabin site: "It is a grand, wild spot and we plan to deface the forest but little and make no trail leading to it... A fine view is had of the mountains across the river and a husky creek tumbles down the gulch alongside the cabin site [Leitha Creek]..." In addition to the main cabin, Humes erected a small "woodhouse" nearby for storing supplies and tools during the winter of 1928-29. H.H. Botten, a civil engineer by profession, worked for the Washington Survey and Rating Bureau for many years beginning in the 1910s, and eventually ascended to the position of assistant manager of the company in the 1930s. Botten died in 1953 at the age of 62. Margaret Botten, Henry's wife, continued to apply for special use permits for its use as a summer residence into the 1960s. The Botten Cabin is one of only two extant private hunting/fishing cabins in Olympic National Park in 1984.
