Like a Fairy Story Come True!

Yellowstone Park is a magic fairy story of truth for children. Hundreds of noisy geysers scream and whistle. You'll see fairy pools and rainbows hanging high in the clouds!—And there's the Dragon's Mouth in the hillside, gushing boiling hot water.—Way, way down in Gem Pool there's a sparkle through the water like a big diamond!—The Devil's Kitchen is a queer place far underground, where they say the biscuits that you see in Biscuit Pool are baked.

And wild Animals! Bears—Deer—Bison—Beavers—Elk—Marmot—Big Horn Sheep—and others.

Yes sir! there's as much excitement in Yellowstone as in your favorite story-book—only—it's a fairy story COME TRUE!

Yellowstone Park abounds with interesting trails. Saddle horses and guides may be engaged at reasonable rates at most of the hotels and lodges. A touch of ranch life amid scenic splendor.

From the top of Mt. Washburn, 10,346 feet above sea level, the highest mountain in Yellowstone Park which is climbed by automobile, more than 1,000,000 acres of timber and Park lands and craggy peaks are visible.

If Yellowstone had no Grand Canyon, geysers, boiling pools, painted terraces, mountains or lakes, the beautiful rivers, cascades, rapids and waterfalls alone would be worth traveling a long way to see. On the "In Gardiner, Out Cody" tour of the Park, travelers follow, cross and recross the picturesque Yellowstone, Gardiner, Gibbon, Firehole, Madison and Shoshone rivers.

Yellowstone is a paradise for the expert angler. Almost any of a hundred streams can be successfully whipped by an adept, while an amateur can catch lake trout near the outlet of Yellowstone Lake. No license is required. The Crown Prince of Sweden, shown in the picture, visited Yellowstone a few years ago, and found the fishing much to his liking.
