Historic Floods Hit Rocky Mountain National Park

By Kyle Patterson - Public Information Officer

Between September 11 and 13, 2013, Rocky Mountain National Park and surrounding east slope communities received up to 18 inches of rain causing catastrophic flooding. The park, containing many of the headwaters of this flood, received significant damages on bridges, roads and trails. However, damages in the park were relatively minor in comparison to the disastrous flooding that downstream communities east of the park experienced. The west side of the park was largely unaffected by the storm with flooding occurring only east of the Continental Divide.

By early morning September 12, park staff learned that all road access to the park from the east, specifically U.S. Highways 34, 36 and sections of State Highway 7, had been severely damaged and were closed. Trail Ridge Road, which is the highest continuous paved highway in the United States, was the only remaining way in and out of Estes Park for almost three days.

During the storm, park staff safely evacuated thousands of visitors; this included numerous search and rescue incidents, each requiring varying degrees of assistance and/or rescue. Park staff responded to numerous flash-flood issues and road closures.

Due to the 2013 Flood, backcountry travelers may encounter different conditions than they have experienced in the past. Visitors may find missing foot bridges, missing trail segments, uneven trail surfaces, unstable slopes, falling trees due to soil moisture, rutted trails, damaged water bars and steps, difficult water crossings, and missing directional signs. Be prepared.

Most of Rocky Mountain National Park is designated wilderness, where self-reliance, discovery, and adventure are expected.

Park staff will continue to conduct damage assessments and coordinate needed infrastructure repairs. The next steps will be to assess at what level park staff will “repair” damaged trails. Ninety-five percent of the park is designated wilderness; this was a natural event which will be taken in to consideration as we move forward in determining what repairs should be made in the park’s wilderness.

Backcountry Travelers May Encounter Different Conditions

Visitor Centers

Estes Park Area

Beaver Meadows
Open daily 8-4:30 (closed Nov. 28 and Dec. 25). Park information, free park movie and bookstore. Backcountry camping permits are available by following the footpath just east of the visitor center to the Backcountry Office.

Fall River
Open daily 9-4; Dec. 21 - Jan. 5. Closed Dec. 25. Life-sized wildlife displays, a bookstore and discovery room where kids can touch objects and dress up as rangers, American Indians and pioneers.

Grand Lake Area

Kawuneeche

Free Park Movie

See the stunning 23-minute park movie at the Beaver Meadows Visitor Center and Kawuneeche Visitor Center from 8:30 am-4 p.m. daily. Features spectacular aerial footage of the rugged high country of RMNP, as well as wildlife and park history. Captioned version available at Kawuneeche Visitor Center. Captioned, audio description and en español at Beaver Meadows Visitor Center.
Entrance Fees:
Automobile Entrance Fee - Single - Family vehicle entrance fee is valid for seven consecutive days, including date of purchase. $20
Rocky Mountain National Park Annual Pass - Provides unlimited entry to this park for one year from the date of purchase. $40
America the Beautiful – National Parks and Federal Recreational Lands Senior Pass - A lifetime pass for U.S. citizens or permanent residents age 62 or older. $10
America the Beautiful Military Pass - Free unlimited entry to federal recreation sites (including National Parks) for active duty military personnel and dependents with required proper identification (CAC Card or DD Form 1173) for one year.

Stay Safe
Avalanches
Avalanches can be easily triggered by backcountry travelers. Wear an electronic transceiver when traversing avalanche terrain, and avoid skiing or snowshoeing in steep gullies. If caught in an avalanche, make swimming motions and try to stay on top of the snow. For current avalanche conditions, check at a visitor center, call (970) 586-1206, or see the Colorado Avalanche Information Center website.

Backcountry Travel
Avoid traveling alone in the backcountry. Detailed information about your trip itinerary should be left with a responsible person so park authorities can be notified if you fail to return. Be prepared for all types of weather conditions when hiking, skiing, or snowshoeing. Always carry essential survival items, regardless of the length of your trip. Don’t depend on a cell phone for emergency help as many of your trip. Don’t depend on a cell phone for emergency help as many cell service stations, on trailhead bulletin boards, and on the park website at www.nps.gov/romo. Information and rules and regulations can be found at visitor centers, entrance stations, on trailhead bulletin boards, and on the park website at www.nps.gov/romo.

Can I take antlers?
It is illegal to collect or possess antlers, animal parts or natural features (rocks, pinecones, etc.) from the park. Leave antlers and other park resources for others to enjoy.

Falling Trees
Falling trees are an ever-present hazard and can fall without warning. Be particularly watchful around dead trees when it’s windy, or following a snowstorm when branches are heavy with snow.

Fishing
A Colorado State fishing license is required for backcountry permits. Fishing regulations are available at the park’s visitor centers.

High Elevation
Each year a large number of visitors experience symptoms of altitude sickness. These include headaches, dizziness, and eventually unconsciousness. High altitude can also aggravate existing medical conditions such as heart and lung diseases. Take your time and be sure to drink plenty of water. The only cure for altitude sickness is to go down to a lower elevation.

Hypothermia
Drowsiness, impaired judgment, excessive shivering and slurred speech are all signs of hypothermia. Prevent this condition by wearing insulating, wind-proof layers and drinking plenty of fluids.

Mountain Lions
Keep the following in mind when traveling in mountain lion country:
- Travel in groups and make noise as you hike closely together. Keep children close!
- If you see a mountain lion, stop, stay calm, and back away slowly. Never approach a lion or turn your back on and run. Stand tall and look large. Raise your arms. Protect small children by picking them up.
- If approached, make loud noises, shout, clap hands, clang pots or pans, and fight back if attacked.

You Are Responsible
It is your responsibility to be safe, and to know and obey park rules. Park safety information and rules and regulations can be found at visitor centers, entrance stations, on trailhead bulletin boards, and on the park website at www.nps.gov/romo.

Travel Tips
The Essentials:
- Lots of water
- Hat and gloves
- High-energy food
- Sunglasses with UV protection
- Sunscreen
- Topographic map & compass/GPS
- Waterproof matches

- Sturdy footwear & extra socks
- Layers of clothing (jackets & pants)
- Storm gear
- Whistle
- First aid kit
- Flashlight or headlamp
- Pocket knife
- Common sense!

Weather and Road Conditions
Winter driving conditions can change rapidly. Call (970) 586-1206 for daily road conditions, or stop at a visitor center. Snow tires may be recommended during periods of heavy snow. For Trail Ridge Road status call (970) 586-1222.

Weather permitting, lower elevation park roads remain open. Trail Ridge Road is closed between Many Parks Curve and the Colorado River Trailhead. The treeless, open central section of Trail Ridge Road experiences strong winds, heavy snow, and blizzard conditions, making it unsafe to maintain through the winter. Closures can be lowered to other points if conditions warrant.

At RMNA Stores, Your Purchase Makes a Difference!
Visit RMNA stores in any park visitor center for the best RMNP t-shirts, games, jewelry, books, maps and other great park items. Proceeds support the park!

Park Partners
Love Rocky Mountain National Park?
Help us make it even better!
If you’ve walked the Lily Lake Trail, explored the Fall River Visitor Center, or introduced a child to nature through the park’s Junior Ranger Program, you know it! Rocky Mountain Nature Association www.rmna.org

Become a Member or donate today!
Programs may be canceled in the event of extreme weather or high winds. All children must be accompanied by an adult.

**Full Moon Walk**
1 to 1.5 hour walk. November 17, December 17, January 15, February 14, and March 16. Explore the park by the light of the full moon. Times and locations will vary each month.

**Reservations**
Reservations are necessary (no more than 7 days in advance). Call (970) 586-1223 from 8 a.m. – 4 p.m. daily. Six people per reservation for this program.

Outdoor gear appropriate for the conditions will be required.

**Holiday Programming**
Join us over the holiday season for a calendar full of fun family activities. December 21 - January 1, the park will be offering special programs to celebrate the winter season. Please stop by a visitor center or call (970) 586-1206 for specific topics and times.

**Spring Break Programming** – Check at visitor centers for additional programs offered in March.

---

**Additional Programs:**

**Animals in Winter**
Discover the amazing adaptions that allow animals to survive the long winter in Rocky Mountain National Park.

**Snowshoe**

Ever thought how fun it would be to hike in the winter, to see the beautiful Rocky Mountain National Park backcountry, but there’s all that snow? Consider snowshoeing!

It’s as easy as strapping snowshoes on your boots and grabbing a couple of poles. No training is necessary – if you can hike, you can snowshoe. Most park trails can be explored with snowshoes. A few pieces of equipment are essential: you will need a pair of snowshoes and waterproof boots. Poles are helpful for maintaining balance, but optional. Waterproof pants or gaiters help keep you warm and dry.

**Cross-country Ski**

Picture yourself gliding through a silent forest full of fresh, white snow. Cross-country skiing is a rejuvenating sport that pairs physical exercise with the beauty of nature. You will need skis and poles with large baskets. Waterproof pants or gaiters help keep you warm and dry. In general, terrain and deeper snows on the west side of the park make for better for cross-country skiing, but you are welcome to strap on your skis throughout the park.

**Sledding**

Hidden Valley is the one place in Rocky where sledding is allowed. No tows are provided; you walk your sled, saucer, or tube up the hill and slide down. It is a pretty gentle hill, being the bottom of the bunny slope of the former Hidden Valley Ski Area. Skiers, snow boarders, and snowshoers may pass through but must use caution around sledders, and slow down to yield the right-of-way. Park rangers and volunteers may be there to help, but in general, you’re on your own. A restroom is at the bottom of the hill by the parking lot. On most weekends when there’s an attendant, a warming room is also available. Winter winds can scour the area, causing conditions to vary, so call the park Information Office for the latest information, 970-586-1206.

**Snowshoe or Ski with a Ranger**

Check the ‘Free Ranger-Led Programs’ page for snowshoe and cross-country ski opportunities with a ranger; reservations are required.

**What if I Don’t Have My Own Equipment?**

The communities of Estes Park and Grand Lake have shops where winter recreation equipment, including snowshoes, cross-country skis, poles, boots, sleds, tubes, saucers, gaiters, stabilizers can be rented or purchased.

**Toward a Greener Park**

**Recycling Available in Major Park Locations**

- Glass, plastic #1 and #2, and aluminum may be recycled in park campgrounds and at major park locations. Look for our distinctive recycling containers or ask at any visitor center or campground for their locations.

**Leave No Trace**

With approximately 3 million visitors every year, the wild lands of Rocky Mountain National Park are heavily used. While hiking, camping, and all your park activities, do your part to preserve this national treasure by following the seven easy Leave No Trace Ethics:

- Plan ahead and prepare
- Travel and camp on durable surfaces
- Dispose of waste properly
- Leave what you find
- Minimize campfire impacts
- Respect wildlife
- Be considerate of other visitors
