Our Changing Parks

As you travel through the parks, you may notice standing dead trees, or recently cut tree stumps and logs. Many trees of differing species and sizes died during our recent drought. While droughts are a natural part of our climate, the recent drought was made worse by rising temperatures due in part to greenhouse gas emissions. Giant sequoias were also affected and suffered from unprecedented beetle attacks. We are working with USGS and other researchers to learn more about beetle infestations and other threats.

Other, less noticeable changes are also occurring. For example, over 200 species of California birds now nest earlier each spring. Research suggests that these species are avoiding warming temperatures, which disrupts their natural (established) nesting patterns. These changes, both seen and unseen, surprise us, and make us uneasy about what the future holds for our national parks.

Recent studies suggest that our most treasured places, national parks, are also among the most vulnerable to warming temperatures. Because national parks protect large mountain ranges, expansive deserts, and other sensitive natural habitats, future temperature and rainfall changes in parks will have a greater impact than in other parts of the United States. Given the elevated risks to our parks, we are working with researchers to study possible impacts of climate change on sensitive species like sequoias and bighorn sheep.

We are already seeing the effects of climate change in Sequoia and Kings Canyon National Parks and it concerns us. But it is not too late for each of us to make a positive difference. What are ways you can think of to reduce greenhouse gas emissions during your visit here, and when you return back home? Show your passion for these parks by joining us in the movement to protect them so that giant sequoias will be here for generations to come.

Researchers monitor the response of mature giant sequoias to severe drought by measuring water content in the needles at the top of the tree. Photo © Wendy Baxter.
**Contacts**

**Cell Service**
Cell service is extremely limited here, and mainly is available for some networks near entrance stations.

**EMERGENCY — DIAL 911**
No coins are needed in payphones for 911 calls.

**Sequoia & Kings Canyon (NPS)**
559-565-3341 (24 hour): Recorded information is available for road conditions, weather, current fires, camping, lodging, wilderness, and more.

**GPS**
GPS programs often misdirect travellers here. Use maps and signs, or ask for directions.

**Free Public WiFi Locations**
Available at Foothills Visitor Center (near the Sequoia National Park entrance) and Kings Canyon Visitor Center (Grant Grove). No password is needed.

---

**Frequently Asked Questions**

**Pets**
Pets are not permitted on any trails in Sequoia and Kings Canyon. Pets must be kept on a leash at all times, or appropriately crated or caged. Pets cannot be left tied and unattended at any time. The leash must be less than 6 feet (1.8 meters) long.

**Drones**
Unmanned aircraft are not allowed in these parks. This includes drones and other remotely piloted vehicles.

**Marijuana**
Possession or use of marijuana and other controlled substances inside the national parks is prohibited. While California law provides for limited possession and use of marijuana, it remains an illegal drug under federal law, which is enforced within the parks.

**Firearms in these National Parks**
People who can legally possess firearms under federal, California, and local laws may possess firearms here. You are responsible for understanding and complying with all applicable California, local, and federal firearms laws. Discharge of firearms in the parks is prohibited.

**Driving Through the Parks**
Give yourself plenty of time to travel through the parks. Allow at least two hours, plus additional time for sightseeing stops, to drive the Generals Highway from the southern entrance to the northern entrance. Check last page of this paper for seasonal road closure information.

---

**Accessibility**

**Assistive Equipment & Technologies**
We are committed to a continuing effort to improve the accessibility of our trails and facilities so they can be enjoyed by all. If you have questions or suggestions about accessibility, please email us at SEKI_Information@nps.gov or call us at (559) 565-3341.

Wheelchairs may be borrowed at no cost at Lodgepole Visitor Center and Giant Forest Museum. They can be used anywhere in the parks but must be returned by the end of the day, before each visitor center closes. Be prepared to provide your address and phone number.

Assistant listening devices and open captioning are available for park films. Borrow a receiver at park visitor centers where films are shown.

**Visitor Centers**
All visitor centers and museums have paved, flat paths leading from parking areas to information desks, exhibits, bookstores, water bottle filling stations, and restrooms. Cedar Grove Visitor Center is small, and may be difficult for people in wheelchairs to navigate. Mineral King Ranger Station has steps leading to the entrance and may not be accessible to people with mobility impairments.

**Wheelchair-Accessible Trails**
General Sherman Tree Trail (Giant Forest): This short trail leads a few hundred feet from an accessible parking area to the General Sherman Tree, the largest tree on earth.

Big Trees Trail (Giant Forest): This level trail is a 0.75-mile (1.2 km) loop. It circles a meadow surrounded by giant sequoias.

Panoramic Point Trail (Grant Grove): This paved trail leads to views that reach deep into park wilderness.

Roaring River Falls (Cedar Grove): A 528 foot (160 m), shady walk features a powerful waterfall rushing through a granite chute. Park 3 miles (4.8 km) east of the Village road. Paved, relatively accessible.

Muir Rock Trail (Cedar Grove): This short trail leads to the Kings River and Muir Rock, a large granite boulder at the river’s edge named in honor of famed naturalist John Muir.

---

**Translations**

**Welcome** - You may borrow a Braille copy of the park map & guide at visitor centers.

**Bienvenidos** - Hay un folleto en español disponible en los centros de visitante.

**Bienvenue** - Une guide officielle est disponible dans les centres d’information.

**Willkommen** - Eine Landkarte ist auch in deutscher sprache im Besucher-zentrum erhältlich.

**Benvenuti** - La traduzione in lingua Italiana della mappa e’ disponibile in tutti i centri di informazioni.
Free Ranger Programs
Free programs are offered in the Foothills, Giant Forest, Lodgepole, Grant Grove, Mineral King, Cedar Grove, and other locations! They include evenng programs, walks, demonstrations, talks, living history, and other activities. Check visitor centers, at bulletin boards, or online for schedules of ranger-led activities.

Free Junior Ranger Program
Pick up a free booklet at any visitor center, complete the activities, & earn your badge!

Teachers & Parents, Take Note!
Expand your classroom: Invite a ranger to your class, visit the parks with your school group, download lesson plans, and participate in distance learning. All education programs are standards-based and free! Visit nps.gov/seqi/learn/education.

Exploring on Horseback
Travel by horse on hourly rides, spot trips, or guided trips that leave from two locations.

Grant Grove: Closed for the season.
The stables reopen in summer 2020.
Stables: (559) 335-9292
Off-season: (559) 799-7247
Cedar Grove: Daily until September 30, 2019, weather permitting, 9:00 am to 4:00 pm.
Pack Station: (559) 565-3464
Off-season: (559) 337-2413.
The stables reopen in summer 2020.

Crystal Cave Tours
Crystal Cave is open until September 29, and then closes for the winter season. Reserve tickets online at www.recreation.gov at least 48 hours in advance. A tour is necessary to see the cave and a ticket is needed for the tour. Need a ticket today? Check first thing in the morning at Lodgepole or Foothills visitor centers (not at the cave). The cave will reopen next year on May 22.

Crystal Cave Road is 15 miles (24 km) from Sequoia’s entrance at Hwy 198; 3 miles (4.8 km) south of Sherman Tree. Maximum vehicle length on this narrow road is 22 feet. Use parking lot restrooms; the cave has none. Wear sturdy shoes for the steep 0.5-mile (0.8 km) trail to the cave. Wear a jacket; it’s 50°F (10°C) inside. To protect bats from disease, avoid wearing clothing you’ve work in other caves. No strollers, tripods, or bags/packs are permitted inside the cave. (They can be used on the trail from the parking area but must be left outside unattended during the tour.) No flash, lighted photography, or video. Not wheelchair accessible. Tour times are subject to change. For school tours & large groups, visit sequoiaparksconservancy.org/crystalcave.

Family Cave Tour Daily — 45 minutes
Extra tours on holiday weekends (Friday–Monday).

August 26-September 29
· Weekends: Tours on the hour 10:00 am–4:00 pm, and on the half hour 11:30 am-1:30 pm
· Weekdays: Tours on the hour 10:00 am–2:00 pm
Ticket prices: Age 5-12 $8; 13–61 $16; 62 and up $15.

Ask about Sequoia Parks Conservancy member discounts! National Park and Interagency passes do not apply.
Each standard campsite has a table, food storage box, and a fire ring with a grill. Each accommodates up to six people and one vehicle. There are no RV hook-ups in the parks.

Reservations
Reservations are strongly recommended and are available from six months to two days before your stay. In fall, there are more first-come, first-served sites.

www.recreation.gov
(877) 444-6777
(877) 833-6777 TDD
(888) 448-1474 customer service

If you don’t have a reservation, check for first-come, first-served campgrounds. Many campgrounds will close soon for winter.

Roadside Camping
Roadside camping is not permitted in the park. Camp only in designated sites in campgrounds. In the national forest, it’s permitted unless posted otherwise.

RV and Trailer Length Limits
If you’re driving an RV, trailer, or a longer vehicle, check length limits on park roads and at campsites.

Group Sites
Reservations are strongly recommended for group sites.

• Mid-size group sites for 7–19 people are reservable at Crystal Springs and Canyon View campgrounds.
• Large-group sites for 15–40 people are reservable at Dorst Creek, Sunset, or Canyon View.

National forest campgrounds also have group sites.

Showers
Public showers are available seasonally at Lodgepole and Cedar Grove villages, and in some national forest areas. Showers are no longer available in Grant Grove.

Fire Restrictions Are In Effect
Because of dry conditions, the parks are in Stage 1 fire restrictions. Wood and charcoal fires are prohibited in South Fork Campground, as well as in Hospital Rock and Ash Mountain Picnic Areas. Wood and charcoal fires are prohibited in wilderness areas below 6,000 feet. Restrictions are subject to change. Check for updates on bulletin boards, at visitor centers, or by visiting go.nps.gov/sekifirerestrictions.

Campfires and Firewood
Gather only dead and down wood; do not cut limbs off trees. Please don’t transport firewood. It can carry insects and diseases that threaten living trees. Find or buy wood close to where you will use it. Please burn any wood you brought in. Fires must be out cold before you leave.

Quiet and Generator Hours
Music and noise should be audible in your site only. Quiet hours are from 10:00 pm to 6:00 am (no generators). At Lodgepole and Dorst, generator use is permitted only from 8:00 to 11:00 am and 5:00 to 8:00 pm.

Propane and Fuel Canisters
Recycle fuel canisters at home. Do not put them in park trash cans or leave them here.

Near Three Rivers

Horse Creek Campground

---

**Keep Bears Wild and Safe**

Bears can grab unattended food or break into cars where food is visible. They become bold and aggressive if they get human food. Too often, these bears must be killed. Food storage is key to keeping humans safe and bears alive.

**In Wilderness**

Hanging food often fails! Store all food in a bear-resistant storage container. These containers weigh less than 3 pounds (1.3 kg), hold up to 5 days of food, and fit in a backpack. Rent bear-resistant storage containers at park visitor centers. A list of approved containers can be found on our website. Metal boxes are located in a few wilderness locations.

**Everyone**

Don’t let bears approach you, your food, picnic area, or campsite. Wave your arms, make loud noises, and throw small rocks toward them (avoid hitting the face or head). Keep a safe distance, but be persistent. Abandoning your food teaches bears that foods come from humans; the bear may hurt a person in the future to get food. If a bear does get your food, NEVER try to get it back.

**Touring and Picnicking**

Food items MUST be stored in food storage boxes when provided. If no food storage box is available, food items must be inside your car trunk. If your vehicle doesn’t have a trunk, place food items low in the vehicle, out of sight, and keep windows closed. While picnicking, never move away from coolers and tables when food is out. Stay within arm’s length of food.

**Campgrounds**

Store food day and night in the metal boxes provided (avoid using coolers that won’t fit; most boxes are 47” long x 33” deep x 28” high. Store ALL food, coolers, related items, and anything with an odor. Even non-food items must be stored 24 hours a day when not in use. This includes unopened cans and bottles. Make sure food storage boxes are completely latched. Food not properly stored will be impounded. Keep a clean campsite. Deposit garbage immediately in trash cans or dumpsters. Do not leave garbage unattended! Take child safety seats out of cars—the smells they absorb may attract bears.

**Lodges**

Remove all food and child safety seats from your vehicle.

---

**Wildlife Viewing & Safety**

**Keep Wildlife Safe**

Do not feed or touch ANY wild animals. All animals in the park are wild. View animals at safe distances (the length of two city buses) or through binoculars. Never disrupt, approach, or disturb animals from behaving normally.

---

**Mountain Lions and Bobcats**

Rarely seen, bobcats are larger than house cats and have short tails. Mountain lions (cougars) are much larger and have long tails. Cats usually run when seen. If you see a mountain lion that doesn’t run:

- Do not run; running may trigger pursuit.
- Pick up children.
- Try to appear as large as possible—don’t crouch down.
- Hold your ground or back away slowly while facing the mountain lion.
- If the mountain lion acts aggressively, wave your hands, shout, and throw stones or sticks at it.
- If attacked, fight back! Report any sightings.
Explore the golden foothills, home to more species of plants and animals than the rest of these parks combined. Chaparral, oak woodlands, and river canyons offer warmer days, year-round waterfalls, and clear, starry skies.

Services and Facilities

Foothills Visitor Center
Open 8:00 am–4:30 pm through September 30, then open 9:00 am–4:00 pm. Browse exhibits on life in the low elevations and the Sequoia Parks Conservancy park store. A payphone and free WiFi are available here. Ask about free ranger programs! Muchas veces hay rangers aquí quienes hablan Español.

Wilderness Office
Local permits for overnight travel are issued from 8:00 am–4:00 pm at the Wilderness Office on weekdays and Saturdays, through September 20. To reach the Wilderness Office, follow the dirt path to the left of the Foothills Visitor Center. Go to the Fire Management and Wilderness Office on the far side of the parking lot. Beginning September 21, self-registration permits are available outside of the visitor center.

Tunnel Rock
Snap a picture at this iconic pullout off the Generals Highway. Walk on the old road under this rock formation, but do not climb. Poison oak is common here.

Marble Falls Trail
For a short walk along canals or a long walk to a waterfall, park across the highway from Potwisha Campground (not in the campground). Near site #14, follow the dirt road along canals. Climb 3.7 miles (6 km) through to the waterfall.

Marble Falls

Paradise Creek Trail
For a creekside stroll, park at Hospital Rock Picnic Area (not in campground). Walk 0.6 miles (0.9 km) to Buckeye Flat Campground. Take the path across from site #28 and cross a footbridge over the river. Follow Paradise Creek (not the river) for 1 mile (1.6 km) until the trail grows faint.

Marble Falls Trailhead

Mineral King

Climb the steep, winding road to its 7,800 feet (2,377 m) peak. Enjoy this remote, rugged place, or follow a trail into a vast wilderness. The road to this area closes for the season on October 30.

Services and Facilities

Mineral King Ranger Station
Open 8:00 am–4:00 pm until September 24. Get trail local information. Payphones are nearby at Cold Springs Campground and the Sawtooth Trailhead parking area. Ask about free ranger programs!

Wilderness Permits
Local wilderness permits for overnight travel are issued at the Ranger Station 8:00 am–3:45 pm until September 24. After September 24, a self-registration permit station is available outside of the ranger station.

Silver City Mountain Resort (private)
Stop here for cabins, gifts, showers, store, and a restaurant with a bakery and wifi. No gas is available. Open 8:00 am–8:00 pm Friday–Saturday, and 8:00 am–7:00 pm Sunday–Thursday. Closes for the season on October 23. (559) 561-3223.

Cold Springs Nature Trail
Stroll through meadows and aspen groves on this slightly sloped, 1-mile (1.6 km) trail. Start at Cold Springs Campground.

Eagle Lake
Ascend the west side of the Mineral King Valley to a glacially carved tarn. This steep trail is 3.4 miles (5.4 km) one way, and begins at the end of Mineral King Road. After 2 miles (3.2 km), the trail splits. Turn left for Eagle Lake, or take the right-hand trail another 1.6 miles (2.5 km) for Mosquito Lake.

Cold Springs Nature Trailhead

Paradise Ridge
Hike through sequoias to a ridge with views of the Great Western Divide. Park in the lot east of Atwell Mill Campground and walk past the campground to the trailhead. Climb 3.3 miles (5.3 km) to the peak of the ridge, or continue into wilderness.

Atwell-Hockett to Deer Creek
Along this trail, walk through sequoias and an old sawmill to a waterfall. Park in the lot east of Atwell Mill Campground and walk toward the campground to the trailhead. This trail heads far into wilderness. Turn back in 2.4 miles (3.8 km) at Deer Creek for a day hike.
Welcome to the big trees. Here, enjoy the world’s biggest unlogged sequoia grove and largest tree. Park your car and discover serene meadows, rocky streams, and towering forests.

General Sherman Tree
Two trails lead to the world’s largest tree:
Main Trail - This 0.5-mile (0.8 km) trail down to the tree has some stairs; the walk back is uphill. Benches provide rest points along the way. Drive 2 miles (3 km) north of Giant Forest Museum (past the small Sherman Tree accessible parking lot). Turn right on Wolverton Road and follow signs.
Wheelchair-accessible trail from the Generals Highway - Wheelchair-accessible trail from the Generals Highway- Parking here is only for those with disability placards. If you don’t have a placard, but can’t walk the hill on the main trail, ask at a visitor center for a temporary permit.
Congress Trail - From the Sherman Tree, continue along this fairly level 2-mile (3.2 km) loop through the heart of the Giant Forest sequoia grove.

Big Trees Trail
A level, paved loop with trailside exhibits about sequoias. Start your walk at Giant Forest Museum for a 1-mile (1.6 km) round-trip walk. If you have a disability placard, park at the trailhead for a 0.75-mile (1 km) loop.

Moro Rock/Crescent Meadow Road
This 3-mile (4.8 km), dead-end road begins at Giant Forest Museum. The road closes for the season once snow accumulates.
Moro Rock - Climb a steep stairway to the top of this granite dome for spectacular mountain views.
Tunnel Log - Go under a fallen sequoia that was tunneled through. This is the only “tree you can drive through” in these parks.
Crescent Meadow - Sequoias surround this fragile wetland. Stay on designated trails. Several trails start here, such as the 1-mile (1.6 km) route to Tharp’s Log, a historic cabin made from a fallen sequoia; and the High Sierra Trail (60 miles/97 km) to Mount Whitney, the highest peak in the lower 48 states.

Tokopah Falls
This walk along the Marble Fork of the Kaweah River begins in Lodgepole Campground. The 1.7-mile (2.7 km) trail starts just beyond the Marble Fork Bridge. Walk along the river to the impressive granite cliffs and cascading waterfall of Tokopah Canyon. Tokopah Falls is 1,200 feet (365.8 meters) high, and is most impressive in early summer. Be careful around the water; cold and swift currents are difficult to escape.

Services and Facilities
Giant Forest Museum
Open 9:00 am-4:30 pm. Browse exhibits, trail information, and the SPC park store. Ask about free ranger programs!

Lodgepole Visitor Center
Open 7:00 am-4:30 pm until September 22. From September 22-October 14, 8:00 am-4:30 pm. Closes for season on October 14. Watch a movie about bears, learn about the forest ecosystem, get trail information, and browse the SPC park store. Ask about free ranger programs!

Wilderness Permits
Local permits for overnight travel are issued at Lodgepole Visitor Center from 7:00 am to 3:30 pm, until 9/21. Beginning 9/22, self-registration permits are available outside of Giant Forest Museum.

Lodgepole Market*
Open daily. Monday–Thursday 8:00 am-6:00 pm. Friday–Sunday 7:00 am–8:00 pm through 10/19, then hours shorten 9:00 am–5:00 pm. Supplies, clothing, groceries, grab-and-go food, ATM, payphone.
LODGEPOLE GRILL: Open with market through October 20, then closed for the season.
SHOWERS & LAUNDRY: Open with market through 11/03, then closed for the season. Closed daily for cleaning 12:30 pm; 2:30 pm.

Wuksachi Lodge*
The lodge sits at 7200’ elevation, 2.3 miles (3.7 km) north of Lodgepole Visitor Center. Open year-round, 24 hours. Payphones, WiFi, and ATM. Ask about naturalist programs. (866) 807-3598.
PEAKS DINING ROOM: Open 7:00–10:00 am, 11:30 am - 3:00pm, & 5:00–9:00 pm. Reservations recommended for dinner. Box lunches available. (559) 625-7700.
WUKSACHI PIZZA: Currently open daily from 11:00 am–9:00 pm; hours will change in late October.
GIFT SHOP: Open 8:00 am–6:00 pm. Souvenirs.
*Operated by Delaware North
Grant Grove

Wander through shady sequoia groves and hike to bird’s-eye views of distant wilderness. From lively Grant Grove Village to lofty Big Baldy Ridge, Grant Grove offers a chance to explore with amenities nearby.

Grant Tree Trail
This 0.3-mile (0.5 km) paved trail leads to the world’s second-largest living tree. Along the trail are tactile exhibits about sequoias. Trail head is 1 mile (1.6 km) from Grant Grove Village.

North Grove Loop
This lightly traveled, 1.5-mile (2.4 km) loop offers a close look at sequoias and a quiet forest walk. Start at the Grant Tree bus and RV parking area.

Panoramic Point
A narrow road leads to an accessible short trail to a viewpoint with beautiful Sierra vistas. RVs and trailers are not permitted on the road, which begins behind the John Muir Lodge. This road closes when it becomes impassable due to snow.

Big Stump Basin
Stumps in this meadow from late 19th-century logging include the Mark Twain Stump. Climb the steps to see the growth rings of this giant. Start the 1.5 mile (2.4 km) loop trail from the Big Stump Picnic Area.

Big Baldy Ridge
Climb to 8,209 feet (2,502 m) for great views over Redwood Canyon. You’ll gain 600 feet (183 m) in elevation over the 2.2-mile (3.5 km) trek to this granite peak. From Grant Grove Village, go 8 miles (13 km) south on Generals Highway to the trailhead.

Cedar Grove

Quiet and remote, Cedar Grove sits deep in the Kings Canyon, surrounded by sheer granite cliffs.

Canyon View
The “U” shape of this canyon, apparent from this viewpoint, reveals its glacial history. This feature is 1 mile (1.6 km) east of Cedar Grove Village Road.

Knapp’s Cabin
In the Roaring Twenties, a California businessman stored gear in this small cabin for lavish fishing trips. Stop two miles east of Cedar Grove Village.

Roaring River Falls
Take a very short, shady walk to a powerful waterfall rushing through a granite chute. The paved, moderately sloped trail begins 3 miles (4.8 km) east of Cedar Grove Village road.

Zumwalt Meadow
The north side of this 1.5-mile (2.4 km) loop is closed due to flood damage, but the south side still offers views of high granite walls, the lush meadow, and the Kings River. Park at the trailhead 4.5 miles (7.2 km) east of Cedar Grove Village road.

Mist Falls
Head through forest and chaparral to one of the parks’ largest waterfalls. The 4-mile (6.4 km) trip begins at Road’s End and climbs 800 feet (250 m) to a viewing area for the cascade.

Sheep Creek Cascade
Climb the Don Cecil Trail to a small waterfall. At that point, turn around or continue for a longer hike. Park at Cedar Grove Visitor Center and look for the signs. The trail to the waterfall is 1 mile (1.6 km).

Zumwalt Meadow

Services and Facilities

Grant Grove Village*
MARKET: Open 8:00 am-8:00 pm through 10/19 then 9:00 am-6:00 pm. Grab-&-go food, groceries, supplies, ATM, payphone.
RESTAURANT: Open 7:00–10:00 am; 11:30 am–4:30 pm; 4:30-9:00 pm through 10/19, then hours shorten.
GIFT SHOP: Open 8:00 am–8:00 pm through 10/19, then 9:00 am-6:00 pm.
POST OFFICE: Open Monday–Friday 9:00 am–4:00 pm; 24-hour lobby.

John Muir Lodge*
Make a reservation to stay in the lodge or in a cabin. (866) 807-3598.

Cedar Grove Village and Lodge*
Make a reservation to stay at the Cedar Grove Lodge. (866) 807-3598.
GRILL: Limited food service from 7:00–10:00 am, 11:30 am–2:30 pm; and 5:00–9:00 pm.
GIFT SHOP/MARKET: Open 7:00 am–9:00 pm until 10/20, 9:00 am-5:00 pm thru November 3. Groceries, supplies, souvenirs, payphones.
SHOWERS & LAUND RY: Open daily from 7:00 am-1:00 pm and 3:00 pm-8:00 pm.

*Operated by Delaware North Concession
These parks offer over 800,000 acres of wilderness with outstanding opportunities for solitude and challenge.

Thank you for following minimum-impact, no-trace guidelines to protect the wilderness!

Camping in the park “frontcountry” is permitted only in campgrounds. Dispersed camping is only allowed in the National Forest. Camping or sleeping in vehicles is not allowed in parking lots, pullouts, picnic areas, or trailheads in the parks.

Wild places include hazards, and help may not be available. Be prepared to be fully self-reliant and to self-rescue in case of an emergency.

- Park waterways may contain bacteria, including Giardia. Properly filter or treat water before drinking.
- Hypothermia can occur year-round. Stay dry and snack often. If symptoms appear, drink warm sugary drinks and get into dry clothes, sleeping bags, and shelter.

**Explore Giant Sequoia National Monument, part of the Sequoia National Forest. Although not managed by the National Park Service, this area connects this immense protected landscape.**

**Converse Basin**
Virtually every mature sequoia in this huge grove was felled early in the 1900s. Walk the 2-mile (3.2 km) Boole Tree loop to a spared monarch, or the 0.5 mile (0.22 km) loop to the Chicago Stump, cut for exhibition at the 1893 World’s Fair.

**Boyden Cavern**
Explore a marble cave! Guided tours are offered daily from 10:00 am-5:00 pm, and each tour lasts 50 minutes. Unlike Crystal Cave tours, tickets are not daily from 10:00 am-5:00 pm, and each tour lasts 50 minutes. Unlike Crystal Cave tours, tickets are not available. Be prepared to be fully self-reliant and to self-rescue in case of an emergency.

**Wilderness Permits**
Sequoia and Kings Canyon National Parks (NPS): Permits are required for all overnight trips. No permits are needed for dayhikers. After September 22, no reservations are needed. Self-issue permits at the visitor center closest to your intended trailhead. Outside of the quota period, permits are free of charge.

During the quota period (late May - late September), the permit fee is $10 plus $5/person. Permits can be reserved beginning March 1. Walk-up permits are issued at the permit station closest to your trailhead.

Jennie Lakes and Monarch Wildernesses in the National Forest: Permits are not required. Register at Jennie Lakes trailheads. The USFS requires a free fire permit for any open flame; these are available online at preventwildfireca.org/Campfire-Permit/ or at the USFS Hume Lake District Office.

**Seasonal Wilderness Lodging**
Bearpaw Meadow High Sierra Camp (concessioner): Open late May into late September, conditions permitting. Experience rustic wilderness lodging and meals 11 miles out on the High Sierra Trail. Reservations fill early. For 2020, call 866-807-3598 beginning January 1 to reserve a spot for a summer trip.

- Drive off-road?
- Collect things to take home?
- Hunt?
- Walk my leashed pets?

**Hume Lake (on private land)**
Gas is sold when the store is open. The store is open daily, but hours vary and pumps may close for inspection. Travel 6 miles (9.6 km) north of Grant Grove on Highway 180, then turn right and travel 4 miles (6.4 km) on Hume Lake Road. (559) 305-7770. A payphone is just outside the store. The area also offers casual dining, including a snack shop and pizza.

**Montecito Sequoia Lodge (permittee)**
Open all year. (800) 227-9900; (559) 565-3388. On the Generals Highway 9 miles (14 km) south of Grant Grove. The lodge has cabins, a restaurant, a hotel, wifi, seasonal and children’s activities.

**Stony Creek Resort (permittee)**
Market 8:00 am-7:00 pm; restaurant 4:00-6:30 pm (later on Friday and Saturday). Showers and laundry 9:00 am-6:00 pm. The resort is on the Generals Highway 13 miles (20 km) south of Grant Grove. Gasoline is available when the market is open, and may be available after hours with a credit card. (800) 227-9900; (559) 565-3909.

**Dispersed Camping**
In addition to campsites, US Forest Service land offers dispersed camping in the frontcountry. Get a free fire permit online or at the USFS Hume Lake District Office. Learn about dispersed camping areas there, or at any visitor center.

**Services and Facilities**

**Sequoia National Forest Hume Lake District Office (USFS)**
35860 Kings Canyon Road (Highway 180), 19 miles (30 km) west of the Big Stump park entrance. Open weekdays 8:00 am–4:30 pm. Maps and books are sold here. (559) 338-2251.

**Montecito Sequoia Lodge (permittee)**
Open all year. (800) 227-9900; (559) 565-3388. On the Generals Highway 9 miles (14 km) south of Grant Grove. The lodge has cabins, a restaurant, a hotel, wifi, seasonal and children’s activities.
You are Responsible for Your Safety

Beautiful, yet remote and rugged, these parks present hazards. Changing temperatures, trees fall without warning, and wild animals pose dangers. People cause other hazards by driving poorly, leaving campfires burning, and making bad decisions. Cell phones can’t be relied on and GPS directions may send you in the wrong direction. Every day, we help visitors who have emergencies.

Please help us by being prepared—review these safety warnings and ask a ranger for advice. Your safety is in your own hands!

River Safety

While swimming in the parks’ lakes and rivers can be tempting, drowning is the primary cause of death here!

Rivers present great danger due to their swift currents and slippery rocks. In river-related deaths, many people did not intend to swim, but fell in. Currents are strong even during low water. Drop-offs and undertows are ever-present. Be vigilant.

Once in a river, getting out can be nearly impossible. Cold water rapidly saps your strength and hypothermia can set in quickly even if it is warm outside. If you do swim:

- Do not swim in areas with strong currents, or steep drop-offs.
- DO NOT leave children unattended.
- Swimming and alcohol or drugs do not mix. Swim sober.
- Wear sturdy shoes. Sharp objects in the water can cut bare feet.
- During storms, get out of the water and exit beach areas.
- NEVER SWIM ALONE.

Tree Hazards

Branches and trees may fall, whether dead or alive, and when there is no wind. Keep eyes and ears open. Run if you hear cracks or snapping from roots, trunks, or branches (sometimes there is no sound). Don’t linger under dead, cracked, broken, or hanging branches. Avoid spending any time under trees that are rotten at the base or have cracked bark that is peeling off the trunk.

West Nile Virus & Tick Bites

West Nile virus is passed by bites from infected mosquitoes. Human illness is not common but take steps to avoid mosquito bites. Ticks are common in grassy, brushy low-elevation areas. They can carry diseases that harm humans. Check yourself for these insects after walks; their bite is painless. Remove them carefully with tweezers and seek a doctor’s advice.

Rattlesnakes

Rattlesnakes are common in the Sequoia foothills and in the Kings Canyon at low elevations. Watch where you put your hands and feet! Do not harass or kill them; this is when most bites occur. Bites are rarely lethal, but tissue damage can be severe. If bitten, don’t panic and call 911.

Poison Oak

This common shrub grows up to 5,000 feet (1,524 m) in elevation. Poison oak has leaves in groups of three. Leaves are red and berries whitish in fall. The plant is bare in winter, and has shiny green leaves in spring. If you touch any part of it, wash skin and clothes with soap and warm water right away.

Explore Safely

- Avoid traveling alone. Tell someone your plans and expected return time.
- Take a map, water, flashlight, and extra layers of clothes. Do not rely on your phone’s map or flashlight.
- Be alert for potential hazards above, around, and on the ground.

Air Quality

Poor air quality often affects the parks, especially during the summer. In summer months, ozone concentrations often exceed federal health standards. Ozone can have negative health effects, particularly for sensitive groups such as children, older people, and those with heart or lung disease. For air quality forecasts, go to a visitor center, visit the park website or follow @SequoiaKingsAir on Twitter.

Plague & Hantavirus

Plague and hantavirus are associated with wildlife here, but cases of human infection are rare. Rodents and their fleas may carry plague, which may infect humans when bitten. Hantavirus is an airborne virus that comes from infected deer mice. Typically people contract hantavirus after they clean areas or are in enclosed spaces with deer mice feces.

Keep Pets Safe

To keep pets and wildlife safe, animals must be on a leash at all times. Pets are vulnerable to tick and snake bites. Bears and deer have also been known to charge or attack dogs. Pick up all pet waste and dispose of properly. Do not leave pets unattended or in vehicles where they can easily overheat.

Don’t Lose Your Brakes

If you keep a foot on the brake for too long, brakes may fail. Instead, always downshift when going downhill. In automatic vehicles, put the gearshift on 1, 2, or L. The engine gets louder, but your brakes won’t overheat.
A Feast for the Senses

*All of nature begins to whisper its secrets to us through its sounds. Sounds that were previously incomprehensible to our soul now become the meaningful language of nature.*

-RUDOLF STEINER

When you visit Sequoia and Kings Canyon National Parks, what do you hear? Wind blowing through the treetops, birdsongs, water cascading over river boulders, or a grouse drumming to impress his mate?

While you may know these parks for their impressive trees and mountainous landscapes, natural sounds are a key part of the experience.

The National Park Service considers natural sounds, or “acoustic resources,” one of the many values worth conserving. While humans usually value sounds based on life experiences and positive memories, sounds can also have a measurable scientific value.

In these parks, we use specialized audio equipment to record sounds in nature. With this equipment, we can monitor animal species and diversity. We can also measure changes in plant and animal populations that are affected by fires or nonnative species. We record high-quality sounds of wildlife, geology, and other events that can be experienced in the Kings Canyon Visitor Center. And the park developed an interactive, web-based map where people can explore not only the sights, but also the sounds of the park, from right at home.

For more information about our soundscapes program, visit [www.nps.gov/seki/learn/exploring-soundscapes](http://www.nps.gov/seki/learn/exploring-soundscapes).

We Care About Park Air

As the saying goes, on a clear day you can see forever. But air quality in these parks is often affected by pollutants that come from outside our boundaries. These pollutants can reduce visibility from park overlooks, and harm vegetation and other park resources. In summer, these parks often exceed federal ozone health standards, making air conditions potentially harmful for people who are at risk for respiratory issues. Air quality generally improves in late fall. We continually monitor air quality for both the safety of people and park resources. For more information on air quality here, visit our web pages.

Who Am I?

In fall, I’m known for my insatiable appetite. I eat A LOT—mostly acorns, but also anything that might make me fat. There is a fancy name for this behavior—hyperphagia—but it just means that I eat excessively. And since I’m so hungry, it’s really important that people keep human foods away from me so I don’t get in trouble!

I eat tons of food so I am ready for my long winter’s nap, or hibernation. Occasionally, I take a shorter nap or don’t hibernate at all. It depends on weather, food, and other factors. Who am I? I’m a black bear.
Road Construction

If you travel the Generals Highway between the two parks, expect delays between Little Baldy Saddle (at the north end of Sequoia National Park) and the junction of the Generals Highway and Highway 180 (near Grant Grove). There may be multiple construction zones along the sixteen-mile stretch.

For the most current information, check at visitor centers or visit www.nps.gov/seki.

On weekdays, expect delays of 30-60 minutes. There will be a maximum delay of one hour through the entire area. Night closures may be possible.

On weekends, no work will take place. There will be maximum delays of 20 minutes if roadways are confined to a single lane. If there are delays, traffic lights will control movement through the construction zone.

Vehicle Length Limits

Generals Highway in Sequoia National Park:
• Foothills Visitor Center to Potwisha Campground: vehicles longer than 24 feet are not recommended.
• Potwisha Campground to Giant Forest Museum: vehicles longer than 22 feet are not recommended.

Alternatives: Highway 180 from Fresno is straighter, less steep, and wider. If you have a longer vehicle, use this entrance.

Other roads in Sequoia National Park:
• Moro Rock/Crescent Meadow: Vehicle-length limit is 22 feet; no trailers or towed units.
• Crystal Cave Road: Maximum vehicle length on this narrow, winding road is 22 feet (6.7 m).
• Mineral King Road: RVs and trailers are not advised. Campgrounds do not offer RV sites.

Other roads in Kings Canyon National Park:
• Panoramic Point Road: RVs and trailers are not permitted.

In Sequoia National Park:
• Moro Rock/Crescent Meadow: Closes when impassable due to snow.
• Crystal Cave Road: Closes for the season after the last cave tour on September 29.
• Mineral King Road: Closes at noon on October 30 for winter.
• Middle Fork Road: Closes at noon on September 25. To hike on Middle Fork Trail, park at Hospital Rock and walk along the road to the trailhead. Even when this rough, unpaved road is open, it can be difficult to navigate after storms.
• South Fork Road: This road is open year-round, but is rough and unpaved after it passes the park boundary.

Winter Road Closures

All dates depend on weather.

Generals Highway:
• From Wuksachi Lodge (in Sequoia) north to Montecito Resort (near Kings Canyon National Park) will be plowed until January 2, weather permitting. Before then, the road will be plowed when possible, but may take time to reopen after winter storms.

In Kings Canyon & National Forest:
• Highway 180 to Cedar Grove in the Kings Canyon: Caltrans closes this road at noon on November 11.
• Panoramic Point Road: Closes with snow.
• Redwood Mountain Road (NPS), & Big Meadows, Quail Flat/Ten Mile, Converse Basin (USFS): These unpaved roads close with snow.

Gas and Charging Stations

No gas stations are available within park boundaries. Fill up before you enter the parks. If you're already in the park, fill up at:
• Hume Lake Christian Camp: Near Grant Grove. Open all year. Facility hours vary. Gas is sold when the store is open. (559) 305-7770.
• Stony Creek Village: Starting in mid-May, gas is available 24 hours with credit card. Other services are listed on page 9. The village is between Wuksachi & Grant Grove on the Generals Highway. (559) 565-3909.

Park lodges may offer outlets for electric vehicle charging. Check in advance.

Emergency Car Repairs

In Sequoia National Park only, 24-hour AAA service is available for minor vehicle issues such as lock outs, jump starts, emergency gas, and minor repairs. Call (559) 625-7700. If you need a tow, contact services in local communities.
