Vicksburg was the key to control of the Mississippi River. At the time of the Civil War, the Mississippi was a vital artery of transportation. To protect this lifeline, the Confederacy had erected a series of fortifications at readily defensible locations along the river from which the Union advance could be checked. Pushing southward from Illinois by land and water, and northward from the Gulf of Mexico by river, Union army and naval units attacked the Confederate strong points. They captured strategic forts and cities until by June of 1862, Vicksburg alone barred complete Union possession of the Mississippi River.

When Union forces marched victoriously into the city on July 4, 1863, after a 47-day siege, it was one of the turning points of the Civil War. Tactically and strategically the results of the campaign were decisive. The Mississippi River was again open to Northern commerce. The vast resources of the trans-Mississippi were denied to the Confederates, as the Confederacy was cut in two. Victory brought to Grant and the Union army a major conquest of the war in the west. Abraham Lincoln, his cabinet and people in the North were enheartened after long months of defeat and discouragement. Coupled with the defeat of Lee at Gettysburg on July 3, 1863, the Confederacy suffered a blow from which it would never recover.

The monuments in the park are impressive in number, size, cost and architectural design. A feel for the action that took place here can be achieved by studying the monuments and markers. The monuments have an historic significance all their own for they represent an attempt to immortalize the deeds of the men who participated here. Beginning in 1903 with the Massachusetts Monument through 1963 when the Texas Monument was erected, the desire to perpetuate the memory and sacrifice of the men who fought and died here is evident. Contributions for the monuments came from individuals, large corporations and appropriations from the state and federal governments.

The sculpture in Vicksburg National Military Park is one of the most significant collections of such monuments in the country. Theo Alice Ruggles Kitson, who created over 50 public monuments in various parts of the U. S., is well represented here with 69 relief portraits or busts. Her husband, Henry Hudson Kitson, did two of the statues here and other busts and relief portraits. He has many works throughout the country, including the "Minute Man" at Lexington, Massachusetts. Other well known sculptors such as F. C. Hibbard and Adolph Weinman are represented here.

When General Grant's Union troops approached Vicksburg from the east on May 18, 1863, they met the Confederate forces strongly entrenched on a commanding ridge behind the naturally defensible city.

The geographic position of Vicksburg determined its importance to both sides. Located on steep, high bluffs 200 feet above the Mississippi River, the Confederate guns there controlled the river approaches, making the city practically impregnable to successful attack from that quarter.

The Confederate defense line began at the Mississippi River about two miles north of Vicksburg and extended in an arc along the crest of a ridge nine miles to a point on the river to the south of the city. Anticipating the Union attack, General Pemberton, commander of the Army of Vicksburg, had constructed a strong defense line consisting of a number of forts and artillery emplacements to cover the roads and railroad leading into the city. These forts were connected by trenches manned by infantry. In front of the defense line were deep ravines through which Union troops would have to pass to reach the Confederates.

The Union siege lines paralleled the Confederate defense line at an average distance of about 500 yards at the beginning of the battle, but this distance was gradually reduced as the siege wore on. The Union siege line consisted of artillery protected by earthworks and rifle pits manned by infantry.

Vicksburg National Military Park, established in 1899, includes 1,860 acres. The park, bordering the city of Vicksburg and its suburbs on the northern and eastern sides, includes the Confederate defense line and Union siege line. Three detached areas, Navy Circle, Louisiana Circle, and South Fort, approximately one acre each, are also part of the park. These areas are located on the bluffs overlooking the Mississippi River just north of the bridge.

Present park land was once largely utilized for farming and pasturage. A number of houses and farm structures dotted the area. Of these structures, only the Shirley House is extant. Built in the 1830's, the house fortunately escaped destruction during the siege.
Badly damaged, it was abandoned and soon fell into ruin. In 1902 the house was restored to its 1863 appearance as a war memorial.

The general topography of the park is extremely rolling and hilly with steep bluffs. Before the war, ridge tops and slopes were generally clear while hollows were choked with trees and vegetation. The Confederate soldiers leveled trees near their lines to permit a clear line of fire. Presently a substantial part of the area lying between the Union and Confederate lines, both ridge and ravine, is overgrown.

The tour route through the battlefield parallels the Union siege line and Confederate defense line at a short distance. Of the 1,860 acres in the park, 700 are mowed to provide a setting for the 1,400 monuments, markers and iron tablets that interpret the struggle that took place here.

Eighteen statues, comprising one of the most significant collections of such monuments in the country, were erected at various locations on the battlefield in the early 1900's. Thirteen statues honor men from the northern states and five honor Southerners. Fourteen major state memorials were constructed, ranging from the magnificent Illinois State Monument, modeled after the Pantheon in Rome, to the Rhode Island Memorial, the simple bronze figure of a soldier carrying forward the fallen colors.

Regimental monuments (approximately 270) are located in the general area where each unit was positioned. They vary greatly in size and design, but each generally gives details as to unit name, commanders, casualties, and a brief summary of that unit's history in the campaign. Regimental markers (approximately 230) give the precise location for a specific unit at a certain time during the siege. These are small granite stones or in some cases bronze tablets. All of the regimental monuments and markers and the state memorials were constructed by the respective states.

Nine-three relief portraits and sixty-two busts honor various commanders on both sides. Approximately 750 iron tablets, blue for Union and red for Confederate, indicate trench lines and battery and
infantry positions; more detailed tablets summarize combat activity in a particular locale.

Napoleons, 3-inch rifles, and 12-pounder howitzers are the most common type of cannon found in the park. The cannon (128) are positioned at actual battery sites. However, only one of the cannon, the Widow Blakely, can positively be identified as having been in the siege. The others are authentic Civil War tubes mounted on iron carriages constructed in 1905-1908 period. In addition, partially reconstructed forts, earthworks, trenches, approaches, and battery positions throughout the battlefield help one to visualize the siege operations that took place here.

Statuary:

HS 31 Maj. General U. S. Grant

Bronze equestrian statue of General Grant on a granite pedestal, struck in a characteristic pose.

Commanded Union forces during struggle for Vicksburg.

Good Condition

Significance: 2nd order

Erected: 1918

Sculptor: F. C. Hibbard

HS 2 Jefferson Davis Statue

Standing bronze figure, left arm around the Confederate flag. Heroic size. Mounted on a granite pedestal

President of the Confederacy

Good Condition

Significance: 2nd order

Erected: 1926

Sculptor: Henry H. Kitson
HS-3  Lt. General John C. Pemberton Statue

Bronze life-size figure mounted on a gray and black granite base
Commanded the Confederate forces defending Vicksburg
Good Condition
Significance: 2nd Order
Erected: 1917  Sculptor: Edmond T. Quinn

HS-4  Oliver P. Morton Statue

A large heroic size bronze statue of the war time governor of the state of Indiana

Good Condition
Significance: 2nd Order
Dedicated: 1926
Sculptor: George T. Brewster

HS-5  Major General John A. McClernand Statue

Bronze equestrian statue on a gray granite pedestal
Commanded the Union 13th Corps in the siege of Vicksburg
Good Condition
Significance: 3rd Order
Erected: 1918
Sculptor: E. C. Potter

HS-6  General Stephen D. Lee Statue

Bronze life-size standing figure of Lee, sword in hand
Mounted on a pedestal of unpolished pink granite

Commanded General Pemberton's artillery at Vicksburg. The youngest Lieutenant General of the Confederacy.

Good Condition
Significance: 3rd Order
Sculptor: H. H. Kitson

HS-7  Brigadier General Lloyd Tilghman Statue

Heroic size equestrian statue mounted on a granite pedestal. The dismounted figure of Tilghman is struck in a dramatic pose. A broken gun carriage
lies under his horse's forefeet. Commanding the 1st Brigade of Major General William Loring's Division, he was killed May 16, 1863, near the close of the battle of Champion's Hill.

Good Condition
Significance: 3rd Order
Erected: 1926 Sculptor: F. W. Sievers

HS-8 Major General John H. Forney Statue

Over life-size bronze statue mounted on a gray granite base. Forney directed a division of General Pemberton's Army.

Good Condition
Significance: 3rd Order
Erected: 1951 Sculptor: Steffen Thomas

HS-9 Captain Andrew Hickenlooper Statue

Bronze statue mounted on a gray granite pedestal. Sword in one hand, binoculars in the other.

Major General McPherson's 17th Corps Chief Engineer, in charge of Vicksburg siege operations. He was Judge Advocate for the Army of the Tennessee and later Chief of Artillery for the Dept. and Army of the Tennessee.

Good Condition
Significance: 3rd Order
Erected: 1219 Sculptor: William Couper

HS-10 Major General John A. Logan Statue

Life-size bronze figure struck in a characteristic pose. Granite pedestal has benches of same material adjoining each side.

Commander of the 3rd Division of the 17th Corps
Good Condition
Significance: 3rd Order
Erected: 1919 Sculptor: Leonard Crunelle
HS-11 General Edward O. C. Ord Statue

Heroic size bronze statue. Holding hat in one hand, other rests on the hilt of his sword.

Mounted on polished pink and black granite pedestal.

Replaces McCleland as Commander of the XIII Corps during the siege of Vicksburg.

Good Condition
Significance: 3rd Order
Erected: 1916 Sculptor: Anton Schaaf

HS-12 Major General Frederick Steele Statue

Heroic size bronze figure. Drawn sword in one hand, hat in the other. Pedestal made of Milford Pink Granite with a rubbed finish.

Commanded a division of Sherman's forces in the attack on Chickasaw Bluffs. During the siege he directed a division of the XV Corps.

Good Condition
Significance: 3rd Order
Erected: 1212 Sculptor: Frank Elwell

HS-13 Lt. Col. W. F. Vilas Statue

Striking bronze figure on a granite pedestal. Memorial is approached by a flight of granite steps flanked by a bronze cannon on each side. Vilas commanded the 23rd Wisconsin Infantry during the later part of the siege of Vicksburg.

Good Condition
Significance: 3rd Order
Erected: 1212 Granite work by A. J. Martin Sculptor: Adolph A. Weinman

HS-14 Major General C. C. Washburn

Life-size bronze figure on a small granite base.
Commanded the 16th Corps. He commanded the Yazoo Pass expedition during Grant's initial attempts to take Vicksburg on the land side.

Good Condition
Significance: 3rd Order
Erected: 1919
Sculptor: George T. Brewster

HS-15 Wisconsin State Memorial (1911)

The monument is constructed of light gray Winnsboro granite. On the inside of the four and one-half foot high walls that enclose three sides of the platform are bronze plaques enumerating the name, rank, company, and regiment of the 9,075 officers and men from Wisconsin who participated in the Vicksburg campaign. On either side of the monument stands a bronze figure of heroic size, a cavalryman and his horse on one side, an infantryman on the other. Rising from the center the platform is a shaft of granite 57' 6" height. It is formed like a slender column. Perched on top of the column is a 6' bronze reproduction of "Old Abe" the war eagle mascot of the 8th Wisconsin Infantry. The sculptor was Julius C. Loester.

Good Condition
Significance: 2nd Order

HS-16 Iowa State Memorial (1906)

A Greek-Doric semiellipsoid structure. Tells the story of the Iowa Troops in the Vicksburg campaign. Inset in the walls of the memorial are six bas-reliefs and one dedicatory tablet. The center foreground holds a mounted standard bearer symbolic of America. The battle tablets depict all branches of the service except the cavalry. Both Federal and Confederate soldiers are shown in the bas-reliefs.

Architect: Guy Lowell
Sculptor: H. H. Kitson
Good Condition
Significance: 2nd Order

HS-17 The Missouri Memorial (1914)

The monument consists of a pylon about 42 feet in height flanked on either side by an exedra wall about 15 feet high. At the base of the pylon and exedra wall, there is a continuous seat, above which are placed motifs
of shields and torches. The whole monument is placed upon a platform with three steps. On the front of each of the exedra walls is placed a large bronze panel; the one on the left representing the Union army in attack, the one on the right the Confederate army in defense. Between these reliefs in the front of the pylon is a Roman galley surmounted by a bronze statue symbolic of the Spirit of the Republic. The pylon bears, on the front near the top, the carved coat of arms of the State of Missouri, and above this is inscribed the word "Missouri". This is the only monument in the park which is dedicated to the troops on both sides. The material is Missouri Red Granite from Graniteville, Missouri. A. J. Martin set the bronze figure. Hellmuth and Hellmuth were the architects.

Good Condition
Significance: 2nd Order

HS-18 New York State Memorial (1908)

This structure is in the form of an obelisk. The stone used for it is Mt. Airy (North Carolina) granite. The monument is 43' in height and has two bronze inscription tablets measuring 5' 7" x 2' 4". Plans for monument were prepared by A. J. Zarbriskie.

Good Condition
Significance: 2nd Order

HS-19 Minnesota State Memorial (1907)

Granite obelisk of rough stone standing 90 feet high. In front of the monument is a bronze statue of Peace holding the symbols of offense, defense, and peace. Bronze work by William Couper.

Good Condition
Significance: 2nd Order

HS-20 Louisiana State Memorial (1920)

The monument is a large Corinthian column topped by a brazier, all of granite.

Constructed by Albert Weiban Marble and Granite Co.

Good Condition
Significance: 2nd Order
HS-21 Mississippi State Memorial (1909)

Constructed of Mount Airy granite; 76 feet high. The enclosure balustrade is 4 feet 6 inches high and 40 feet in length. On each of the four sides, there is a walkway 7 feet wide between the balustrade and the monument. On the front of the monument is a heroic figure of Clio, the Muse of history, recording Mississippi's sons on a honor roll. On three sides of the monument beneath the figure of Clio are bronze bas-reliefs, "vividly depicting the struggles of the noble defenders, battlefield scenes commemorative of the conditions existing at the time and emblematic of the courage, valor, and sacrifice of the defenders." On the front of the monument, below the bas-reliefs and located in the center is the coat of arms of the state of Mississippi.

Sculptor: F. E. Triebel
Poor Condition: (Bronze work vandalized)
Significance: 2nd Order

(continued)
HS-22 Massachusetts State Monument (1903)

The monument is a bronze figure of an American volunteer soldier mounted on a granite boulder. The large granite boulder on which the monument is erected was hauled from the railroad siding to the site by ten yoke of oxen. It is the oldest state memorial in the park.

Sculptor: Theo Alice Ruggles Kitson

Good Condition

Significance: 2nd Order

HS-23 Illinois Memorial (1906)

Modeled after the Pantheon in Rome. Circular in form on the exterior and dodeconal on the interior. It is of the Roman-Doric order of architecture. The base and long flight of steps are of Stone Mountain Georgia granite, the entire exterior above the base is of white Georgia marble. The approach steps are 24 feet wide and 47 in number; they lead to the portico, which is 32 feet wide and projects 15 feet from the building proper. Six monolith columns 2 feet 6" in diameter by 20 feet in height support the pediment and entablature of this portico. Upon the pediment of this portico is a group of three female figures in white marble. The central figure represents history recording the deeds of the reclining figures, representing the North and South, reunited in peace. Above these, upon the apex, with wings outspread is a solid bronze eagle, gilded with gold leaf. This eagle is 5 feet high. Around the exterior of this temple runs a frieze band bearing the inscription in large sunken letters of "with charity for all and with malice toward none," and "let us have peace." The entrance is 11 feet high and 7 feet wide and is closed by bronze gates. Above this doorway are three large marble panels containing bas-relief busts of Lincoln, Grant, and Yates, the War Governor of Illinois. The interior of the structure is 50 feet, 6 inches in diameter. From the floor to the eye of the dome is 55 feet in height. The floor is a mosaic of imported marble, the center forming the great seal of the State of Illinois, 6 feet in diameter. Around ten of the twelve sides of the wall are set 60 bronze tablets bearing in bronze letters the names of the Illinois soldiers who participated in the campaign and siege of Vicksburg. Architects were W. L. B. Jenney (who had been Gen. Sherman's
chief engineer during the campaign and siege) and W. B. Mundie. Sculptors involved were Charles J. Mulligan (female figures, medallion busts) and Fred C. Hibbard (bronze eagle).

Good Condition

Significance: 2nd Order

HS-24 Texas State Monument (1961)

Eleven steps leading to the monument honor the sister states of the Confederacy. The bronze statuary, symbolizing all who served here, is designed to capture the spirit of the sealing of the breach. Three panels, separated by two columns on either side of the center panel, bear inscriptions. The left panel deals with the sealing of the breach, the center contains a tribute to those who fought here, and the right panel enumerates the Texas units engaged in the Vicksburg campaign. Made of Texas red granite. Lundgren and Mauer, architects.

Sculptor: Herring Coe

Good Condition

Significance: 2nd Order

HS-25 Rhode Island State Memorial (1908)

The figure on the monument represents a soldier who has just picked up the fallen colors and is carrying it forward. He is holding the tattered flag high in his right hand, his rifle on the other. Bronze statue mounted on a pedestal.

Sculptor: F. Edwin Elwell

Good Condition

Significance: 2nd Order

HS-26 Michigan State Memorial (1916)

The monument is an obelisk of white granite over 37 feet in height. Standing in front of the obelisk is the symbolic figure of Michigan, eight
feet high, bringing laurels to her sons. The figure and the obelisk rest upon a base bearing an inscription: "Michigan's tribute of Honor to Her Soldiers who served in the Campaign and Siege of Vicksburg". Made of White Bethel Granite. Sculptor was Herbert Adams.

Good Condition

Significance: 2nd Order

HS-27 Alabama State Memorial (1951)

Made of bronze, it depicts "the death stand of Alabama troops". It shows the heroic men from Alabama being inspired by a woman who represents the state itself. Base of Stone Mountain granite.

Sculptor: Steffen Thomas

Good Condition

Significance: 2nd Order

HS-28 Arkansas State Memorial (1954)

Twin granite pylons represent North and South. Between the pylons is a sword, mounted like a cross, which symbolizes the sword of war and the cross of faith in a restored Union. Depicted in bas-relief on the left are Arkansas soldiers repelling a Union assault; on the right, the Confederate ram Arkansas. Erected by McNeel Company, Marietta, Georgia.

Good Condition

Significance: 2nd Order

Miscellaneous

HS-29 Union Navy Memorial (1917)

A 202 foot shaft, 20' x 20', modeled after the Washington Monument; in the form of a granite obelisk. Eight foot bronze statues of the four fleet commanders surround the base. Admiral Farragut was done by Henry H. Kitson, Flag Officer Foote by William Couper, F. Edwin Elwell did Flag Officer Davis' statue, Lorado Taft sculpted Commander David Dixon Porter.
Good Condition

Significance: 2nd Order

HS-30 The U. S. S. Cairo

Type and class: Ironclad river gunboat, city class.

Length: 175 ft.; breadth: 51 ft. 2"; Tonnage: 512

Role in Civil War: Cairo fired a few shells at the riverbank at Eastport, took her share of guard duty at Fort Pillow, and played a rather inconspicuous part in the battle at Plum Point and later that at Memphis. In December 1862, the Cairo became the first warship in history to be sunk by an electrically detonated mine. One of ironclad gunboats built by James B. Eads. The Cairo was raised in 1964, suffering extensive damage in the process; cables being used to lift the vessel cut deeply into the wooden hull. It was finally decided to cut the Cairo into three sections after all hope of raising the ship intact was lost.

Present location: Ingalls Shipbuilding Corporation Shipyards, Pascagoula, Mississippi, pending appropriation of funds needed to restore the gunboat and move it to a permanent display area at the base of the hill near the Union Navy Monument—see photograph #45.

Present condition: Poor, a decaying pile of timbers. Deterioration occurred while the wreckage awaited temporary stabilization.

Significance: 1st Order

HS-1 Shirley, James House (Built in late 1830's)

Only surviving ante-bellum structure in Vicksburg National Military Park. Built after the southern fashion, 40 x 60 feet, a story and a half in height, a wide hall in the center, large rooms on each side, ceiling high, upper and lower porch in front and veranda in rear. Caught between the cross-fire of the Union Army advancing from the east and the
Confederates firmly entrenched in the third Louisiana Redan, the house suffered extensive damage during the siege. Loyal to the Union and determined to remain, Mrs. Shirley and her 15 year old son occupied the house for three days after the fighting began. Later the house was used by Union Officers as an observation point, served as headquarters for the 45th Illinois, served at one time as General Logan's headquarters, and was a temporary field hospital. The Shirleys did not return to the house after the siege ended and the house soon fell into partial ruin. The house was again the scene of violence during a Reconstruction riot in Vicksburg in December, 1864, when seven negroes taking refuge in the house were killed. Following this episode the house sank into a period of further dilapidation and ruin. It was purchased by the Federal Government in 1900 and the Secretary of War authorized its restoration as a war memorial in 1902. In 1931, however, with numerous alterations it became the Superintendent's residence and briefly served as park headquarters. Much of the original character of the house has been lost as a result of these alterations. The outside of the house was restored to its original condition in 1966. The inside is presently in poor condition.

Significance: 1st Order

HS-32 Memorial Arch (1920)

Imposing structure made of Stone Mountain (Ga.) granite. Made in large block form with a doric column on each side of the entrance. Inscribed on one side of the top is "Vicksburg National Military Park," on the other is "Memorial to the National reunion of Union and Confederate Veterans of the Civil War Oct. 16-19, 1917". The arch serves as an entrance to the park, originally located on city property (Clay St. and Confederate Ave.) it was moved to its present position in the park in 1966. The arch was built with the unexpended balance of reunion appropriations.

Good Condition

Significance: 2nd Order
Earthworks

The Confederate defenses of Vicksburg in 1863 consisted of nine earthworks along the roads entering the city, connected by nine miles of rifle pits and trenches. The earthworks were dirt and log parapets with firing steps for infantry and embrasures for cannon. Ditches and other man-made obstructions in front of the lines were designed to impede the enemy's advance.

HS-33 The Railroad Redoubt

Constructed to prevent the Union advance along the Southern Railroad of Mississippi, the Railroad Redoubt is a fish hook shaped earthwork lying south of the railroad. The shank of the hook points east while the open side lies to the south. Traverses for artillery are still visible, and the location of the only Union breakthrough at Vicksburg is clearly marked. Generally a reconstruction.

Significance: 3rd Order

HS-34 The Great Redoubt

This was the largest earthwork in the Confederate defenses. It lies west of Confederate Avenue a short distance south of the Jackson Road, which it was intended to defend. The exterior slope of the parapet is clearly defined, and the rear of the earthwork is completely open. Generally a reconstruction, precise details are lacking.

Significance: 2nd Order

HS-35 Fort Hill

This earthwork was the northern anchor of the Confederate defense lines. As a Confederate fort, it was open to the rear, but after Union occupation, the earthwork was enclosed. The earthwork is square in shape, and the line of the parapet is easily determined. At the center of the fort was an excavation, probably a bombproof or a magazine. The depression left by the collapse of this excavation is still visible. Generally a reconstruction, precise details are lacking.

Significance: 2nd Order
HS-41 Fort Garrott

Square in shape. Unlike the other earthworks which were constructed along the roads entering the city, Fort Garrott was constructed to fill a gap in the defenses. It was built about half-way between the Railroad Redoubt and the salient works on Hall's Ferry Road. Manned by soldiers of the 20th Alabama Infantry, it was named after Colonel Isham Garrott of that regiment who was killed in the Fort.

Condition: Fair; extensive reconstruction has taken place. The parapet and ditch are clearly visible and well-defined.

Significance: 2nd Order

The National Cemetery

The National Cemetery was established at Vicksburg in 1866. It is comprised of 117 acres and contains the historic structures described below.

HS-36 Cemetery

Situated on a high bluff, the Cemetery overlooks the Yazoo Canal which follows the former channel of the Mississippi River. Due to the rugged nature of the terrain, extensive landscaping was necessary to prepare the grave sites; terraces were constructed, and a great variety of trees planted. The Cemetery was closed for future burials except for outstanding grave site reservations in 1961. At that time the Civil War interments totaled 17,077, of which 12,909 were unknown. An additional 1,280 graves were occupied by soldiers who had participated in the Indian and Spanish American Wars, World War I, II, and the Korean Conflict. A government headstone marks every grave, the known having the number of the grave, name of the soldier, and the state from which he came inscribed. The unknown have simply the grave number.

Significance: 1st Order

HS-37 Cemetery Arch (old main gate entrance) (Built in 1880)

Built of Alatawa (fossiliferous) limestone at a cost of $7,000. 36 feet 6 inches height. Two solid stone columns 17 feet in height, 2 feet 8 inches in diameter on each side of the arch. Inscription: "Here Rest
In Peace 16,600 Citizens Who Died For Their Country In the Years 1861 - 1865".

Good Condition

Significance: 1st Order

HS-38  Gardener's Cottage (1883)

Originally a simple red brick cottage containing two rooms, with a fireplace in the sleeping room and a stove pipe flue in the living room. The interior walls were plastered. The exterior included a plain front porch with steps. Described in 1889 as being 18 feet 4 inches by 35 feet 5 inches with tool and forage rooms, stables, cart and wood sheds attached. Improvements in 1931 include the reconstruction of the second floor and front porch, and the installation of plumbing and electricity. The second floor, which had been constructed as one large room, was divided into two separate bedrooms with a bathroom between. Remodeling in recent years include paneling and floor tile.

Good Condition

Cottage is presently serving as park housing quarters

Significance: 3rd Order

HS-39  Lodge (originally called Superintendent's Lodge) (1928)

Two story house of frame construction. Seven rooms, full size basement, front porch. Inside remodeled in recent years. Serves as park quarters.

Good Condition

Significance: 3rd Order

HS-40  Brick Rest Pavilion (1931)

Also called the cupola. Open square structure of red brick standing atop a high earth mound (erroneously called an Indian Mound) in the cemetery. Two opposite sides have rounded arches serving as entryway. Other two sides each have two arched windows. Concrete benches under each set of windows. Concrete floor. Shingled roof comes to a point; has a pointed wooden ornament on top.
Good Condition

Significance: 3rd Order

HS-42 Pemberton - Grant Surrender Interview Site Monument (1863-1864)

Erected by the Union soldiers occupying Vicksburg, Granite obelisk approximately ten feet in height surmounted by a sphere which rests on a pedestal design: in relief, an American eagle, one claw holding a laurel, the other a shield, beak holds a pennant. This monument originally marked the site of the interview between Generals Grant and Pemberton. It was moved into the cemetery in 1868 and returned to its original location in 1940.

Poor Condition: weathered, chipped by vandals

Significance: 1st Order
Present park boundaries include the major combat areas of the siege. Approximately the southern one third of the Confederate defense line, which experienced only minor activity during the siege, is now outside the park boundary. In 1966 this area which was originally part of the park, was involved in land trades with the city. The exchange was made to geographically fill in the park boundary and provide a more logical tour route for park visitors. Presently some monuments and markers owned and maintained by Vicksburg National Military Park are located on city property.

Union Position Tablet.

John E. Smith's Brigade: Assault, May 22, 1863.

This Brigade was ordered to assault the Confederate Third Louisiana Brigade on the north side of Jackson Road. The 31st and 44th Illinois Regiments were deployed as sharpshooters. About 10 A.M., the 23rd Indiana advanced by the flank. In quick time with fixed bayonets, followed by the 20th Illinois, the leading regiment of 3rd Louisiana, and advanced down about 50 yards of the road, then about 100 yards of the road. It found the area where Major Howe covered with a heavy abatis, and was ordered to retire by companies. The 20th Illinois advanced the road close to the nearest angle of the road. Turned obliquely to the left and found shelter on the slope of the ridge in front of the Confederate Infantry. At 2 P.M., the 45th Illinois under command of Major Luther H. Cowen advanced to the flank with fixed bayonets, and was ordered to advance to the road, the leading regiment advanced to the road, the leading regiment advanced to the road to the second Brigade, and the leading regiment advanced to the least and found shelter on the slope of the ridge, immediately in the rear of the 20th Illinois. Both regiments remained in the position until the evening of the 23rd. When they retired, they captured the 20th Ohio was not ordered forward. This Tablet marks the place where Major Cowen was killed at the head of his regiment. Casualties: 23rd Indiana, Wounded 22, 45th Illinois, Wounded 24, Capt. Horace L. Bowker, Mortally Wounded, 3, Wounded 1. Total 24. Capt. Horace L. Bowker, Mortally Wounded, 3, Wounded 1. Total 24. Major Luther H. Cowen, killed 2. Capt. Horace L. Bowker, Mortally Wounded, 3, Wounded 1. Total 24. Major Luther H. Cowen, killed 2. Capt. Horace L. Bowker, Mortally Wounded, 3, Wounded 1. Total 24.

DEC 9 9 1976
A TOUR OF THE BATTLEFIELD
We suggest that you begin your 16-mile tour at the visitor center. The numbered stops below are keyed to the numbers on the accompanying tour map. The mileage figures indicate distance from the visitor center.

1. Battery DeGolyer (1.4 miles). From this position Union field guns hammered the Great Redoubt. At one time the Federals mounted 22 artillery pieces here.

2. Shirley House (1.8 miles). Once in the thick of battle, this house is the only surviving wartime structure in the park. It has been restored to its 1863 appearance.

3. Third Louisiana Redan (1.9 miles). Here was one of the major Confederate earthenworks guarding the Jackson Road approach to Vicksburg. Two mines were exploded beneath the redan in hopes of breaking the Confederate line.

4. Ransom's Gun Path (2.9 miles). Dismantling two 12-pounder guns, men of the 2d Illinois Artillery, aided by Ransom's infantry, dragged the cannon over rough terrain to an earthen parapet only 100 yards from the Confederates.

5. Stockade Redan Attack (3.7 miles). From this and nearby points, Union soldiers on May 19 swept toward the Confederate fortifications surrounding the Stockade Redan, but were repulsed with heavy losses. Three days later the "Forlorn Hope," an advance force of 110 volunteer Federals, attacked from near here. Few returned.

6. Thayer's Approach (6.4 miles). During the afternoon of May 22, Union soldiers stormed up the hill toward their adversaries, then were stopped by geography and Confederate fire. Later, Gen. John M. Thayer pushed his approach trench toward the Confederate line. His soldiers used the tunnel beneath the road to avoid crossing the ridge where they would be exposed to enemy fire.

7. Battery Saufidge (7.8 miles). One of the artillery batteries manned by naval gunners. A plaque at the monument tells the story of the navy's role in the siege of Vicksburg.

8. National Cemetery (7.8 miles). The final resting place for almost 17,000 Union soldiers, of whom about 13,000 are unknown. Many Confederates who died during the siege lie in Vicksburg city cemetery.

9. Fort Hill (9.2 miles). The anchor of the left flank of the Confederate line. Confederate gunners posted here assisted the river batteries in sinking the Union gunboat Cincinnati.

10. Stockade Redan (10.8 miles). Here on May 19 Confederates threw back the first assault on the Vicksburg lines. Three days later the Federals again attacked and again were repulsed.

11. Great Redoubt (11.9 miles). On May 22 Union forces launched an unsuccessful attack against this massive earthenwork guarding the Jackson Road.

12. Second Texas Lunette (12.8 miles) was the scene of furious fighting on May 22 as Confederates beat back Union efforts to storm this work and follow the Baldwin's Ferry Road into Vicksburg. Union soldiers during the siege dug approach trenches to within 15 feet of the lunette.

13. Railroad Redoubt (13.5 miles). This redoubt protected the Southern Railroad of Mississippi. On the morning of May 22, Northern troops assailed this strongpoint and forced out the defenders. A detachment of Waud's Texas Legion counterattacked and in a savage fight with bayonets, clubbed muskets, and artillery shells used as grenades drove out the Federals.

14. Fort Garrott (14.2 miles). Here, on June 17, Confederate soldiers suffered from the highly accurate fire of Union sharpshooters. Confederates beat back Union efforts to storm this work and follow the Baldwin's Ferry Road into Vicksburg. Union soldiers during the siege dug approach trenches to within 15 feet of the lunette.

15. Hovey's Approach (14.6 miles). This restoration gives an indication of the construction of Federal approach trenches.

For your safety. Do not allow your visit to be spoiled by an accident. Efforts have been made to provide for your safety, but there are still hazards which require your alertness and vigilance. Exercise common sense and caution.
During the winter of 1862-3 Grant conducted a series of amphibious operations (often referred to as the Bayou Expedition) aimed at reducing Vicksburg. Not only did these operations fail, but Grant's strategy of using the Mississippi River as his supply line was also frustrated by Confederate riverine defenses. By May 7 Grant was ready to push inland. His goal was not merely to capture Vicksburg but also to destroy Pemberton's army and sever the Confederate link of supply and communication. Therefore, the Confederate army was surrounded. By May 19, Vicksburg fell, and 5 days later, with the surrender of Port Hudson, Louisiana, Union forces gained control of the Mississippi.

Between Cairo, Illinois, and the Gulf of Mexico the Mississippi meanders over a course a thousand miles long, dividing the Confederacy into almost equal parts. Control of this stretch of the river was of vital importance to the Union from the outbreak of the Civil War in 1861. Command of that waterway would allow uninterrupted passage for Federal troops and supplies moving into the South. It would also have the desired effect of cutting off the Confederacy and a region upon which the Southern armies relied for supplies. The Confederate troops, he easily established his Union domination of the Mississippi.

Of the two posts, Vicksburg was the strongest and most important. It sat on a high bluff overlooking a bend in the river, protected by heavy artillery batteries along the riverfront and by a maze of swamps and bayous to the north and south. So far the Confederates had defied large-scale river expeditions designed to force it to surrender.

In an effort to deter the advancing Union army and deny from their objective, the Confederates erected fortifications at strategic points along the river. But fighting their way south from Illinois and northward from the Gulf of Mexico, Federal forces captured post after post. City after city, until by late summer of 1862 Vicksburg and Port Hudson posed the only major obstacles to Union domination of the Mississippi.

Of the two posts, Vicksburg was the strongest and most important. It sat on a high bluff overlooking a bend in the river, protected by heavy artillery batteries along the riverfront and by a maze of swamps and bayous to the north and south. So far the Confederates had defied large-scale river expeditions designed to force it to surrender.

In October 1862 Ulysses S. Grant was appointed commander of the Department of the Tennessee and charged with clearing the Mississippi of Confederate resistance. That same month, Lt. Gen. John C. Pemberton, a West Pointer and a Pennsylvanian by birth, assumed command of the roughly 50,000 widely scattered Confederate forces defending the Mississippi. His orders were to hold the river open. Vicksburg became the focus of military operations for both men.

During the spring of 1863 three courses of action were open to Grant; first, with Memphis as the base, he could advance southward into Mississippi, using the railroads to supply his army, and invest Vicksburg from the east. Second, he could attack Pemberton's army as it was being evacuated across the river. Or, he could march down the West (Louisiana) bank, cross well below the city, and then swing into the Vicksburg Peninsula and take the city as the Confederacy was in disarray. Direct attack against Vicksburg would probably be disastrous, and withdrawal toward Memphis would look like a retreat. Grant chose to march downriver and strike the city from the south. It was an important and difficult choice for Grant. He needed his army to promises destruction if the Confederates checked his advance out of the bridgehead.

On March 29, having divided his field army of approximately 45,000 men into three corps under Gen. T. H. O'Neil, A. A. Humphreys, and James B. McPherson, Grant moved south from his encampment at Milliken's Bend, 20 miles northwest of Vicksburg, through the fertile delta lands of Louisiana. Opposed by only a handful of Confederate troops, he easily established his army across the river above Grand Gulf, 25 miles south of Vicksburg.

For the river crossing he needed the cooperation of the Union navy. On the nights of April 16 and 22, Adm. David Porter managed to run eight gunboats and seven transports past the Vicksburg batteries, losing only two vessels. Now Grant not only had troops south of the city, but he also had the means for ferrying troops across.

On April 9, to prepare the way for the crossing, Porter's ironclad gunboats bombarded the Confederate fort at Grand Gulf. The attack was repulsed. Undaunted, Grant ordered his troops to dig tunnels under them. "Every man in the investing lines or that reinforcements from Louisiana could show for it but a steadily mounting death list. But Pemberton got so they bored like gophers and beavers, with a spade in one hand and a gun in the other." In a vain effort to stop their attackers, the Confederates dug countermines and rolled powder-charged barrels down at the Federals.

On June 25 Union engineers exploded a mine under the 3d Louisiana Redan, blowing a breach in the Confederate line. After occupying the crater and battling for 24 hours to hold it, Grant pulled his men back, realizing the attempted breakthrough had failed. Five days later Pemberton's disorganized troops fell back into the city and occupied strong fortifications. Advance units of the Union army, pressing hard on the Confederates' heels, were in front of Vicksburg by May 19.

Federal officers were convinced that the battles of Champion Hill and Big Black Bridge had broken Confederate morale and they immediately scheduled an assault on Vicksburg. Though only part of his army was in position in time, Grant decided to launch an assault on the afternoon of May 19. Rushing into the heavy abatis in front of the Southern positions, the Union troops were thrown into confusion. Some reached the ditch in front of Stockade Redan, but most were pinned down short of the works.

Many Federal soldiers fired all the ammunition in their cartridge-boxes as the opposing troops plowed away at each other throughout the long, hot afternoon. After dark, the Northerners fell back.

Three days later, on May 22, at 10 a.m., Grant launched a second assault on Vicksburg. Union officers synchronized their watches to ensure a simultaneous movement. Careful timing, however, did not prevent the Confederates from repulsing the initial thrust. Renewed attacks during the afternoon were also fended off as the Union troops fell back, losing 3,100 men in their second vain attempt to storm Vicksburg.

Grant's failure to capture the city by assault compelled him reluctantly to start siege operations. Advance breaching batteries were established to hammer the Confederate fortifications, and while Porter's gunboats cut off communications and blasted the city from the river, the Union army, already to its waist deep in the Mississippi River, "The Father of Waters again goes unvexed to the sea."
