The site was designated a landmark for its associations with the Lewis and Clark Expedition, particularly the dated signature of William Clark that appears on the southeast side of the tower. Captain Clark named the pillar for Sacagawea's son, Jean Baptiste, whose nickname was Pompey. Sacagawea was the only woman to accompany the 33 members of the permanent party to the Pacific Ocean and back.</p> <p>Her activities as a member of the Corps included digging for roots, collecting edible plants and picking berries; all of these were used as food and sometimes as medicine. She was invaluable in convincing Indian tribes that the Corps was friendly, and served as an interpreter and "pilot," navigating the group as she remembered the land of her youth.</p>	Endangered	Professional
