Seasonal Highlights

Keep this Guide with you to get the most out of your visit.

WELCOME
You made it! You’re here! The following information may help maximize your time in Yosemite. Be prepared to go wild!

Ask A Ranger at the Visitor Center
All visitor centers in Yosemite National Park are staffed with knowledgeable rangers and volunteers, ready to help answer your questions, provide directions, and hand out maps and brochures. Visitor centers are located in Yosemite Valley, Big Oak Flat, Wawona and Tuolumne Meadows. Seasonal hours will soon be going into effect, see pages 4 and 7 for hours and more information.

An Introduction to Yosemite via Films
Two films show daily in the Theater behind the Yosemite Valley Visitor Center, Ken Burns’ Yosemite: A Gathering of Spirit and The Spirit of Yosemite. See page 4 for times.

What’s New? Mariposa Grove is Open!
After three years of restoration projects, the Mariposa Grove of Giant Sequoias has reopened. Take some time to walk among the Giants. See page 7 for details on when and how to visit the Mariposa Grove.

Feature Story - Celebrating 50 Years
The Wild and Scenic Tuolumne River Act and the National Trails System Act turned 50 this year! What is your favorite hiking trail? Read more about the 50th Anniversary on page 10.

ARTS & CULTURE
Go to the Theater
After a day filled with exploring, relax and enjoy a show at the Yosemite Theater. The 2018 season includes inspiring films, plays based on some of the park’s most colorful characters, and celebrations of Yosemite’s culture and history. See pages 5 and 6 for show descriptions and schedules.

Enjoy an Art Workshop
Get creative in Yosemite Valley! Head to Happy Isles Art and Nature Center (shuttle stop #16) to join Yosemite Conservancy for an outdoor workshop with a professional artist, or bring the kids for drop-in activities. Open Monday through Saturday, 9am to 7pm and 7 for hours and more information.

Take a Photography Class
Learn how to best capture the landscape of Yosemite by joining a photography expert from The Ansel Adams Gallery. Several classes are offered each week. Some have fees, some are free. Learn more and sign up at the Ansel Adams Gallery in Yosemite Village. Shuttle stops #5 and #9. See pages 4 for hours.

GUIDED OUTDOOR ADVENTURES
Visit the Yosemite Museum
Learn the history of Yosemite Indians by exploring a museum collection that includes remarkable woven baskets and traditional dress. Tour the outdoor Indian Village or talk with an Indian cultural demonstrator. Shuttle stops #5 and #9. See page 4 for hours.

Get outside and enjoy your park!
Whether you’re looking for a cold-weather adventure, a warm fireplace, or a bit of both, Yosemite is a magical place in fall and winter!

GUIDED OUTDOOR ADVENTURES
Adventure Out with the Yosemite Mountaineering School
The Yosemite Mountaineering School provides outdoor adventures for people of all experience levels. We are here to help you learn how to enjoy Yosemite safely and responsibly. Give us a call to join one of our group classes or to schedule a custom outing designed specifically for your group. We offer professional guides for hiking, backpacking and rock climbing. Reservations are required. Please call Yosemite Mountaineering School at (209) 372-8344 or email us at yms@aramark.com for more information and to make reservations.

Access for People with Disabilities
Accessible parking, lodging, tours, and activities are available throughout the park.

For a complete list of accessible services, recreational opportunities, and exhibits, pick up an updated Yosemite Accessibility Guide which is available at park entrance stations, visitor centers, and online at www.nps.gov/yose/planyourvisit/accessibility.htm, or call a park accessibility coordinator at (209) 379-1035 for more information.

Sign Language interpreting is available upon request. Contact the Visitor Center at (209) 372-0200 or call a park accessibility coordinator at (209) 379-1035 for more information.

Assistive Listening Devices are available upon advance request, offered at a visitor center.

Audio tours are available for the Yosemite Valley Visitor Center. Refer to the Accessibility Guide, or contact an Accessibility Coordinator for more information.

Accessible parking spaces are available just west of the Yosemite Valley Visitor Center. To reach these, enter the Valley on Southside Drive. Turn left on Sentinel Drive. Turn left on Northside Drive, and follow the blue and white signs.

WHERE TO GO AND WHAT TO DO IN YOSEMITE NATIONAL PARK

Where to Go and What to Do in Yosemite National Park

GETTING AROUND
Take the Free Shuttle
Park your car and let the free shuttle take you to the most scenic points in the valley. You will help cut down on traffic congestion, and will be able to capture the best pictures. See schedules posted at shuttle stops.

Get Outdoors with Yosemite Conservancy
Are you looking for a memorable way to explore the park? Go on a Custom Adventure with Yosemite Conservancy! These personalized guided programs are offered year-round, and are tailored to your interests and schedule. For details, visit yosemiteconservancy.org/adventures, or call (209) 379-2317, ext. 10. See page 6 for more ways to get outside with the Conservancy.

FAMILY FUN
Stroll with a Ranger
Learn about the wonders of the park on a ranger-guided stroll. Programs are offered daily throughout the park on various topics including bears, waterfalls, and more. See pages 5, 6, and 7 for details.

Explore Like A Junior Ranger!
Become a Junior Ranger and learn how you can help protect your park. To become a Junior Ranger, purchase a self-guided booklet, attend a guided program, collect a bag of trash, then take your oath and earn your badge. Guided programs listed on page 5.

Ice Rink at Half Dome Village
Take the shuttle to Half Dome Village for a one-of-a-kind ice skating experience with a spectacular view of Half Dome. The ice rink opens November 16, conditions permitting, and will be open daily from 3:30pm to 6pm and 7pm to 9:30pm. On weekends and holidays, the ice rink is open from 8:30am to 11am, in addition to the daily hours.

Curl Up in Front of a Fireplace
The Majestic Yosemite Hotel has three grand fireplaces that have always provided heat to offset the year’s most frigid temperatures. Bring a book and a warm drink and find a cozy niche in front of the fire, the perfect place to warm your hands and toes.

Access for People with Disabilities

Discover Yosemite
Let your curiosity guide you to new places

Yosemite Valley
Yosemite Valley is world-famous for its impressive waterfalls, cliffs, and unusual rock formations. It is open year round and may be reached via Highway 41 from Fresno, Highway 140 from Merced, Highway 120 West from Manteca, and via the Tioga Road (Highway 120 East) from Lee Vining. The Valley is known for massive cliff faces like El Capitan and Half Dome, its plunging waterfalls including the tallest in North America, and its attractive meadows. While Yosemite Falls will be dry until rain and snow recharge it, a moderate hike will take you to Vernal and Nevada Falls. Yosemite’s meadows are great places to see wildlife and to photograph fall and winter scenery. Admire El Capitan, the massive granite monolith that stands 3,593 feet from base to summit. Whether you explore the Valley by foot, car or with a tour, the scenery will leave you in awe and eager to see what’s around the next corner.
GLACIER POINT ROAD
Glacier Point, an overlook with a commanding view of Yosemite Valley, Half Dome, and Yosemite’s high country, is located 30 miles (1 hour) from Yosemite Valley. The road stays open as weather permits, however, overnight parking along it ends October 15. Glacier Point Road closes beyond the Yosemite Ski and Snowboard Area after the first significant snow fall. When the road is snow-covered and conditions permit, a system of cross-country ski tracks are maintained on it. From Yosemite Valley, take the Wawona Road (Highway 41), then turn left onto Glacier Point Road. At Glacier Point, when the road is open, a short, paved, and wheelchair-accessible trail takes you to an exhilarating view looking down 3,214 feet into Yosemite Valley.

WAWONA AND MARIPOSA GROVE
The Mariposa Grove of Giant Sequoias is located 36 miles (1¼ hours) south of Yosemite Valley via the Wawona Road (Highway 41), two miles from the park’s south entrance station. See page 7 for when and how to visit the Mariposa Grove of Giant Sequoias. The nearby Pioneer Yosemite History Center in Wawona is a collection of historic buildings associated with people and events that shaped the national park idea in Yosemite. For more information about hiking trails in the Wawona area, visit the Wawona Visitor Center at Hill’s Studio, adjacent to the Big Trees Lodge. This was once a painting studio for the 19th-century artist Thomas Hill.

CRANE FLAT AND TUOLUMNE GROVE
Crane Flat is located 16 miles from Yosemite Valley at the junction of the Big Oak Flat and Tioga Roads. A number of hikes through pleasant meadows are available—when snow covers the ground these turn into delightful ski and snowshoe tracks. To see giant sequoias, park at the Tuolumne Grove parking area located on the Tioga Road, and walk one steep mile down to the Tuolumne Grove of Giant Sequoias. Or, park at Merced Grove trailhead and walk two steep miles down to this small grove. These groves north of Yosemite Valley are smaller than the more-famous Mariposa Grove, but are quieter and off limits to vehicles. Remember that the walk down is easier than the walk up back.

TUOLUMNE MEADOWS AND TIOGA ROAD
The Tioga Road offers a 39-mile scenic drive past forests, meadows, lakes, and granite domes. The road closes after the first big snowfall, and overnight parking ends October 15. The road’s elevation ranges from 6,200 feet to just under 10,000 feet. Tuolumne Meadows embodies the high-country of the Sierra Nevada. The Wild and Scenic Tuolumne River winds through broad sub-alpine meadows surrounded by granite domes and peaks. It is the jumping off place for countless hikes, whether you venture out for a day or a week. In winter, Tuolumne Meadows is often reached by skiers via the Snow Creek Trail from the Mirror Lake trailhead, a short distance east of Yosemite Valley.

HETCH HETCHY
Hetch Hetchy Reservoir, a source of drinking water and hydroelectric power for the City of San Francisco, is home to spectacular scenery and the starting point for many wilderness trails. The area’s low elevation makes it a good place to hike in autumn and winter. The Hetch Hetchy Reservoir is located 40 miles (1½ hour) from Yosemite Valley via the Big Oak Flat Road (Highway 120W) and the Evergreen Road. The Hetch Hetchy Road is open from 8am to 7pm through October 31, then 8am to 5pm through March 31. Wilderness permits for the Hetch Hetchy trailheads and bear canisters are available at the entrance station from 8am to 5pm. Vehicles and/or trailers over 25 feet long, and RVs and other vehicles over 8! feet wide are not permitted on the narrow, winding Hetch Hetchy Road.

DID YOU KNOW:
- There are over 800 miles of trail in Yosemite National Park alone.
- The Pacific Crest Trail (PCT) was conceived in 1932 by Clinton Churchill Clarke, received official trail status under the National Trails System Act of 1968, but was not completed until 1993.
- The PCT is 2,659 miles long, a portion of which passes through Yosemite National Park, and ranges from around sea level to 13,153 ft. of elevation at Forester Pass, located on the boundary of the Sequoia & Kings Canyon National Parks.
- The National Historic Trails System now includes 30 Scenic and Historic Trails, including the Pacific Crest Trail, Appalachian Trail, Continental Divide Trail, the Trail of Tears, the Nez Pierce Trail, and others.
- There are over 1,300 National Recreational Trails, including a National Water Trails system. They occur in all 50 states. Do you know where your nearest National Water Trail is located?

WINTER WEATHER AND DRIVING IN YOSEMITE
The Tioga, Glacier Points, and Mariposa Grove Roads are closed each year from after the first significant snowfall to late May or early June. Other roads are generally plowed and maintained, but can close or present delays during storms. Motorists are advised to always carry chains and check weather and road conditions before travel. icy and wet roadways can exist throughout the park! To check road conditions, call (209) 372-0200 for roads inside the park and (800) 427-7623 or visit www.dot.ca.gov for highways connecting to Yosemite, outside the park.

Chain Control Information:
You must have tire chains or cables in your possession when entering a designated chain control area, even if you’re driving a four-wheel drive or rental vehicle.

- R1 - Chains Required, unless you are driving a car, pickup truck, or SUV weighing less than 6,000 pounds AND your auto or pickup has mud/snow tires installed. (look for “M+S” on the wall of the tire)
- R2 - Chains Required, unless you are driving a car, pickup truck, or SUV weighing less than 6,500 pounds AND your car has snow tires installed on all four wheels AND has four-wheel drive or all-wheel drive engaged.
- R3 - Chains Required, on ALL vehicles (chains on 2 wheels of a 4-wheel drive).
Yosemite Valley
Spectacular vistas in the heart of the park

Yosemite Valley Visitor Center and Bookstore
The Yosemite Valley Visitor Center and Yosemite Conservancy Bookstore are open from 9am to 5pm. They are located west of the main post office, near shuttle stops #5 and #9. The facility offers information, maps, and books. Explore the exhibits and learn how Yosemite’s landscape formed and how people interact with it.

YOSEMITE FILMS
Two films are shown daily, every half-hour beginning at 9:30am (except on Sundays when the first showing is at noon). The last film shows at 4:30pm. Ken Burns’ Yosemite: A Gathering of Spirit plays on the hour and The Spirit of Yosemite plays on the half-hour in the Theater behind the Yosemite Valley Visitor Center.

Wilderness Center
Open 8am to 5pm. Visit the wilderness center to learn about wilderness safety, plan trips, obtain wilderness permits and maps, and rent bear canisters. The Valley Wilderness Center is located in Yosemite Village in between the post office and The Ansel Adams Gallery. The center will close for the season on October 21 and then permits and bear canisters will be available at the Yosemite Valley Visitor Center daily from 9am to 5pm.

Yosemite Museum
Located in Yosemite Village next to the visitor center. The museum is open daily from 9am to 5pm, may close for lunch.

EXHIBIT
The Museum Set: 45 Ansel Adams Prints
September 21, 2018 - November 25, 2018
This exhibit features prints that were selected and made by Ansel Adams as part of the Museum Set Edition of Fine Prints. Open daily from 10am to 4pm.

INDIAN CULTURAL EXHIBIT
Open daily from 9am to 5pm. Explore the living cultural history of Yosemite’s native people. See Indian cultural exhibits and daily demonstrations of stone tool making, basket weaving, beadwork, and flutes. Follow a self-guided accessible trail through an active re-constructed Miwok Village behind the museum to learn about significant plants and structures.

YOSEMITE MUSEUM STORE
The store offers traditional American Indian arts, crafts, jewelry, and books. Open 9am to 5pm, may close for lunch.

NEW EXHIBIT
A Continuing Legacy in Yosemite Romanticism
New Oil Paintings by James McGrew
September 8, 2018 - November 25, 2018
This exhibition embraces not only our own roots as one of the longest running businesses in any National Park, but also pays homage to the role that art has had in the establishment of some of our most sacred lands.

In the early days of Yosemite’s preservation and establishment, famous artists who painted the Yosemite landscape were most influenced by the popular genres of Romanticism, Barbizon and Hudson River Schools. Such early paintings coupled with photography helped to establish Yosemite as a protected area for public enjoyment. Likewise, artist’s images helped establish other early national parks and preserves like Yellowstone, Zion and Grand Canyon. In 1902 Landscape painter Harry Cassie Best first established the studio/gallery in Yosemite that would later lead to the Ansel Adams Gallery. Working to carry on on the historic legacy of inspiring connections and preservation, James McGrew paints in a style reminiscent of Yosemite’s early artists, though uniquely his own and influenced by his background in natural sciences and a life-long love of Yosemite.

From the grand iconic views and features to less well known aspects of the park, McGrew interprets Yosemite through a diversity of perspectives depicting changing seasons. The show will consist of oil paintings produced throughout the past year, mostly painted en plein air. Like the historic artists, McGrew also used his plein air studies to create the larger studio works included in the exhibit. The artist has said of his work: “My goal is to convey not only a faithful visual representation of Yosemite throughout its many moods, majestic grandeur, light, atmosphere, but more importantly to interpret the emotion I felt while experiencing the events depicted in the paintings.”

“A Continuing Legacy in Yosemite Romanticism” will open at The Ansel Adams Gallery on October 8 and run through November 25. A reception for the artist will be held on October 24 and Mr. McGrew will be in attendance. We hope to see you there!

To conclude 2018, we will display photographic work by Ted Orland, who has worked alongside Ansel Adams, Sally Mann and David Bayles just to name a few. This exhibition, “Unexpected Landscapes:” will open on November 26th, with a reception for the artist on December 1 from 3-5pm at the gallery.

Experience Your America Yosemite National Park

Experience Your America Yosemite National Park

Experience the Incomparable Yosemite Valley
Yosemite Valley embraces one of the world's most outstanding concentrations of waterfalls, granite walls, meadows, wildflowers, and trees. The Valley also harbors a rich collection of human stories, from American Indian lore to the birth of the National Park movement.

Yosemite in Winter

NATURALIST PROGRAMS
Naturalists give talks and walks about Yosemite's natural and cultural history, every day. See page 5 for scheduled walks, talks, and evening programs.

WALKING AND HIKING
Yosemite Valley has a wide range of walking and hiking possibilities. Stop by a visitor center for trail maps and current trail conditions, or see page 9 for a list of popular Valley hikes.

SIGHTSEEING
Some of the famous landmarks in Yosemite Valley include:
• Lower Yosemite Fall is an easy 30-minute loop trail starting from shuttle stop #6. (Yosemite Falls will be dry until rain and snow return.) This hike features educational exhibits and a picnic area, and is accessible to the mobility impaired.
• Bridalveil Fall is a year-round waterfall that can be visited on your way into or out of the Valley. Winds, swirling about the cliff, blow the wispy water into a delicate free-fall.
• El Capitan is a massive granite monolith that stands 3,593 feet from base to summit. From spring to fall, climbers come from all over the globe to scale El Capitan. Please stay on foot paths to avoid damaging delicate meadows.
• Half Dome, Yosemite's most distinctive monument dominates most views in Yosemite Valley. Forces of uplift, erosion from rivers and glaciers, and rockfall all shaped this iconic feature into what we see today. Cook's Meadow, Sentinel Bridge and Glacier Point all provide stunning views of Half Dome.
• Happy Isles is easily reached by the free shuttle bus at stop #16. Cross the footbridges onto the Isles or wander through outdoor exhibits detailing Yosemite's geologic story. Shuttle busses may not go to stop #16 when road is icy.
• Tunnel View, along the Wawona Road (Hwy 41), provides a view that showcases Yosemite Valley. Capture breathtaking views of El Capitan, Bridalveil Fall and Half Dome. It is particularly spectacular at sunset or after the clearing of a storm.

TOURS
Tours listed depart from Yosemite Valley Lodge, weather permitting. Inquire at the Tour and Activity Desk in the Yosemite Valley Lodge between 7:30am and 3pm.

The Valley Floor Tour is a 26-mile, two-hour, guided tour of Yosemite Valley. It departs several times daily. The four-hour Glacier Point Tour departs at 8:30am and 1:30pm. For information call (209) 372-1240.

YOSEMITE ART CENTER (YC)
Join Yosemite Conservancy for a range of activities at Happy Isles Art and Nature Center. Learn from a professional artist, stop by family-friendly crafts and activities, browse supplies and original artwork, and more. The center is open Monday through Saturday, 9am to 4pm, closed Sunday, through the end of October. Upcoming programs include:

Oct 1 - 6 Nature Drawing for Beginners with Sean Edgerton
Oct 8 - 13 Autumn Watercolor for Beginners and Returnees with Steve Carl
Oct 15 - 20 Nature Up Close: Painting Natural Specimens with Fiorella Ikeue
Oct 22 - 27 Nature Up Close: Painting Natural Specimens with Fiorella Ikeue

Daily art classes for ages 12 and up are taught by volunteer instructors Monday through Saturday, 10am to 2pm. To learn more and register for any of our art programs, visit yosemit conservancy.org/art, contact us at (209) 372-0631 or artcenter@yosemit conservancy.org, or visit us at Happy Isles.

Yosemite Conservancy outdoor adventures offer a park experience in a new way with Yosemite Conservancy's naturalist guides! Upcoming outings include:

Oct 5 - 7 Backpack to Half Dome: One-Night Summit Express
Oct 18 - 21 Yosemite Photography: Capturing the Autumn Light
Nov 17 Yosemite Birding: The Day of the Woodpecker
Dec 22 Full Moon Hike in Mariposa Grove

To learn more and to sign up, visit yosemit conservancy.org/adventures or call (209) 372-2317, ext. 10. Custom Adventures can be arranged for individuals and groups. Proceeds from all our programs help preserve and protect Yosemite.

The center will close for the season on October 15 and then wilderness permits will be available for the Tuolumne Meadows and Tioga Road trailheads by self-registration on the front porch.
ENJOYING AUTUMN IN YOSEMITE

Autumn in Yosemite is an exciting time for outdoor enthusiasts. Lighting is gentle but colors are vibrant, temperatures are comfortable, and a gentle dusting of snow provides attractive accents to the rugged high Sierra Nevada. Rapid weather changes add to the excitement but also increase our need to prepare for weather extremes.

Fall may create some outstanding outdoor opportunities but can also pose unique challenges. With days becoming shorter, it is important to plan outdoor activities accordingly. Always carry a flashlight and/or headlamp in case you’re out late.

WEATHER

Comfortable daytime temperatures can drop with little warning. Unexpected storms can brew quickly, bringing wind, rain or snow down to the valley floor. Prepare for potential weather changes. To avoid hypothermia, dress in layers. Be able to add or reduce layers as follows:

- Base layer – synthetic, wool, or silk, never cotton. This layer will pull moisture away from your skin so that you will feel dry.
- Mid layer – insulation to keep warm. Many outdoor enthusiasts enjoy fleece or wool.
- Outer layer/shell – protects you from rain and snow. Newer materials are designed to reduce sweating and keep you dry.
- Hat – to keep your head warm and dry. A good knit hat that is long enough to cover your ears can make a big difference.
- Shoes – sturdy hiking boots that will protect your feet from getting wet. Thick wool or synthetic socks help keep your feet warm and dry. Boots should not be tight or you will lose circulation which will make your feet cold. Carry extra socks.
- Gloves – Keep a pair or two in your pack in case you need to keep your hands warm.

RIVERS AND STREAMS

Swift water is dangerous any time of year, even during low flow. Do not be deceived. Yosemite’s streams have strong currents and are best enjoyed from the safety of the trail or other developed areas.

YESEMIÈRE’S ROADS

Yosemite’s roads are just as dangerous as in your home town, however, other hazards such as rock fall, distracted motorists, and abundant wildlife are many sites to distract you. If you cannot devote 100% of your attention to your driving, please pull completely off the road into designated pull-offs and parking areas. Buckle up! Park rangers enforce California’s Motor Vehicle Code on park roads. Also, as we approach the winter months, be mindful of icy road conditions.

FOR ALL SEASONS

- Stay on established trails – do not take trail shortcuts or approach the water. Almost all of Yosemite’s non-traffic related serious injuries occur off trail.
- Rock scrambling – leave this to the critters.
- Water and food – Stay hydrated and snack frequently – take extra food and water.
- 10 hiking essentials – including a flashlight, sunglasses, sunscreen, navigation, and a signaling method (mirror and whistle).
- Let someone know – leave travel plans, including intended route and estimated time of return, with a trusted person.

TREE HAZARD AWARENESS

Diseases, insects, soil moisture, wind, fire, and snow combine with human activities to create hazard trees (trees with outwardly visible defects that could fall and strike a person or property). While the National Park service seeks to identify and reduce threats from hazard trees, trees without apparent defects also fail, and tree hazards cannot always be immediately identified and mitigated. Several catastrophic tree failures have left visitors seriously or fatally injured in Yosemite, in addition to property damage totaling over $1,000,000. Be aware of your surroundings, especially away from developed areas, and keep in mind that trees may fail at any time.

FIRE RESTRICTIONS

Due to high fire danger and continued hot and dry weather, Yosemite National Park is under fire restrictions. Campfires are allowed only in designated campgrounds and picnic areas. Portable stoves are permitted throughout the park. Smoking except within an enclosed vehicle, a building which allows smoking, a campground where wood fires are allowed, or a designated smoking area. Call (209) 372-0200 or email yose.fire.info@nps.gov if you have question or wish to talk to a ranger.

PLAGUE

Plague is a rare but serious disease spread to humans via the droppings, urine, or saliva of infected rodents. Not all rodents are infected with hantavirus, but infected rodents have been found throughout the US. You may come into close proximity to rodents during your visit, so it is important you take steps to protect yourself from HPS. HPS risk is greater inside of buildings or other enclosures where deer mice are present. If staying in guest lodging, please tell the housekeeping staff if you see evidence of mice in your accommodations. Do not clean up the area yourself. Keep doors to guest lodging shut and do not bring food into your cabin that is not in a sealed container. If you are camping and backpacking, do not pitch tents near rodent burrows or droppings. HPS begins with flu-like symptoms such as fever, and chills, one to seven weeks after exposure, progressing to cough and difficulty in breathing. Seek medical attention if you experience these symptoms and mention any rodent exposures to your physician. For more information on hantavirus and other environmental safety hazards visit: http://www.nps.gov/yose/planyourvisit/yoursafety.htm.

HANTAVIRUS INFORMATION

PROTECTING YOURSELF...

Keep yourself safe while exploring your park.

There are many ways to experience the wilderness of Yosemite. While the forces of nature can create unexpected hazardous conditions, with a little common sense and some pre-planning, you can minimize the risks associated with many activities.

- Gloves – Keep a pair or two in your pack in case you need to keep your hands warm.
- Waterproof outer layer/shell – protects you from rain and snow. Newer materials are designed to reduce sweating and keep you dry.
- Thick socks – keep your feet warm and dry. Boots should not be tight or you will lose circulation which will make your feet cold. Carry extra socks.

Keeping Bears Wild

Yosemite bears may still be active during winter months. Please, keep Yosemite’s bears wild and alive, while protecting yourself and your property.

**BEARS IN YOSEMITE**

You may not see a bear during your visit because they naturally avoid people. However, if you see one in a developed area, act immediately to scare it away. Make noise and yell. If in a group, stand together to present a more intimidating figure, but keep your distance (at least 50 yards, or about the distance made by four shuttle buses parked end to end). If you get too close, you will be helping the bear become used to being around people. Bears that close, you will be helping the bear become习惯了 seeing people. If you see a bear, do not surround the bear. If you see a bear anywhere else, consider yourself lucky—do not surround it. If you see a bear in the wilderness, consider yourself lucky—do not surround it. If you see a bear in the wilderness, it is likely that it is not used to being around people. Bears that are used to being around people and are not afraid of them are dangerous and may attack humans. If you see a bear, do not approach it. If you see a bear, do not approach it. **YOSEMITE GUARDIANS**

Visitors to Yosemite National Park are the park’s most important guardians. With nearly 4 million people watching over its special plants, animals, historic, and archeological sites, imagine how well-protected these park resources could be!

During your visit to Yosemite be aware that there are people who either unknowingly or intentionally harm park resources. Please contact a park official if you see any of the following illegal acts:

- Feeding or approaching wildlife
- Collecting plants
- Hunting animals
- Collecting reptiles and butterflies
- Picking up archeological items, such as arrowheads
- Using metal detectors
- Driving vehicles into meadows
- Biking off of paved roads
- Camping outside of designated campgrounds
- Possession of weapons inside federal facilities
- Possessing or using marijuana, including medical marijuana
- Operating an unmanned aircraft system (“drone”)

If you see activities that could harm people or park resources, jot down any descriptions or a vehicle license plate number and call the park dispatch office at (209) 379-1992.

**FOR MORE INFORMATION**

To find out more about Yosemite National Park regulations visit www.nps.gov/yose/planyourvisit/ylsafety.htm and find a copy of the Superintendent’s Compendium. This document is a compilation of designations, closures, permit requirements, and other restrictions made by the superintendent, in addition to what is contained in Title 36 of the Code of Federal Regulations (Chapter 1, Parts 1 through 7 and 34), and other applicable federal statutes and regulations.

As you walk a trail by the river, consider the reflection in the tumulting current. Along with the cloud-feathered sky, swaying grasses and willows, and inspiring sweep of patterned rock masses, in 2018 we reflect on the foresight of leaders in the past. Fifty years ago, the United States Congress passed two important laws. The Wild and Scenic Rivers Act declared that “dams and other construction...be complemented by a policy that would preserve...selected rivers...in their free-flowing condition.” The Biota and beauty of this park are inseparable from those two veins of life---the Tuolumne River to the north, and the Merced River to the south.

The rivers of Yosemite National Park carry important stories. Both the Merced and Tuolumne Rivers flow through valleys, plains, and meadows lived in for many thousands of years by indigenous people who continue to protect, steward, and enjoy them. Both feature outstanding stair-step geologic features, including waterfalls. Both rivers support vibrant and unique plant and animal communities as they descend through the Sierra Nevada.

That same year, in 1968, Congress passed another law, this one promoting the free-flowing condition of human beings on trails. The National Trails System Act promotes our universal access to trails, which can be designated scenic, historic, or for recreation. The Act officially selected the Pacific Crest Trail (PCT) as a National Scenic Trail. Connecting Mexico to Canada, this footpath flows right through Yosemite National Park, from Donahue Pass in the southeast, through Tuolumne Meadows, deep into the northern park wilderness.

“Walking on trails we become like rivers, pouring through channels of discovery. Beyond each step and bend we encounter the strange and wonderful...”

Not all stretches of stream or parts of trail fall under these legal categories, but all trails and all rivers carry stories for those who will listen. Some connect us to the Buffalo Soldiers in the U.S. Army who cared for this place and built trails when the park was new-born. Other trails have borne people for thousands of years through these mountains, travelling to trade, meet, and enjoy. Sometimes we find ourselves on animal trails, our feet and minds sharing intentions with wild creatures we may never see.

Walking on trails we become like rivers, pouring through channels of discovery. Beyond each step and bend we encounter the strange and wonderful; plants and animals, our own deepest thoughts, and the hard work and intentions of people that passed this way before we become companions.

Both the Wild and Scenic Rivers Act and the National Trails System Act protect rivers and trails not only for us, but for people of the future. For the sake of our future, and to honor these veins of connection, we do all we can to keep our trails and rivers clean and strong:

- Always travel 200 feet from any water or trails before peeing or pooping in the wilderness. Never burn, bury, or leave behind toilet paper--bring a bag and always pack it out!
- Keep your feet on the trail, not beside the trail. If you travel off trail, do so with care and intention--spread your group out so that a new trail does not form behind you.
- Never use soap, and refrain from applying chemicals to your body before swimming or dipping in the clean water of Yosemite National Park.
- Beauty is in the eye of the beholder. Don’t worry about the “best” trail or “best” photo spot; be ready to discover your best self, and all will open up before you.

These places are not protected by accident but by the effort. We leave them to future generations so that the stories, beauty, and opportunities for discovery and adventure remain.

Fun Facts about Yosemite Rivers & Trails:
- Yosemite National Park features 2 Wild & Scenic Rivers, the Tuolumne & Merced. The Merced River’s designation includes not only the stretch that flows through the Yosemite Valley, but also the South Fork of the Merced.
- The headwaters of both the Tuolumne and Merced Rivers begin on different slopes of the tallest peak in Yosemite National Park, Mount Lyell (13,114 ft.). Find it on your park map!
- Try it! Trace the three rivers, the Merced, the South Fork of the Merced, and the Tuolumne on your map in colored ink. Next, trace their tributaries. See how far upstream you can trace. Compare the land that drains into these rivers and streams to the park boundary.
- There are over 1,300 National Recreational Trails, including a National Water Trails system. They occur in all 50 states.

“Nothing is more a journey of miles, no matter how long, but only by a spiritual journey, a journey of one mind, in order to be a human being, in order to reach the ground that is our free will, and to learn to be at home.”

—Wendell Berry, The Unforeseen Wilderness: Kentucky’s Red River Gorge
Supporting Your Park
Providing for Yosemite’s Future

ENHANCE THE VISITOR EXPERIENCE
It takes a legion of people working together to protect this special park for you and future generations of visitors. You too can extend your connection to Yosemite well after you return home by getting involved with the organizations that partner to preserve Yosemite.

This publication was made possible by the Yosemite Park Partners listed on this page. Read more below or visit www.yosemitepartners.org to learn more about helping these organizations provide for the future of Yosemite National Park.

The Ansel Adams Gallery
The Ansel Adams Gallery, owned by the family of photographer Ansel Adams since 1962, is a center that celebrates the arts and the natural grandeur of our environment. It cultivates an aesthetic appreciation and concern for our world by offering visitors a unique variety of literature and art, as well as programs that inspire creativity. Visit online at: www.anseladams.com.

Yosemite Hospitality LLC
Yosemite Hospitality, a subsidiary of Aramark, operates lodging, food and beverage, retail, recreational activities, tours, interpretive programs, transportation, and service stations under contract with the U.S. Department of Interior with a focus on delivering authentic and memorable guest experiences. Yosemite Hospitality is committed to providing park stewardship in collaboration with the National Park Service in effort to protect and preserve the park for millions of park visitors to enjoy. Visit www.TravelYosemite.com for more information.

Nature Bridge
NatureBridge provides residential field science programs for youth in the world’s most spectacular classroom—Yosemite National Park. Through active student engagement, our faculty teaches science, history, and the arts and gives these subjects context through personal experience. A NatureBridge learning adventure strives to foster a life-long connection to the natural world and responsible actions to sustain it. Find out more about our year-round programs for schools and summer programs for individual teens at www.naturebridge.org/yosemite

Yosemite Conservancy
Yosemite Conservancy inspires people to support projects and programs that preserve Yosemite National Park and enrich the visitor experience. Thanks to generous donors, the Conservancy has provided $119 million in grants to the park to restore trails and habitat, protect wildlife, provide educational programs, and more. The Conservancy’s guided adventures, volunteer opportunities, wilderness services and bookstores help visitors of all ages connect with Yosemite. Yosemite Zero Landfill Initiative
Help make Yosemite the first Zero Landfill park in the country. Through the Zero Landfill Initiative, Yosemite is reducing the amount of trash sent to the landfill every year. In partnership with Yosemite Hospitality, we are making it easier to participate by adding more recycling containers with better labels.

Here are 3 things you can do to help:
1. Toss excess packaging before leaving home by repacking food in reusable containers.
2. Use a refillable water bottle/travel mug/ Camping/ Use refillable propane canisters.

UPLAND ECOLOGICAL RESTORATION PROJECT
The Upland Ecological Restoration Project is a land stewardship program that maintains the integrity of Yosemite's upland forests. Yosemite Conservancy is working with the National Park Service and partners to restore the upland forests of Yosemite National Park.

Yosemite's Trails
Over the past year, Yosemite Conservancy has added 37 miles of trails to Yosemite National Park. These new trails provide access to the park’s remote areas and lush backcountry.
