What To Do if Tickets Are Sold Out

Visitors who are not able to get a shuttle bus ticket can explore other areas of the park such as the East Side via Zion-Mt. Carmel Highway, Kolob Canyons, or the Kolob Terrace road to Lava Point. Walking the Scenic Drive is long and not recommended. Consider renting a bike or contacting one of the authorized private shuttle companies below:

Rent a Bicycle or E-Bike

Bikes are available to rent from outfitters in the communities around the park, including several in Springdale. Bicycles are welcome on the mostly level Pa’rus trail, but not other trails. The Scenic Drive has 300 feet of gradual elevation change between Canyon Junction and Court of the Patriarchs but is relatively flat most of the way.

Ride bicycles single file. Pull bicycle over and stop to allow shuttle buses to pass as soon as it is safe to do so.

Hire a Commercial Shuttle

The businesses listed below are authorized to provide shuttle service on the Scenic Drive. Some offer private trips for individuals or groups. They can drop you off at a trailhead and pick you up when you are done. Ridesharing services are not allowed to transport the public into the park. Demand for private shuttles is high so expect long waits. Payment for services cannot be collected inside the park.

Flash Flood Danger

All narrow canyons are potentially hazardous. Flash floods, often caused by storms miles away, are a real danger and can be life-threatening. You are taking a risk when entering a narrow canyon. Your safety is your responsibility. Watch for indications of a possible flash flood. During a flash flood, the water level rises very quickly. A flash flood can rush down a canyon in a wall of water over twelve feet high.

Camping

Zion National Park has two campgrounds open: South and Watchman Campgrounds, both of which are by reservation only. Watchman Campground can be booked up to 6 months ahead and South Campground two weeks ahead. To make a reservation, visit www.recreation.gov or call 877-444-6777.

Group sites are closed until further notice. Camping is not permitted in parking areas or pullouts in the park.

Zion Tunnel: (Oversize Vehicles, RVs, Large Trailers)

Tunnel Control

It is $15 per oversize vehicle (includes two tunnel passes through within 7 days). Rangers will stop oncoming traffic so that you may drive down the center of the road in the tunnel. After hours you must return at 8 a.m. the following day to go through the tunnel.

TUNNEL HOURS:

- September 27 to Oct 31 from 8 a.m. to 6 p.m.
- Winter hours from 8 a.m. to 4:30 p.m.

PROHIBITED IN THE TUNNEL

- Single-axle vehicles over 40 feet in length
- Semi-trucks and commercial vehicles
- Vehicles carrying hazardous materials
- Vehicles over 50,000 pounds
- Combined vehicles or buses over 50 feet long
- Bicycles and pedestrians are not permitted in the tunnel and must obtain a ride. Hitchhiking is permitted. Rangers are not allowed to provide or arrange for transport through the tunnel.

Your Safety Is Your Responsibility

Whether hiking, climbing, or driving, your safety depends on your good judgment, preparation, and constant awareness. Safety supplies are available at the Zion Forever Park Store in the Visitor Center, including water bottles, face masks, sunscreen, and hats.

PREVENT DEHYDRATION

As you hike you lose water and salt through sweating. Carry water, at least one gallon per person per day. Water is available in the park’s developed areas. Do not drink untreated water from springs. Your body needs a healthy level of salt to function so eat a few salty snacks, like a handful of salted peanuts, when you drink water.

HYPOTHERMIA

Hypothermia occurs when the body is cooled to dangerous levels. It is responsible for the greatest number of deaths among people engaging in outdoor activities. It is a hazard in narrow canyons because immersion in water is the quickest way to lose body heat. To prevent hypothermia avoid cotton clothing (it provides no insulation when wet), and eat high energy food before you are chilled. The signs of hypothermia include uncontrollable shivering, stumbling and poor coordination, fatigue and weakness, and confusion or slurred speech. If you recognize any of these signs, stop hiking and immediately replace wet clothing with dry clothing. Warm the victim with your own body and a warm drink, and shelter the individual from breezes. A pre-packaged sleeping bag will also prevent additional heat loss.

ELEVATION

Elevation in Zion ranges from 4,000-8,000 feet (1,220 - 2,440 meters) above sea level. If you live near sea level, take it easy on your hike until you know how the elevation is going to affect you.

STEEP CLIFFS

Although many on trails have resulted in death. Loose sand or pebbles on stone are very slippery. Be careful of edges when using cameras or binoculars. Never throw or roll rocks because there may be hikers below you. Stay on the trail and away from cliff edges. Observe posted warnings and please watch children.

EMERGENCY Call 911

For 24-hour emergency response, call 911 or 435-772-3222. The Zion Canyon Medical Clinic is located in Springdale near the south entrance to the park.

For hours, please call 435-772-3226. Additional medical clinics are located in Hurricane. The nearest hospitals are in St. George, Cedar City, and Kanab.
