National Park Service

Explore the cultural history of America!

There are over 40 national heritage areas throughout the country. National heritage areas are designated by congress as places where natural, cultural, and historic resources combine to form a cohesive, nationally important landscape. National register travel itineraries can help you discover these historic destinations online or in person! These travel itineraries are based on properties listed in the national register of historic places. The itineraries spotlight different communities, geographic regions and themes across the country.

The national park service provides information on thousands of places significant in american history, architecture, archeology, engineering, and culture. Some are owned and operated by the national park service, some participate in the national heritage areas program, and many are properties listed in the
National register of historic places.

Let the nps help plan your travels.
Over 3,000 places in over 60 itineraries!

Gulf Coast Heritage Tours

Mississippi Gulf Coast National Heritage Area

ENHANCE • PROTECT • CONSERVE

The Mississippi Heritage Area program is intended to create and maintain a legacy of high quality recreation areas and facilities, to stimulate non-federal investments in the protection and maintenance of recreation resources.

The mission of the Mississippi Gulf Coast National Heritage Area is to promote understanding of and to conserve and enhance the heritage resources of the six counties of the Mississippi Gulf Coast by telling the area's nationally significant story through partnerships that celebrate the area's unique history, people, traditions, and landscapes.

700 Pass Rd, Gulfport, MS 39501
office@disabilityconnection.org

Gulf Coast Heritage Tours are designed to preserve and promote the heritage areas of South Mississippi, with emphasis on waterways, nature, history and art. The Heritage Tours will educate and connect the public to the beautiful heritage areas including cultural, historical, recreational, and scenic resources. Tours will focus on historic places and buildings, cultural identities, art galleries and museums, and natural resources.

Disability Connection has produced the Gulf Coast Heritage Tours project in partnership with Walt Grayson, featured state-wide host of Mississippi Roads and Look around Mississippi.

Please visit the Gulf Coast Heritage Tours tab at **www.DisabilityConnection.org** to see photos, video, more detailed information on heritage locations and drive-by heritage locations, and to identify barrier-free travel locations and special accommodations for those with disabilities.

The Gulf Coast Heritage Tours project has been made possible through the Mississippi Gulf Coast National Heritage Area grant from the Mississippi Department Of Marine Resources and the National Park Service.
