

Grand Canyon Village

North Rim

Enjoying Grand Canyon National Park

Perhaps no landscape on Earth is as surprising to the observer as the vast yet intricate face of the Grand Canyon. Over several million years the Colorado River has carved an immense chasm through this arid land. The layers of rock exposed in the canyon walls record much of the geologic history of North America.

It is the visual impact of the landscape that impresses most people. The world seems larger here, with sunrises, sunsets, and storms taking on an added dimension to match the landscape. It is a land to humble the soul.

More than 100 years ago people began to realize that the canyon needed protection, if future visitors were to experience the natural wonder of this landscape. Although it was not without controversy, the U.S. Congress, expressing the will of the people, set aside Grand Canyon National Park in 1919. Sixty years later the canyon was declared a World Heritage Site to be preserved and protected, with the assent and support of the entire community of nations, for future generations as one of the greatest treasures of humankind. Please help us safeguard this special place by treating it with care and respect.

Welcome! The National Park Service is taking steps to enhance your canyon experience. Development continues on a transit system that will help you move around the park without the congestion, delay, and noise from traffic. Vehicle routes are being modified, and the park's alternative-fuel shuttle bus fleet is being expanded and made available to all, including visitors with accessibility needs. Together with you, we will protect this natural resource for future generations.

Use the park publication, *The Guide*, to find information you need to explore Grand Canyon. A copy is available at Canyon View Center.

In der Parkbroschüre, *The Guide*, finden Sie Karten und Informationen, die Sie benötigen, um den Grand Canyon zu entdecken. Eine deutsche Version ist im Canyon View Center erhältlich.

Utilize la publicación del parque, *The Guide*, para encontrar los mapas e información que usted necesita para explorar el Grand Canyon. La edición en español está disponible en Canyon View Center.

Utilisez la publication du parc, *The Guide*, pour obtenir les cartes et les informations dont vous avez besoin pour explorer le Grand Canyon. Une édition française est disponible à Canyon View Center.

Getting Around/Free Shuttle Bus On the South Rim parking spaces are difficult to find in the busy season. Easy transportation is available on the free shuttle bus system. Check *The Guide* for route maps, schedules, and stops.

Planning Your Visit To plan your visit take the free shuttle bus from your parking lot to Canyon View Information Plaza. Information, publications, exhibits, a list of activities, and answers to your questions are available here.

South and North Rims Although the South Rim and North Rim are only 10 miles apart as the raven flies, they are separated by more than 215 miles of road. South Rim elevation is about 7,000 feet, with temperatures in the 50s-80°F in summer and the 20s-50°F in winter. The North Rim, 1,000 feet higher, is about 10°F cooler than the South Rim. The South Rim is open all year. The North Rim is usually open mid-May to mid-October. Winter snow closes the North Rim and often blankets the South Rim for short periods. See *The Guide* for a listing of services. For weather conditions, call 520-638-7888.

Accessibility Ask for the *Accessibility Guide* at entrance stations or at Canyon View Information Plaza.

Park Programs See *The Guide* for a listing of free ranger-guided activities available on both rims.

Lodging Lodging on both rims fills quickly. If you do not have overnight reservations, get them as soon as you arrive. Lodging is available outside the park; consult *The Guide* or contact local chambers of commerce. Phantom Ranch at the river is accessible only by foot, raft, or mule; reservations are made up to two years in advance.

Advance lodging reservations: Amfac Parks and Resorts, 14001 East Iliff, Suite 600, Aurora, CO 80014, 303-297-2757, www.amfac.com.

Food Food service is available in the park. See *The Guide*.

Camping Camping is limited to established campgrounds. Staying overnight at overlooks and parking lots is not permitted. Desert View campground, 25 miles east of Grand Canyon Village, is open in the summer and is first-come, first-served; no hookups. Nearby camp-

grounds are listed in *The Guide*. Advance camping reservations: South and North Rim campgrounds without hookups, 1-800-365-2267. Trailer Village on the South Rim with hookups, 303-297-2757.

Hiking For rim walks, inner canyon dayhikes, and hiking safety tips, see *The Guide*. A backcountry permit is required to camp below the rim; a fee is charged. Get permits in advance. To get a *Backcountry Trip Planner*, write to the park address or check our web site: www.nps.gov/grca. Submit completed applications by mail, in person, or by fax: 520-638-2125.

Mule Trips and Other Tours Mule trips enter the canyon from the South and North Rims. Reservations are recommended. Other activities such as bus tours, air tours, and rafting are possible with advanced planning. See *The Guide* or the *Trip Planner* for more information.

Safety and Regulations •Stay on trails and back from cliff edges. •Stay away from the rim during lightning storms. •Restraining pets. Pets are permitted only above the rim and in developed areas. •All vehicles, including mountain bikes, are restricted to maintained roads. •Do not hike into the canyon unless you are carrying sufficient food and water, and wearing adequate sun protection, clothing, and footwear. •Avoid overexertion at high elevations. Drink plenty of fluids. •It is illegal to feed deer, squirrels, or any other animals in the park.

Grand Canyon National Park is a unit of the National Park System, one of more than 380 areas that are important examples of our nation's natural and cultural heritage. The national park is a U.S. fee area with charges for entering the park and for camping.

For More Information and to Plan for Future Visits Make reservations as far in advance as possible for mule rides, backcountry hikes, river trips, lodging, and camping. To get a *Trip Planner* or the *Backcountry Trip Planner*, contact the park or visit www.nps.gov/grca.

Grand Canyon

About the map
Line work derives from USGS 1:100,000-scale Digital Line Graph (DLG) data. The background image is a composite of nine Thematic Mapper satellite images (bands 2, 4, and 7) taken from 423 miles above the Earth between May and August 1993. Colors are enhanced to appear natural. Green represents vegetation; the snow-capped Kaibab Plateau is white; and, surface geology is depicted by yellow sandstones, light gray limestones, and dark gray volcanic formations.
