### JOIN THE SALUTE TO THIS HISTORIC LANDMARK

Witness the majesty and exquisite beauty of the Fordyce Bathhouse for yourself this May 11 - 14. Over 5 million dollars have been spent by the National Park Service in the restoration of the Fordyce. This also includes exhibits and services for future park visitors as the bathhouse officially becomes Hot Springs' new visitor center. And to commemorate the dedication of this 1915 historical landmark, we invite you to be a part of our four day celebration focusing on the patriotism and Americana of the early 1900's. It promises to be a wonderful time to reflect our country's heritage and celebrate the rebirth of a legend.

### RELIVE A TREASURED MOMENT OF AMERICAN HISTORY

The Fordyce was the most elegant of the famous bathhouses which stood along Bathhouse Row. These beautiful structures gave Hot Springs its early reputation as America's preeminent spa. Now you can also savor the romance and magnificence of this era.

### BEAUTIFULLY RESTORED STATUARY, CARVINGS, AND TILE

Architecturally crafted in the Spanish Renaissance style, the Fordyce is filled with sculpture and fine carvings guaranteed to whet your cultural appetite. Here you'll discover exceptional classical art designed in stone combined with tapestry brick. You'll walk on beautiful marble and ceramic tile throughout the bathhouse's interior.

### CLASSIC BATH HALL

Next, you'll want to visit the great bath hall, modeled after those of ancient Rome. This was the center piece of the Fordyce's interior beauty, and male bathing regimen, as well as the male social center. While there, you can see the cleansing Hot Springs water as it flows from the historic-sculptured fountain of Hot Springs' discoverer, Hernando DeSoto.

### WORKOUT ROOM

See this 1900's gymnasium, restored to its paneled elegance, amazingly well-equipped, compared to today's standards.

### STAINED GLASSWORK OF IMPRESSIVE SCALE

See the intricate stained glass ceilings in the great bath hall constructed of approximately 8,000 pieces of representational glass artwork. Or take a guided tour to the top floor of the Fordyce and enjoy the splendor of the beautiful sun parlor with its convex stained glass panels and exquisite tile floor. These magnificent works of art can now be viewed by the public for the first time in many years.
