Lady of the Lake

YEAR-ROUND SCENIC CRUISES

Lake Chelan . . . one of the world's cleanest and most scenic lakes, nestled in North America's deepest gorge. Over 50 miles long, this narrow fiord-like waterway extends deep into the heart of the North Cascades National Park and the Lake Chelan National Recreation Area, offering unequaled scenery and outdoor adventure. With a total depth of 1486 feet, the 3rd deepest lake in the U.S. is surrounded by the rugged snow-capped mountains and forests of the Glacier Peak and Lake Chelan-Sawtooth wildernesses.

Choose Your Season . . . from the cascading waterfalls, wildlife and fresh wildflowers of spring to the popular summer season. Or enjoy our most pleasant weather during the autumn apple harvest time. Discover 300 days of sunshine a year!
