CURRENT USE Emergency use only		ORIGINAL USE Shelter		CROSS REFERENCE NOCA Bldg. #1209 / I-4		NORTHING	
DANGER OF DEMOLITION? (SPECIFY THREAT) Closed to public		☐ YES ☐ NO ☒ UNKNOWN		SIGNIFICANCE		Eligible under Nat. Reg. Criterion C: significant as a distinct type of building. This is a good example of a 1930s-era USFS-designed backcountry shelter. It reflects the USFS design ethic of utilizing natural/native materials and siting structures with a sensitivity to the environment. Only a few regulation (designed and built according to USFS standards) shelters stand today within the North Cascades; most were removed by the USFS and NPS because of changing needs, philosophy and liability problems. This shelter possesses integrity of location, design, setting, materials, workmanship, feeling, and association.
