Orders will be accepted twice a year for this item.

The first ordering period will be from October 1st - 31st and the second ordering period will be from April 1st-30th.

Exchanges will be accepted if the requested size is in stock and available. If not, a refund will be issued to the account.

GARMENT CARE

100% Cotton

(Jeans)

- Machine wash cold
- Do not use bleach or fabric softener
- Tumble dry on low
- Touch up with warm iron (not t-shirts)

(Coveralls)

- Machine wash warm
- Do not use bleach or fabric softener
- Tumble dry warm
- Cool iron

100% Polyester

(Turtlenecks/Ties)

- Machine wash warm
- Do use bleach or fabric softener
- Tumble dry on permanent press setting, removing promptly
- Touch up with warm iron
- Dry clean every fifth wash to sharpen creases and maintain shape

Polyester/Cotton

(Poplin shirts/skirt/trousers/shorts)

- Machine wash warm
- Do not use bleach or fabric softener
- Tumble dry on permanent press setting, removing promptly
- Touch up with warm iron
- Dry clean every fifth wash to maintain

Acrylic

(Sweaters)

- Machine wash warm (inside out)
- Do not use bleach or fabric softener
- Tumble dry low or lay flat to dry and reshape

Nylon Fleece

(Vests/Jackets)

- Machine wash warm
- Do not use bleach or fabric softener
- Tumble dry low

Nylon Outerwear

(Windbreaker/Raincoat)

- Do not dry clean
- Machine wash cold - gentle cycle
- Use mild soap, rinse thoroughly
- Do not use bleach or fabric softener
- Tumble dry on low - do not iron

GORE-TEX®

- Machine wash in warm water using a mild soap
- Do not use bleach or fabric softener
- Drip-dry or tumble-dry without heat
- For soiled spots, use K2R or a similar product

Felt & Straw

(Hats)

- Hats should be brushed with a long, softly bristled brush
- If water soaked, let dry naturally
- Use commercial spot remover for stains - put on a soft, dry cloth and allow cleaner to evaporate almost completely before using on hat - remember the vapor removes the stain not the liquid. Feather out toward the edges

What to do about spots & stains

The following are simple procedures for removing or reducing stains from uniform fabrics using common household items.

Chemicals and materials needed

Rubbing alcohol, Naphtha (paint remover), Vinegar (white grade), Glycerine (glycerol), Starch (laundry grade), Soft toothbrush, Sponge, Blotter Paper, White Petroleum Jelly, Ammonia, Detergent

Butter, Cooking Oil: Sponge and flush with naphtha, feather out and dry.

Blood: Sponge with water. Dry. Sponge and flush with naphtha. Feather out and dry.

Coffee, Tea, Catsup: Sponge with water and soak stain in glycerine. Flush well with water. Feather out and dry.

Chewing Gum: Sponge in naphtha and scrape off gum. Feather out and dry.

Chocolate: Dry and brush off excess.

Sponge with naphtha and dry. Sponge with water. Loosen stain with brush. Feather out and dry.

Glue: Sponge with water. Loosen with brush. Flush with water. Feather out and dry.

Iodine: Sponge with rubbing alcohol against blotter paper. Feather out and dry.

Mayonnaise: Apply starch/naphtha paste. Dry and brush off excess. Sponge and flush with naphtha. Feather out and dry.

Motor Oil/Tar: Apply starch/naphtha paste. Dry and brush off excess. Sponge and flush with naphtha. Feather out and dry.

Mustard: Apply dry starch. Brush to remove excess. Apply glycerine for 30 minutes. Flush well with water. Feather out and dry.

Mud/Rust: Dry and brush off excess.

Sponge with water. Loosen with brush. Flush with water. Feather out and dry. Repeat with vinegar if necessary.

Ink/Ball point: Rub white petroleum jelly into stain. Soak in detergent solution and launder.

Tree Sap: Mix a small amount of ammonia with water and gently rub into spot. After spot has dried, have garment cleaned.

Grass Stains: Rub detergent or a pre-wash directly into stain. Clean promptly.

The Problem Of Perspiration

Perspiration can have a number of harmful effects on fabrics, such as loss of fabric strength. To prevent such problems, the following precautions should be taken:

- Dry cleaning solvents do not remove perspiration from a fabric. Affected areas should be called to the attention of your dry cleaner.
- Although wool and wool-blend fabrics may not be washable, a perspiration affected area may be placed over a towel and blotted with a damp sponge. The area should then be blotted vigorously between two dry towels and hung to air dry.
- For extreme cases, dress shields and the substitution of T-shirts for sleeveless undershirts are recommended.

Please Note:

- Most chemicals listed above for spot removal are flammable and should be used in a well-ventilated area free of any open flame. After treatment, air dry. Do not dry in a tumble dryer after treatment.
- All work should be done with a clean blotter underneath the stain area.
- Feathering out prevents ringing and is done by starting outside the stain and lightly brushing towards the center.
- These care procedures are provided only as a service and should not be interpreted as a warranty, implied or otherwise.
