Special Sizes

If you need sizes outside the ranges listed in your catalog, please contact VF Solutions Customer Service Department at

1-800-484-7968, 8 A.M. to 5 P.M. CST.

Delivery of special size items requires a minimum of 60 to 90 days.

Returns & Exchanges

All returns/exchanges (other than defects) must be made within 30 days of receipt of your order.

Any defective item can be returned with a description of the defect. Defective items (not including normal wear and tear) can be returned for exchange or credit at any time, within one year of receipt.

Ordering Information

Please visit your web site at
www.vfsolutions.com/lma
for complete ordering information.

CAUTION: Garments contained in this catalog meet government flammability Class 1 requirements but do not provide protection from ignition sources, molten substances or chemical exposure. Special flame resistant garments are available if required.

Product images shown here are photomechanically reproduced. As a result, colors may vary from actual fabric samples.

Can only be purchased through the "Special Purchase Site" with agency funds.

How to Measure

Before ordering, take your measurements to insure that you select the correct size for each uniform item. Each item has its own size chart and requires that you select your size based on your measurements. We have designed the garments to accommodate body size. The size information listed are not how large the garment is, it is the body size that will comfortably fit that size. For best fit, please follow the measuring instructions carefully. We recommend having another person assist you. Taking your own measurements increases the chance for error.

HEIGHT (1): Stand straight against the wall without shoes. Make a mark level with top of head. Measure from this point down to the floor.

NECK (2): Measure a shirt collar that fits you well. Lay collar flat. Measure from center of collar button to far end of the buttonhole. OR measure around neck where buttoned shirt would fit. Allow for two fingers' width between tape measure and neck.

CHEST/BUST (3): Measure just under arms across shoulder blades at fullest part of chest or bust and back, holding tape firm and level.

SLEEVE (4): With arm relaxed at side and slightly bent, measure from center back of neck to across the shoulder around point of elbow to wrist bone.

WAIST (5): Measure over shirt but not over pants, around waist where you normally wear pants. Keep tape level, but not tight.

HIPS (6): Measure around fullest point of seat while standing, keep tape level.

INSEAM (7): Measure a well fitting, similarly styled pair of pants. (Do not measure blue jeans.) Lay them flat, with the front and back creases smooth. Measure from the crotch seam along the inseam to the bottom of the hem. Styles worn with higher heels require extra length.

NOTE: Incorrect inseam measurement is the #1 reason for returns.

Inseam (7)	_____

Garment Care

100% Cotton

(Cotton Shirt/T-shirts/ jeans)

- Machine wash cold
- Do not use bleach or fabric softener
- Tumble dry on low
- Touch up with warm iron (not t-shirts)

(Coveralls)

- Machine wash warm
- Do not use bleach or fabric softener
- Tumble dry warm
- Cool iron

(Knit Polos)

- Do not dry clean
- Machine wash warm
- Do not use bleach or fabric softener
- Tumble dry on medium

100% Polyester

(Turtlenecks/Ties)

- Machine wash warm
- Do not use bleach or fabric softener
- Tumble dry on permanent press setting, removing promptly
- Touch up with warm iron
- Dry clean every fifth wash to maintain shape

Acrylic

(Sweaters)

- Machine wash warm (inside out)
- Do not use bleach or fabric softener
- Tumble dry low or lay flat to dry and reshape

Nylon Fleece

(Vests/Jackets)

- Machine wash warm
- Do not use bleach or fabric softener
- Tumble dry low

Wool

(Sweaters/Ski Cap)

- Dry clean only

Nylon Outerwear

(Windbreaker/Coat/Parka)

- Do not dry clean
- Machine wash cold - gentle cycle
- Use mild soap, rinse thoroughly
- Do not use bleach or fabric softener
- Tumble dry on low - do not iron

GORE-TEX®

- Machine wash in warm water using a mild soap
- Do not use bleach or fabric softener
- Drip-dry or tumble-dry without heat
- For soiled spots, use K2R or a similar product

Felt & Straw

(Hats)

- Hats should be brushed with a long, softly bristled brush
- If water soaked, let dry naturally
- Use commercial spot remover for stains - put on a soft, dry cloth and allow cleaner to evaporate almost completely before using on hat - remember the vapor removes the stain not the liquid. Feather out toward the edges

Polyester/Cotton

(Poplin shirts/skirt/trousers/shorts)

- Machine wash warm
- Do not use bleach or fabric softener
- Tumble dry on permanent press setting, removing promptly
- Touch up with warm iron
- Dry clean every fifth wash to maintain creases.

Spots & Stains

The following are simple procedures for removing or reducing stains from uniform fabrics using common household items.

Materials needed

Rubbing alcohol, Naphtha (paint remover), Vinegar (white grade), Glycerine (glycerol), Starch (laundry grade), Soft toothbrush, Sponge, Blotter Paper, White Petroleum Jelly, Ammonia, Detergent

Butter, Cooking Oil: Sponge and flush with naphtha, feather out and dry.

Blood: Sponge with water. Dry. Sponge and flush with naphtha. Feather out and dry.

Coffee, Tea, Catsup: Sponge with water and soak stain in glycerine. Flush well with water. Feather out and dry.

Chewing Gum: Sponge in naphtha and scrape off gum. Feather out and dry.

Chocolate: Dry and brush off excess. Sponge with naphtha and dry. Sponge with water. Loosen stain with brush. Feather out and dry.

Glue: Sponge with water. Loosen with brush. Flush with water. Feather out and dry.

Iodine: Sponge with rubbing alcohol against blotter paper. Feather out and dry.

Mayonnaise: Apply starch/naphtha paste. Dry and brush off excess. Sponge and flush with naphtha. Feather out and dry.

Motor Oil/Tar: Apply starch/naphtha paste. Dry and brush off excess. Sponge and flush with naphtha. Feather out and dry.

Mustard: Apply dry starch. Brush to remove excess. Apply glycerine for 30 minutes. Flush well with water. Feather out and dry.

Mud/Rust: Dry and brush off excess. Sponge with water. Loosen with brush. Flush with water. Feather out and dry. Repeat with vinegar if necessary.

Ink/Ball point: Rub white petroleum jelly into stain. Soak in detergent solution and launder.

Tree Sap: Mix a small amount of ammonia with water and gently rub into spot. After spot has dried, have garment cleaned.

Grass Stains: Rub detergent or a pre-wash directly into stain. Clean promptly.

The Problem Of Perspiration

Perspiration can have a number of harmful effects on fabrics, such as loss of fabric strength. To prevent such problems, the following precautions should be taken:

- Dry cleaning solvents do not remove perspiration from a fabric. Affected areas should be called to the attention of your dry cleaner.

- Although wool and wool-blend fabrics may not be washable, a perspiration affected area may be placed over a towel and blotted with a damp sponge. The area should then be blotted vigorously between two dry towels and hung to air dry.
- For extreme cases, dress shields and the substitution of T-shirts for sleeveless undershirts are recommended.

Please Note:

- Most chemicals listed above for spot removal are flammable and should be used in a well-ventilated area free of any open flame. After treatment, air dry. Do not dry in a tumble dryer after treatment.
- All work should be done with a clean blotter underneath the stain area.
- Feathering out prevents ringing and is done by starting outside the stain and lightly brushing towards the center.
- These care procedures are provided only as a service and should not be interpreted as a warranty, implied or otherwise.
