OLYMPIC MOUNTAIN TOURS

provides unique mountain and river valley trips in the Olympic National Park. Visit the wild, rugged beauty that can only be found on the Olympic Peninsula! Your trip with **OMT** can range from a simple summer hike to a multi-day adventure climbing Mount Olympus. Our trips are suitable for individuals, couples, families and friends. We have only one "Deluxe" tour, on which you do not carry your own gear. All other tours are designed as a unique guide service where you organize and carry your own equipment and food. Most trips are arranged weeks ahead of time, but you can occasionally join a trip already scheduled. If you are interested in an outing in the Olympic National Park, call or write us soon for details. We look forward to seeing you in the Olympics!
