INTRODUCTION

As the United States celebrated its 200th year of independence in 1976, the National Park Service marked its 60th year of resource management and protection for the American people.

Today there are 293 units in the National Park System including battlefields, lakeshores, memorials, parkways, preserves, recreation areas, etc. The units of the system represent treasured historical aspects of our past, cultural aspects of our people, and natural aspects of our land.

In 1976, the national bicentennial year, there were 267,762,100 visits to the various units of the system. It is apparent that the American people are becoming ever more aware of the wealth of their nation as it is protected and represented by the National Park System.

Timely, reliable, and useful numerical information is fundamental to effective management and planning of the National Park System. This annual report is a general summary of visitation records for the year of 1976. Comments or requests for additional statistical information should be addressed to:

TOTAL		293	71^b	151^b	42	
Affiliated areas, not part of the system		20	—	—	—	

^aRecreational category includes 2 areas formerly making up the now abolished Cultural category.

^bTheodore Roosevelt Island has been reclassified from Natural to Historical category.

^c36 in Natural category, 46 in Historical category.

^dAll in Natural category except Mesa Verde, which is in Historical category.

^eData for Ross Lake and Lake Chelan NRAs are combined with the North Cascades data; no breakdown available.

^fExcludes areas enumerated as separate units of the National Park System.

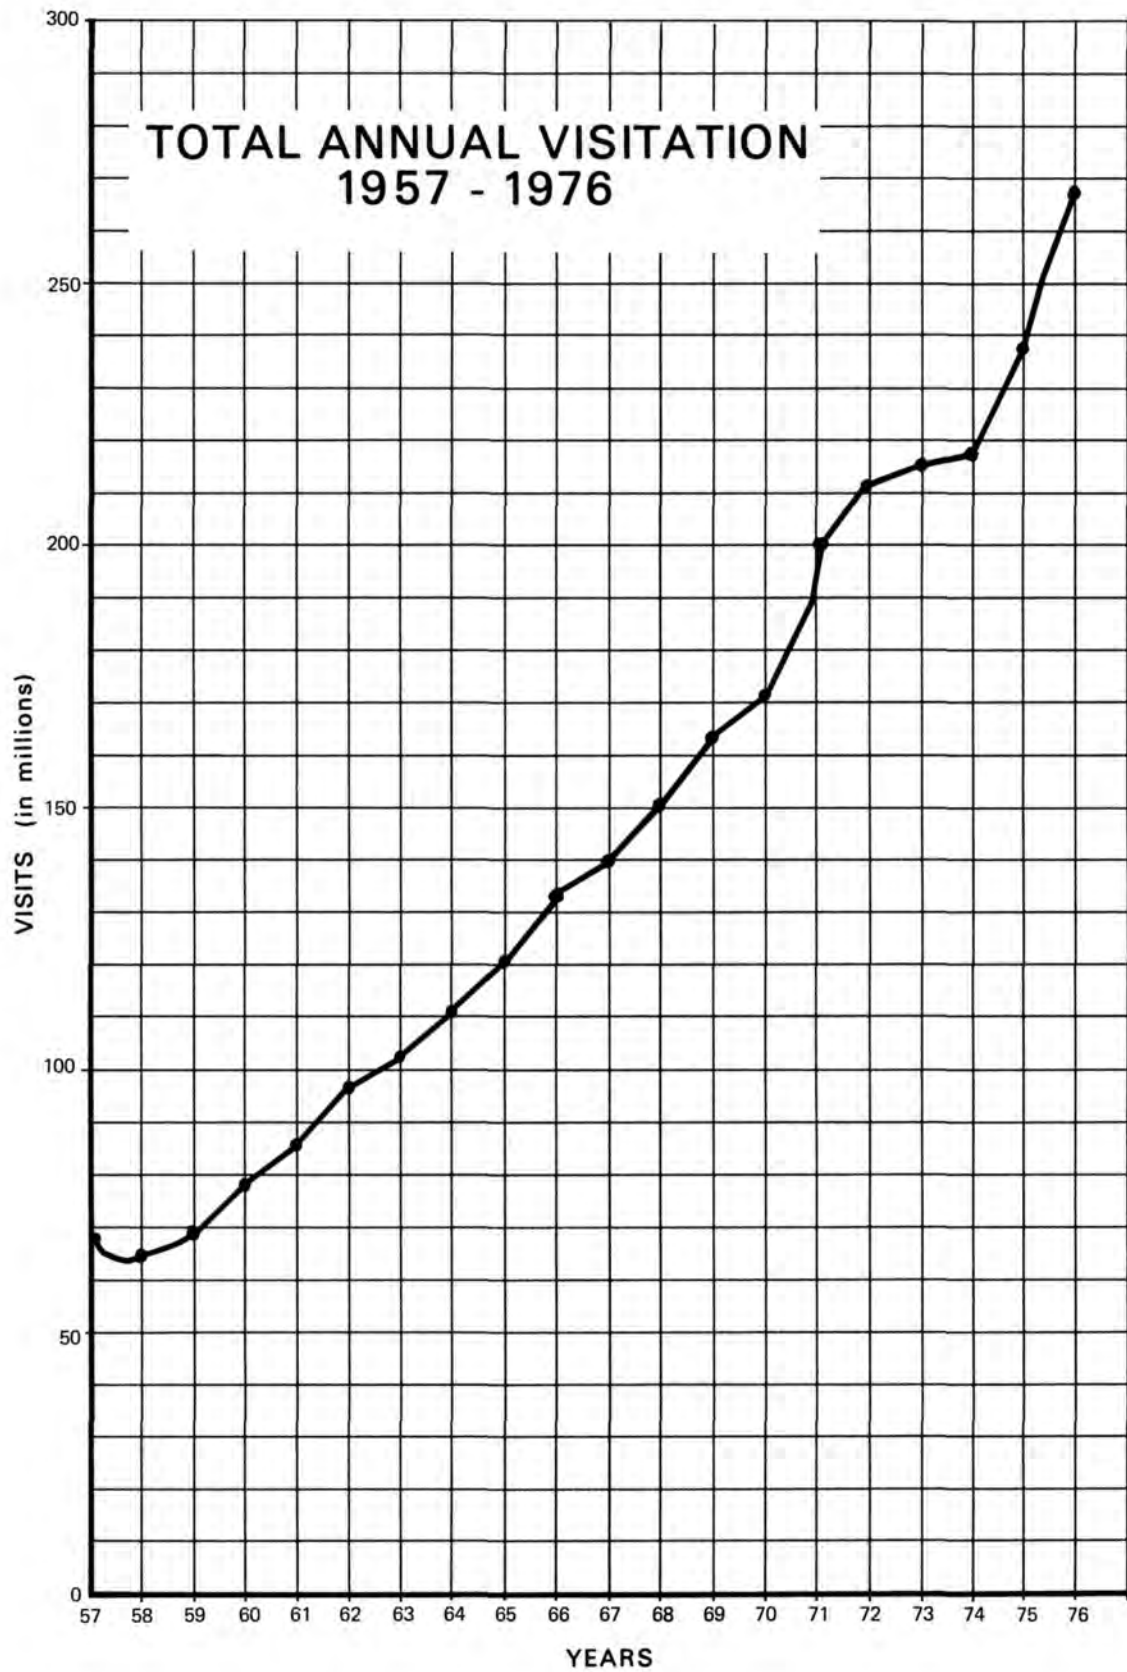

^gBig South Fork National RVR and NRA is listed under National Scenic Riverways.

TABLE 2. SUMMARY DATA CALENDAR YEAR 1976

1976	3,870.3	5,397.0	9,267.3	92

National Park System Calendar Year 1976 Visitation by State

Several parks embrace lands in two or more states. State "Areas" figures show the total number of authorized areas wholly or partially in each state. Where not all are reporting, the latter information is added. "Visits" data for a multi-state area are allocated to its several states, in most cases by visitors' point of entry.

Indicated cities (*) are regional offices.

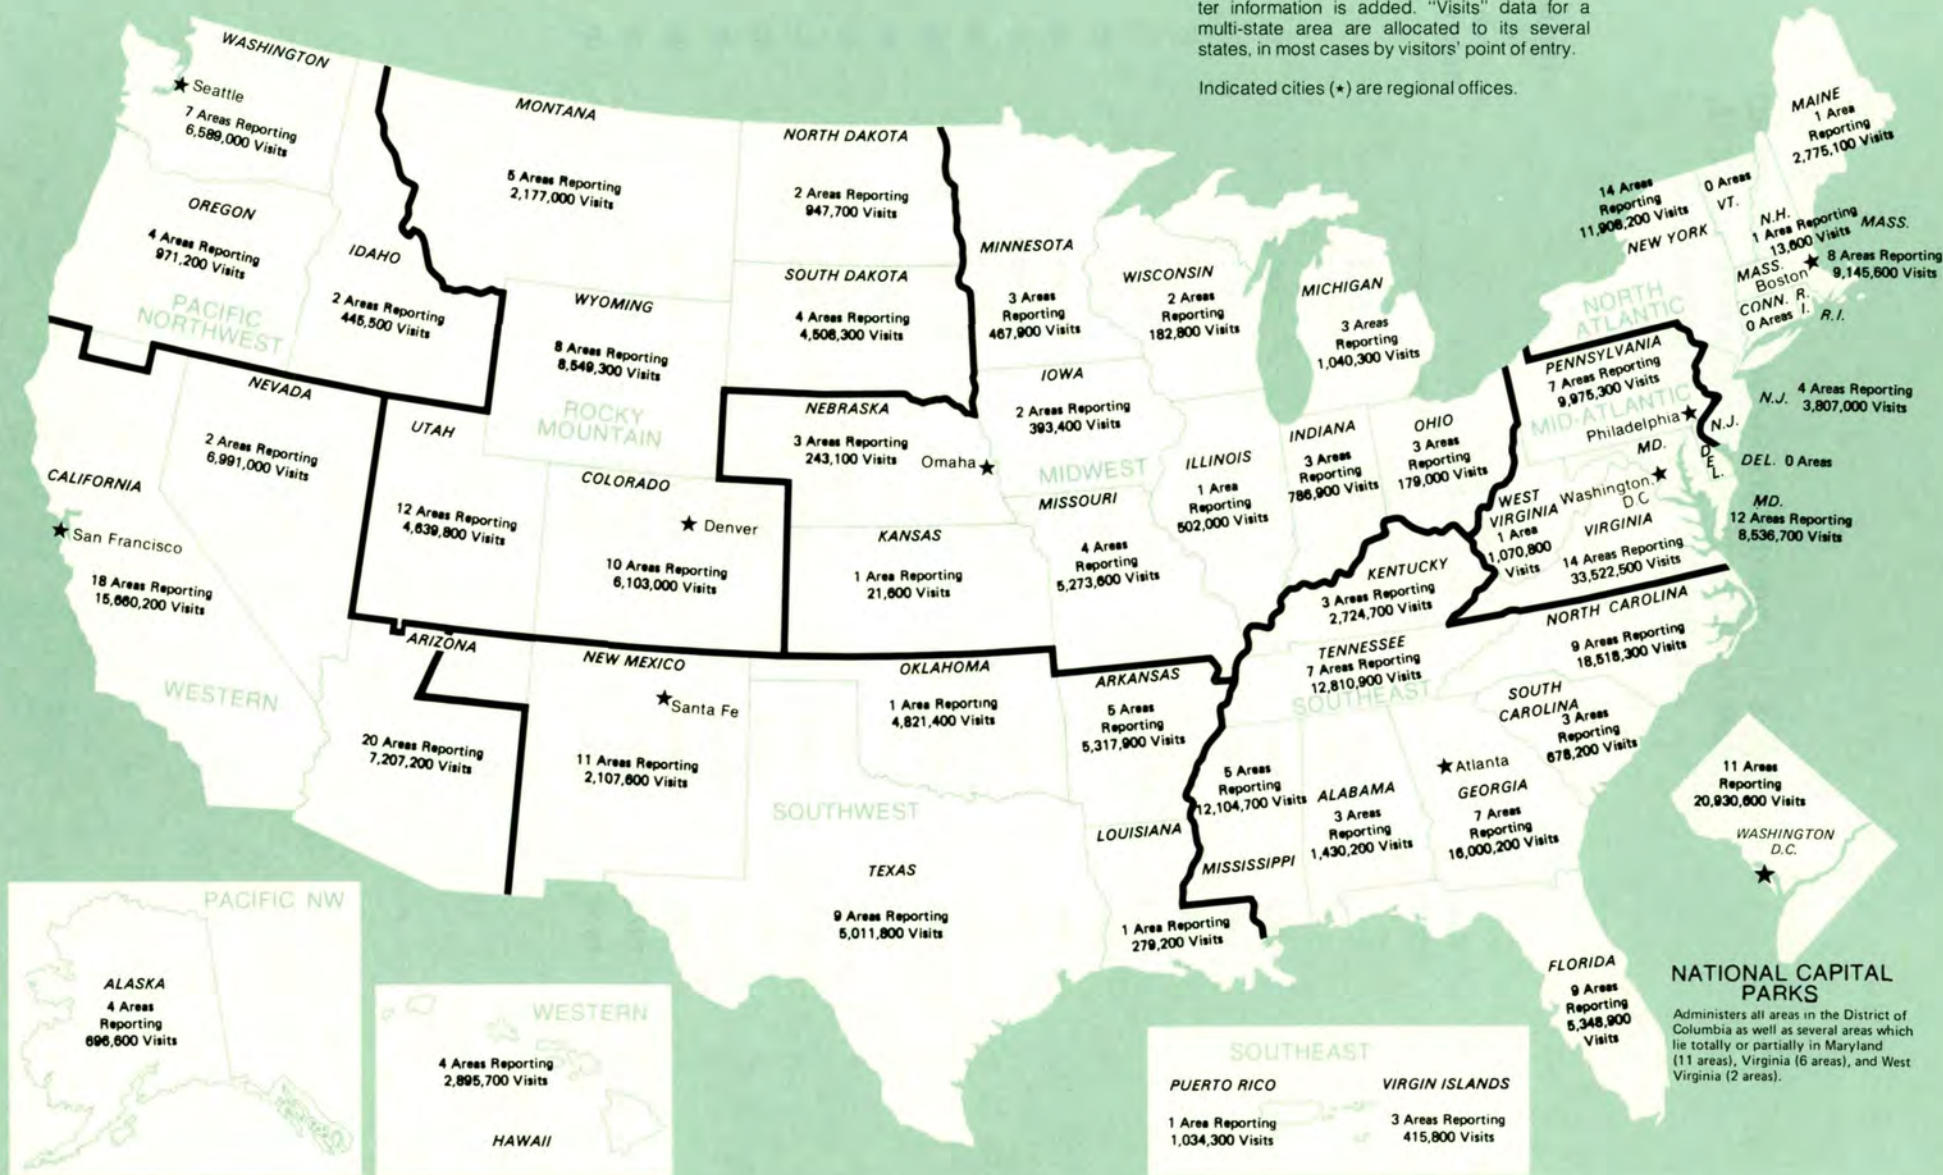

TABLE 5. VISITS BY MANAGEMENT CATEGORY
(in thousands)

	CY 1975

FOOTNOTES TO TABLE OF INDIVIDUAL PARK STATISTICS

* Less than 50 visits or overnight stays.

¹ The following areas' first data series started later than January 1975: Boston NHP (July 1975), Clara Barton NHS (June 1975), Voyageurs NP (January 1976), Canaveral NS (January 1976), Cumberland Island NS (January 1976), John Day Fossil Beds NM (February 1976), Fort Stanwix NM (March 1976), Sleeping Bear Dunes NL (April 1976), National Visitor Center (April 1976), Cape Lookout NS (June 1976).

² Data for North Cascades NP, Ross Lake NRA and Lake Chelan NRA are shown combined; no breakdown available.

³ The 1975 visits figures for these areas are not strictly comparable to the 1976 figures, due to changes in the counting procedures.

⁴ Certain areas formerly included in National Capital Parks are now listed as separate units of the National Park System; the ones in reporting status are Fort Washington, Greenbelt Park, Rock Creek, and Clara Barton NHS.

⁵ Platt NP and Arbuckle RA combined to form Chickasaw NRA (March 1976).

⁶ Nonrecreation visits and overnight stays at Indiana Dunes NL reflect use by persons occupying dwellings owned by the NPS but leased back to occupants for 25 years.

DEFINITIONS

As used in this report, certain terms have specialized definitions.

Visit The entry of any person, except National Park Service personnel (meaning staff of cooperating associations, concessioners and contractors, as well as those directly employed by the Service, and the households of personnel residing in the parks), onto lands or waters administered by the National Park Service.

Visitor A person who generates a visit as defined above. Though this same person may enter the same park a number of times, or several different parks over the course of the year, he is counted as a separate visit for each entry.

Visitor-Hour The presence of one or more visitors in a park for continuous, intermittent, or simultaneous periods of time aggregating one hour (e.g., one person for one hour, two persons for one-half hour each, etc.).

Overnight Stay The passing of one night by a visitor within a park (on park lands or waters, not on private inholdings within the park boundaries). An overnight stay occurs each night a visitor remains in the park.

Nonrecreation Any use other than recreation use as defined below.

Recreation Any reportable use of National Park Service areas for the purpose of engaging in any activities except those which are part of, or incidental to, the pursuit of a gainful occupation.

Management Category Basically, one of three categories of parks for which management policies have been promulgated by the National Park Service. These are "natural," "historical," and "recreational." National Capital Parks is essentially an urban park system not statistically truly comparable with the individual parks of the National Park System.
