

ROCKY MOUNTAIN
NATIONAL PARK

Estes Park and Grand Lake

THE town of Estes Park, situated at the eastern entrance of Rocky Mountain National Park, and the town of Grand Lake, at the western entrance, are substantial communities where seasonal activities are centered during the summer months.

● At both you will find desirable living accommodations in considerable variety; they embrace American and European Plan hotels, Dude Ranches, Cottage Camps and furnished housekeeping cottages. Some of these are right in town, while others are located at varying distances in the mountains. Consult your travel bureau for information concerning these facilities.

● You will find convenience in buying a ticket direct from your home city to Estes Park or Rocky Mountain National Park; just ask your ticket agent to include coupons for the bus trip from Denver to the parks.

● The buses used in this service are built especially for vacation tours in the mountains: comfortable and with plenty of power.
