

Sequoia & Kings Canyon National Parks

Sequoia National Forest/Giant Sequoia National Monument 

Sequoia Parks Conservancy 

Welcome to the Land of Giants

YOU EXPECT GIANT TREES and huge canyons—and you won't be disappointed. What may surprise you, however, is that the whole of these parks is even greater than the sum of their famous parts.

Rising from 1300' to 14,494' (the highest elevation in the lower 48 states), these parks protect a spectacular elevational range. This span from low to high means dramatic shifts from warm foothills to cool forests to the cold High Sierra. It means diverse plants and animals living in extremely varied conditions. It means steep roads and trails that climb mountains, and cold rivers that plunge down from their heights.

The caretakers of this landscape are also diverse. This is not one, but two national parks—Sequoia and Kings Canyon—managed by the National Park Service as one. A national monument, which is part

of a national forest, borders the two parks. Researchers with the U.S. Geological Survey conduct scientific studies on park resources here.

Sequoia Parks Conservancy is our official nonprofit partner. The Conservancy operates bookstores at visitor centers and leads educational programming throughout the parks. Proceeds help fund education, scientific research, and rehabilitation projects.

All park partners, public and private, collaborate to meet a challenging mission—providing for public enjoyment while keeping the parks unimpaired for future generations.

You are the most important partner! Experience these parks and learn all you can. Your help is needed to preserve and share these treasured landscapes.

Change: Natural & Unnatural

We often think of parks as outdoor museums. Caretaking a living ecosystem, however, is very different than protecting unchanging objects.

Both natural features and human facilities may be different each time you visit, as both are changing all the time. How we take care of those features and facilities may also affect your visit. You won't notice the ozone monitor that works 24 hours a day, but you will see other activities such as revegetation, road work, painting, or trail maintenance. Some activities may unavoidably affect you, such as smoke from a prescribed fire, campsite closures due to revegetation, or bear management.

The park staff uses such actions as tools to maintain the landscape and protect its inhabitants and visitors. Your visit gives you but a snapshot of this process; Nature decides the timing of many of these actions. They all share one goal: preservation of these parks for us all, now and in the future.

Prescribed fire in a sequoia grove

Fire: A Natural Change

Years ago, we tried to banish fire from the landscape, believing it was destructive. In sequoia groves, that meant putting out lightning-caused fires that naturally start as often as every 5 to 15 years.

As time passed, we saw unanticipated consequences from this practice. Fire suppression blocked important natural processes, which led to big problems:

First, sequoias were not reproducing. We learned that fires create the conditions that sequoias need to regenerate: Fires leave behind a seedbed fertilized with ash, open the cones, and open the forest canopy, allowing sunlight to reach the seedlings.

Second, the amount of dead wood and dense growth of small white-fir trees increased tremendously. In the past, frequent natural fires burned these away. Now, after fire's long absence, these serve as fuels, feeding bigger, hotter blazes that are

more dangerous for people, plants, and wildlife. For over 40 years at these parks, we have studied fire and its effects on the land. To protect human safety and benefit giant sequoia trees, we now work with fire to restore the benefits it brings.

We still put out fires that threaten life and property but, when and where it's appropriate, we ignite prescribed fires or allow lightning fires to spread naturally, reducing fuels and improving conditions. Strong evidence shows we are succeeding.

Why is this important? The national parks exist to conserve resources "unimpaired for the enjoyment of future generations." We once thought that aggressive fire suppression met this goal. A more complete understanding of fire's effects tells us that excluding this natural agent of change only hurts what we are trying to protect.

Unnatural Change: Alien Invaders

Plants and animals evolve together in communities over time. Often, they keep each other in check.

When species get brought in from other places, the newcomers may multiply wildly. This is because the competitors, predators, and diseases that keep them in check in their home communities are not here. This imbalance breaks links in the local web of life, badly disrupting native species that depend on each other. Sometimes the non-native aliens completely replace local plants and animals.

Practice alien hygiene! Look for seeds and tiny animals attached to shoes, clothes, waders, equipment, tires, and pet fur. Wash mud from under cars and on tires before coming into the parks.

The natives will thank you!

Imminent Alien Threats!

Star thistle is one of the most damaging non-natives in the state. Dense, thorny growth completely excludes native plants and limits wildlife movements. It is not yet established in these parks, but it is close! If you recognize its yellow flower and thorny spines from your home or travels, make sure not to bring it in. If you see it here, tell a ranger.

New Zealand mud snails completely take over and change any waterway that they invade. Due to their biology, just one snail can start a huge population! These tiny light-brown animals—less than 1/8-inch long—stick to your gear. Check boots, waders, and boats thoroughly for this little invader. Common just east of the parks, they could easily be carried into the High Sierra.

Camping

Each standard campsite has a table and fire ring with grill and accommodates up to 6 people and 1 vehicle. There are no RV hook-ups in the parks.

Showers are no longer available in Grant Grove. Public showers are available at Lodgepole and Cedar Grove villages.

You *must* store food correctly all year due to black bears. The park supplies bear boxes; most are 47" long x 33" deep x 28" high. See page 11.

Summer reservations: See * on chart for reservable campsites in these parks (NPS) and in Sequoia National Forest (USFS). Reservations are available up to 6 months in advance: www.recreation.gov; 1-877-444-6777 (7am -9pm PST, 3/1-10/31). Customer service: 1-888-448-1474.

Group Sites & Maximum Group Sizes

- **Mid-size group sites (7 to 19 people):**
Reservable at Crystal Springs and Canyon View.
- **Large-group sites: (15 - 40 people):**
Reservable at Dorst Creek, Sunset, or Canyon View. Group sites are also available in the national forest.

Fire Restrictions, Campfires, & Firewood

- Gather only dead & down wood; do not cut limbs off trees. Please don't transport firewood. It can carry insects/diseases that threaten living trees. Find/buy wood close to where you will use it. Please burn any wood you brought in.
- Fires must be out cold before you leave.
- On Forest Service (USFS) land, free fire permits are required. Ask about them at Hume Lake Office, Kings Canyon Visitor Center (Grant Grove), a USFS ranger, or read about and download them at www.fs.usda.gov/sequoia.

Roadside Camping?

Not permitted in the park. Camp only in designated sites in campgrounds. In National Forest & Monument (USFS): Permitted unless posted otherwise; see fire-permit requirement info above.

Quiet & Generator Hours

Music and noise should be audible in your site only. Quiet hours 10pm-6am (no generators). At Lodgepole & Dorst, generator use 8-11am & 5-8pm only.

RV & Trailer Length Limits

Restrictions are in effect; check the back page.

Propane/Fuel Canisters

Recycle fuel canisters at home. Do not put them in park trash cans or leave them here.

Neighboring Towns

Three Rivers, Lemon Cove, Squaw Valley & others offer year-round lodging & camping. Ask at visitor centers or see www.nps.gov/seki/planyourvisit.

Programs & Tours

5

Crystal Cave Tours start May 25

Reserve tickets online at www.recreation.gov at least 48 hours in advance. Need a ticket today? Check first thing in the morning at Lodgepole or Foothills visitor centers (*not at the cave*). *Plan time for delays in getting through the park entrances, especially on weekends and holidays.*

Crystal Cave Road is 15 miles from Sequoia Park's entrance at Hwy 198; 3 miles south of Sherman Tree. Maximum vehicle length on this narrow road is 22'. Use parking-lot restrooms; the cave has none. Wear sturdy shoes for the steep 1/2-mile trail to the cave. Wear a jacket; it's 50°F (10°C) inside. No strollers, tripods or bags/packs are permitted inside the cave (They can be used on the trail from the parking area but must be left outside unattended during the tour.). No flash/lighted photography/video. Not wheelchair accessible. Tour times are subject to change. For school tours & large groups, visit sequoiaparksconservancy.org/crystalcave.

Family Cave Tour Daily - 45 minutes

Extra tours on holiday weekends (Friday-Monday).

May 25 - June 15:

- Weekdays: Tours on the hour, 10:00 am - 2:00 pm
- Weekends: Tours on the hour, 10:00 am - 4:00 pm, and on the half-hour 11:30 am - 1:30 pm.

June 16 - August 26:

- Saturday: Every 1/2 hour 10:30 am-5:30 pm
- Sunday: Every 1/2 hour 10:30 am-4:30 pm
- Weekdays: Every 1/2 hour 10:30 am-4:00 pm

Ticket prices: Age 5-12 \$8; 13-61 \$16; 62 & up \$15. Ask about SPC member discounts! National Park and Interagency passes do not apply.

Special tours for special interests:

Junior Caver Tour 6/22-8/17, Fridays 1:00-3:30 pm. Ages 10 to 15. \$30.

Discovery Tour 6/17-8/19. Mon-Fri at 4:30 pm, Sundays at 5:00 pm (except holiday weekends). \$18.

Family Tour Age 13 & up. 6/18-8/26. Daily at 10 am, 12:30 pm, 3:30 pm (except holiday weekends). \$18.

Go Native!

A Native American Cultural Celebration

May 5, 2018. Experts from local tribes will show how their traditions depend on plants and animals from their home lands. Try hands-on activities at Foothills Visitor Center from 10:00 am to 3:00 pm.

Free Ranger Walks & Talks

Offered in the Foothills, Giant Forest, Lodgepole, Grant Grove, Mineral King, Cedar Grove, and other locations! See bulletin boards for schedules of ranger-led activities.

Free Junior Ranger Program

Pick up a free booklet at any visitor center, complete the activities, & earn your badge!

Junior Ranger Day

Junior Ranger Day is April 21, 2018. Celebrate with free special activities throughout the park. Check the calendar on nps.gov/seki to find specific events. Earn a free patch! This is an entrance fee-free day.

Field Institute

Over 60,000 visitors annually explore the parks and Lake Kaweah with the Field Institute. These experts guide you through the night sky, Crystal Cave, and park trails. They even bring park history to life! SPC members (see page 2) may get a discount on Field Institute activities. 559-565-4251; sequoiaparks.org

Teachers & Parents, Take Note!

Expand your classroom: Invite a ranger to your class, visit the parks with your school group, download lesson plans, and participate in distance learning. All education programs are standards-based and free! Visit nps.gov/seki/learn/education.

Review safety advice on page 10, including warnings about tree hazards. Be extra careful near rivers. Carry water and a map (sold at visitor centers). Orient yourself before going and tell someone your plans. Always store food properly before leaving your car or campsite.

The Foothills

The low elevations host more different plants and animals than the rest of these parks combined!

Foothills Visitor Center

Exhibits on the diverse foothills. Hours on page 2.

Marble Falls Trail climbs 3.7 miles (6 km) through chaparral to a waterfall. Park across the highway from Potwisha (no non-camper parking in campground). Near site #14, follow the dirt road across the concrete ditch; the trail starts along the steep bank to the right.

Hospital Rock Picnic Area

Exhibits about the Western Mono people who once lived here. A short trail built by the Civilian Conservation Corps leads to a cascade. Please be careful; drownings occur here too often!

Paradise Creek

Park at Hospital Rock Picnic Area (not in campground). Walk 0.8 miles to Buckeye Flat Campground. Take the path across from site #28 to cross a footbridge over the Middle Fork. Follow Paradise Creek (not the Middle Fork) for 1 mile (1.6 km) until the trail grows faint.

Mineral King - road opens 5/23

Opens at noon on the Wednesday before Memorial Day. The steep, winding road ends at 7800'. No gasoline or electricity. Use the machine at Lookout Point entrance to pay your fee.

Giant Forest

Giant Forest Museum & Lodgepole Visitor Center Hours and details are listed on page 2.

Big Trees Trail

A level, 2/3-mile (1km) paved loop with trailside exhibits about sequoias. Start your walk at Giant Forest Museum (parking at the trail is only for cars with disability placards). 1 hour round trip.

Congress Trail

A fairly level 2-mile loop (3.2 km) through the heart of the grove. Begins at the Sherman Tree.

General Sherman Tree

Two trails lead to the world's largest tree:

- **Main Trail** - This 1/2-mile trail down to the tree has some stairs; the walk back is uphill. Beware of slippery or wet spots. Drive 2 miles north of Giant Forest Museum (past the small Sherman Tree parking lot on the Generals Hwy only for those with disability placards). Turn right on Wolverton Road; follow signs. The trailhead is a shuttle stop starting 5/24.

 **Wheelchair-accessible trail** from the Generals Highway to the Sherman Tree. Parking here is only for those with disability placards. If you have no placard but can't walk the main trail's hill, ask for a temporary placard at any visitor center. Shuttle stop starting 5/24.

Moro Rock/Crescent Meadow Road

Opens by May 23. This 3-mile dead-end road

begins at Giant Forest Museum. The road is closed weekends & holidays starting 5/26, 8am to 7pm, when the shuttle runs:

- **Moro Rock** - A granite dome with a steep 1/4-mile staircase to the top (300-foot elevation gain). Spectacular mountain views. Two miles from Generals Highway. See lightning warning on page 10. Shuttle stop starting 5/24.
- **Tunnel Log** - A fallen sequoia that was tunneled through, and the only "tree you can drive through" in these parks. Bypass for larger vehicles. 2.7 miles from the Museum.
- **Crescent Meadow** - Sequoias surround this fragile wetland. Stay on designated trails; use fallen logs to walk into meadows. Several trails start here, such as the 1-mile (1.6 km) route to Tharp's Log, a cabin in a fallen sequoia; and the High Sierra Trail (60 miles/97 km) to Mt. Whitney (14,500'/4419 m). Shuttle stop starting 5/24.

Sequoia By Shuttle: May 24 - September 9

Check bulletin boards at shuttle stops for details.

Giant Forest: Green Route 1 - Free.

Giant Forest Museum to Lodgepole, stopping at the Sherman Tree in each direction. 1/2-hour ride one way. First pickups at 8:00 am and 8:30 am; then every 15 minutes 9:00 am - 6:00 pm.

Moro Rock / Crescent Meadow: Gray Route 2 - Free.

Giant Forest Museum, Moro Rock, Crescent Meadow, Giant Forest Museum (stops at Auto Log and Tunnel Log on weekends only). 1/2-hour round trip. Weekdays: 8:00 am, 8:45 am, then every 20 minutes 9:00 am-6:00 pm. Weekends: 8:00 am, 8:45 am, then every 10 minutes 9:00 am-6:00 pm. Road closed to private vehicles on weekends & holidays (page 12).

Lodgepole / Wuksachi / Dorst: Purple Route 3 - Free.

Leaves each stop every 20 minutes from 8:00 am - 6:00 pm. The Dorst portion starts when Dorst opens in June.

Wolverton / Sherman Tree: Orange Route 4 - Free.

Connects Wolverton picnic area & trailhead to both the main and the accessible trails to the Sherman Tree every 15 minutes 8:00 am - 6:00 pm.

Giant Forest /Foothills/ Visalia - \$15 round trip

Visalia to Giant Forest (no additional park entrance fee). Reservations required; sequoiashuttle.com or 1-877-BUS-HIKE. Buses leave Visalia for Giant Forest every hour from 6am-10am; 2-hour ride each way. Buses leave Giant Forest for Visalia Transit Center every hour from 2:30-6:30 pm.

In-park shuttle questions: 559-565-4436.

Review safety tips on page 10. Be extra careful near rivers, even when water is low. Bring a map or trail guide. Nights are cool; carry layers. Store food properly while you explore. Be safe!

Grant Grove

Kings Canyon Visitor Center (NPS)

Exhibits/film in English & Spanish. Details, page 2.

Grant Tree Trail

General Grant, one of the world's largest trees, grows along this 1/3-mile (.5 km) paved trail. The tree is also a living national shrine. One mile/1.6 km from the visitor center: north on Hwy 180 then follow signs.

North Grove Loop

This lightly traveled, 1½-mile (2.4 km) trail offers a close look at Big Trees and a quiet forest walk. It's a great place to see effects from the Rough Fire. Start at Grant Tree overflow-parking area.

Panoramic Point Road 🚗

Opens with snowmelt. A narrow road to a trail to a beautiful Sierran vista. Go east through visitor-center parking; follow signs to the paved, accessible trail to an overlook. Park Ridge Trail (4 miles/6.4 km round-trip) begins here. No trailers or RVs.

Redwood Mountain Sequoia Grove

Not plowed; opens with snowmelt. Rutted dirt road to one of the world's largest Big Tree groves. Research here revealed the positive link between sequoias and fire. Across Generals Hwy from Quail Flat/Hume Lake junction; 7 miles south of Grant Grove. Turn right (west) at Redwood Saddle; 2 miles to parking lot. Loop trails up to 10 miles long.

Big Baldy Ridge

Great views over Redwood Canyon from the top (8209 feet); elevation gain 600 feet (183m). Round trip 4 miles (6.4km). From Grant Grove, go 8 miles (13km) south on Generals Highway to the trailhead.

Kings Canyon & Cedar Grove

The road to this canyon opens 4/27 at noon, but few facilities open then (see page 9). Many drought-weakened trees here have succumbed to insects. Be very careful with fire!

Canyon View

The "U" shape of this canyon, apparent from this viewpoint, reveals its glacial history. 1 mile (1.6 km) east of Cedar Grove Village Road.

Knapp's Cabin

During the Roaring '20s, a California businessman stored gear in this small cabin for lavish fishing trips. Two miles east of the village road.

Roaring River Falls

A very short, shady walk to a powerful waterfall rushing through a granite chute. East of the Village 3 miles. Paved, accessible with assistance.

Zumwalt Meadow

This 1.5-mile (2.4 km) loop passes high granite walls, lush meadows, and the Kings River. Parking is 4½ miles east of Cedar Grove Village road. Buy a trail guide at the visitor center. Allow 1 hour.

Mist Falls

One of the park's largest waterfalls. Allow 4 - 5 hours; 9 miles (14.4 km) round trip from Road's End. 600-foot elevation gain in the last 2 miles.

Hotel Creek Trail

Starts .2 mile north of the market at the intersection with the pack-station road. Climbs through chaparral to forest and views from Cedar Grove Overlook. 5 miles (8 km) round trip; 1200-foot/365m elevation gain. Strenuous; allow 3 -4 hours. Return via Lewis Creek Trail for an 8-mile loop.

National Forest (USFS)

Explore Giant Sequoia National Monument, part of Sequoia National Forest which abuts the park.

Converse Basin

North of Grant Grove 2 miles. Virtually every mature sequoia in this huge grove was felled early in the 1900s. Ask at the visitor center about trails.

Indian Basin

A one-mile accessible trail & one-mile unpaved trail. Take Highway 180 7 miles north of Grant Grove; turn into Princess Campground. Turn left past the dump station to trailhead parking area.

Hume Lake

Formed by a rare, historic dam, this lake supplied water to a flume that floated lumber 67 miles (108km) to Sanger. An easy 2½-mile (4 km) trail circles it. Page 9 lists facilities. Eight miles (12.8 km) north of Grant Grove on Highway 180; 3 miles (4.8 km) south on Hume Lake Road.

Buck Rock Lookout

A 1916 tower, still used for spotting fires, offers 360° views. Approximately 6 miles (9.6 km) off Big Meadows Road 14S11, then take Forest Road 13S04.

The Kings Canyon

The Generals Highway

Driving this 80-year-old roadway is part of the park experience. It carries you up almost a mile in elevation and, by connecting the General Sherman Tree to the General Grant Tree, earns its name.

For decades, a skin of pavement barely improved the original wagon road. An effort is underway to build a route that can handle today's large numbers of modern vehicles, without losing the joys of a mountain road. See page 12 for construction delays.

Wayside exhibits at overlooks along this historic road offer insight into these parks:

Kings Canyon Overlook

View the High Sierra wilderness from this overlook about 6 miles (9.5km) south of Grant Grove.

Redwood Mountain Overlook

Six miles (9.6 km) south of Grant Grove on the southwest side of the Generals Highway. Views out over one of the world's largest sequoia groves.

Eleven Range Overlook

South of the Giant Forest, this turnout offers views to the west over the foothills and the distant valley.

Amphitheater Point

View the sweep of life zones from high to low from this spot between Giant Forest and the Foothills.

Generals Highway in Giant Forest

Giant Forest Sequoia Grove

6400' elevation. Home of the world's biggest trees.

Basic Rules

National Parks & National Forests lie side by side here. Some activities are illegal in one but not in the other.

Can I...	In National Parks 	In National Forests
Walk my leashed pets?	Not on any trails. OK 100 feet from roads in developed areas (picnic areas, campgrounds, roads). Certified service dogs only (not assistance or therapy animals); see www.ada.gov/service_animals_2010	Pets can go on trails. In both areas: Pets must be on a leash less than 6 feet (1.8m) long.
Collect things to take home?	Leave things where you find them to play their natural role in the ecosystem. In both areas: Archeological sites and artifacts are protected by law.	You may keep a few cones or rocks for personal use.
Hunt?	Not in the Parks. Visitors are responsible for understanding & complying with all applicable state, local, and federal firearms laws before entering this park.	Only during the season with a license: 1-559-243-4005.
Drive off-road?	Not in these parks. Stay on roads.	Get specific information on off-highway-vehicle (OHV) routes at USFS Hume Lake office in Dunlap or Kings Canyon Visitor Center.
Cut wood?	Not in these parks.	Call Hume Lake Ranger District for wood permits & guidelines: 559-338-2251.
Build fires?	In park, only in fire grills in some campgrounds & some picnic areas.	Free fire permits are required, even for gas stoves & lanterns. Get permits at visitor center in Grant Grove or USFS in Dunlap.
Go fishing?	In both areas: Permitted during fishing season. California fishing licenses are required for ages 16 & up. Ask for copies of park regulations.	
Ride a bicycle?	Keep bikes on roads only, not on any trail (other than the designated bike trail in Cedar Grove). In both areas: Under 18 years old must wear helmets.	Ask a ranger which trails permit bicycles.
Snowmobile?	Not in these parks.	Only on designated snowmobile routes. Trailheads are at Cherry Gap, Big Meadows, & Quail Flat. Information: 1-559-338-2251.
Fly a drone?	Not in any national park.	Only in accordance with FAA guidance, and not in wilderness areas.

You are Responsible for Your Safety

Natural areas present hazards. Cold temperatures, icy or uneven ground, wild animals, and changing weather all pose dangers. Rocks roll, trees topple, and limbs drop without warning. People create other hazards via campfires, traffic, snowplay, and poor decisions. GPS directions may mislead you here.

Water is the main cause of death here. In addition to swimmers, many drowning victims walking or climbing near rivers unexpectedly fall in.

The National Park Service works to reduce risks, but your safety is in your own hands. Keep alert. Read warnings and ask a ranger for advice.

DROWNING

The #1 cause of death in national parks! Be careful around water; falling in is as dangerous as swimming. Once in a river, getting out can be nearly impossible: Rocks are smooth and slippery; swift, cold water rapidly saps your strength. Currents are always stronger than they appear, even during low water. Ask at visitor centers about river conditions.

PLAGUE, HANTAVIRUS & WEST NILE

Do not feed or touch ANY wild animals. Avoid areas of rodent activity, as fleas on rodents can carry *plague* and deer mice feces can carry *hantavirus*. *West Nile virus* is passed by bites from infected mosquitos. Human illness is not common, but take steps to avoid mosquito bites.

TICKS are common in foothill and Kings Canyon grasses; check yourself for these little animals after a walk. Their bite is painless, but some carry *Lyme disease*. Remove them carefully with tweezers and seek a doctor's advice.

GIARDIA

This protozoan in lakes and streams causes intestinal upset. Iodine and other chemicals may not be as reliable as heat in killing bacteria and Giardia, but can be effective if used properly. Boil drinking water from waterways for at least 3 minutes.

POISON OAK

A common shrub up to 5000 feet elevation. Red leaves and whitish berries in fall; bare in winter; shiny green leaves in groups of three in spring. If you touch any part of it, wash skin and clothes right away.

HYPOTHERMIA

This life-threatening condition can occur year-round. Stay dry; snack often. If others don't react to the need for warmer clothes or are stumbling, forgetful, or extremely tired and drowsy, get warm sugary drinks into them immediately. Get them into dry clothes, sleeping bags, and shelter. Especially keep an eye on children who are wet or cold.

RATTLESNAKES

Found in much of these parks; especially common in the foothills, in the Kings Canyon, and near water. Watch where you put your hands and feet! Do not harass or kill them; this is when most bites occur. Bites are rarely lethal, but tissue damage can be severe. If bitten, avoid panic and call 911.

LIGHTNING

See dark clouds or lightning? Hear thunder? Get inside a large building or a vehicle (not convertible), if possible. Do not stand under trees or in shallow caves. Avoid projecting above your surroundings, such as standing on a ridge, on Moro Rock, or in open meadows. Stay away from open water, wire fences, and metal railings, which can carry lightning from a distance.

CARBON MONOXIDE

This odorless, colorless gas can be fatal. Never burn charcoal in closed spaces such as a tent or RV.

OZONE POLLUTION

See air-quality forecasts in visitor centers. Most ozone rises into the Sierra Nevada on warm winds. Levels of this colorless gas are highest from May to October, peaking in late afternoon. The peaks sometimes reach "unhealthy" state/federal standards, and can affect respiratory systems. Ozone forms from gases in car and factory exhaust.

GPS & WEAK CELL SIGNALS

Cell phones rarely work here, and GPS may misdirect you. Don't rely on them. Note location of pay telephones (pages 8 & 9), and use maps.

MOUNTAIN LIONS

Cougars roam throughout these parks, but you are unlikely to see one. Attacks are rare, but be aware. Watch children closely; never let them run ahead. Cautiously move away if you find a partially buried animal carcass. If you see a cougar, convince it that you are not prey:

- Don't run; that may trigger pursuit. Pick up children.
- Try to appear as large as possible. Don't crouch down.
- Hold your ground or back away slowly while facing the cougar.
- If the cougar acts aggressively, wave your hands, shout, and throw stones or sticks at it.
- If attacked, fight back! Report any sightings.

DRINKING WATER

We test the 13 park water systems to ensure that they meet federal and state standards. Annual Consumer Confidence Reports are available.

ILLEGAL ACTIVITIES

Keep parks safe, natural, and free from illegal activities, including marijuana growing and fireworks! Report suspicious activities: 1-888-NPS-CRIME.

KEEP ANIMALS SAFE

Pets are vulnerable to wildlife, ticks, and overheating in vehicles. Keep wildlife safe from pets, too.

TREE HAZARDS

Branches and trees may fall, whether or not they are dead, even when there is no wind. Keep eyes and ears open. Run if you hear cracks or snapping from roots, trunks, or branches (sometimes there is no sound). Don't linger under dead, cracked, broken, or hanging branches. Avoid spending any time under trees that are rotten at the base or have cracked bark that is peeling off the trunk.

Explore Safely

- Avoid going alone, and tell someone your plans and return time.
- Take a map, water, flashlight, and layers of clothes.
- Watch and listen for potential hazards above, around, and on the ground.

Bear Habitat: Proper food storage is the law!

Bears can grab unattended food or easily break into cars that have food in them. They become bold and sometimes aggressive in attempts to get more. Too often these bears must be killed.

This is why you may be fined if you do not store food properly. Follow the rules below to reduce (but not eliminate) the risk of a bear break-in.

Drivers

Never leave any food or scented item in cars where food-storage boxes are provided.

Picnickers

Never move away from coolers and tables when food is out. Stay within arm's length of food.

Lodge Guests

Remove food from your vehicles.

Campers

Store food day and night in the metal boxes provided (avoid bringing coolers that won't fit; most boxes are 47" long x 33" deep x 28" high. Store ALL food, coolers, related items, and anything with an odor (even non-food) — including unopened cans and bottles. Latch the box completely. Food not stored properly will be impounded. Where boxes are not provided, seal food to reduce odors, cover it well, and close the windows. Keep a clean campsite. Deposit garbage immediately in bear-proof containers or store it like food. Take baby seats out of cars; the smells they absorb may attract bears.

Backpackers

Hanging food often fails! Store all food in a portable container. Less than 3 pounds, it holds up to 5-day's food for one and fits in a pack. Metal boxes in a few wilderness locations offer backup storage. Rent/buy a container at visitor centers or markets.

Everyone

Don't let bears approach you or your food, picnic area, or campsite. Wave your arms, make loud noises, and throw small rocks toward them (avoid hitting the face or head). Keep a safe distance but be persistent. Easily abandoning your food teaches bears that it is acceptable to approach humans; it may hurt someone in the future. If a bear does get food, however, *never* try to take it back.

Wilderness

11

Over 800,000 acres of these parks are designated wilderness. They offer outstanding opportunities for you to enjoy both solitude and challenge. Thank you for following minimum-impact, no-trace guidelines to protect the wilderness!

Wild places include hazards, and help may not be available. Be prepared to be fully self-reliant. Many trees have died from drought, which may increase hazards from falling trees and branches; be careful where you linger or camp. See Be Safe, page 10.

Wilderness permits are required for all overnight trips. Permits are required for all overnight trips, and they are limited during the summer quota period (May 25 through September 22, 2018). The permit fee during that time is \$10 plus \$5/person. Permits can be reserved by email or U.S. mail beginning March 1. Outside of the quota period, permits are free and can be self-issued at the permit station or visitor center closest to your trailhead (see page 2).

Jennie Lakes & Monarch wildernesses in the National Forest (USFS): Permits are not required but please complete a registration card at Jennie Lakes trailheads; information is used to manage the wilderness effectively. USFS requires a free fire permit for any open flame; downloadable from www.fs.usda.gov/sequoia.

Camping in the park's "frontcountry" is permitted only in campgrounds. Camping or sleeping in vehicles is not allowed in parking lots, pullouts, picnic areas, or trailheads in the park.

Go Slow for Wildlife!

Never feed animals by the road. Cars often hit wildlife that waits for handouts on roadsides.

Rules & Recommendations for Traveling in the Parks

Don't Lose Your Brakes

Keep a foot on the brake for too long, and brakes may fail. Instead, always downshift when going downhill. In automatic vehicles, put the gearshift on 1, 2 or L. The engine gets louder.

Prevent Car Fires

Hot brakes & mufflers easily start car and forest fires. Stop *only* on paved areas, not on grasses.

Bicycles

Ride on roads, not trails. Obey traffic rules. Wear light colors at night. Under age 18: helmet required.

Seasonal Road Information and Vehicle Length Limits

Openings depend on weather conditions.

In Sequoia National Park:

- **Generals Highway:** Because of road construction, vehicles over 22 feet are prohibited on the stretch of road between Hospital Rock and Giant Forest. If your vehicle is longer, enter the park at the northern entrance on Highway 180.
- **Moro Rock/Crescent Meadow:** Opens by 5/23. Vehicle-length limit 22'; no trailers or towed units. *From May 24 - September 9, the road closes to private vehicles on weekends & holidays, 8am to 7pm.* Take the shuttle (see page 6), walk, or bicycle at those times. Exception: those with valid disabled-parking placard or a current local wilderness permit.
- **Crystal Cave Road:** Opens 5/25. Maximum vehicle length 22' (6.7m).
- **Mineral King Road:** Opens 5/23 at noon. For partial access before that, contact the Foothills Visitor Center. RVs/trailers are not recommended, and are not allowed in Mineral King campgrounds.

In Kings Canyon & National Forest:

- **Hwy 180 to Cedar Grove in Kings Canyon:** Caltrans plans to open the road 4/27 at noon.
- **Panoramic Point Road:** Opens by 5/23. Motorhomes and trailers not permitted.
- **Redwood Mountain Road (NPS):** Unpaved, rough, unplowed. Opens by 5/23.
- **Converse Basin (USFS):** Unpaved, rough, unplowed. Opening to be determined.
- **Big Meadows, Quail Flat/Ten Mile (USFS):** Unplowed. Open with snowmelt.

Emergency Car Repairs

For a tow, call 1-559-565-3341 then press zero (24 hours). In Sequoia Park only, 24-hour AAA service is available for minor vehicle issues such as lock outs, jump starts, emergency gas, and minor repairs. Call 1-559-625-7700.

Firearms in these National Parks

People with firearms are responsible for understanding and complying with all applicable California, local, and federal firearms laws. People who can legally possess firearms under federal, California, and local laws may possess firearms in these parks.

Construction Delays

Generals Highway Road Construction

Expect traffic delays between Hospital Rock and the Giant Forest. Vehicles longer than 22 feet are prohibited in the construction zone. Construction hours and delay schedules may change depending on weather conditions and other factors.

Monday-Thursday from 6:00 am - 7:00 am

Up to 20 minute delays. Traffic lights will control traffic, uphill traffic first.

Monday-Thursday from 7:00 am - 7:00 pm

Mostly 20-minute delays, but may be up to 1-hour delays. Uphill traffic first, downhill traffic will follow after the uphill traffic has successfully cleared the construction zone. Once both lanes of traffic have been cleared, the construction zone will close to all traffic, until the top of the next hour.

Monday-Thursday from 7:00 pm - 8:00 pm

Up to 20 minute delays. Traffic lights will control traffic, uphill traffic first.

Monday-Thursday from 8:00 pm - 6:00 am

Both lanes will close for 10 hours, one pass-through at 8:00 pm and another at 11:30 pm, uphill traffic first.

Weekends (Including Fridays) and Holidays

No delays when both lanes are open. When highway is limited to one lane, expect delays up to 20 minutes. Traffic lights will control traffic.

See bulletin boards at visitor centers, www.nps.gov/seki, or contact the park for updates. Always use low gear on downhills. Beware of narrow, rough roads in construction areas.
