Look for Trail Markers

You'll find these trail markers at all trailheads and intersections. The metal bands are stamped with directional and mileage information.

Whiteoak Parking Area Skyline Drive (mile 42.6) to Upper Falls – 4.6 miles round trip to upper falls, the highest of the Whiteoak cascades at 86 feet. Return trip is very steep. Consider your physical condition and available time before continuing past the upper falls. Add an additional 2.7 miles round trip (1100' elevation change) to lower falls and return.

Cedar Run/Whiteoak Circuit (mile 45.6) – very strenuous 8.2-mile circuit hike. From Hawksbill Gap, take Cedar Run-Link-Whiteoak-Whiteoak Fire Road-Horse Trail. Multiple waterfalls and cascades. Be sure to bring water.

Whiteoak Canyon from Boundary Trailhead – 2 miles round trip to lower falls; steep and challenging 6 miles (1100' elevation change) round trip to upper falls. Return before crossing the large metal bridge above the upper falls.

Note: *Round trip hikes proceed to a destination and return by the same route. Circuit hikes begin and end at the same point without retracing steps.*

Hiking Whiteoak Canyon

Park Emergency Number: (800) 732-0911

Whiteoak Canyon is a popular hike in Shenandoah National Park. The Skyline Drive Trailhead for this hike is at mile 42.6 near Skyland.

This hike can also be accessed from the park's boundary (driving directions below). Boundary parking is limited. Parking is not permitted along the road or on private property.

Fees
Visitors hiking Whiteoak Canyon from the boundary must have a valid Shenandoah National Park entrance permit. Seven-day permits or yearly passes may be purchased from rangers, when present, or via self-pay at the Whiteoak parking lot at the boundary trailhead. Thanks to a Federal Fee Demonstration program, 80% of your entrance fee is returned to support previously unfunded maintenance, resource management, visitor services, and trail rehabilitation projects.

Hiking Whiteoak Canyon
This trail boasts as series of six waterfalls, with the uppermost fall being the highest at 86 feet.

Safety
Take plenty of water and wear sturdy shoes. Food, extra layers of clothing, and a flashlight are also recommended. Do not leave the trail or climb on wet rocks.
